THIS BOND is issued in accordance with the provisions of an Act of Congress entitled "An Act to authorize the refunding of the National Debt," approved July 14, 1870, amended by an Act approved January 20, 1871, and is redeemable at the pleasure of the United States, after the firs day of May, A. D. 1881, in Coin of the standard value of the United States on said July 14, 1870, with interest in such Coin, from the day of the date hereof, at the rate of FIVE PER CENTUM per annum, payable quarterly, on the first day of February, May, August, and November, in each year. The principal and interest are exempt from the payment of all Taxes or Duties of the United States, as well as from taxation in any form, by or under State, municipal or local authority.

WASHINGTON, ... , 18....

Entered .... Recorded ....

....

Register of the Treasury.

Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depository of the Government, quarterly, on the first days of February, May, August and November, in each year.

The Interest on the Registered Stock of this Loan, it is determined by the Treasury Department, will be paid as conveniently to the holder as on the Coupon Stock, and personal attendance, or attendance by proxy at the Treasury, to draw and receipt for the Interest will be dispensed with, *whenever the check of the United States Treasurer, mailed punctually to the address and order of each holder, on or before every quarter-day, is preferred to such attendance.* This check, payable in Gold Coin at the Treasury in New York, (or such other office as the Stock is registered at,) will be negotiable or collectable on the indorsement of the owner or owners of the Stock. In pursuance of this arrangement, the subscribers to, or purchasers of, the Stock in its registered form (which is a complete protection against theft or other losses incident to Coupon Bonds payable to Bearer) are advised to give their Post-office address in full, and to notify of any change in the address between quarter days.

The whole proceeds of the new loan will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and, in addition to these proceeds, the 5-20s are now being reduced by purchase at the rate of $10,000,000 per month.

The entire effect, therefore, of the New Loan, in connection with the existing Sinking Fund process of the Treasury, is to reduce both Principal and Interest of the Public Debt of the United States. *The Loan creates no additional supply of Government Stocks*, while the application of the surplus revenues derived in Gold from Customs is constantly lessening, as it has been doing for two years past, the Funded Stocks bearing six per cent. Gold Interest.

The 1st of May schedule of the Public Debt, which has just been published by the Secretary of the Treasury, shows a reduction in these Stocks since the April schedule of $12,215,700 and a further lessening of the yearly interest charge thereon of $732,942. This leaves the total yearly interest charge in Gold $111,982,034. In the same month the Treasury paid and canceled $4,470,000 of the Three per Cent. Currency debt, reducing the whole of this debt bearing interest to $51,023,000, and the yearly interest charge thereon to $1,587,470.

The proposed further reduction of the annual interest charge upon the Public Debt by refunding is as follows:

By exchange of $500,000,000 United States six per cents for new five per cents of 1861	$5,000,000
By exchange of $300,000,000 United States six per cents for four and a half per cents of 1866	4,500,000
By exchange of $700,000,000 United States six per cents for four per cents of 1901	14,000,000
Total saving per annum by refunding	$23,500,000

The large and rapid accumulation in the last few years of private capital now retired from active business, and of the cash Savings and Life Insurance premiums deposited with or intrusted to the provident institutions of the country—all seeking the most undoubted security, pledged to be kept free of all taxes, under national or local authority, and content, provided this object be assured, with moderate rates of interest—will no doubt ultimately absorb so much of these New Stocks as may not be taken in voluntary conversion of United States 5-20s, or marketed abroad.

C. C. NORVELL,
In charge of United States Loan Advertising.

TREASURY OFFICE, NEW YORK, May 2, 1871.

PROGRESS OF REDUCTION OF THE NATIONAL DEBT.

	Debt of the U. S. less cash in the Treasury.	Decrease of debt during the preceding month.	Total decrease from March 1, 1869, to date.	Monthly interest charge.	Decrease in monthly inter't charge.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business April 30, 1871.

WILLIAM A. RICHARDSON, Acting Secretary of the Treasury.

Journal of Railroad Law.

RAILROAD COMPANIES—DUTY OF COURT, WHERE JURY MISAPPLY LAW—RULE OF NEGLIGENCE—WHEN FENCES MUST BE KEPT IN REPAIR.

The late case of the Illinois Central Railroad Company *vs.* Swearington (47 Ill. 206) was an action brought by Swearington against the company to recover the value of three horses of the plaintiff, killed by a train on defendant's road, which passed through plaintiff's land.

The following is the able opinion of the court delivered by

WALKER, J.—It is insisted that the first of Appellee's instructions is wrong, and misled the jury. It informs them that they may take the testimony of farmers as to the sufficiency of the fence to turn stock; and it is contended, that there is no evidence in the record that farmers had testified on that question. Even if there was no evidence, from which it might be inferred that a portion of the witnesses were farmers, still we cannot inquire how the jury could have been misled by it. Nor can we infer as suggested, that the jury would conclude that they were authorized to hear such evidence after they had retired. If there was no such evidence, then the instruction had no possible application to the case. The court will never reverse simply because an instruction asserts a mere abstract rule of law, but it must be calculated to mislead, and the court must see that it may have misled the jury in finding their verdict.

The last clause of the second instruction is complained of as being too general. It asserts that appellants were bound to keep the fence in repair, so it was at all times sufficient to turn stock. Had this instruction not been limited by other instructions given, it would perhaps have been too broad, but it was sufficiently limited the by third instruction given for appellants. These instructions are neither repugnant to each other, or numerous and lengthy as to have left any doubts on the minds of the jury as to their meaning. We can see no error in giving this instruction, when considered in connection with appellant's instruction.

Was the verdict of the jury against the weight of evidence, and against the instructions? We, after a careful examination of all the evidence in the case, can find no neglect or default on the part of appellants. Appellee built the fence himself, and he does not say in his evidence that it was insufficient to turn stock, nor does his evidence show that it was out of repair at the time the stock was killed. Nor does his other witness state that the fence was insufficient or out of repair. Appellants state that the place where the horses got over the fence was a crossing where the neighbors frequently passed, and that boards were sometimes knocked off so as to render the fence insufficient until it was repaired; but there is no evidence that it was in that condition at that time. And even if planks had been broken off from that cause, the road would not be liable until they had a reasonable time to repair the injury, or had been notified of its condition before the horses were killed. Considering the evidence of appellee, disconnected and apart from that of appellants, it would be highly questionable whether it would sustain the verdict.

Appellant's, if it can be believed, shows that the fence up to within a few hours of the time when the horses were killed, was in good repair. Donohue swears that he saw the fence twice on the Saturday one of the horses was killed, the last time about four o'clock in the afternoon, and that it was then in good repair. Then he again saw it on Monday morning following; that one of the horses was killed on Saturday night, and the others were killed on the next night. That the next morning when he saw the fence, the planks had been nailed on the posts but the top board had been freshly broken, and the next one split and knocked off; there was hair on the boards, and it had all been recently done. When the proper agent of the company whose duty it was to look to and keep the fence in repair, is shown to have seen it in good repair on Saturday afternoon at four o'clock, and again on Monday morning, we are at a loss to understand how there was any neglect of duty on the part of appellants. This would seem to be reasonable diligence in the discharge of their duty to the public and to the owners of stock along the line of the road.

The instructions fairly presented the law, and had the jury regarded them and applied the rules they announce to the facts, they would have arrived at a different conclusion and returned a different verdict. We regard it manifestly against the instructions and the evidence, and the court below should have granted a new trial. The judgment of the court below is reversed and the cause remanded.

Judgment reversed.

Tunnel under the Detroit River.

The recent consolidation of the Michigan Central and Canada Great Western Railroads is to be immediately followed by the construction of the projected tunnel under the Detroit river, to connect Detroit with the Canada shore. The tunnel—or tunnels, rather, for there will be two, each with a single track—will be 8,568 feet long, and of a circular shape. The adoption of two single-track tunnels, instead of one with a double track, has been decided upon for several reasons. The double tunnel will considerably reduce the amount of excavation, the liability to accidents will be greatly lessened, and there is also the not unimportant reason that in the event of any damage occurring to one, the other would be available, and thus the stoppage of trains be avoided. The two are to run parallel, fifty feet apart, the interior diameter of each being eighteen feet six inches. The masonry is to be two feet thick in all those portions under the bed of the river, but at each bank it will be but one foot six inches. The tunnels will not be at any point less than 20 feet from the surface of the hard clay. The grade will be one in fifty on each side of the river, with 1,000 feet of level line under the river's bed. There is also to be a small tunnel of five feet diameter considerably below the main lines, and midway between them, for the purpose of drainage. It is estimated that the whole work can be completed within two years, and will cost $2,650,000. The Canadian Parliament has chartered a corporation called the 'Detroit River Transit Company,' which will have charge of the work, and necessary action in the way of incorporation has also been taken in Michigan by the leading promoters of the undertaking. The Canadian company has a capital of $3,000,000, and is empowered to issue stock and bonds and consolidate with any Michigan organization. This submerged road will not only be the most important in this country, but the greatest subaqueous tunnel in the world. To the Great Western road it must be of great value, as it will obviate the breaking bulk at that point, and thus avoid the trouble and loss of time always attending ferry transportation, and must materially increase the value of one of the chief lines connecting the Atlantic coast with the great West.

Railroads in Virginia.

A general meeting of the stockholders of the Potomac Railroad Company, owning the Washington and Aquia Creek line, was held at the office of the Richmond, Fredericksburg and Potomac Railroad on Saturday, the 6th inst., in Richmond, Va. The president reported the financial negotiations not yet sufficiently forward to put the whole line under construction, but land would be condemned for the connection with the Richmond, Fredericksburg and Potomac Railroad north of Fredericksburg, for making an all-rail line to Alexandria and Washington. When the work is commenced it will be at Shipping Point, at the mouth of Quantico creek, this branch of the line to be leased to the Fredericksburg road. The following officers were elected: President. P. V. Daniel, Jr.; secretary, J. B. Winston; directors, Edgar Snowden, Jr.; of Alexandria; Lieut. Gov. John S. Mayre, of Fredericksburg, and Major W. B. Myers, Ed. Cohen and James Alfred Jones, of Richmond.

On Monday, the 8th inst., a called meeting of the stockholders of the Richmond, Fredericksburg and Potomac Railroad Company was held in Richmond, at which the officers submitted a report and resolutions, which were adopted. The report intimates confidence that the competing road authorized by the last Virginia Legislature will not be built. The resolutions authorize 1st, the issue of convertible 8 per cent. coupon bonds to an amount not exceeding $150,000, payable in Richmond or Philadelphia; 2d, that a deed of trust be executed to secure the payment of bonds or certificates which have been or may be issued under previous resolutions, together with those now authorized; 3d, should further funds be needed may obtain the same by bonds on convertible certificates, interest not to exceed 8 per cent., or guaranteed 7 per cent. stock, as shall be deemed advisable; 4th, and that to secure such further loan, together with all other guaranteed stock except that authorized May 27, 1857, a second lien by deed of trust may be created; provided that the aggregate thus secured shall not exceed $500,000.

National Junction Railroad.

We stated some days ago that the directors of the National Junction Railroad had, at a late meeting determined that work should go on at once, and they have pushed the matter so thoroughly that the work of building the road will be commenced on 1st of June next, the money for the purpose having mostly been raised and furnished by H. D. Cooke, Esq. It will strike out from a point on the Baltimore Railroad, at a point outside the city limits, pass around the northern portion of the city, cross Rock creek, at Olive street, thence by tunnel to Prospect street, where a short tunnel will bring it to the piers of the aqueduct bridge, over which it will cross, and by means of the Berne Bank Railroad, now being constructed by the Alexandria Canal, Aquedut and Bridge Company, connect with the Orange and Alexandria Railroad at their depot in Alexandria, thus making a continuous line from New York to New Orleans. The directors have guaranteed to the proprietors of the Aqueduct bridge the sum of $50,000 annually in tolls. It is contemplated also to run a lateral branch from some point on the Virginia side of the Potomac, to connect with the Piedmont and Potomac Railroad leading to Cincinnati. Besides, the Metropolitan Railroad Company contemplate running a branch from their

road to Georgetown, with a depot there. The entire connection between the Baltimore Railroad to the Orange and Alexandria Railroad will cost three quarters of a million of dollars, and Cooke has alone one subscription of $250,000.—*Wash. Star.*

Tax on Interest and Dividends, etc.

IMPORTANT DECISION OF THE ATTORNEY GENERAL.

Commissioner Delano, in his annual report on the operations of the Internal Revenue system for the year 1870, called the attention of Congress to certain defects, ambiguities and contradictions appearing in the act of July, 1870, affecting the construction of the law imposing a tax on dividends, etc., and in which it was maintained that corporations could not be required to pay taxes upon the dividends payable during the last five months of 1870. The suggestions of Commissioner Delano were not regarded, and the existing doubts in the several points involved were not disposed of by Congressional legislation. Acting Commissioner Douglass maintained that it was not the intention of Congress to suspend the tax, and construed the act of July 14, 1870, "to reduce the internal taxes, and for other purposes," as not affecting the right to collect taxes above referred to. The present Commissioner, General Pleasonton, in January last issued an order in which he stated upon careful consideration of the question he was of the opinion that sections 15 and 16 of that act did not authorize the levying and collecting of a dividend tax upon the dividends declared during the last five months. He revoked all previous rulings, and directed that when assessments of this tax had been made, but not passed to the Collector, that they be struck from the lists, and that where they had been received by the Collector he should assist in preparing claims for abatement or refunding, as the tax had or had not been paid. On the question of refunding, in compliance with Commissioner Pleasonton's decision, the Second National Bank of Elmira, New York, filed a claim, which was duly considered in the office of the Secretary of the Treasury, and it was decided that the construction placed upon the act of Congress was not sustained by the letter of the law. The entire subject was therefore referred to the Attorney General for his opinion, embraced in the following questions:

1. Is the tax on interest or coupons paid on bonds or other evidences of debt imposed by the 15th section of the above mentioned act applicable to interest paid subsequently to August 1, 1870, and prior to January 1, 1871?
2. Is the tax on dividends of earnings, incomes or gains imposed by the same section applicable to dividends declared subsequently to August 1, 1870, and prior to January 1, 1871?
3. Should the officers and employees of the United States, and Senators, Representatives and Delegates in Congress, from whose pay or salary a tax at the rate of five per cent. per annum has been withheld continuously since December 31, 1869, be required to include in their income returns for 1870 the pay or salary received by them during the last five months of 1870, on which tax has been withheld?

The Attorney General decided all the questions in the affirmative, reversing the ruling of the Internal Revenue Bureau, and holding that the taxes imposed under the sections could be legally collected. The amount of the tax involved is about $5,000,000, and the decision of the Attorney General is regarded as one of the most important emanating from the Department of Justice.

New York and Albany, West Side, R. R.

The preliminary organization having been completed and thorough surveys made of the several routes, under the direction of C. W. Wentz, Chief Engineer, the Directors are now prepared to estimate with accuracy the probable cost of this road, and, with the legislation recently obtained, are ready to take speedy and efficient measures to fill up the balance of the stock, and at the earliest day possible, commence the vigorous prosecution of the work.

The cities and towns on the west side of the Hudson will be asked, it is understood, to subscribe about three millions to the stock. The municipal subscriptions, although only about one-quarter the cost of a first-class road—such as this is intended to be—will be a guarantee of the good feeling and confidence of the people along the line, and enable the Directors to raise the balance of the capital without difficulty.

The importance of this road is becoming more apparent every day. Upon the East side of the river are the Housatonic, Harlem, Hudson River, and Dutchess and Columbia, parallel roads, within less territory than will be tributary to this one road on the west side. The local business alone will make the latter pay as soon as completed, while most of the contemplated roads on the west side will in addition be tributaries to it. The population to-day is larger on the west side of the river than on the east, including Albany and Rockland on the west and Rensselaer and Westchester counties on the east. The increase of business will be such that the diversion from the roads upon the east side will be scarcely felt.

The business of the Albany and Susquehanna for April last is more than sixty per cent. over the corresponding month of last year. This is only an illustration of the rapid increase of business upon most of the railroads in this country.

The building of the New York and Albany West Side road has become a necessity to Albany and the towns along the west side. The public and local benefits will alone be more than the municipalities are asked to subscribe, with almost the certain prospect that there will be no loss upon any of the stock. Built for cash, as it will be, there will probably be no better paying railroad in the State.

If those interested and to be benefitted will only act promptly, the Directors will be able to put the road under contract within the next sixty days and complete it within the next eighteen months.—*Albany Journal.*

Cincinnati, Hamilton and Dayton R. R.

The gross earnings of this road for the year ending March 31, 1871, were $1,270,621 98; transportation expenses, $627,295 93—leaving a balance for interest on bonds, taxes and dividends of $643,326 05; number of passengers carried, 753,787; tons of freight moved in narrow gauge cars, 486,030. The net earnings have been 12.68 per cent., out of which two cash dividends of four per cent. each, free of tax, have been paid to the stockholders. The operating expenses have been 49.36 per cent. of the gross earnings. Earnings per mile, $21,177 03. The President in his report says:

Since the last annual report the project of constructing another road between Dayton and Cincinnati, through the Miami and Millcreek valleys, appears to have taken a definite shape, under the name of the Springfield and Cincinnati Railway Company. It is understood to have made arrangements for a lease of that portion of the Cincinnati, Sandusky and Cleveland road lying between Springfield and Dayton, and have surveyed and projected a line from the latter point to Cincinnati by the way of Franklin, Middletown, Sharon, Lockland, &c. This enterprise is intended to furnish a line for the use of the New York Central, Lake Shore, Cleveland, Columbus and Cincinnati, and Cincinnati, Sandusky and Cleveland Railway Companies, to Cincinnati and the Southwest. While it is not supposed, on our part, to be called into existence by any public necessity, and from its proximity to our road will become a competitor for a portion of our business, we should have been glad, on our own account, not to have to encounter its rivalry, and willing to have made reasonable sacrifices to obviate the same; still we are nevertheless bound to contemplate that it will be put into actual operation, with whatever consequences the necessities of the case entail. We feel confident, however, that by diligent cultivation of our advantages, strict economy and prudent management, the property of this company and its net increase will continue to satisfy the just and reasonable expectations of the stockholders.

Narrow Gauge Railroads.

Narrow gauge railroads, on account of their cheapness, and their practicability in places where it would not be possible to construct roads of the ordinary gauge, are attracting much attention in many parts of the United States and the Canadas. Many of the most prominent engineers and practical railroad builders of the country are turning their attention in this direction. One of these railroads, an experimental line of thirty miles, has recently been undertaken in Missouri, running from Cape Giradeau through Jackson, Millersville, and up the White-water valley to the iron banks in Bollinger county, of which one mile has been finished. The cost of this mile, as given by the Cape Giradeau *Argus*, is as follows:

Clearing track half distance, $200 per mile	$100 00
Grading, six feet wide at top	1,500 00
3,500 ties, six feet long, 12½c. each	437 50
38⅛ tons T iron, 32 lbs. per yard, at $80 per ton	3,100 00
Chairs and spikes	400 00
Cost of laying track	400 00
Ballasting, 2¼ feet wide	200 00
Contingent expenses	200 00
Engineering	150 00
Total cost of one mile	$6,537 50
Total cost of 30 miles at same rate	$196,125 00
Add for bridges, culverts, &c	16,875 00
Total estimated cost of 30 miles	$213,000 50

The *Argus* then gives the cost of the rolling stock for the entire road, as follows:

Two eight ton locomotives, at $4,500 each	$9,000 00
Four passenger cars (20 seats) $1,200 each	4,800 00
Thirty platform cars at $300 each	9,000 00
Ten box cars at $500 each	5,000 00
Total	$27,000 00

—making the total cost of 30 miles of road and equipments, $240,000 50.

The right of way of this line is only thirty feet, which is cut out twelve feet wide where it runs through forests. The road bed is 6 feet wide on top, following the rise and fall of the ground where it does not exceed 70 feet to the mile, and winding round through hills and steep grades in curves of 200 feet radius—less than one-third that required for the ordinary gauge.

☞ The following gentlemen have been elected directors of the Sioux City and St. Paul Railroad Company: Horace Thompson, A. H. Wilder, E. F. Drake, St. Paul; S. T. Davis, Sioux City; George I. Leney, Adrian Iselin, Daniel S. Miller, New York; George H. Mackay, Alex. H. Rice, Boston.

Atchison, Topeka and Santa Fe Railroad.

We are glad to announce that an agreement was yesterday made and signed by and between the County Commissioners of Atchison county and the Atchison, Topeka and Santa Fe Railroad Company, including the following stipulations:

Work is to be commenced on this end of the road by the 1st of June, proximo. The road is to be completed and running to the south line of Atchison county by Jan. 1, prox. The road is to finished and running to Topeka, by Oct. 1, 1872. It is to be built on a direct line from Atchison to Topeka, running not to exceed two miles east of Grasshopper Falls. These conditions were duly signed by the president of the road and the chairman of the executive committee and by the board of Commissioners of Atchison county. They are entirely satisfactory to our people and will be universally approved. We take pleasure in heartily endorsing the terms and agreement, and we cordially thank the County Board for their action.

The Atchison, Topeka and Santa Fe Railroad is to be no longer a misnomer and a myth, but an accomplished fact. Kansas is to have another great State highway traversing her limits from her northeastern to her southwestern boundaries. The Atchison, Topeka and Santa Fe road is to be made a line as important to the State and as great a national highway as is the Kansas Pacific.

The direction of this road is most admirable. From Chicago, through Burlington, Iowa, and Atchison and Topeka, Kansas, to Santa Fe, the line of the road is as straight as the flight of a bird through the air. And as this road presses on, it will become the great continental highway from the Great Lakes to the Pacific. Avoiding the heavy snows and mountain ranges of the more northern roads, it threads one of the best sections of the West and one peculiarly favorable to railroad building. Thus, in direction, in the country it traverses, in the great interests it will unite to push it on, the Atchison, Topeka and Santa Fe road unites elements that must make it one of the most important lines of travel and trade on the Continent. With the richest and most beautiful country on the Continent immediately tributary to our city, and these great lines of railroad threading the most distant regions and converging here, who can doubt the future of Atchison?"—*Atchison Champion.*

Price Edwards Island Railway.

The gauge of the proposed railway is to be three feet six inches. The contractors are required to accept, in payment, the debentures of the Colony, redeemable in thirty years. These securities are to be taken at par, and the cost of the railway, including full equipment, stations, fencing, and deep water wharves, is not to exceed sixteen thousand dollars per mile. It is also required that the contractors shall give security in a very large amount for the performance of the work. Mr. J. Edward Boyd is expected to enter on his duties of preparing specifications, &c., about the 12th, and then the Government will call for tenders for the immediate construction of the road—*St. John News, May* 10.

☞ At a recent meeting of the stockholders of the St. Johnsbury and Montpelier Railroad Company, it was voted to join with the Essex County and Lamoille Valley Railroads in a joint mortgage, each mortgage to assume only its *pro rata* a mile of the mortgage, and the stock subscriptions of each road to be expended upon their own road. The following gentlemen were chosen directors: Messrs. William B. Hatch of New York, Horace Fairbanks, Calvin Morrill of St. Johnsbury, S. S. Gould of West Concord, and William B. Hartshorn of Lunenburg.

☞ All of the Shepaug Valley Railroad bonds, amounting to $350,000, have been taken, and the road from Litchfield to Hawleyville, on the Housatonic, will be completed by September.

Baltimore and Potomac Railroad.

The construction of the Baltimore and Potomac railroad, constituting the road between Baltimore and Washington, in connection with the Northern Central and Pennsylvania railroads, is being rapidly pushed forward, and it is confidently asserted that before the close of the present year regular trains will be running between Baltimore and Washington city. At the point where the road crosses the Annapolis and Elkridge railroad some twenty construction cars from the Harrisburg Car works and a steam engine procured in Philadelphia, are employed, with a large gang of hands, engaged in laying the tracks in both directions from that point. The bridges by which the road is to cross the Big and Little Patuxent rivers are in course of construction by the Keystone Bridge Company at Annapolis. Nearer home, the work on the tunnel through the western section of the city, has been resumed with vigor. The contractor, Mr. Rutter, has a force of nearly one hundred men at work, at the terminus of the already finished portion of the tunnel between the Falls turnpike and the track of the Northern Central railway, on the northern border of the city. Others are at work on Wilson street, near McCulloh, as well as on Winchester, near Stricker street.—*Baltimore Sun.*

Central (Arkansas) Railroad.

Now that the Memphis railroad is completed, and the Cairo and Fulton well under way, we know of no road which interests our people more directly than the Central. This road runs on almost an air line from this city to Helena, and when completed will afford an outlet for the valuable products of a country as rich as any in the state. The Helena papers report that the first twenty miles of this road are graded and tied, and that the work is progressing very satisfactorily. The road has state aid to the amount of $15,000 per mile, which added to county and private subscriptions is said to be sufficient to build the road. The work, generally speaking, is light, and if report proves a good judge, the road will be completed inside of two years.—*Little Rock Gazette.*

☞ Ground has been broken upon that portion of the Maine Central Railroad between Morrill's and Woodford's corners in Deering, formerly Westbrook. It is proposed to build a double-track road, in place of the one now used jointly by the Portland and Rochester, and Maine Central Railroad. It will be about one mile in length, and is expected to be completed some time in July. The contract for building has been given to Messrs. Hedge & Leavitt.

☞ The earnings of the European and North American Railway in April, 1871, were $19,180 96, against $14,488 30 in April 1870, and $12,172 21 in April, 1869.

☞ A company has been organized at Fort Madison, Iowa, for the purpose of building a suspension bridge over the Mississippi river at that point. Capital stock, $1,200,000.

☞ The right of way for nearly the entire length of the Rhinebeck and Connecticut railroad has been secured. The price paid was $12,000. The road will be nineteen miles long.

☞ It is proposed to extend the Portchester, Ridgefield and Danbury (Conn.) Railroad to Newtown and Brookfield.

☞ Alna (Me.) has voted to loan its credit to the amount of $40,000 to aid in construction of the Kennebec and Wiscasset Railroad.

☞ The Carleton Branch (N. B.) Railway was formally opened on the 6th inst.

☞ The gross receipts of the Hanover Branch railroad during the past year were $77,847 35, and the expenditures $52,054 99, leaving a balance of $25,792 36; of which, $8,600 was paid as subscription to the Frederick and Penna. Line R. R. Co.

NEW YORK

State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE

GOLD BONDS

OF THE

RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

EDWD. HAIGHT & CO.,

"Wilderness Railroads."

The census returns of 1860, gave 460,112 as the sum total to the population of Nebraska, Wyoming, Utah, Nevada and California—the district now traversed by the Union and Central Pacific Railroads. Work was commenced on the road at both ends in the winter of 1863. Between the two dates mentioned, owing to the war, it is evident that the far West could not have received much of an addition to its population. Looking back now, it is easy to see why so many of its friends, even, prophesied that financially the road would be a failure. They regarded the enterprise as one of political necessity, but could see no money in it. Its route for the most part lay through a wilderness incapable of agricultural settlement. Of the whole number of inhabitants above given, all but 90,118 were in the State of California.

With the exception of a little over 600 miles on the eastern portion, the road would run at an average altitude of over 5,000 feet above the level of the sea; for a distance of 450 miles (from near Cheyenne to Wasatch) would be entirely above 6,000 feet, and twice it would reach a height of over 7,000 feet, and once of over 8,000. What could be hoped in the way of local traffic from a country so unsettled and and so little capable of settlement? California might do something, but could a sufficient commerce spring up, with less than five hundred thousand people, to make a railroad so costly, so liable to obstruction from snow, and so expensive in operation, a paying institution? We do not wonder that people were incredulous. The important foreign trade that would be opened, it was thought, might, with the local traffic, pay something over operating expenses. How have these anticipations conformed to the reality?

The earnings of the Central and Union Pacific Railroad were fourteen millions in 1870—the net receipts over operating expenses being in excess of six millions. In other words, in the first year of its through business it earned enough over and above running expenses to pay six per cent. on a fair estimate of its cost. In six years the Central Pacific (forming one-half of the through line) has earned ten millions net, being nearly six millions more than the interest on its bonds and all the cost of operating. Sixty-five per cent. of this came from local traffic, and one year only of through business is included in it. The authorities of the Central Pacific estimate the earnings of their road for 1871 at ten millions, and President Thomas A. Scott, of the Union Pacific, places the earnings of that road this year at nine millions, making $19,000,000 for the through line from San Francisco to Omaha. Of this at least $9,000,000 will be net above running expenses, or 9 per cent. on a reasonable estimate of the entire cost of the road. The first mortgage bonds of the Central Pacific, bearing six per cent. interest, and secured only on the road, are now selling at 102, while those of the Union Pacific, after no artificial depression, are rapidly approaching par. So oppositely to all expectation has the operation of the road turned out!

Since the commencement of the Union and Central Pacific, San Francisco has grown from being a city of sixty thousand inhabitants, to be a city of a hundred and fifty thousand. But, including that, the total population of the belt of States and territories through which the road runs is only 788,270, and this number of people, with aid from a portion of Colorado (population 39,681), furnishes business to the Union and Central Pacific at the rate of fourteen to nineteen million dollars per year. This brings up the rather curious question, how many inhabitants are necessary in a given district to make a railway pay?

The history of the Kansas Pacific is another case in point. It was left by Congressional legislation incomplete and at a dead standstill in the heart of the "buffalo range," 375 miles west of the Missouri river, and hundreds of miles east of any town, cultivated field or mining camp. Here, for the year 1869, are the figures of "the road that ended nowhere:"

Freight—ordinary		$1,128,648 50
Freight—Government		227,658 06
Freight—Denver extension		144,212 71
		$1,500,419 27
Passengers—ordinary	$536,478 52	
Passengers—U.S. troops	85,313 42	
Expresses	30,179 25	
United States mails	65,550 00	—717,521 19
Miscellaneous sums—rents, etc		7,909 65
Total		$2,225,850 11
Working expenses		1,386,180 02
Net proceeds to balance		$839,670 09

The trade came from Colorado, New Mexico and Arizona. It is all plain enough now, but what hard headed, shrewd business men would build a road with hope of dividends, and have its terminus on a trackless prairie, even though they have this precedent before them?

And now comes the Northern Pacific, certainly with greater probabilities of success than were before the Union and Central Pacific. While it equals the other in mineral wealth, the country through which it runs is most inviting to the farmer. Indeed, testimony shows it to be of special agricultural value. It reaches no great, continuous altitude—4,950 feet being the highest, and that is reached but once, and is held for only a few miles. On account of its lower altitude, and by reason of the warm, moist winds from the Pacific passing over the broken-down mountain ranges, it traverses a region that is specially favored in climate. Leaving out California on the Union and Central Pacific, and also excluding Minnesota on the Northern Pacific, and the latter road has 104,752 more people to contribute to its local business than awaited the opening of the Union and Central Pacific, and only 23,592 less than give support to the latter road now.

Including those two States, which would not be unfair, inasmuch as the Northern Pacific will have in Minnesota, with its main and branch lines, over eight hundred miles of road, draining two-thirds of the entire State—including these two States, the tributary population of the Northern road in all is 639,433, or 179,321 more than were at first reached by the Union Central Pacific, and only 148,837 less than give aid to it now. The fact that last year eighteen million pounds of freight were wagoned over a rugged country five hundred miles into Montana, at a cost of fifteen cents per pound, gives some hint of the local business that will come to the Northern road, and that awaits its completion. This is exclusive of that which kept employed numberless pack mules, and a fleet of over twenty steamers on the Missouri river. The Montana miners spent last year on freighting the sum of four millions of dollars.

Besides the above will be the carrying trade for the merchants, who, in Dakota, Montana and Idaho represent an employed capital of $21,500,000; the transportation of Dakota, Montana and Idaho cattle; the bringing eastward of ores for smelting and refining, and the freighting of the products of Oregon and Washington Territory, which are similar to those of California, only that the salmon fisheries and the lumber trade will form thereto a very welcome addition. By reason of its shortening the distance to China and Japan more than a thousand miles, it has, with its easier grades and its greater exemption from snow, by far the strongest hold on trans-continental freight. It must be remembered, too, that the Northern Pacific will at once and permanently enjoy all there is, or is to be, of business coming from the Northwestern British Provinces and the Hudson's Bay Company. That this will contribute not a little to swell the volume of Northern Pacific traffic there is no doubt. The Northern Pacific road will not be, in any sense, a rival of the Union and Central line for local traffic—each has an ample field of its own, the two routes being four hundred miles apart at their nearest approach.

The Union-Central Pacific was completed May 10, 1869. During the progress of the road the population of the country tributary to it was nearly doubled, while that of San Francisco was trebled. All that it lacks to make a certainty that the Northern Pacific will earn fourteen millions per year the first year after its completion, is the assumption that it will then have a great commercial city like San Francisco on Puget Sound, as its western terminus. Without such a city it is conceded that it would still do a business amounting to from seven to ten millions per year. But the figures given are suggestive. What, principally within the last five years, has added 100,000 to the population of San Francisco? Surely nothing so much as the summons of iron knocking at the Golden Gate. If a road can add 100,000 people in five years to an existing city, cannot another one in the same time build up a city of 100,000, especially if, by reason of its shorter oceanic distance, it is demonstrable that it will necessarily control foreign shipments?

Few doubt that if the land lying along the Union Pacific had been as available for agriculture as the lands of its Northern compeer, the population along the route would have trebled as well as that of its terminal city. Here, then, the case will probably stand: The Northern Pacific, on its completion, will find a flourishing city awaiting it on Puget Sound, inferior, of course, in size to San Francisco, but still a thriving, well grown city, as helpful to it as the other to its Southern rival. It will, during its progress, on account of its fertile lands, more than quadruple the population west of Minnesota, and so bids more than fair to equal the first through business of the Union and Central Pacific, while for the succeeding years its returns will be vastly greater. —*Chicago Journal.*

Rensselaer and Saratoga Railroad.

After a good deal of negotiation during the past few months, which was supposed to have been permanently suspended, the Rensselaer and Saratoga Railroad, with all its property business and belonging, has passed permanently into the hands of the Delaware and Hudson Canal Company at a fixed rent, which must be satisfactory alike to the shareholders and the lessees. It is understood to be at the rate of eight per cent. To the lessees this property must prove a very valuable one. The character, standing and reputation of the Delaware and Hudson Company are very high. Their business is coal; they seek a market for coal. They know that the possession of any extended line of railroad, which furnishes an avenue for coal at a fair price, is a profitable investment. They have been shrewd enough to see that by the possession of this property they can lay down coal at their depots in Whitehall and Rutland for the supply of Northern New York, Canada and Western New England at prices which shall be in successful competition with that received by canal, or at Boston by ocean navigation.

To the stockholders of the Rensselaer and Saratoga road this result must be highly satisfactory. They took the road when it was but twenty-five miles in length; they part with one hundred and eighty-one miles—practically with three hundred miles, for they own a controlling part of the Champlain steamers. The accretion has been by lease, by purchase, by consolidation, by long-headed management generally.—*Troy Times.*

Housatonic Railroad.

The receipts from operations of this road for the years ending December 31, 1869 and 1870, were as follows:

	1869.	1870.

Total amount at credit of profit and loss December 31, 1870		$44,508 11

The company have 18 engines, 1 twelve wheel, 11 eight wheel and 2 four-wheel passenger cars, 8 baggage, 105 box, 164 flat, and nine cattle cars, and 25 box cars (Red Line). The report says:

It will be seen by reference to the abstracts of receipts, that the gross earnings for the year exceed those of 1869 by $47,897 11; say receipts for 1870 ..... $752,097 55
Deduct dividends received 11,388 00
$740,709 55
Receipts for 1869 ..... $743,807 94
Deduct dividends received 50,996 00
692,811 94
Showing an excess of gross receipts for 1870 of $47,897 11

The expenses incurred and paid, during the last year, for the large quantity of new rails, (2,100 tons) together with the additional rolling stock, new buildings, bridges, etc., necessitated the sale of $50,000 (of the $100,000 six per cent. bonds due in 1889, and authorized August, 1869, to be issued,) at ninety-six per cent. and accrued interest.

To meet the increasing business, additional new rails and rolling stock have been ordered and will soon be placed on the road. All the new engines ordered are coal burners, and the old ones are being changed, as our experience proves a saving of at least twenty-five per cent. above the burning of wood.

As regards dividends earned and paid, and the prospect of no diminution for the future, may be learned and inferred by the statements herewith.

CONDENSED BALANCE SHEET, DEC. 31, 1870.

President.—DAVID LEAVITT.
Vice President.—WILLIAM H. BARNUM.
Directors.—David Leavitt, Samuel Willetts, Wm. H. Barnum, Geo. W. Peet, Geo. H. Noble, Horace Nichols, Wm. D. Bishop, David S. Draper, Charles A. Peck.
Sec. and Treas.—CHARLES K. AVERILL.
Superintendent.—H. W. FRANKLIN.

☞ The Memphis and Ohio Railroad has notified the Comptroller of the State of Tennessee that it is ready to retire its indebtedness to the State, amounting to about two and a-half millions in Tennessee State bonds. It is reported and believed in Nashville that the Memphis and Charleston Railroad has bought enough Tennessee bonds to clear it of indebtedness to the State, which was $1,984,000 according to the Comptroller's published report. As both these railroads were solvent, and protected the State on its bonds issued to them, this retiring of their indebtedness

to the State would simplify matters for both parties in a legitimate business way.

United Companies' Lease.

The attention not only of parties pecuniarly interested in the United Canal and Railroad Companies of New Jersey and in the Pennsylvania Railroad Company, but the business public and railroad men generally, has been largely directed to negotiations, which it is known have been for some months going on for the consolidation of the works named and the virtual extension of the Pennsylvania Railroad through to New York. These negotiations have progressed to the formation of a lease and contract "between the United Companies of New Jersey and the Philadelphia and Trenton Railroad Company, of the one part, and the Pennsylvania Railroad Company of the other part," by which the lessors demise all their canal and railroads, and property, real and personal, rolling and floating stock, &c., to the lessees for a term of 999 years, (provided that nothing shall be taken to affect the right of corporate existence of the lessors,) for the rent of $1,948,500, being equal to $10 per share, annually, on all the present outstanding capital stock of the lessors, clear of all taxes, payable quarterly on the first days of July, October, January and April—the first two quarterly payments to be made together on the first day of July, 1871. The following is a carefully prepared digest of this Lease, which covenants in substance as follows:

I. The lessee to pay the rent at all times during the said term, notwithstanding any future action of any of the corporations or their stockholders; and in order to secure the individual interests of each stockholder of the lessors, the right is given to him to prosecute such suits as may be necessary to recover his proportionate part of the rent, and to use, if necessary, the name of the corporations lessors for that purpose; this provision, if desired, to be endorsed on the certificates of stock.

II. The lessee to pay all taxes, transit duties and other charges assessed or imposed on the lessors during the said term.

III. The lessee to defend all actions, and pay all amounts that may be recovered against the lessors, and indemnify them from all claims, &c., during the said term.

IV. The lessee to maintain and operate the demised works at its own expense, and to keep the same in thorough repair, working order and condition, fully supplied with rolling and floating stock and equipment, at least equal to that now used, so that the traffic and business shall be encouraged and developed, and full public accommodation given on reasonable terms.

V. The lessee to keep up the sinking funds of the lessors, and to pay all their debts and obligations as they shall become due.

VI. As the several loans of the lessors shall become due, they are to deliver to the lessee a corresponding number of the bonds secured by the mortgage of April 20th, 1871, whereby to discharge the same, any difference in value to be made up by the lessee. The difference between the total funded indebtedness and the amount authorized to be raised by the mortgage, to be applied only to permanent improvements on the works.

VII. The title of all after-required property to be taken in the name of the lessors respectively, and such property to be subject to the lease.

VIII. To aid in the development of the "Harsimus Cove" property, the lessors, whenever the lessee shall have spent $400,000 in improving the same, to issue to the lessee 3,000 shares of their stock, and so from time to time until $3,000,000 shall have been so spent in such improvements, and 22,500 shares of stock issued. No other or further stock to be thereafter issued by the lessors. The stock so issued to bear the same rate of rent as the present stock, and to be paid in like manner, clear of all taxes.

IX. The lessee to assume all the contracts, liabilities and other obligations of the lessors. All rights under existing leases to remain in full force in the event of the future re-entry by the lessors.

X. The lessee to pay $10,000 a year, to enable the lessors to keep up their corporate organization—the first half-yearly payment to be made July 1, 1871; and to provide suitable offices in Philadelphia, Trenton and New York, for the accommodation of the directors and officers of the lessors.

XI. Such of the property of the lessors as may not be necessary for the use of the works may, with their assent, be sold, and the proceeds applied either to the permanent reduction of the funded debt, or to permanent additional improvements on the works.

XII. The accounts of the lessee to be open to the inspection of the President and officials of the lessors—the lessees to furnish annually on or before April 1st, a detailed statement of the business for the previous year ending December 31st, and the works and premises themselves to be likewise open to inspection and examination.

XIII. In case of default (continued for ninety days) in paying the rent, or performing these covenants and agreements, the lessors to have the right to re-enter upon the premises, to hold as of their original estate: the rent to be apportioned to the time of re-entry; no claim for damages for breach of covenant to be affected thereby.

XIV. At the end of the term, the lessees to redeliver the works and premises to the lessors.

XV. Covenant for further assurance.

XVI. These covenants to bind both parties their successors and assigns.

The Lease of which the above is a full and clear abstract, the Directors of the "United Companies" of New Jersey, submit and recommend to the stockholders of each of the several companies forming the United Companies, for their approval and ratification, in form and language as follows:

"The undersigned, stockholders to one or more of the united canal and railroad companies of New Jersey, to wit: The Delaware and Raritan Canal Company, the Camden and Amboy Railroad and Transportation Company, and the New Jersey Railroad and Transportation Company, do hereby consent to the lease and contract between the said United Companies and The Philadelphia and Trenton Railroad Company, of the one part, and The Pennsylvania Railroad Company, of the other part, referred to in the following resolution of the Directors of the said united companies, passed on the thirteenth day of May, 1871.

"Resolved, That the Directors of the united companies, viz: The Delaware and Raritan Canal Company, the Camden and Amboy Railroad and Transportation Company, and the New Jersey Railroad and Transportation Company, corporations of the State of New Jersey, do hereby declare that it does to them seem expedient to lease the property and franchises of the said united companies, and of each of them to the Pennsylvania Railroad Company on the terms and conditions set forth in the instrument of lease this day read to the Board."

Date.	Witness.	Name of Stockholder.

The committee intend sending a full abstract of the Lease to the stockholders, and a copy of the Instrument agreed upon is to be placed for examination by all stockholders who desire to read it in full, at the office of Samuel Welsh, chairman of the committee, 218 South Delaware avenue, Philadelphia; with Robert F. Stockton, in Trenton; with Alfred L. Dennis, in Newark; and at the Office of the New Jersey Railroad Company, No. 111 Liberty street, New York, at any of which points stockholders favorable to the ratification of the Lease may leave their names.

To perfect the Lease as proposed the assent of two-thirds of the entire stock of each of the three companies composing the United Companies is required. The capital of the New Jersey Railroad is represented by 62,500 shares, consequently the assent of 41,667 shares must be given. The capital of the Camden and Amboy is represented by 50,000 shares, requiring for approval the assent of 33,334 shares. The capital of the Delaware and Raritan Canal is represented by 49,996 shares, requiring for approval the assent of 33,331 shares.

Railroad and Real Estate Securities.

If we compare first-class Railroad Bonds with good Real Estate mortgages as an investment for the people generally, each will be found to have peculiar advantages of their own. For example—a Railroad Bond is readily and always negotiable; its cash value is known by all bankers, and hence it can be used as collateral at bank for temporary loans; the interest it bears is regularly and promptly paid, without trouble or expense to the holder; the investor in Railroad Bonds, unlike the owner of Real Estate mortgages, has no anxiety about the *title* to the property on which his bond is secured, insurance on buildings, or the annual payment of taxes, on which the continued soundness of that title depends.

On the other hand, it is to be admitted, that a first mortgage on valuable Land is one of the best possible securities. The property can neither run away nor burn up. Its value is not affected by speculative combinations, nor by fluctuations in the amount of Railroad traffic. The actual value of good land steadily increases with the steady growth of population.

It is because the 7-30 Bonds of the Northern Pacific Railroad are both a first-class Railroad security, and a Real Estate mortgage, on lands worth twice the amount secured, that we commend them to those of our readers who desire an investment that is safe beyond question, while readily negotiable and bearing a good rate of interest. They are a first lien, not only on a great Railroad and its traffic, but *in addition* are a first mortgage on valuable lands at the rate of 50 acres to each $100 of indebtedness. Add to this the fact, that the rate of interest (7 3-10 per cent. gold,) is more than 8 per cent. currency, and that the bonds are always exchangeable at 10 per cent. premium for the lands on which they are secured, (practically giving the power of foreclosure at will,) and it is easy to explain the high favor with which these securities are now regarded. Central Pacific R. R. Bonds, secured only on the Railroad itself, and bearing only *six* per cent. gold interest, are now selling at 103, and they are well worth the price. In the light of this fact, it is not unsafe to predict that Northern Pacific, bearing SEVEN AND THREE-TENTHS per cent. gold interest, secured both on the Railroad and on 23,000 acres of land to each mile of track, and now selling at par, will at an early day be worth 1.10. —*Philadelphia Press.*

☞ The Maryland *Republican* says that Capt. Robert Irwin, Sons & Co., who are the contractors for building the Queen Anne's and Kent county railroad, a distance of twenty-six miles from Massey's Cross Roads to Centreville, have nearly completed their work. The road is now all graded, and some twenty-two miles of track laid, with cars running regularly on it. They expect to finish the work about the middle of June, after which efforts will probably be made looking to an extension of it six miles farther to tide-water at Queenstown.

Connecticut River Railroad.

At a special meeting of the stockholders of this company held in Boston, Mass., on the 16th inst., it was voted unanimously, that the directors be authorized to contract with the Mount Tom and East Hampton Railroad Company and obtain a lease of the road of said company, and that in order to secure the construction of said road, they be authorized to guarantee the payment of dividends and interest on the stock and indebtedness of said company at the rate of seven per cent. a year, free of all taxes and assessments and expenses to the company or its stockholders, payable semi-annually on the actual cost of the road, not exceeding one hundred thousand dollars, it be condition in said contract and lease that this company, whenever thereto duly authorized, and after one year from the date hereof, upon giving six months' notice, shall have the right to purchase said stock and indebtedness at par, and that the certificates of stock and other evidences of debt of said Mount Tom and East Hampton Railroad Company shall be issued subject to said conditions.

Rondout and Oswego Railroad.

To a young and growing country such as ours, with its vast uncultivated lands and undeveloped resources, there is probably no agency more essential than railroads, and none, perhaps of late years has played a more important part in the development of the country. From every commercial centre stretch forth these arteries of trade, annihilating distance, bringing the people in closer communion, adding to the material wealth, and bearing to our doors the varied products of the land. While the West has manifested great interest and activity in her railroad enterprises our own State has not been lacking in zeal, as the numerous railroads built within the past few years and others in process of construction fully attest. In the counties bordering on the Hudson there has been a marked activity in this respect, until now there is scarcely one but has its railroad projects. Dutchess county has about completed one enterprise—the Dutchess and Columbia Railroad—and has another, the Rhinebeck and Connecticut Railroad, under way. Orange county has constructed several lines of transportation, and boasts of a score of others in view. In Ulster the Wallkill Valley Railroad pierces a rich and fertile section, and will shortly be completed through the entire county. A branch of the Midland is already in operation as far as Ellenville, and its ultimate extension to Kingston is assured. But probably the most important route in that section is the Rondout and Oswego Railroad, having its western terminus at Oneonta, Otsego county, and its eastern at Rondout, on the Hudson, the outlet of the trade of Ulster, Delaware and Sullivan counties, and at which place is located the coal depot of the Delaware and Hudson Canal Company. Already thirty-six miles of road are in successful operation, about twenty-five miles more are graded and ready for the rails, leaving only thirty-eight miles to be completed. When this shall have been done, it will with its connections extend across the entire State, from Oswego to New York, shortening by twenty-five miles the distance between those places. With the completion of the Rhinebeck and Connecticut Railroad, only twenty miles, it will form the shortest and most direct route from the West to the Eastern States—to Hartford, Boston, Providence, &c. Thus far the business of the road has surpassed all anticipations, and at times its facilities have been overtaxed to meet the demands for transportation. Last September a change in the officers of the road was made and the following gentlemen elected:—John C. Brodhead, President; O. M. Allaben, Vice President; Anthony Benson, Secretary and Treasurer, and F. J. Hecker, Superintendent. The new management have displayed commendable zeal in pushing forward the work of construction, and by their popular, economical and progressive policy have secured the confidence and esteem, not only of the stockholders, but of the people of the towns which have so generously extended their material aid. The finances of the company are managed with great prudence and care, and are in a healthful and flourishing condition; and if the management continue in their vigorous and energetic policy it will be but a few months ere we can chronicle the successful completion of the work.

Pennsylvania Railroad Company.

The aggregate receipts of this company from the operations of its works, including the Philadelphia and Erie Railroad, for the years 1869 and 1870, have been as follows:

	1869.	1870.
Pennsylvania R. R. and branches	$17,250,811 73	$17,531,706 82
Philadelphia & Erie R. R.	3,262,705 29	3,144,044 71
Pittsb'g, Ft. Wayne & Chicago Railway (six months in 1869)	4,146,882 22	8,118,595 60
Erie and Pittsburg Railway 10 m'ths	....	870,859 23
Total gross earnings	$24,660,399 24	$29,665 206 36
Deduct expendit's.	19,637,573 64	23,265,317 51
Net earnings	$5,022,825 60	$6,399,888 85

The following exhibits the earnings and expenditures of the Pennsylvania Railroad and branches for the same years:

Earnings:	1869.	1870.
From first class passengers	$3,500,071 06	$3,595,371 20
From emigrant passengers	131,065 93	162,671 92
From U. S. mail	118,961 91	146,743 45
From express	302,654 54	310,785 78
From freight	12,932,656 88	12,793,160 47
Rent of property	62,226 83	126,999 08
Miscellaneous,	208,174 58	395,974 92
Gross earnings	$17,250,811 78	$17,531,706 82
Expenditures for—		
Conducting transp.	$3,503,792 57	$3,562,084 69
Motive power	3,679,195 15	3,240,606 69
Maintenance of road	3,341,568 10	3,058,685 78
Maintenance of cars	1,464,859 22	1,186,945 17
General expenses	213,852 56	211,762 82
Total expenses	$12,203,267 60	$11,260,085 15
Earnings less exp.	$5,047,544 13	$6,271,621 67

The number of miles of single track in use on the road and branches, including sidings and second tracks at the close of each year was as follows:

	1869.	1870.
Main Line, including sidings	881.70	889.10
Branches owned	54 50	58.20
" leased.	226.50	227.10
Private sidings and branches	42.50	51.60
Total length in miles	1,205.20	1,226.00

The number of locomotives on the road at the commencement of the years 1869 and 1870, was 434 477
And at its termination 477 482

The mileage of engines in each year, was as follows;

	1869.	1870.
Passenger engine mileage	2,302,968	2,472,434
Freight "	6,904,888	7,358,537
Distributing "	366,776	354,262
Total mileage	9,574,632	10,185,233

The number of cars on the road at the end of each year as follows:

	1869.	1870.
Passenger, baggage and express.	346	354
Freight and coal	7,011	7,502
Other cars (in maintenance department	750	707
Individual cars	3,798	4,786
Total	11,905	13,348

The number and mileage of passengers carried was as follows:

	1869.	1870.
Passengers	4,229,363	4,352,769
Miles traveled	144,728,652	150,850,087

The tons of freight and the miles each ton was carried, was as follows:

	1869.	1870.
Merchandise	2,662,667	2,877,012
Coal	2,329,358	1,550,389
Fuel and material	410,966	376,650
Total (tons)	5,402,991	5,804,051
Total tonnage moved one mile	752,711,312	825,979,692

The shipments of oil during the year amounted to 678,278 bbls., against 627,473 bbls. in 1869—an increase of 50,805 bbls.

PHILADELPHIA AND ERIE RAILROAD.

The earnings of the Philadelphia and Erie Railroad for the years 1869 and 1870 compare as follows:

	1869.	1870.
From passengers	$672,964 46	$606,438 31
" freight	2,507,082 93	2,459,154 52
" express matt'r	31,327 51	33,111 95
" mails	24,616 67	25,000 00
" miscel. sources	26,713 72	20,339 93
	$3,362,705 29	$3,144,044 71

The operating expenses for the same years were:

Transportation	$671,606 07	$712,179 28
Motive power	749,641 82	736,926 66
Maintenance of way.	733,415 17	867,912 25
" cars.	213,546 07	260,710 23
	$2,368,209 13	$2,577,728 42
Leaving a balance of.	$894,496 16	$566,316 29

PITTSBURG FT. WAYNE AND CHICAGO RAILWAY.

The earnings of the Pittsburg, Fort Wayne and Chicago Railway under its lease to this company, for the year ending December 31st, 1870, were.... $8,118,595 60
And the expenses during the same period were.... 4,371,987 53
Balance $3,746,608 07
The annual rent, with the interest on the bonds of the company, expenses of maintaining the organization, annual contribution to sinking fund, &c., &c., amounted to 2,680,024 42
Showing a surplus of the lease of... $1,066,583 65

ERIE AND PITTSBURGH RAILROAD.

The earnings of the Erie and Pittsburgh Railroad for ten months ending December 31, 1870,

were	$870,859 28
And the expenses for the same period were	383,425 76
Balance	$487,433 47
The interest on the bonds of the company, expenses of maintaining organization, etc., during this period amounted to	258,857 00
Showing a profit of	$228,576 47

—giving a profit on the leases of these two roads of $1,295,160 12.

GENERAL ACCOUNT.

The General Account, showing the financial condition of the company December 31, 1869 and 1870, presents the following balances:

	1869.	1870.
Capital stock	$33,493,112 50	$33,850,000 00
Funded debt, viz:		
1st mort. 6 per ct. due in 1880	4,972,000 00	4,972,000 00
2d mort. 6 per cent. due in 1875	4,866,840 00	4,866,840 00
General mort. 6 per ct. due in 1910	6,826,500 00	15,784,500 00
Bonds due State 5 per cent.	6,082,538 14	5,924,716 63
Mortgages and ground rents	102,809 32	102,809 32
Short bonds, 6 per ct. due in 1871	1,114,224 00	1,109,224 00
Total capital and debt	$57,458,023 96	$66,610,089 95
Bills and accounts payable	5,573,323 10	4,962,783 83
Contingent	1,000,000 00	1,000,000 00
Balance	998,955 46	524,391 91
Total debit side	$65,030,302 53	$73,097,215 69
Cost of road and appurtenances	$14,087,741 13	$14,247,968 11
Philadelphia and Columbia R. R.	5,375,733 43	5,375,733 43
Equipment	6,182,448 17	6,974,191 22
Real estate and telegraph line	4,271,506 88	4,726,419 55
Extension of road to the Monongahela & Delaware Rivers	2,475,437 10	2,482,594 69
Total	$32,392,866 71	$33,806,907 00
Harrisburg & Lancaster Railroad stock	768,250 00	829,750 00
Connecting Railway stock	1,277,350 00	1,277,350 00
Pennsylvania canal stock	1,101,156 00	1,101,156 00
Stock and bonds upon the line of railway between Pittsburg & Columbus	7,676,695 31	6,808,153 88
Philad'lphia & Erie R. R. stock	779,637 26	779,637 26
Bonds and stocks of municipal and other railroad companies	6,019,221 01	13,438,740 03

1870.	17,531,707	11,260,085	6,271,622	10

Stock dividends, May, 1864, 30 per ct.; May, 1867, 5 per ct.; and May 1868, 5 per cent.

The company entered on possession of the Philadelphia and Erie Railroad on the 1st of February, 1862, since which date the earnings and expenses thereof has been as follows:

	Gross Earnings.	Operating & Repairs.	Earn'gs less Expenses.
1862*.	$425,687	$226,647	$199,040
1863.	725,670	336,596	389,074
1864.	1,131,148	838,594	292,554
1865.	2,074,140	1,746,052	328,088
1866.	2,541,052	2,086,975	454,077
1867.	2,833,760	2,010,873	322,887
1868.	2,804,250	2,067,001	737,249
1869.	3,262,705	2,368,209	894,496
1870.	3,144,044	2,577,728	566,316

* 11 months.

Narrow Gauge Railroads.

Several narrow gauge railroads are projected in Pennsylvania. A company has been chartered to build a road of thirty inch gauge from Philadelphia, to connect with the Pennsylvania Railroad in Chester county, passing through Upper Darby, Hereford, Maple, Newtown, and Paoli. In a week or two work will be begun on another narrow gauge road from Bell's Mills Station on the Pennsylvania Railroad in Blair county, across the Allegheny Mountains through Bell's Gap, a distance of twelve miles, which will afford an outlet for the coal, lumber, and iron of an important mountain district. Some of the gradients on this line will be over one hundred feet to the mile. The Lancaster and Reading Narrow Gauge Railroad Company has been incorporated, with the right to build a road with a gauge not exceeding four feet, from Lancaster to Reading; also to construct branches. There is also a movement on foot to build a narrow gauge road from Media to Chester, in Delaware county.

Texas Pacific Railroad.

The first annual meeting of the stockholders of this company was held on the 23d inst. in the office of the company, corner of Warren and West streets, Mr. Marshall O. Roberts, chairman. General Sprague, Judge Ebbetts and Colonel Hart were appointed tellers, and after a full vote had been polled the regular ticket for Board of Directors for the ensuing year was declared elected almost unanimously, viz: Moses Taylor, Marshall O. Roberts, Thomas A. Scott, Samuel J. Tilden, Edwards Pierrepont, Henry G. Stebbins, George W. Cass, W. J. Walters, Henry D. Newcomb, E. W. Rice, Henry S. McComb, John W. Forney, John McManus, John J. Harris, William R. Travers, George W. Quintard and J. W. Throckmorton.

At the meeting of the directors subsequently held the following officers were elected: President, Marshall O. Roberts; Vice-President, Henry G. Stebbins; Treasurer, Edwards Pierrepont; Secretary, E. B. Hart. Executive Committee—Thomas A. Scott, Edwards Pierrepoint, Henry G. Stebbins, W. R. Travers, G. W. Cass, W. J. Walters.

A committee of three was appointed to prepare by-laws, to be submitted to the next meeting for consideration.

Atlantic, Mississippi and Ohio Railroad.

The stockholders in the consolidated corporation met at Lynchburg on the 18th inst. Gen. Wm. Mahone, President, submitted his annual report. Among other matters the following facts were exhibited. The year before the war the roads from Norfolk to Bristol, operating under separate organizations, earned $1,241,862 01, and for the year following the close of the war, $1,064,258 10; while for the year ending September 30th, 1870, the figure was $1,925,686 51—showing an increase since the war of $871,524 40, or 83 per cent. The net earnings were in round numbers $756,000, after allowing for discount on moneys borrowed $107,000. This item will not appear in the future, giving a net income of $863,000, which would pay the interest at seven per cent. on about $12,000,000 bonds. The business committee subsequently submitted their report, which was adopted, and among other things empowered the President and directors to execute a mortgage on the company's property, not exceeding $15,000,000; recommended that the company conduct an express business over its roads, and appointed a committee to go to Louisville and arrange to connect with the Louisville and Nashville railroad. The old board of officers was re-elected.—*Balt. Sun.*

☞ The Annual Report of the Hanover Branch Railroad Company, shows that this company, under the careful management of Captain Eichelberger and his efficient corps of officers, is in a flourishing condition. A dividend of five per cent., clear of taxes, on the capital stock for the past six months, has been declared payable in May.

☞ Notice is given that the third instalment of 25 per cent. of the principal of the repair bonds of the Chesapeake and Ohio Canal Company, guaranteed by the State of Virginia, with interest thereon to the 20th instant, will be paid on the presentation of said bonds at the banking house of Alexander Brown & Sons, Baltimore, Md.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) siguify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal

Saturday, May 27, 1871.

Stock Exchange and Money Market.

Money has been in very liberal supply all through the week, and the comparatively moderate wants of borrowers have been promptly provided for at 3@5 per cent. on call, with some larger advances reported to the prominent Government dealers as low as 2 per cent.,—an exceptional rate; and 5@7 per cent. per annum as the extremes on marketable grades of business paper. The speculative demand has been less urgent, for use at both the Stock and Gold Boards, particularly toward the close. The mercantile call has also been on a restricted scale. The last city bank statement was, on the whole, deemed quite favorable to continued ease. The city banks, last week, reported a loss of $933,710 of specie, with a gain of $2,269,029 of legal tender notes and $1,637,998 of deposits. They enlarged their loan and discount averages $205,240 and reduced their circulation $116,513. The city bank exchanges, last week, averaged $107,519,865; and thus far, this week, 106 millions daily. The banks now hold $15,584,390 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The United States Sub Treasury reported a loss of $1,682,407 of coin, and of $518,782 in the currency balance. The receipts of the office last week were $5,196,779 in coin, and $4,527,264 in currency; payments $6.879,186 in coin, and $5,046,046 in currency. The office received $2,768,000 in coin or its equivalent, from customs; and disbursed $2,221,436 of coin interest.

The specie reserve of the city banks according to the latest return is $15,262,813, against $14,116,935 same time last year. The city bank deposits are now $233,594,016 against $226,552,926 week ending May 21, 1870. The legal tender reserve amounts to $66,521,322 against $59,023,306 same time last year. The circulation now stands at $31,204,966, against $33,191,648 same time last year. The loans are now $289,436,531, against $280,261,077 at this date last year.

The subscriptions to the new refunding Five per cent. Loan now amount to about 66 millions.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $7,033,394 in currency, and $57,885,346 in coin against a balance a week previous of $7,292,460 currency, and $58,846,883 coin.

The U. S. Sub-Treasurer retired, last week, $2,380,801 of coin certificates, received for customs.

Government revenues have been equal to a fair average. The excises yielded about 2¼ millions. The customs at the port of New York, last week were $2,574,802; and at the outports, equal to about $850,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $128,142,744.

Under the Treasury programme for May, Government will buy during the month, through the Treasury office here, Five-Twenties as follows: Wednesday, May 31, two millions.

Gold has been in less confident speculative demand, and with a more liberal offering of foreign exchange, the price has been weakened, the range of the week having been from 111⅜@112¼, with the closing quotation on Wednesday at 111½ against 111⅞ the preceding Wednesday. The customs call has been fair, while the export movement has been on a reduced scale. The outflow, last week, was $2,417,998; on Tuesday of this week to $350,800, and on Wednesday, to $510,000. The Gold Exchange Bank clearances have been about 51½ millions a day. Friday's clearances were up to nearly 82⅝ millions, as against 87⅞ millions on Monday.

The Treasury Department balances, on Wednesday morning, were $93,378,000 of coin, including $17,729,000 represented by outstanding certificates; and $5,700,000 of currency.

The customs at this port on Wednesday were $513,000.

The export drain was $2,417,998 last week, against $716,496, same week preceding year. The shipments since July 1, 1870, have been $72,092,235, against $26,887,854 same time in 1869–'70.

The customs demand for Gold last week, averaged $460,500 a day; thus far, this week, it has averaged $535,000 a day, or equal to a weekly aggregate of $3,210,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $13,403 and since Jan. 1, 1871, $3,024,530 against $6,916,632 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $132 912,992, against $120,794,128 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $80,054,605 against $82,027,861 same time in 1869–'70.

Foreign Exchange has been in better supply and less demand at a shade easier figures. Bankers' sixty day bills on London closed on Wednesday at 110¼@110⅜; sight bills on London, 110⅝@110¾.

The produce exports from this port, week ending with May 23, were to the currency value of $3,473,666.

Government securities have been offered quite sparingly, and notwithstanding the depression in Gold, and Foreign Exchange, prices have been very well supported, though the demand has not been active.

On Wednesday, Government bought in two millions of Five-Twenties at 111 10@111 25, ex-interest. The amount of bonds offered was $5,216,800.

U. S. sixes of 1881 closed here on Wednesday of the current week at 117¼@117⅜; U. S. Five-Twenties of 1862, 111⅛@111¾; U. S. Five-Twenties of 1864 at 111⅛@111⅜; U. S. Five-Twenties of 1865, 111⅛@111⅜; U. S. Five-twenties of 1865 consolidated, 113⅝@113¾; U. S. Five Twenties of 1867, 113¾@113⅞; U. S. Five-twenties of 1868, 113⅞@114; U. S. Ten-forties at 109⅝@109¾; U. S. Six per cent. currency bonds, 115⅝@115⅞.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 10.	May 17.	May 24.
Consols	93½	93⅜	93⅛
U.S. 5-20's of 1862	90¼	90¾	90 7/16
U. S. 5-20s, 1865	90⅛	90⅛	90⅛
" 1867	92⅛	92⅜	92 7/16
" 10-40s	89½	89¼	88¾
Erie			25⅜

State bonds have been in moderate demand and generally quoted about firm in price.

Railway bonds have been in fair request, mainly on investment account, at higher figures. Central Pacific Sixes closed firmly at 102¾@103. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been quite actively sought after at 91 per cent. and accrued interest. Union Pacific Sixes closed at 92⅛@92¼.

Business in Railway and miscellaneous share property has been moderately active and, in the main, strong and buoyant as to values.

General business has been less active, and prices of Produce, in most instances, have favored buyers,—the main exceptions having been Cotton, Pork, Petroleum, and Naval Stores, which have been quoted stronger. Middling upland cotton closed on Wednesday at 16⅝ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,716,540 bales, against 2,681,358 bales same time last year; exports 2,846,864 bales, against 1,912,987 bales same time last year; stock at the ports at latest dates, 359,816 bales, against 298,462 bales same date 1870.

At the Live Stock Markets, Beeves have been in less demand at from 10½@14 cts; Veal Calves, in fair request at 4@9 cts; Sheep at 5@8⅛ cts; Lambs at 8@14 cts; Swine, 5¼@5¾ cts per lb., all live weight. The week's receipts were 7,671 Beeves, 6,162 Veal Calves, 19,865 Sheep and Lambs; and 20,523 Swine.

Foreign goods have been generally quiet and values irregular and weak. The week's imports of foreign goods reached $7,460,904 including $2,059,808 of dry goods.

Ocean freights have been moderately active and Grain rates, especially by steamships, have been again advanced.

The banking house of Jay Cooke, McCulloch & Co., of London, has been designated by the Secretary of the Navy as foreign financial agent for the navy department.

☞ The Nashua and Lowell Railroad Co. have increased their capital from $720,000 to $800,000, making new stock at the rate of one new share to five shares of old stock.

THE GREAT NATIONAL LOANS.

☞ NEW FIVE PER CENT. BONDS OF THE UNITED STATES.

The Treasury Department is now able to promise that the registered Certificates of Stock, and a good part of the Coupon Bonds, of the New Loan of the United States, bearing Five per cent. Interest, payable quarterly in Gold, will be ready for delivery early in the present month. The Subscriptions to the Loan now amount to $62,000,000, and it is expected that the Subscriptions and Sales will progress more rapidly when the Certificates and Bonds are ready for market abroad as well as at home. The whole sum of Five per Cents offered to the public generally, and to the holders of United States 5 20 Bonds, without qualification, is $200,000,000. When this amount, to which preference is thus given, is taken up, the remainder of the Five per Cents, $800,000,000, embraced in the New Loan of July 14, 1870, for refunding the Public Debt, will be offered in connection with $300,000,000 Four and one half per Cents, and any part of $700,000,000 of Four per Cents, the one running fifteen years and the other thirty years.

The following is a copy of the New Five per Cent. Bond, under and pursuant to the New Loan Act of Congress:

FORM OF 5 PER CENT BOND.

INTEREST | FUNDED LOAN OF 1881 | 5 PER CENT.

UNITED STATES OF AMERICA

ARE INDEBTED TO THE BEARER IN THE SUM OF

..... DOLLARS.

THIS BOND is issued in accordance with the provisions of an Act of Congress entitled "An Act to authorize the refunding of the National Debt," approved July 14, 1870, amended by an Act approved January 20, 1871, and is redeemable at the pleasure of the United States, after the firs day of May, A. D. 1881, in Coin of the standard value of the United States on said July 14, 1870, with interest in such Coin, from the day of the date hereof, at the rate of FIVE PER CENTUM per annum, payable quarterly, on the first day of February, May, August, and November, in each year. The principal and interest are exempt from the payment of all Taxes or Duties of the United States, as well as from taxation in any form, by or under State, municipal or local authority.

WASHINGTON, ..., 18....

Entered ..... Recorded .....

....

Register of the Treasury.

Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depository of the Government, quarterly, on the first days of February, May, August and November, in each year.

The Interest on the Registered Stock of this Loan, it is determined by the Treasury Department, will be paid as conveniently to the holder as on the Coupon Stock, and personal attendance, or attendance by proxy at the Treasury, to draw and receipt for the Interest will be dispensed with, *whenever the check of the United States Treasurer, mailed punctually to the address and order of each holder, on or before every quarter-day, is preferred to such attendance.* This check, payable in Gold Coin at the Treasury in New York, (or such other office as the Stock is registered at,) will be negotiable or collectable on the indorsement of the owner or owners of the Stock. In pursuance of this arrangement, the subscribers to, or purchasers of, the Stock in its registered form (which is a complete protection against theft or other losses incident to Coupon Bonds payable to Bearer) are advised to give their Post-office address in full, and to notify of any change in the address between quarter days.

The whole proceeds of the new loan will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and, in addition to these proceeds, the 5-20s are now being reduced by purchase at the rate of $10,000,000 per month.

The entire effect, therefore, of the New Loan, in connection with the existing Sinking Fund process of the Treasury, is to reduce both Principal and Interest of the Public Debt of the United States. *The Loan creates no additional supply of Government Stocks*, while the application of the surplus revenues derived in Gold from Customs is constantly lessening, as it has been doing for two years past, the Funded Stocks bearing six per cent. Gold Interest.

The 1st of May schedule of the Public Debt, which has just been published by the Secretary of the Treasury, shows a reduction in these Stocks since the April schedule of $12,215,700 and a further lessening of the yearly interest charge thereon of $732,942. This leaves the total yearly interest charge in Gold $111,982 034. In the same month the Treasury paid and canceled $4,470,000 of the Three per Cent. Currency debt, reducing the whole of this debt bearing interest to $51,023,000, and the yearly interest charge thereon to $1,537,470.

The proposed further reduction of the annual interest charge upon the Public Debt by refunding is as follows:

By exchange of $500,000,000 United States six per cents for new five per cents of 1861	$5,000,000
By exchange of $300,000,000 United States six per cents for four and a half per cents of 1866.....	4,500,000
By exchange of $700,000,000 United States six per cents for four per cents of 1901	14,000,000
Total saving per annum by refunding.	$23,500,000

The large and rapid accumulation in the last few years of private capital now retired from active business, and of the cash Savings and Life Insurance premiums deposited with or intrusted to the provident institutions of the country—all seeking the most undoubted security, pledged to be kept free of all taxes, under national or local authority, and content, provided this object be assured, with moderate rates of interest—will no doubt ultimately absorb so much of these New Stocks as may not be taken in voluntary conversion of United States 5-20s, or marketed abroad.

C. C. NORVELL,
In charge of United States Loan Advertising.

TREASURY OFFICE,
NEW YORK, May 2, 1871.

PROGRESS OF REDUCTION OF THE NATIONAL DEBT.

	Debt of the U. S. less cash in the Treasury.	Decrease of debt during the preceding month.	Total decrease from March 1, 1869, to date.	Monthly interest charge.	Decrease in monthly inter't charge.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business April 30, 1871.

WILLIAM A. RICHARDSON, Acting Secretary of the Treasury.

Journal of Railroad Law.

RAILROAD COMPANIES—LAW OF NEGLIGENCE—CASE OF INTOXICATION—RELATIVE NEGLIGENCE.

The facts of the recent case of The Illinois Central Railroad Company vs. Hutchinson, (47 Ill., 408,) are fully and clearly stated in the following able opinion by

WALKER, J.—This was an action brought by Elizabeth Hutchinson, administratrix of Alexander Hutchinson, deceased, in the Alexander Circuit Court, against the Illinois Central Railroad Company, to recover compensation for causing the death of her husband, under the act of February 12, 1853, by neglect, wrongful act or default of the company. The declaration avers that while the company were running their engine on the track along one of the public streets in the City of Cairo, when it was dark, deceased was run over, in crossing the track with due caution and care, in consequence of the neglect of the company to have a head light, to ring a bell or sound a whistle.

On the trial, the evidence tended to show that deceased had been drinking, but to what extent does not very distinctly appear. Two witnesses testified to his position at the time, or just before, the accident occurred. One says, he was sitting on the rail of the track, and the other, on the end of a tie and leaning over the side of the track. There is a difference in the statements of witnesses as to the time of the day and the ability of persons to see and hear the train, but he could see and hear the bulk of a man 50 yards, and the engine 150. One says it was getting dark. Another says it was rather inclined to be dark. Another says they were just lighting the lamps on the street when the accident occurred. Witnesses differ as to whether the bell was ringing, but all agree that there was no headlight on the engine, nor does it appear that the whistle was being sounded. We make this statement of the main facts of the case, from a large amount of evidence, to show upon what appellants based their fifth instruction, which was refused by the Court below, and the refusal of which, is now, among other rulings of the Court, assigned for error. It is this:

"If the jury believe, from the evidence, that the deceased, while intoxicated, placed himself, about dark, or in the dusk of the evening, on defendants' track running along a public street where defendants' trains were constantly passing and repassing, and so remained there until run over and killed by the passing engine of defendants, then deceased was guilty of such gross negligence that you should find the defendants not guilty; unless you further believe from the evidence that the agent or agents of defendants wilfully caused the death of deceased, or were guilty of such gross neglect on their part as amounts in law to a wilful neglect of duty."

There can be no question that railroad companies, who appropriate streets or other thorough fares to their own use, and run their tracks along such public passways must be held to a very high degree of care and diligence. Public safety requires it, and they must be held to strictly observe the duty. In such a street, the entire public have a right to its use.

It was created, and it is maintained for that purpose. It is an easement that may be enjoyed alike by the active and vigorous, the old, the infirm, and the young and inexperienced. It is true, the company have subsequently acquired an easement which authorized them to construct the track of their road along this street. But they did not thereby acquire the use of the street to the exclusion of the citizens, who, from necessity, choice, or mere whim, might see proper to travel over or along it. The right was in common to the community and to the company, to use it in the several modes their easements authorized and permitted. Neither can exclude the other, nor so exercise the use of their easement as to materially obstruct the others in the enjoyment of their rights.

The company have no right to unnecessarily obstruct the street by having their trains standing on the track; nor has an individual the right to obstruct the track; by unnecessarily placing or leaving his property thereon, or by sitting or standing on the same. And it must be held to be great negligence for a person, whether intoxicated or sober, to either stand or sit on the track of a railroad until struck and injured by a passing train. All intelligent beings must know that such conduct is not only hazardous, but negligent in a high degree. They must know that death or grievous injury must be the inevitable result of remaining thus exposed until a train shall pass. Nor does it excuse an individual to say that he was drunk. While perhaps he may not be held to that high order of care that is exacted from a sober person, still he is not excused from diligence and care.

If an individual were to become intoxicated, and thus expose himself, and injury, not resulting in death, were to ensue, it would not be held that he was thereby excused from diligence, if due precaution was observed by the company in operating their engines or trains. It is the settled law of this Court, that in such cases negligence is relative. The fact that an individual is negligent, even grossly negligent, does not authorize or even justify the employees of the company to kill, or even injure such person, wilfully or wantonly. The fact that the person injured has been guilty of negligence, does not release the company from the use of every reasonable precaution to prevent the injury to individuals. Even where the individual is guilty of negligence, and the engine driver sees the danger and has it in his power to avoid the injury, and he wantonly or wilfully destroys the life of the individual, he is guilty of crime, and might, no doubt, be punished accordingly. No class of men have the right to wilfully destroy human life, and to do so is criminal. Yet, when the negligent conduct of a person injured or killed has rendered it impossible for the engine driver, with the use of the highest degree of care, to avoid the act, then he is excused.

Knowing, as the engine driver did, that he was operating this engine along a public thoroughfare, and that old and infirm persons, children and drunken persons, were liable at all times to be abroad on the street, and thus in danger from passing trains, it was his duty to have used every precaution to avoid inflicting injury. If he did this, then the company cannot be held liable; the degree of care which devolved upon him in this public street in the city, was greater than in the country, where he has no reason to expect persons will be on the track, and hence less vigilance is required. Knowing the danger incident to the running of his engine on this street, although there was negligence on the part of deceased, more diligence was required of him than at other portions of the road, and what might be justifiable at other places, might be such gross negligence on his part as to render his conduct wilfully negligent. Negligence being relative, it follows that time, place, and the circumstances must all be considered in determining the question. What would under one state of facts be gross negligence on the part of the company, or an individual, might, under different circumstances, be excusable. The instruction was in accordance with the views here expressed, and should have been given. It is, however, insisted that the last clause is abstract, and leaves the jury to determine what amounts in law to a wilful neglect of duty. It may be that, although it announced the law correctly, this clause is liable to this criticism, but it would not likely have misled the jury. If appellee was apprehensive that it might mislead the jury, she could have asked an instruction informing them what would amount in law to a wilful neglect of duty.

We perceive no objections to the instructions given, or any error in refusing appellants' other instructions. And as the case must be passed upon by another jury, we deem it improper to discuss the evidence. The Court below, in refusing to give the fifth of appellants' instruction, committed an error, and the judgment must be reversed and the cause remanded.

Judgment reversed.

Philadelphia and Reading Railroad.

It has been known that for some months past a number of gentlemen connected with the Reading Railroad Company have been buying large bodies of valuable coal lands in the Schuylkill and Mahanoy coal regions, and it has been generally supposed that these purchases were made in the interest of the Railroad Company. During the present session of the Legislature an act of incorporation was obtained, and under it these lands will hereafter be held. They embrace in the aggregate about 50,000 acres of the most valuable and productive coal lands in the State of Pennsylvania, including nearly all the large bodies formerly held by individuals and coal companies in the first and second coal fields—such as the Manhattan Coal Co., the Philadelphia and Mahanoy Coal Co., the Tremont Coal Co., the Preston Coal Co., the Ashland Estate, the Locustdale Estate, the Locust Gap Improvement Co., the Fulton Coal Co., McIntyre lands, Big Mountain Improvement Co., Phœnix Park Estate, Branchdale Estate, Gettle & Wagner Estate, Mount Laffee Estate, and a number of other smaller tracts. It is believed that, owing to the very depressed condition of the coal interests, resulting from the repeated strikes and suspensions of the last two years, and the consequent inability of individual coal land owners to manage and control their own property, these lands have been bought at very much lower prices than they could have been obtained for at any previous time within the last ten years, and it is claimed that the average price per acre paid for them has been from one third to one-fourth of what has been lately paid for lands of the same intrinsic value in the Wyoming and Lackawanna regions. The stock of this new coal company will be held by the Philadelphia and Reading Railroad Company, ample authority for this purpose having been conferred by the act of incorporation above referred to. The policy of controlling the ownership of the coal lands that sup-

ply the road with traffic has been a favorite one with the present management of the Reading Railroad Co. It is claimed that these lands alone can produce from ten to fifteen millions of tons of coal per annum for centuries to come, and when it is remembered that they are connected by means of a continuous down grade line of the very best character with tide-water at Philadelphia, from which the entire Atlantic seaboard can be supplied with fuel, it will be found that the Reading Railroad Company now occupies a position so impregnable that its tonnage can never be taken from it—as no rural lines can interfere with the growth of a traffic which is supplied by lands controlled directly by the transporting company itself. The money required for this new enterprise will be raised by a loan made by the Reading Railroad Company. All of the branch lines of railroads which were owned entirely by the company have been lately merged into and consolidated with the Philadelphia and Reading Railroad Company. And a new consolidated mortgage upon all of the property and franchises of the latter company will be issued to secure bonds to the amount of $25,000,000. These bonds will all have forty years to run and will be 7 per cent. currency, both coupon and registered; 6 per cent. gold, both coupon and registered, all in sums of $1000 each; and 6 per cent. sterling in sums of £200 each; all the issues being free from taxes. Out of this issue of bonds $6,000,000 will be set apart to retire all the present mortgage loans of the company, amounting to $5,807,000, so that the new loan will practically be a first mortgage loan upon all the property of the company. The following statement of the assets of the company has been prepared to show the amount of property upon which the new loan is secured:

Railroads—including main line, Lebanon Valley, Northern Liberties and Penn Township Branch, Lebanon and Pine Grove Branch, Pine Grove and Lebanon Railroad, Lorberry R., Union R., Good Spring R., and Mahanoy and Shamokin R., with their laterals and sidings, aggregating 648¼ miles of single track road.....	$31,864,000
Depots—embracing all depots, terminal and wharf structures, office buildings, &c.....	3,898,661
Real Estate—embracing properties held in fee simple, and not included in the items of railroads or depots..	8,217,665
Locomotive engines and cars.....	10,033,990
Stocks and bonds held by the company	4,325,353
Steam collieries.....	588,486
Coal barges.....	580,152
Debts due the company, cash and uncollected bills.....	4,092,038
Materials on hand	1,200,529
Total.....	$64,800,573

The leased lines of railroad and canal held by the Reading Railroad Company are also embraced in the mortgage, though not included in the values in the above statement. The Fidelity Insurance, Trust, and Safe Deposit Co. of Philadelphia will be the trustee, and the mortgage provides for a cumulative sinking fund of one per cent. per annum upon the outstanding bonds, beginning with the year 1873. Out of the new loan, after setting apart the $6,000,000 to retire the present mortgage indebtedness of the company, $19,000,000 will be left for the purchase and development of coal lands, and the acquisition of other new property necessary for the increased traffic of the company. All of the property thus acquired will be added as a security to the new loan, so that the entire amount of $25,000,000 when issued will be secured by property worth over $80,000,000, exclusive of the value of the numerous leased lines of railway and canal now held by the company. The following table prepared from the yearly reports will show the gross receipts, expenses and net profits of the company for each of the last nine years:

Years.	Gross Receipts.	Gross Expenses.	Net Profits.
1862.....	$3,911,830	$1 852,333	$2,059,497
1863.....	6,252,902	2,955,794	3,297,108
1864.....	9,269,341	5,001,588	4,267,753
1865.....	11,471,868	6,330,248	5,141,620
1866.....	11,303,461	6,791,102	4,512,359
1867.....	9,222,688	6 266 434	2,956 254
1868.....	8,902,885	6,162,511	2,740,374
1869.....	11,275,241	6,876,313	4,398,928
1870.....	9,709,419	6,564,991	3,144,428
Total	$81,319,625	$48,801,314	$32,518,821

The fluctuations in the amounts of gross receipts during the last three years were owing principally to repeated suspensions in the mining regions. The average profits of the company during the nine years have been $3,613,146 78 per annum. An association of American and English bankers have purchased from the company all of the new loan that will be negotiated during the present year, and it is presumed will soon offer it to the public in this country and in Europe.—*Phila. Ledger, May 22.*

Buffalo and Lake Huron Railway.

At the half-yearly general meeting of this company in Liverpool, Eng., on the 25th ult., the following report was presented:

"The Directors have now the pleasure to lay before the shareholders the statements of accounts for the half year ending 31st December, 1870. After providing for all due bond interest and current expenses, the revenue account shows a credit balance of £4,910 4s. 1d. Out of this sum the Directors recommend payment of a dividend for the half-year of 1s. 6d. per share (free of income tax), which will absorb £4,004 2s. 4d., and leave £906 1s. 9d. to be carried forward to the current half-year. The Directors hope they may be pardoned for congratulating the shareholders of this hitherto unfortunate company on the novelty of thus receiving a cash dividend, which, though small in amount, affords assurance that the hopes expressed on this subject in the last report will be realized. The expenses consequent on the transitional state of the company have been exceptionally heavy during the past half-year. After this year a reduction may be looked for. A considerable number of the old preference and arrear shares remain unconverted; proprietors are urged to send them into the office at once, as dividends cannot be paid on shares until converted. The relations of this company with the Grand Trunk Company continue most cordial, and the half-yearly payments due from the latter are met with much promptitude and regularity. The suit of Allchin *vs.* the Company is still before the Law Courts; and the secretary, Mr. Short, has been under the necessity of again proceeding to Canada to furnish rebutting evidence of the most important character. He is also engaged in investigating the position of the company in regard to its surplus lands and claims, in respect of rights of way, &c., which have to be arranged. On his return the directors hope to conclude a final settlement of these questions."

☞ At the annual meeting of the Manchester and Keene Railroad Corporation at Keene, N. H., on the 17th inst., the following gentlemen were elected Directors: Henry Colony, Samuel W. Hale, George B. Twitchell, James A. Richardson, Milan Harris, Archibald H. Dunlap, Theodore A. Wood. Henry Colony was chosen President, and Thomas E. Hatch Clerk. Mr. Wood was authorized to negotiate with Gen. Stark, the Manager of the Boston and Lowell and Lowell and Nashua Railroads, or with the agent of any other reliable railroad corporation, for the purpose of surveying and locating the road, ascertaining land damages and obtaining subscriptions of the capital stock for the construction of the road.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES.

No. 5 NASSAU-ST.,
NEW YORK, May 25, 1871.

THE CHESAPEAKE AND OHIO RAILROAD COMPANY are extending their line of road to the head of reliable navigation on the Ohio River, where it will meet and connect with lines now building or projected, to the principal railroad centres and river cities of the Western States. 227 miles are in operation, and the iron for 100 miles additional is now being laid. The road will have, when completed, a large East and West through business, beside an immense mineral and general local traffic.

The SIX PER CENT. GOLD BONDS of the CHESAPEAKE AND OHIO RAILROAD COMPANY are amply secured, and very desirable for safe and profitable investment.

The CENTRAL PACIFIC BONDS, negotiated by us, amounting to $25,885,000, have a ready market everywhere, being favorably known and actively dealt in at all the principal Stock Exchanges of this country and Europe, and are readily salable at all times at quoted market price, which is now above par.

The bonds of the CHESAPEAKE AND OHIO RAILROAD Co. we believe to be of equal value and security, and must in time take a like rank in market value and salable character.

Holders of five-twenty bonds desiring to fund them otherwise than in the new Five per Cent. Government Loan may do so with entire safety, at a profit of about 20 per cent., and without reduction of interest, by an exchange for the Bonds of the CHESAPEAKE AND OHIO RAILROAD Co.

Price of the bonds, until further notice, 91 and accrued interest from May 1.

We also buy and sell Government Securities and the Bonds of the Central Pacific Railroad Co., and as agents of the U. S. government will attend to the funding of 5-20s into the new U. S. Bonds.

FISK & HATCH.

Tax on Interest and Dividends, etc.

Commissioner Pleasonton on Tuesday issued a circular of instructions to Assessors and Collectors, in which he says:

"In accordance with the instructions of the Secretary of the Treasury, of May 13, 1871, the previous decision of this bureau is hereby revoked under the ruling of the Attorney General."

After quoting the questions submitted by the Secretary, which were answered in the affirmative, and published in our last issue, the circular concludes as follows:

"Collectors and Assessors will govern themselves accordingly in assessing and collecting the taxes embraced in the above mentioned cases."

☞ The directors of the Penobscot Bay and River Railroad have voted to begin operations as soon as the preliminaries can be adjusted, and appointed a committee to go over the route from Rockland and Camden and settle land damages. Captain L. L. Buckland has been employed to locate the road.

☞ The Hanover Branch Railroad Company has re-elected Captain A. W. Eichelberger president, and Henry Wirt, Reuben Young, Joseph Dellone, Henry C. Schriver, Jacob Forrest and David M. Myers, directors.

Shenandoah Valley Railroad.

The directors of this important work, designed to be constructed through what is familiarly known as the "Garden of Virginia," met in the directors' office of the Pennsylvania Railroad Company, in Philadelphia, on the 17th instant. The president, Colonel Thomas A. Scott, and a majority of the directors were present, and measures were devised for a most energetic prosecution of the enterprise. It is confidently believed that the success of the work has been secured beyond peradventure. A meeting of the stockholders for the consideration of general business of interest to the company will be held at Front Royal, Va., on the 20th of June next. The following persons constitute the board of directors of the road: Col. T. A. Scott, president, Col. Wm. Painter, Col. J. M. Walker, Major G. H. Bardwell and B. K. Lamison, Esq., Philadelphia; Hon. A. R. Boteler and Hon. W. H. Travis, Jefferson county, Va.; Col. A. W. McDonald, Clark county, Va.; Judge J. W. Ashby, P. B. Borst, Martin Spitler and Hon. Wm. Milnes, Jr., Page county, Va.; J. N. Ashby, Warren county, Va., secretary.—*Phila. Press.*

☞ At a meeting of the stockholders of the Vermont and Canada Railroad Company, held at St. Albans on the 16th inst., it was voted to issue additional stock to the amount of $500,000, to stockholders of record of that date *pro rata* at par; provided they shall signify their option to take the same by the first day of June proximo, and pay for the same on or before the first day of July next, with interest at the rate of 8 per cent. per annum after the first day of June. Stockholders desiring to avail themselves of the opportunity to take said stock will signify it in writing to the Treasurer, John W. Newton, St. Albans, or Edward Blake, Esq., No. 10 Railroad Exchange, Boston, before the first day of June.

☞ At the annual meeting of the stockholders of the Atlantic and Pacific Railroad Company in Boston on the 18th inst., the following gentlemen were elected directors for the ensuing year: Francis B. Hayes, Uriel Crocker, Isaac Rich and Jacob Sleeper of Boston; Andrew V. Stout of New York; Frederick Billings of Woodstock, Vt.; Andrew Pierce, Jr., of St. Louis, Mo; William H. Coffin of Clyde, N. Y.; Charles J. Morrill of Boston; Oliver Ames of North Easton, Mass.; Joseph Seligman of New York; George S. Curtis of Boston; Ozios Bailey of White Oak, Ken.

☞ At a meeting of the grantees of the Manchester and Claremont Railroad, at Mancester, N. H., on the 20th inst., the following Board of Directors was elected: E. A. Straw, Joseph Kidder, James A. Weston, John C. French and S. N. Bell of Manchester, James F. Briggs of Hillsboro' and Moses A. Hodgdon of Weare. Frederick Smythe was chosen Treasurer and S. N. Bell was chosen Clerk.

☞ The Plymouth and Sandwich (Mass.) Railroad Company has been organized by the election of a board of directors with Albert Mason of Plymouth President, B. A. Hathaway Clerk, and Wm. H. Nelson, Treasurer.

☞ G. W. Mitchell has been elected President of the Iowa Pacific Railroad Company. This road is intended to run from Dubuque to the Missouri river. Engineers have commenced surveying the route.

Charlotte, Columbia and Augusta Railroad.

The following gentlemen have been elected directors of this company: William Johnston, Rufus Baringer, A. B. Davidson, J. Harvey Wilson, of North Carolina; A. B. Springs, York; John J. McLure, Giles J. Patterson, Chester; Wm. R. Robertson, James H. Rion, Fairfield; John Fisher, F. W. McMaster, E. Hope, T. J. Robertson, Richland; J. B. Palmer, Lexington; Wm. E. Jackson, John J. Cohen, S. D. Heard, Augusta, and Chas. S. Estes, Mayor of Augusta, *ex-officio* Director.

At a subsequent meeting of the Directors, Wm. Johnson, Esq., was unanimously re-elected President, and Gen. E. P. Alexander, General Superintendent.

Shenandoah Valley Railroad.

On Monday a force of engineers attached to the Shenandoah Valley Railroad Company, and under the lead of Colonels Barrett and Stewart, left this place for the neighborhood of Shepherdstown, with a view of finally locating the line of this important work. It is their purpose to establish their headquarters some three miles this side of Shepherdstown, to which point their camp equipments were transferred on Monday last. We learn from these gentlemen that a large working force will be placed at once on the line between Shepherdstown and Charlestown, and that the process of construction will be pressed without delay and with the utmost energy.—*Charlestown (W. V.) Spirit of Jefferson.*

☞ The following gentlemen have been elected directors of the New York and New Haven Railroad Company for the ensuing year: William D. Bishop, Bridgeport; George B. Carhart, George N. Miller, Abraham Van Nest, Wilson G. Hunt, New York; Ezekiel H. Trowbridge, New Haven; Jonathan Godfrey, Southport; Nathan A. Baldwin, Milford; Nathaniel Wheeler, Bridgeport; Horace F. Clark, New York.

☞ At the recent annual meeting of the projected Windsor and Forest Line Railroad, at Marlow, N. H., a full board of directors was elected, with T. H. Woods of Nashua as President, O. F. R. Waite of Claremont Clerk, and V. C. Gilman of Nashua Treasurer. The president was authorized to arrange for surveys and location as well as the construction of said road by any corporation willing to undertake it.

☞ Hon. George Vickers, John Gale, G. W. T. Perkins, Wm. Welch, Jesse K. Hines, Wm. B. Wilmer, Richard C. Johnson and Charles Beaston have been elected directors of the Kent County railroad company. The officers are: President, Hon. George Vickers; Treasurer, R. Hynson; Secretary, H. W. Vickers; Superintendent, J. K. Hines.

☞ Levi Parsons, George Denison, D. Crawford, Jr., W. A. Johnson, Francis Skiddy, J. P. Morgan, Sheppard Gandy, August Belmont, L. P. Morton and J. B. Dickinson, of New York, R. S. Stevens, A. D. Jaques and J. R. Barrett, of Sedalia, Mo., have been elected directors of the Missouri, Kansas and Texas Railroad Company.

☞ The directors of the Cairo and Fulton Railroad Company have elected the following officers: M. L. Rice, president; J. L. Hodges, secretary and treasurer; P. K. Roots, chief engineer; Geo. R. Weeks, land agent; Henry Page, superintendent.

☞ The railroad engineers are now engaged on a reconnoisance for the extension of the Hempfield railroad, (from Wheeling to Washington, Pa.,) to connect with the Pittsburg, Washington and Baltimore (Connellsville) Railroad.

NEW YORK
State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE
GOLD BONDS
OF THE
RONDOUT AND OSWEGO
RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

New York Saturday, June 3, 1871.

San Diego and Gila Southern Pacific and Atlantic Railroad.

The San Diego and Gila Railroad supplies the California section of the 32d parallel railroad line from the Mississippi river to the Pacific Ocean; and is projected to establish intercommunication between the valley of the Colorado river (and its branches) and the Pacific Ocean.

The western terminus is at the bay and harbor of San Diego, a safe and commodious roadstead; and the eastern terminus is at Fort Yuma, on the Colorado, and at the mouth of the Gila river; which lies directly eastward across the Territory of Arizona for 350 miles, with several branches leading north and south, and drains a geographical area 400 miles long, east and west, and 200 miles wide, north and south.

The Bay of San Diego is 450 miles—45 hours, south from San Francisco, and 2,780 miles—278 hours, north from Panama, and is in the same latitude with the principal ports of China, Japan, and eastern Asia, and north of the Sandwich Islands.

San Diego is within 10 or 12 miles, northwardly, of the Pacific end of the United States and Mexican boundary line, which leads directly to the mouth of the Gila river, with a right line distance of 148.7 miles, the boundary line thus forming a directrix between the termini of the railroad.

Between the bay of San Diego and the Colorado river there are two grand physical geographical features—the Sierra Nevada mountains, and the Colorado desert.

The Sierra Nevada mountains rise contiguously from the Pacific coast to an elevation of some 4,000 feet, in a distance of 50 miles, and slope down to the Colorado desert, eastward, in about 20 miles further, to an elevation only a few hundred feet above the sea. The western slope of the mountains is diversified by a system of valleys, ravines, and canons, connecting and rising like terraced plateaus one above another, while the eastern slope descends almost precipitately to the desert. The desert extends from the eastern foot of the mountains to the Colorado river, a distance of 80 miles, and is a flat, sandy, sterile plateau basin, with its depression scarcely 150 feet above the sea. Its only redeeming feature is the so-called New River, a drainage depression into which the overflow of the Colorado river finds its way, from a point some 20 miles south of Fort Yuma, discharging an immense volume of water into a yet lower basin of the desert some 50 miles north of the boundary. The New river valley is flooded to a width of some ten miles [and often more] annually, and fertilizes the valley to the extent that good grass is found sufficient to graze herds of cattle, and to enable Indians to raise indifferent crops of corn, squashes, beans, and melons.

A low range of sand hills, with Pilot Knob range of hills surmounting them, cuts the desert off from the Colorado river, and forms its eastern rim, being some 10 or 12 miles in extent east and west. Their Southern end just reaches to the boundary line. This range is usually spoken of as a part of the desert. The peculiar topographical features of the approaches and crossing of the Colorado river cannot be described except by maps; and the bay of San Diego is best studied from the United States Coast survey Chart.

Two routes have been surveyed for the railroad. The first in 1855, by C. H. Poole, C. E., followed the San Diego river to its head, and reached the summit of the mountains at Warner's Pass [which is 45 north of the boundary line], at an elevation of 3,630 feet, and 64 miles from San Diego.

The descent of the desert was made in 46 miles, to an elevation of 445 feet, by a very crooked drainage valley—San Felipe and Vallecita.

The line, bearing southeastwardly, would approach the boundary line at New River, near the middle of the desert, and thence lie near the boundary of Fort Yuma. This route is about 230 miles long, increasing the air-line distance by 54 per cent. Two subordinate summits were found on the mountain section, increasing the elevation to be overcome by 873 feet. The summit grades on the western slope vary from 96 feet per mile to 452¼ feet per mile, averaging 158¼ feet per mile for a distance of 14¼ miles. The descent to the desert has natural grades of 175 feet per mile for 3 miles, 263 feet per mile for 2 miles, and 125 feet per mile for 5 miles.

A more direct line was surveyed in 1869, under the auspices of the Memphis, El Paso Railroad Company, of Texas, by Col. Thomas S. Sedgwick, Civil Engineer.

This route leaves the bay by the Otay valley, and follows it to its head at Riley's summit, to an elevation of 1,500 feet at 33¼ miles from New Town, descends to the San Ysidro canon, in 4 miles, 660 feet, and thence rises continuously to the summit of the mountains, at an elevation of 3,855 feet, in 30¼ miles; thence to the desert by a continuous descent in some 37 miles to an elevation of 500 feet; thence across the desert to Fort Yuma, a distance of 80 miles [by estimation]. This route will be about 185 miles long. If this line were extended to the sea by Otay valley, it would be only 180 miles long, an increase of only 31 miles—or 21 per cent. over the boundary line distance.

This line is remarkable as to general direction between its termini. A chain of valleys was found leading directly eastward from the bay to the head of Carizo canon (in which the line was laid for nearly eight miles) which, running nearly north, makes the only noticeable break in the general good direction of the line.

On the mountain section, the line approaches to within one mile of the boundary in Ticate valley, and at the leaving of Carizo Canon, is 15 miles north of the boundary; indicating that the line may be laid in a belt of 15 miles in width (adjoining the boundary), which cannot be said of any known mountain line of equal length in the United States. The alignment is generally favorable to a first class road.

The gradients rising to Riley's summit will not exceed 90 feet per mile; descending to the San Ysidro valley, a gradient of 100 feet per mile will obtain; and rising therefrom a gradient as high as 105, or, probably, 107 feet per mile for 6 miles. Thence to the summit of the mountains, 23 miles, the gradients will vary—being 80, 90, and 100 feet per mile in sections; while from the Walker's Pass summit down to the Carizo Canon, a direct line of 10¼ miles will give a gradient of 110 feet per mile; while a more circuitous line, making the distance 15 miles, will give gradients of 90 feet per mile. Adown the Carizo Canon, and to the desert, the gradients do not exceed 90 feet per mile, as surveyed, while the desert portion is

nearly level; and the Pilot Knob hills can be crossed or turned with light gradients.

The general character of the work indicates a great cost of graduation on the mountain section, while the desert section is far below the average of even prairie roads.

Viaducts are indicated to a notable extent. That at San Ysidro Crossing, will be from 2,000 to 2,500 feet long, and 150 feet high; while the bridge at the Colorado river should be a clear span of 400 feet between bluff banks of granite.

The only tunnel actually necessary to be made is in getting out from the Carizo Canon to the desert, by boring through its rim, and will be less than 1,000 feet long; but more detailed surveys made show that two or three others might be adopted with good economy, depending upon the character of the road to be built.

The line will terminate at the best wharfage site on the Bay of San Diego, on lands now owned by the company, and is adapted to economical and efficient extension to all desirable points on the bay.

This route is, at the least, 30 miles shorter than the Warner Pass route, and is no more expensive, mile per mile, and has more favorable gradients.

Good depot buildings and wharves will be needed at San Diego, and buildings at Fort Yuma, but, few station buildings on the line.

Water stations can be established on the desert, with wells 20 to 30 feet deep, and on the mountains by springs. A natural supply of fuel cannot be obtained near the route, and would need to be supplied at considerable expense.

The following approximate estimate of the cost of grading, masonry (very little), and bridging (almost entirely viaducts), is based on the hurried survey of the Trial Line, the preliminary location of seventeen miles, surveys made at Fort Yuma, and personal examinations.

The road is estimated to cost $22,500 per mile for graduation only; graduation and permanent way, $35,000 per mile; and with wharves, depots, shops and water stations, and sidings, $36,625 per mile, a total of $6,775,500.

The mountain section of the road, 83 miles in length, equals a cost of $37,410 per mile for graduation, and permanent way added, $49,910 per mile, a heavy average; but the desert section of 85 miles averages but $8,940 per mile for graduation, and $21,440 with permanent way.

This estimate is based upon an economical adaptation of the roadway to the natural surface; and fairly represents the amount for which the road can be built.

The charter of the company provides for an issue of $4,000,000 of capital stock, and the same amount of first mortgage bonds. The company has 8,500 acres of land available as assets, from which from $1,000,000 to $2,000,000 could be realized within five or six years.

The establishment of this road would control an important trade with Arizona and New Mexico; not only with California, but with New York *via* Panama Railroad route, and steamships which now touch at San Diego, *en route* from Panama to San Francisco, and would be an indispensable link in the 32 parallel railroad line.

THOMAS S. SEDGWICK, C. E.,
Chief Engineer and Agent.

New York, May 20, 1871.

Marquette and Peninsula Railroad.

The above is the name adopted by vote of the meeting last night for the new corporation formed to complete a new southern railway connection for Marquette. The distance from Escanaba to the junction of the new route is 52½ miles, thence to the eastern limits of this city 8½ miles, thence to the Pacific Rolling mills 2½ miles, thence to the end of the Rolling mill Co's track in connection with all the docks in this city, one mile. The average distance therefore to a central point in this city leaving out the tracks to the ore docks eleven miles; this added to the main line makes a total distance between Marquette and Escanaba 63½ miles, instead of 78 miles by way of Negaunee.—*Marquette Journal,*

Narrow Gauge Railroads.

The subject of narrow-gauge railways is one of the most interesting ones now before the public, for if the plan succeeds as well here as it has done in Europe it will undoutedly carry railroad facilities to many localities which would otherwise be deprived of them for years. The experiment is being practically tested, and several roads of three feet gauge are now in course of construction, the most important of which is the Denver and Rio Grande Road, a branch of the Denver Pacific.

This Company is now having four passengers and two baggage cars built at Wilmington, Delaware, at the shops of the Jackson & Sharp Company. The cars are larger than we expected, being thirty-five feet long and seven feet broad, with seats for thirty-five passengers. There are three seats in a row, an ordinary double seat on one side of the passage, and a single seat opposite These are the very largest cars that can be made for such a gauge. The Jackson & Sharp Company are now building one car for a similar road, Muscogee Narrow Gauge Railroad, in Georgia. This car will be thirty feet long by six and a half in width, and carry thirty-two pass ngers. These are the first narrow gauge passenger cars built in this country. The Jackson & Sharp Company have devoted a good deal of attention to this subject, and have an immense amount of data relating to it.—*Balt. Am.*

Milwaukee and St. Paul Railway.

This company now owns in its own right 1,018 miles of track, being an increase during the year 1870 of 103 miles, consisting of the track from Nora Springs to Algona in Iowa, 63 miles, and the track from Mason City in Iowa, to Austin in Minnesota, 40 miles, both purchased—the stocks and bonds of the company being given in payment therefor. The lines of the company are as follows:

	Miles.
Milwaukee to Prairie du Chien	193
McGregor (opp. Pr. du Chien) to St. Paul	212
Milwaukee, via Watertown, to La Crosse	196
Milwaukee, via Horicon, to Portage	95
Horicon to Berlin and Winneconne	58
Watertown to Madison	37
Milton to Monroe	42
Calmar to Algona	126
Conover to Decorah	10
Austin to Mason City	40
Mendota to Minneapolis	9
Total length of track January 1, 1871	1,018

The average length of track in use in 1869 was 858 miles, and in 1870 about 950 miles.

In addition to the mileage here recorded, the company own $2,001,000 of the capital stock of the Western Union Railroad (206½ miles), being a majority of the shares thereof, and hence control that property. The cost to the company of this purchase was $1,500,750, or 75 per cent. of its face value, paid for in the common stock of the Milwaukee and St. Paul Company.

The equipment of the road at the close of 1868, 1869 and 1870 compares as follows:

	1868.	1869.	1870.
Locomotives	133	145	155
Passenger cars, 1st class	64	71	77
" " 2d class	10	10	10
Sleeping cars	6	9	9
Baggage, mail and exp.	53	54	58
Freight, box	2,070	2,273	2,373
Freight, flat and stock	430	480	580

In the following table are shown the mileage of trains, the passenger traffic and the freight traffic on all the roads collectively for the years 1869 and 1870:

	1869.	1870.
Passenger trains	946,786	963,802
Freight trains	2,063,899	2,371,454
Wood and gravel trains	337,874	441,918
Total mileage	3,388,559	3,760,174
Passengers carried	810,903	810,060
Do. carried one mile	45,408,400	43,918,671
Revenue from passengers	$1,781,135	$1,725,154
Freight (tons) carried	1,344,358	1,522,753
Do. carried one mile	157,749,854	181,428,573
Revenue from freight	$4,901,525	$5,148,356
Pass. revenue per mile	3.89 cents	3.88 cents
Freight revenue per mile	3.10 cents	2.82 cents

The following is a comparative statement of the earnings and expenses during the years ended December 31, 1869 and 1870:

Earnings from:	1869.	1870.
Freight	$4,909,525 02	$5,148,355 86
Passengers	1,781,184 77	1,735,153 91
Mail service	78,551 58	80,866 06
Express service	233,691 92	158,879 58
News service	4 950 00	4,950 00
Rents	8,077 11	8,067 01
Telegraph	4,291 61	6,518 15
Extra baggage	8,085 81	7,435 45
Sleeping cars	30,439 00	32 053 50

Total	$4,229,882 11	$4,653,274 29
Gross earnings	$7,250,663 68	$7,421,061 43
Operating expenses	4,229,882 11	4,653,274 29
Net revenue	$3,020,786 57	$2,767,787 14

The gross earnings of 1870, as compared with those of the previous year, show an increase of $170,392 75, and the expenses an increase of

$423,392 18. The net revenue shows a decrease of $252,999 43. The per centage of expenses in 1869 was 58, and in 1870, 63 per cent. Expenses are divided as follows:

	Ordinary.	Extraordinary.	Total.
1869...	$3,545,243 47	$684,638 64	$4,229,882 11
1870...	4,017,826 44	635,447 85	4,653,274 29
Increase.	$472,582 97	.....	$423,392 19
Decrease.	$49,190 79	.....	.....

The earnings and expenses by operating divisions for the two years were as follows:

Gross earnings—	1869.	1870.
La Crosse division...	$2,331,694 64	$2,188,279 99
Northern division...	718,424 39	793,773 76
Prairie du Chien div.	2,513,690 70	2,477,226 93
Iowa and Minnesota division	1,686,858 95	1,957,780 75
Expenses—		
La Crosse division...	1,357,103 70	1,380,519 59
Northern division...	388,589 33	430,843 38
Prairie du Chien div.	1,415,915 07	1,487,820 49
Iowa and Minnesota division	1,068,274 01	1,354,090 83
Net revenue—		
La Crosse division...	974,590 94	807,760 40
Northern division...	329,835 06	366,930 38
Prairie du Chien div.	1,097,775 63	989,406 44
Iowa and Minnesota division	618,584 94	603,689 92

The earnings, expenses and net revenue per mile of road in the two years compare as follows:

	1869.	1870.	Decrease.
Gross earnings...	$8,450 66	$7,674 32	$776 34
Operating exp...	4,929 93	4,812 08	117 85
Net revenues....	3,520 73	2,862 24	758 49

This difference is explained by the large accession of new and comparatively unproductive track brought into operation in 1870.

The expenditures of the company during 1870, not charged to operating account, amounted to $766,729 as follows:

2nd mortgage bonds—sinking fund.....	$72,000
Freight cars, 200; passenger 6 and baggage 4.....	175,065
Locomotives, 10.....	126,450
Purchase of Prairie du Chien ferry.....	71,581
New buildings, turntables, etc., in Iowa.	84,182
New buildings at La Crosse.....	73,172
New buildings at other points on the Mississippi	25,000
New freight house at Milwaukee.....	22,613
Depot grounds at Milwaukee and stock yards	27,589
Draw bridge at Milwaukee.....	4,793
Docks and canals at Milwaukee.....	15,222
Railway around Milwaukee.....	12,436
St. Paul Branch (construction).....	17,465
Right of way on all lines.....	15,113
Engineers bill on other lines.....	4,198
Winter bridge at Prairie du Chien, etc...	15,850

With the reduction which has taken place in the cost of labor and in many kinds of supplies, together with the strict economy thoroughly enforced in all departments, the Directors have confidence that the business of 1871 will exhibit results that will be satisfactory to the stockholders.

The stockholders having authorized the same, the directors declared a dividend from the earnings of 1869, payable February 15, 1870, upon the preferred stock of $7 per share in cash and $3 per share in common stock; and upon the common stock payable at the same time $3 per share in cash and $7 per share in common stock. The dividends so declared increased the common stock from that date $828,900.

With like authority from the stockholders, the directors declared a dividend from the earnings of 1870, payable December 31, 1870, of $7 per share in cash upon the preferred stock and $7 per share in common stock upon the common stock. This latter dividend increased the common stock $747,291.

GENERAL ACCOUNT, DECEMBER 31, 1870.

	$14,214,689 53

That the stockholders may know the exact present (March 1, 1871,) condition of the company, a statement of the bonds and stocks outstanding at date is presented, and the Directors promise that no more bonds or stocks will be issued during 1871. The cost of the Milwaukee and St. Paul Railway (March 1, 1871,) is represented by capital as follows—

Mortgage bonds.....	$18,183,500
Preferred stock.....	10,825,103
Common stock	11,822,878
	$40,831,481
Deduct Western Union R. R. stock...	1,500,750
Cost of 1,018 miles ($38,650 per mile)	$39,330,731

The increase since the statement of Dec. 31, 1869, has been—bonds, $1,028,659; preferred stock, $1,080,835; and common stock, $4,157,774—total increase, $6,267,268.

This increase has been made for the following purposes—

Bonds for purchase of railroad in Iowa (Nora Springs to Algona) 63 miles..		$1,008,000
Preferred stock.....		2,088,835
R. R. 63 miles.....	$504,000	
R. R. (Austin to Iowa line) 11 miles.....	176,000	
R. R. (Mason City to Main line) 29 miles.....	400,000	
Pr. du Chien R. R. stock.....	1,008,835	
Common stock.....		$4,157,774
R. R. 63 miles, ...	$504,000	
R. R. 11 miles.....	176,000	
R. R. 29 miles.....	400,000	
W. Union R. R. stock.....	1,500,750	
Pr. du Chien R. R. stock.....	833	
Dividend on earnings of 1869	828,900	
" " " 1870	747,291	
Total increase Dec. 31, 1869, to March 1, 1871.....		$6,246,609

WESTERN UNION RAILROAD.

As before stated, the Milwaukee and St. Paul Company have acquired a controlling influence in the Western Union Company by the purchase of a majority of that company's stock. This railroad extends from Racine on Lake Michigan, to Savannah and Port Byron on the Mississippi, a distance of 180 miles, and is continued by a 10 mile branch of the Chicago, Rock Island and Pacific Railroad, leased by the Western Union Company, to Rock Island and Davenport. The company also built last year a branch from Eagle to Elkhorn, 15½ miles (opened in October), acquiring thereby a direct Milwaukee connection.

The equipment of the Western Union Railroad consists of—27 locomotives, 12 first-class passenger cars, 14 second-class passenger cars, 4 mail and express cars, 9 baggage cars, 434 box freight cars, and 67 flat freight cars. Total cars, 530.

The operations on the road for the years 1869 and 1870, compare as follows—

	1869.	1870.
Passengers carried.....	231,662	200,800
Freight (tons) moved...	180,787	203,328
Gross earnings.....	$769,712 83	$766,947 85
Operating expenses.....	727,868 68	617,982 51
Net revenue.....	$41,844 15	$148,965 34

The following shows the gross earnings of the road for a series of six years:

1865.....	$688,347	1868.....	$758,685
1866.....	715,954	1869.....	769,713
1867.....	765,075	1870.....	766,987

The cost of the property represented by stocks and bonds is as follows:

Mortgage bonds.....	$3,275,000
Capital stock.....	4,000,000
Cost of road (say $37,000 per mile)...	$7,275,000

Three million dollars of the mortgage debt bears only 3 per cent. interest until July 1, 1873.

President.—ALEXANDER MITCHELL, Milwaukee.

Vice President.—RUSSELL SAGE, New York.

Directors.—Alexander Mitchell, Russell Sage, Fred. P. James, N. A. Cowdrey, Walter S. Gurney, Selah Chamberlain, S. S. Merrill, Julius Wadsworth, James Buell, James G. Garner, Levi P. Morton, F. de Billier and Isaac Sherman.

General Manager.—S. S. MERRILL, Milwaukee.

Sec. and Treas.—R. D. JENNINGS, Milwaukee.

Asst. Sec. and Transfer Agent.—JAS. M. MCKINLAY, New York.

Auditor.—J. P. WHALING, Milwaukee.

Purchasing Agent.—ROBERT WASON, Jr. Milwaukee.

☞ The contract for building a bridge across the Potomac at Shepherdstown has been awarded to Mr. John Wood, of Shenandoah county, Va., by the Maryland and Virginia Bridge Company. The bridge is to be 600 feet long and is to cost $10,500.

☞ Work has been resumed at the Bessemer Steel Works, Troy, the proprietors having received a large cargo of coal,

Commerce of New York.

The foreign imports at New York for the month of April, 1870 and 1871, are officially stated as follows:

	1870.	1871.
Entered for consumpt'n.	$14,423,458	$18,516,940
Do. for warehousing	13,137,232	12,023,501
Free goods	1,006,584	2,094,332
Specie and bullion	805,025	332,888
Total entered at port	$29,372,299	$32,967,661
Withdrawn fr. wareh'use	12,822,634	10,029,482

The foreign imports at New York for the four months from January 1, were:

	1870.	1871.
Entered for consumpt'n.	$54,581,355	$72,321,008
Do. for warehousing	44,421,267	49,400,058
Free goods	3,851,681	10,978,476
Specie and bullion	6,307,002	3,247,569
Total entered at port	$109,161,305	$135,947,111
Withdrawn fr. wareh'se	41,464,468	44,416,476

The foreign imports from New York for ten months ending April 30, were:

	1870.	1871.
6 mos. ending Jan. 1.	$134,708,154	$156,339,208
In January	24,725,375	28,792,062
In February	25,367,998	35,491,824
In March	29,695,633	38,696,064
In April	29,372,299	32,967,661
Total for ten mos.	$243,869,459	$292,286,319
Deduct specie	12,084,204	7,949,254
Total mdse	$231,785,255	$284,337,065

The revenue from customs at New York for ten months ending April 30, were:

	1870.	1871.
6 mos.ending Jan.1.	$61,552,308 75	$67,729,184 75
In January	9,840,502 99	12,010,020 67
In February	11,750,424 06	12,258,147 69
In March	11,977,323 42	15,305,799 14
In April	12,799,598 49	12,535,090 06
Total ten months.	$107,920,157 71	$119,838,242 31

The exports from New York to foreign ports in the month of April, were:

	1870.	1871.
Domestic produce	$13,741,650	$17,923,694
Foreign free goods	45,157	97,823
Do. dutiable	911,018	908,557
Specie and bullion	1,698,616	9,593,029
Total exports	$16,396,441	$28,523,103
Do. exclusive of specie.	14,697,825	18,930,074

The exports from New York to foreign ports for four months from January 1, were:

	1870.	1871.
Domestic produce	$51,720,709	$75,765,888
Foreign free goods	205,532	292,138
Do. dutiable	3,547,991	2,588,998
Specie and bullion	8,097,865	23,334,186
Total exports	$63,572,097	$101,981,210
Do. exclusive of specie.	55,474,232	78,647,024

The exports (exclusive of specie) from New York to foreign ports for ten months ending with April 30, were:

	1870.	1871.
Six mos. ending Jan. 1.	$109,954,573	$107,654,919
In January	12,893,166	18,837,876
In February	11,940,146	18,789,742
In March	15,943,095	22,139,332
In April	14,697,825	18,930,074
Total produce	$165,428,805	$186,301,943
Add specie	24,754,420	64,685,061
Total exports	$190,183,225	$250,987,004

☞ The new Railroad Bridge over the Mississippi River at Winona, Minn., is completed, and the first train passed over it on the 26th ult.

Railroads of Michigan.

(Abstract of the Annual Reports to the State Auditor General September 1, 1870.)

Railroads.	Capital Account.—Stocks.	Bonds.	Debt.	Total.	Miles of Road—Total.	Oper.	Cost of Road & equipment.	Applied to Construction.—Municipal aid.	Nett earn'gs.	Aver. price per acre.	Cash paid on lands.

Hudson Highland Suspension Bridge.

The *Albany Evening Journal*, of May 22d, says it is announced that the "Hudson Highland Suspension Bridge Company," chartered by the Legislature of 1868-'69, has begun operations. The books for subscriptions to the capital stock, which is fixed at $2,500,000 were formally opened on the 17th of May, and plans for action in preliminary matters have been adopted. The contracts for material and work are under advisement. The bridge will be commenced early in the Summer, and will probably be finished before the 4th of July, 1875.

The location was determined upon by the following Board of Engineers: Horatio Allen, George B. McClellan, H. G. Wright, Q. A. Gilmore, E. W. Serrell, Egbert L. Viele, Charles B. Stewart, Julius W. Adams, William J. McAlpine, and O. H. Barnes. The place selected is from Anthony's Nose, on the east bank of the Hudson, four miles above Peekskill, and forty-three miles from New York, across to Fort Clinton, on the west bank, four miles below West Point. This is at the narrowest part of the Hudson River between New York and Albany. The bridge will be in one span of 1,600 feet from shore to shore. Comparatively little masonry will be required in the abutments, as the solid granite mountain bases on either side afford excellent natural supports.

The length of the bridge between the towers will be 1,666 feet; total length, including approaches, 2,449 feet; height above the water level, 155 feet; safe-working load for the railroad trains, 2,400 tons; safe load for highways, 2,880 tons; load that would break the bridge, 25,171 tons. Two granite towers of immense strength will be built on each abutment, and will rise 280 feet above the water level. Over these will be strung the upper main cables, the ends of which will be deeply anchored in the solid granite mountain side. There will be 20 main cables in four systems, each cable being about 14 inches in diameter and composed of a new steel combination wire in many strands. These cables will contain 371,195,750 feet, or about 70,302 miles. The total weight of iron and steel used will be 1,750 tons, with a suspended weight of 9,651 tons. The total amount of masonry will be 58,048 cubic yards.

This structure will be a combination of truss and cable, and will safely support a train of 60 cars, and 35,000 people. The amount of weight that could be crowded upon on it at once will be but one-sixth of its supporting capacity. There will be two decks, or floors, the upper for the railroad, the lower as a highway. The elevation above the water level is far higher than the tallest masts of passing vessels. The appearance of this great bridge will be exceedingly graceful and imposing.

An immediate connection is to be made with the Erie Railway, at or near Turner's. The distance is but 12 miles, and the route lies through a very productive iron region, with a favorable grade toward the river, at Fort Clinton. A short branch, three miles in length, will connect with the Hudson River Railroad at Peekskill. The direct air-line eastward, the New England Railway, will continue on to the Connecticut State line, passing near Lake Mahopac, and crossing the Harlem Railroad at Brewster's. Thus a continuous rail route between the Eastern States, the Pennsylvania coal-fields, and the grain-tracts of the great West will obviate all the existing disadvantages of ferrying and breaking bulk. It is estimated that 6,000,000 tons of coal will pass over this bridge annually, saving an enormous waste and vast expense. Coal can thus be brought by rail—as is the case in Philadelphia—direct from the mines to the retail yards. This, of itself, is an important item to New York. The same benefit accrues in the case of iron, grain, general merchandise, and passengers.

It is difficult to estimate the durability of such a bridge. General Serrell, the Engineer-in-Chief, says that it will last for centuries. There is a suspension bridge in France that was built four hundred years ago, and one in Pekin, China, two thousand years old, both of which are now in serviceable condition. The Hudson-Highland Bridge will have the longest span in the world, and will cost about $2,000,000.

New York (Viaduct) Railway Company.

At a meeting of the newly elected directors of this company on the 29th ult., a temporary organization was effected by the election of A. T. Stewart Chairman, and Richard B. Connolly Secretary. The certificates of election of the directors were read by Henry Hilton. The resignation of Wilson G. Hunt as a director was accepted.

Mayor Hall offered a resolution that the officers of the company be a President, Vice President, Secretary, and Treasurer. Henry Hilton was elected President; Hugh Smith, Vice President; Edward P. Barker, Secretary; William B. Duncan, Treasurer.

Mayor Hall said that in accordance with the charter of the company, the directors were to be elected by ballot, for terms ranging from one to five years in duration, and that, as the total number of directors was 25, they could be subdivided into five bodies of five members each. He therefore proposed that 25 tickets bearing the names of the directors be placed in one hat, and 25 tickets inscribed with numbers in another, and that Richard O'Gorman and Charles L. Tiffany should be appointed to draw tickets alternately from each hat, thus deciding the number of years each director was to remain in office. The motion was adopted with the following result:

Directors for five years—Henry Smith, Henry Hilton, Franklin A. Osgood, John T. Johnson, and William B. Duncan. For four years—Levi P. Morton, Hugh Smith, Wilson G. Hunt, William M. Tweed, and John Q. Jones. For three years—John Jacob Astor, A. T. Stewart, William T. Blodgett, August Belmont, and J. F. D. Lanier. For two years—J. J. Bradley, John F. Navarro, Edward B. Wesley, Richard B. Connolly and Charles L. Tiffany. For one year—Peter B. Sweeny, A. Oakey Hall, Richard O'Gorman, William R. Travers and Charles A. Lamont.

Manton Marble was elected a director in the place of Wilson G. Hunt, resigned.

On motion of Mayor Hall, it was resolved that the books of subscription be opened at the office of the company under the direction of Messrs. Stewart, Astor and Morton, as commissioners for the company, and that all subscribers or holders of stock subscribed for within ninety days after the opening of the books shall be entitled (pursuant to section 13 of the act of incorporation) to interest at the rate of seven per cent. on the amount or amounts paid to the Treasurer in pursuance of their subscription, from the date of the payment or payments respectively to the time when one branch of the railway shall be completed and in operation from Chambers street to Eighty-sixth street, and that scrip therefor be issued in conformity with said act.

Messrs. John J. Serrell and Leopold Eidlitz were chosen engineers of the road.

The President appointed the following committees:

By laws—Messrs. O'Gorman, Wesley, Hugh Smith, Travers and Lamont.

Accounts—Messrs. Johnston, Jones, Navarro, Tiffany and Bradley.

Executive Committe—Messrs. Stewart, Hall, Astor, Tweed and Sweeny.

Finance—Messrs. Belmont, Morton, Blodgett, Connolly and Lanier.

It was voted to lease the premises No. 261 Broadway, for a term of three years, at an annual rent of $13,000, for the use of the Board.

The Board then adjourned.

Poughkeepsie and Eastern Railroad.

Twenty-one miles of the main line of this road, extending from Poughkeepsie to Stissing, was opened to freight and passenger traffic in December last, and the remaining distance of 24 miles—reaching to the Connecticut State Line, where it forms a connection with the Connecticut Western Railway—is now in process of graduation. Twenty-five hundred tons of rails have already been purchased, and it is the purpose of the directors to open the line to travel by January 1, 1872. The road thus far has cost, including grading, right of way, fencing, freight and passenger depots, three first-class engines, five passenger coaches and thirty freight cars, but $30,400 per mile. It is carrying on an average 7,500 passengers per month, and doing a large freight business—the receipts aggregating $270 per day. The road is mortgaged for $17,000 per mile, the bonds bearing seven per cent. gold interest, having forty years to run. The bonds are selling as rapidly as the wants of the company required at 90, which price is to be advanced to 95 on the 1st of July, provided there remain any unsold—when the Bridge over the Hudson River at Poughkeepsie is constructed, this road will become a link in the shortest line east and west from Boston to the coal fields, and the great west.

☞ A letter to the Boston *Journal* dated Portland, Me., May 26th, 1871, says: "The Boston and Maine Railroad extension survey is progressing satisfactorily, having reached Scarboro', within a few miles of this city. The engineers are making several different surveys from South Berwick Junction and Salmon Falls. The result, we are informed, is highly advantageous, as to construction, operation and nearness to business centres and the seaside resorts. The extension will be put under construction as soon as possible after the route is agreed upon.

☞ Richard Rudolph and Charles Danbridge, engineers sent by the Baltimore and Ohio Railroad to examine the route of the proposed South Branch (W. Va.) narrow gauge railroad, report, according to the South Branch *Intelligencer*, that they find a practicable route, on which the road can be constructed at moderate cost, about fifteen miles in length.

☞ Track laying has been commenced on the Baltimore and Potomac Railroad, starting from the Annapolis road crossing, and going both ways, one set of hands working towards Washington and the other toward Baltimore.

☞ The line of the Shenandoah Valley Railroad from Shepherdstown to Charlestown has been located.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, June 3, 1871.

Stock Exchange and Money Market.

There has been a steady increase in the supply of Money available to street and mercantile borrowers, whose wants have been seemingly less urgent, and have been very promptly met within the unusually low range of 2@5 per cent. in call loan form, and 4½@7 per cent. per annum in the discount line. The banks, as well as private lenders, have been offering funds to the leading Government and Stock Exchange firms, quite freely at exceptionally cheap rates, and in the absence of anything like an adequate demand, the tendency throughout the week has been favorable to the borrowing interests. The city banks, last week, reported a gain of $117,301 of specie, $1,709,096 legal tender notes and $4,896,744 of deposits. They enlarged their loan and discount averages $2,005,107 and reduced their circulation $133,722. The city bank exchanges, last week, averaged $110,718,225; and thus far, this week, 115 millions daily. The banks now hold $16,220,031 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The United States Sub-Treasury reported a loss of $1,298,621 of coin, and of $325,933 in the currency balance. The receipts of the office last week were $5,147,296 in coin, and $4,790,898 in currency; payments $6,445,917 in coin, and $5,116,831 in currency. The office received $2,672,000 in coin or its equivalent, from customs; and disbursed $2,778,539 of coin interest.

The specie reserve of the city banks according to the latest return is $15,380,114, against $32,728,035 same time last year. The city bank deposits are now $238,490,760 against $228,039,345 week ending May 28, 1870. The legal tender reserve amounts to $68,230,418 against $61,618,676 same time last year. The circulation now stands at $31,071,244, against $33,249 818 same time last year. The loans are now $291,441,638, against $279,550,743 at this date last year.

The subscriptions to the new refunding Five per cent. Loan now amount to about 66½ millions.

The U. S. Sub-Treasurer retired, last week, $2,338,914 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $4,542,357 in currency, and $57,815,268 in coin against a balance a week previous of $7,033,394 currency, and $57,885,346 coin.

The receipts of the office in May were $64,193,642 including $12,157,163 from customs; payments, $79,603,439 including $15,496,092 of coin interest.

Government revenues have been yielding moderately since our last. The excises yielded about 2¾ millions. The customs at the port of New York, last week were $2,556,914; and at the outports, equal to about $870,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been about $130½ millions.

Under the Treasury programme for June, Government will sell during the month, through the Treasury office here, at least seven millions of Gold as follows: Thursday, June 1, $2,000,000; Thursday, June 8, $1,000,000; Thursday, June 15, $2,000,000; Thursday, June 22, $1,000,000; Thursday, June 29, $1,000,000. And buy in four millions of Five-Twenties, as follows: Wednesday, June 7, $1,000,000; Wednesday, June 14, $1,000,000; Wednesday, June 21, $1,000,000; Wednesday, June 28, $1,000,000.

Gold has shown considerable firmness, though the demand has not been remarkably active, from any source. The speculative call has been moderate. The export inquiry has been less extensive. The customs drain has been on a restricted scale. The range of the price, during the week, has been from 111¼@112, and the closing quotation on Wednesday was 111⅞, against 111½ the preceding Wednesday. The outflow, last week, was $1,913,071; on Tuesday of this week to $380,000, and on Wednesday, to $181,722. The Gold Exchange Bank clearances have been about 30⅜ millions a day. Thursday's clearances were about 34⅞ millions, as against 18⅞ millions on Monday.

The Treasury Department balances, on Tuesday morning, were $92,266,000 of coin, including $17,812,000 represented by outstanding certificates; and $7,380,000 of currency.

The customs at this port on Wednesday were $652,000.

The export drain was $1,913,071 last week, against $2,046,059, same week preceding year. The shipments since July 1, 1870, have been $78,653,173, against $28,909,536 same time in 1869–'70.

The Government Gold sales in June will be in

excess of the Bond purchases, and, according to the official programme, will add materially to the currency reserves of the Treasury Department, which have been for some time under seven millions a small amount, especially when it is considered that nearly two millions of currency interest will be payable by the Department on the 1st of July.

The customs demand for Gold last week, averaged $445 334 a day; thus far, this week, it has averaged $430,000 a day, or equal to a weekly aggregate of $2,580,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $678 and since Jan. 1 1871, $3,025,028 against $6,942,245 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $135,585,438, against $123,497,360 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $82,833,144 against $83,932,641 same time in 1869–'70.

Foreign Exchange has been dull and weak, since our last, thou h closing rather steadier. Bankers' sixty day bills on London closed on Wednesday at 110⅛@110⅜; sight bills on London, 110½@110¾.

The produce exports from this port, week ending with May 30, were to the currency value of $4,162,140.

Government securities have been in fair request and firmer in price, on a very meagre offering of bonds.

On Wednesday, Government bought in two millions of Five-Twenties at 111 10@111 50, ex-interest. The amount of bonds offered was $4,053,300.

U. S. sixes of 1881 closed here on Wednesday of the current week at 117¼@117⅜; U. S. Five-Twenties of 1862, 111¾@111⅞; U. S. Five-Twenties of 1864 at 111¾@111⅞; U. S. Five-Twenties of 1865, 111¾@111⅞; U. S. Five-twenties of 1865 consolidated, 113⅞@114; U. S. Five Twenties of 1867, 114@114⅛; U. S. Five-twenties of 1868, 114@114⅛; U. S. Ten-forties at 109⅞@110; U. S. Six per cent. currency bonds, 115¾@116.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 17.	May 24.	May 31.
Consols	93⅜	93⅛	93 2/16
U.S. 5-20's of 1862	90⅜	90 7/16	90⅜
U. S. 5-20s, 1865	90⅛	90⅛	90⅛
" 1867	92⅜	92 7/16	92⅝
" 10-40s	89¼	88¾	89
Erie		25⅜	25¼

The Commissioner of Internal Revenue has decided to order the New York Central and Hudson River Railroad Company to pay the 5 per cent. tax, so long under discussion on the $23,000,000, which constituted the eighty per cent. scrip dividend of December, 1868.

State bonds have been in fair demand and held with firmness.

Railway bonds have been in more general request, on investment account, and quoted stronger in price. Central Pacific Sixes closed firmly at 102⅞@103, with a very limited amount of the bonds available at the current figures, owing to the recent extensive purchases for shipment to Europe, chiefly to Germany. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been actively dealt in and have been advanced to 92 per cent. and accrued interest, the recent sales having been largely in excess of the money requirements of the company. Union Pacific Sixes closed at 92⅞@93.

Business in Railway and miscellaneous share property has been fairly active but quite variable as to price.

General business has been less active, and values have been irregular. Middling upland cotton closed on Wednesday at 17⅞ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,757,167 bales, against 2,712,135 bales same time last year; exports 2,900,220 bales, against 1,950,539 bales same time last year; stock at the ports at latest dates, 324,853 bales, against 287,135 bales same date 1870.

At the Live Stock Markets, Beeves have been in limited demand at from 9@13½ cts; Veal Calves, in moderate request at 4@9½ cts; Sheep at 4½@8 cts; Lambs at 7½@12½ cts; Swine, 5@5¼ cts per lb., all live weight. The week's receipts were 7,230 Beeves, 4,750 Veal Calves, 20,590 Sheep and Lambs; and 23,629 Swine.

Foreign goods have been quiet moderately sought after at about former prices, in the leading instances. The week's imports of foreign goods reached $8,209,446 including $3,222,588 of dry goods.

Ocean freights have been less active and Grain rates, especially by steamships, have been quoted lower, and somewhat irregular.

At the auction sale of Scranton Coal on Wednesday—the first this season—80,000 tons were quickly disposed of at from $4.60@$6, per ton of 2,240 lbs. delivered at Elizabethport, N. J.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Atlantic, Mississippi and Ohio Railroad.

We learn from the Richmond *Whig* that arrangements have been made for the extension of this road to the Kentucky line at Cumberland Gap, where it will be met by an extension of the Louisville and Nashville Railroad. The gap to be filled is one hundred and fifty miles long, of which less than sixty miles are in Kentucky, to be constructed by the Louisville and Nashville Company, and less than ninety are in Virginia to be constructed by the Atlantic, Mississippi and Ohio. The *Whig* is the authority for the statement that the above arrangements have been agreed upon, the details to be settled by a committee which left Lynchburg, Va., for Louisville on the 29th of May on behalf of the Virginia road.

☞ Messrs. FISK & HATCH have announced that in accordance with the instructions contained in the following letter, the price of the *Six per cent. Gold Bonds* of the *Chesapeake and Ohio Railroad Company* is advanced to 92 and accrued interest, until further notice:

OFFICE OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY,
No. 54 William st., New York, May 27, 1871.

Messrs. Fisk & Hatch, Financial Agents, Chesapeake and Ohio Railroad:

GENTLEMEN: I notice that the sales, from day to day, of the First Mortgage Bonds of the Chesapeake and Ohio Railroad Company are much in advance of the expenditure of the Company for construction. For this, and the additional reason, that the Directors think the present price quite too low for so valuable a security, you will sell none after this date for less than 92 and accrued interest, at which price you will please sell until further notice.

C. P. HUNTINGTON, President.

☞ The Baltimore *Sun* says that the Chesapeake and Ohio Railroad of Virginia has definitely arranged to push on its connections through Kentucky *via* Lexington and the Big Sandy route.

BANKING AND FINANCIAL.

☞ THE NEW ORLEANS, MOBILE AND TEXAS RAILROAD COMPANY are building a trunk line, connecting New Orleans with Mobile on the east, and giving the only railroad connection between the former city and the great and most productive State of Texas on the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly $10,000,000 of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles constituting the Texas division; leaving but 140 miles to be built to complete the entire road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the eight per cent. mortgage bonds upon the Louisiana Division of 226⅔ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by indorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over $8,000,000.

The bonds now offered are of two classes—first mortgage bonds to the amount of $12,500 per mile, and second mortgage bonds, to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired. No better security has been offered to investors. The line is a good and important one, and the stockholders have proved their determination and ability to carry the work to an early and successful completion by the very large amount they have themselves put into it.

The bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in new Government Five Per Cents, into which the Government Sixes are being funded by the Secretary of the Treasury.

At the same price an eight per cent. currency long bond is far cheaper than a seven per cent. gold one. Calculating a return to specie payments in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—forty-five years—we find that by compounding the interest of each, every six months, at 7 per cent., an eight per cent. currency bond at ninety will give a return of $2,614 18 more than a seven per cent. gold bond at the same price, or nearly three times the amount of the original investment.

While the purchaser of the eight per cent. bonds of this Company can realize this special profit, he also holds the option of taking advantage of any temporary advance in gold, as he has choice, at every separate coupon day, or gold interest at seven per cent., or currency interest at eight per cent.

The bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is ninety, and accrued interest at eight per cent. currency from May 1 to date of remittance. Bonds will be sent free of cost, and Government and all marketable securities will be taken in exchange at their best market rates without charge for selling.

Information concerning the Company and the road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents. W. B. SHATTUCK, Banker and Financial Agent, New Orleans. Mobile and Texas Railroad Company, No. 23 Nassau street, New York.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES.

No. 5 NASSAU-ST.,
NEW YORK, June 1, 1871.

THE CHESAPEAKE AND OHIO RAILROAD COMPANY are extending their line of road to the head of reliable navigation on the Ohio River, where it will meet and connect with lines now building or projected, to the principal railroad centres and river cities of the Western States. 227 miles are in operation, and the iron for 100 miles additional is now being laid. The road will have, when completed, a large East and West through business, beside an immense mineral and general local traffic.

The SIX PER CENT. GOLD BONDS of the CHESAPEAKE AND OHIO RAILROAD COMPANY are amply secured, and very desirable for safe and profitable investment.

The CENTRAL PACIFIC BONDS, negotiated by us, amounting to $25,885,000, have a ready market everywhere, being favorably known and actively dealt in at all the principal Stock Exchanges of this country and Europe, and are readily salable at all times at quoted market price, which is now above par.

The bonds of the CHESAPEAKE AND OHIO RAILROAD Co. we believe to be of equal value and security, and must in time take a like rank in market value and salable character.

Holders of five-twenty bonds desiring to fund them otherwise than in the new Five per Cent. Government Loan may do so with entire safety, at a profit of about 20 per cent., and without reduction of interest, by an exchange for the Bonds of the CHESAPEAKE AND OHIO RAILROAD Co.

Price of the bonds, until further notice, 92 and accrued interest from May 1.

We also buy and sell Government Securities and the Bonds of the Central Pacific Railroad Co., and as agents of the U. S. government will attend to the funding of 5-20s into the new U. S. Bonds.

FISK & HATCH.

Journal of Railroad Law.

RAILROAD COMPANIES—LAW OF NEGLIGENCE—PLAINTIFF'S NEGLIGENCE MUST NOT CONCUR.

The case of Toledo, Peoria and Warsaw Railway Company *vs.* Riley, (47 Ill., 514,) was an action on the case, brought by appellee, against the appellants, in the Circuit Court of Peoria County, to recover damages for alleged injuries sustained by appellee, while attempting to cross the track of appellants, from a collision with one of its trains. The cause was tried before a jury, who found a verdict for the plaintiff for $760.00. A motion for a new trial was overruled, and judgment rendered on the verdict, to reverse which, the case is brought by appeal to this court.

The following is the able opinion of the Court delivered by

WALKER, J.—The only negligence attributable in this case to the railway, is the failure to ring the bell, or sound the whistle, for the required time, about which the evidence is contradictory. But assuming the bell was not rung, nor the whistle sounded the question recurs, whether the plaintiff was not himself guilty of a degree of negligence which should bar his recovery, and on that point, we are of opinion the case should be submitted to another jury.

The plaintiff had been to Peoria, with a load of wood, and was returning home, in the afternoon. By his own statement he had been drinking somewhat freely of whiskey, and the testimony of other witnesses shows he was in such condition that he paid no attention to the shouting of two persons, only ten or twelve steps from him, just before he crossed the track. The evidence further shows that the railroad track was in full view as he approached it, a train being visible 1,145, feet from the crossing, by a person on the highway ten feet from the track, a train being nine hundred feet from the crossing. It is evident then, that the plaintiff, by the exercise of even less than ordinary prudence, might have discovered and avoided the approaching train. He did not do this, but either in a state of partial stupefaction from drink, or acting with a reckless temerity utterly inexcusable, he undertakes to cross, with the train in full view, if he had but looked along the track, thus wantonly imperiling not only his own life, but that of the passengers on the train. While the highway traveler cannot be required to leave his vehicle, or adopt any other unusual means to discover an approaching train, he cannot be permitted to voluntarily close his eyes to danger or to rush into it with utter recklessness, and then claim compensation for injury.

No exception is taken to the instructions, but the jury, in our opinion, disregarded them, and there should be a new trial.

Judgment reversed.

☞ The Portsmouth, Great Falls and Conway Railroad is taking measures to extend its track from West Ossipee to Conway, and work will soon be begun on that part of the line. The northern terminus of this road is at Gorham, connecting with the Grand Trunk in that town. The road passes close to the Glen House, and that property, it is estimated, would be enhanced in value $50,000 by the opening of this route from the mountains to the beaches. When the road is completed, passengers can make a round trip from Boston to the mountains by way of the Boston, Concord and Montreal Railroad, and return by this route, all the way by rail, except the descent from Tip Top, Mount Washington, to Glen House.

California Pacific, Eastern Extension.

A new company has been incorporated in California, under the name of the "California Pacific, Eastern Extension Company," with a capital of fifty millions of dollars, for the purpose of constructing a railroad from Davisville, on the line of the California Pacific Railroad, 12 miles distant from Sacramento, to or near Ogden on the Union Pacific Railroad. The certificate of incorporation was filed on the 22d ult. The incorporators are: Milton S. Latham, J. Friedland, W. F. Roelfsen, Colonel John B. Frisbie and Julius May, of San Francisco, and Rudolph Sulzbach, of Frankfort-on-the-Main. The company organized on the same day by the election of William F. Roelfson, president; Colonel J. P. Jackson, vice-president; Milton S. Latham, treasurer; Colonel W. H. L. Barnes, secretary. The San Francisco *Bulletin*, of 18th ult., has the following in reference to this project:

For some days past rumor has been busy on the street with a reported project for the immediate construction of another transcontinental railroad. From careful inquiry we have arrived at the conclusion that for once rumor is not far from right, and that such an enterprise has actually been determined upon by parties possessing abundant capital and the requisite energy and talent to carry it through. The parties who would necessarily be best posted on the subject decline to give any particulars for the present concerning it, but do not deny the general truth of the report. The probable facts, as we gather them from various sources, are these:

The combination which already includes the Pennsylvania Railroad and its connecting lines with New York, the Pittsburg, Fort Wayne and Chicago Railroad, the Chicago and Northwestern Railroad, and the Union Pacific Rrilroad, forming one continuous line, with uniform gauge, from New York to Ogden, have determined to complete a through line from Ogden to the Pacific, independent of their present connection with the Central Pacific. With this object in view, an association of Eastern and European capitalists have subscribed the requisite capital, and will immediately incorporate a company under the laws of California, to construct a road from Davisville, on the California Pacific Railroad, 12 miles west of Sacramento, northward to the California and Oregon line, passing west of Beckwourth Pass, thence by an easy grade around the southeastern side of Goose Lake, thence to the Christmas lakes, thence eastward, through Southern Idaho, on the northern side of the valley of Snake River to a point northwest of Salt Lake, whence it will bend southeastwardly, and run to Ogden, or some other point on the northeast of that place, and unite with the Union Pacific. We may be misinformed as to some of the points on the road, but the line, if built, will run on the general route we have laid down. The new road is to be designated "California Pacific, Eastern Extension," and will be organized and run as a separate company from, though identified with, the California Pacific, and really originating from it.

This line will be about 1,000 miles in length, or in the vicinity of 100 miles longer than the Central Pacific and Western Pacific line from San Francisco to Ogden; but it will avoid the heavy grade by which the latter crosses the Sierra Nevada, and will pass through a country capable of affording a large local business. All Northern California would be reached by it; a connection would be made at or near its northern bend, with one or more roads from the mouth of the Columbia, and, possibly, Puget Sound, and probably, eventually with branch roads for Northern and Central Idaho. We understand that the money required will be furnished by German capitalists, and that the London and San Francisco Bank will be the financial agent of the enterprise. Subscriptions to the stock have been already obtained, and bonds will be issued to secure the required loan.

Railroads in Iowa.

(Compiled from the State Treasurer's Annual Report.)

Name of Road.	Miles in length.	Earnings in 1870.
Burlington and Missouri River	349.60	$2,156,769 20
Cedar Rapids and Missouri River	274.24	1,865,167 08
Chicago, Iowa & Nebraska	81.84	1,220,882 32
Dubuque & South Western	54.76	190,747 87
Dubuque and Sioux City	142 88	1,185,632 02
Chicago, Rock I. & Pacific	369.85	2,227,337 17
Des Moines Valley	248.49	803,835 22
Keokuk and St. Paul	42.03	134,555 59
Milwaukee and St. Paul	250.00	906,812 06
Cedar Falls and Minnesota	75.57	141,100 98
Sioux City and Pacific	80.00	236,733 85
Kansas City, St. Joseph & Council Bluffs	54.88	277,312 00
Burlington, Cedar Rapids and Minnesota	144.00	172,605 20
St. Louis and Cedar Rapids	41.37	56,377 80
Central R. R. of Iowa	151.00	103,354 17
Iowa Falls and Sioux City	183.69	228,390 03
Chicago & South Western.	45.84	13,108 43
Davenport and St. Paul	43.00	7,588 72
Sabula, Ackley & Dakota.	20.05	321 00
Iowa Midland	30.00	3,724 23
Total	2,683.09	$11,932,352 94

Statement of mileage and earnings for 9 years:

Dec. 31.	Miles of road.	Earnings. Amount.	Earnings. Per mile.
1862	626	$1,109,346 34	$1,772 11
1863	653	1,570,546 55	2,405 12
1864	727	2,553,699 91	3,572 65

1870	2,683	11,932,352 94	4,447 39

☞ The new Railroad Bridge over the Missouri River at St. Charles, was formally opened on the 29th ult. The train consisted of eight locomotives and nineteen cars, crowded with people, all on the bridge at one time. The extreme length of the bridge and approaches is 6,570 feet, and of the bridge proper 2,179 feet. It has seven spans, and has been two years and eight months building. It is leased by the North Missouri Railroad Company, and will enable the company to shorten the time three hours between St. Louis and Ottumwa, Iowa.

☞ The contract for the graduation, ballasting, masonry and bridging of the Salisbury and Baltimore railroad, running from Myer's Mills to Salisbury in Somerset county, Pa., was, on the 24th ult., awarded to Messrs. John and Chas. Donahue, of Altoona, Pa., who have recently completed extensive contracts on the P. & C. R. R. The road is 10½ miles in length, and runs through the coal fields said to have been discovered in that region.

☞ J. F. Gatewood, R. W. Martin, L. C. Gause, R. S. Gantt, O. S. Dillon, E. M. Phillips and J. McL. Barton, have been elected directors of the White River Valley and Texas Railroad.

New Orleans, Mobile and Texas Railroad Company.

The North is just beginning to learn the capacity of the South. The four south-western States of Alabama, Mississippi, Louisiana and Texas constitute a vast district, which is enormously productive; whose resources for cotton, sugar, molasses, rice, wheat, corn and cattle-raising are almost unlimited; which have within their bounds the great commercial cities of the Gulf, but which country has not one-tenth of the population which will yet find room and profitable employment in their great areas. As railroads have made the Western States populous and prosperous, so railroads connecting the great agricultural regions of the south-west, with their natural markets and shipping ports, are to be the main agency in increasing the wealth of the South, and, in turn, the roads will find large profit in the traffic which will follow their opening.

The New Orleans, Mobile and Texas Railroad Company is composed of strong capitalists, who saw the promising field for the employment of capital, and who have already expended not less than ten million dollars in the work, without asking the public to buy a Bond or a share of stock. They have built, equipped and opened to profitable business the 140 miles of the road connecting Mobile and New Orleans (the only railway line between those two important commercial cities), and are now vigorously pushing the work west of the Mississippi River. The road is to run from New Orleans to the Sabine River (226 miles), and thence to Houston, Texas (108 miles), making the total distance from Mobile to Houston 475 miles. All of this distance is through a productive region, which will ensure profitable local traffic, while the through transportation of Texan products will tax all the facilities of a railroad.

Among the leading stockholders in the Company are Hon. E. D. Morgan, of New York, Hon. Oakes Ames, of Massachusetts (who are the trustees under the mortgage); Hon. John A. Griswold, of Troy, N. Y.; Messrs. Morton, Bliss & Co.; J. and W. Seligman & Co.; L. Von Hoffmann & Co.; James H. Banker and Harrison Durkee, bankers, of New York, and others whose names are a guarantee of careful and honorable management. Having disbursed very largely of their own means, as above noted, without asking help from the public, the Company now offer for sale their First Mortgage Bonds, limited by law to $12,500 per mile, and Second Mortgage Bonds, to an equal amount, principal and interest guaranteed by the State of Louisiana. They have forty-five years to run, and pay interest at the rate of seven per cent. gold or eight per cent. currency, at the option of the holder, at the time when each coupon is due, thus securing a long time investment at a far more liberal rate of income than can be realized from Government Bonds; while the refunding of the Five-Twenty Six Per Cents into the new Government Fives, which is progressing rapidly, will make the difference in favor of the N. O. M. and T. Bonds still more marked.

Mr. W. B. Shattuck, who was prominently engaged in the negotiation of all the Government loans, and who followed up his eminent success in the National securities by rapidly negotiating the Union Pacific first mortgage Bonds, and more lately, the Bonds of the Central Railroad of Iowa, of which he was Treasurer, has been appointed Financial Agent of this Company, and sets forth some of the strong points of the enterprise in another column.

The pamphlet just issued by the Company, and which may be had of the advertised agents, gives full details concerning this promising enterprise, and to it we refer our readers for further information.

Bedford and Bridgeport Railroad.

The Philadelphia *Ledger* understands that the Bedford and Bridgeport Railroad Company has made an agreement with the Pennsylvania Railroad Company, by which the former company is to grade and bridge its road from Mount Dallas, the present southern terminus of the Huntingdon and Broad Top, southwestward about 30 miles to Bridgeport, on the Pittsburg and Connellsville Railroad, about eight miles from the Maryland line. The Pennsylvania Railroad Company is then to complete the road, receiving therefor the other company's bonds. The Pennsylvania company further agrees to extend the road to the Maryland line within three years, in the direction of the Cumberland coal mines, provided that a road shall be built from those mines to meet them. It is proper, adds the *Ledger*, to mention in this connection that the movement above noticed, or something else, has greatly quickened the credit of the securities of the Huntingdon and Broad Top Railroad Company. Two large iron furnaces have been recently built on the line of this road, and active efforts are now making to develop the valuable iron ores, and coal with which the region abounds. The proposed extension of road will also add largely to the old road, and make it more than ever the interest of the Pennsylvania Railroad Company to absorb it by lease or purchase.

☞ A narrow Gauge locomotive is now in course of construction at the machine shops of Thomas H. Paul, at Frostburg, Md., which, when completed, will weigh but eight tons. It is being built for the Franklin Coal Company, of Alleghany county, and will be used in hauling coal from the mines to the C. & P. R. R., over a road having a three-foot gauge.

☞ We learn from the Jackson *Clarion* that the railroad, building from Vicksburg to Shreveport, has been extended to, and that trains are now running from Delta, opposite Vicksburg to Monroe, La., connecting with coaches from Shreveport and other points in Northern and Eastern Texas. This is a link in the Southern Pacific road.

☞ The Baltimore *Sun* says that the bonds issued by the city of Frederick for its subscription to the Frederick and Pennsylvania Line Railroad are being taken with some freedom by local investors at 92.

☞ The Southern Pennsylvania Railroad is almost completed as far as Mercersburg, and will be opened for traffic in a few weeks. It has been leased to the Cumberland Valley Railroad Company.

☞ The contract for the construction of a new bridge, 640 feet long, over the Androscoggin River at Lewiston, Me., has been given to George Hanson, for $29,313.

☞ The Vermont and Canada Railroad Company will increase its capital June 1st from $2,500,000, to $3,000,000, each holder of five old shares, May 16, being entitled to one new one at par.

☞ The Hackensack and New York Extension Railroad, a branch of the Erie Railway, was formally opened on the 26th ult.

West Wisconsin Railroad.

This important air line railway, between St. Paul and Chicago, will probably be completed this summer. Several hundred men are now at work between Menominee and Hudson, and the line will strike the St. Croix by August or September next. Between St. Paul and Hudson the road is now being surveyed, and the capitalists of St. Paul, who are awake to their interests, and know full well how prominent a position this road will take in the great railroad system now centreing at this point, will see that this end of the line shall be constructed in time to meet the track-layers as they emerge from the woods of Wisconsin on the banks of the St. Croix. The railroad bridge at Hudson will also soon be under way, and there is every reason to believe the West Wisconsin road will this year be entirely completed, and thus bring St. Paul and Chicago in close connection.

The West Wisconsin Company have contracted with the Wason Car Manufacturing Company at Springfield, Mass., for 150 passenger and freight cars, one-half of which have been delivered, and are now running on their road. Their locomotives are furnished by the Baldwin Locomotive Works at Philadelphia. The Chicago and Northwestern Company have negotiated a loan of between three and four millions mortgage on their line from Madison to Tomah, and have now more than 1,200 men at work to fulfil their part of the contract for this air line from Chicago to St. Paul. When this road, with the West Wisconsin, is finally completed, there will be a new route from Chicago to the great Northwest very much shorter than any at present in operation.—*St. Paul Press.*

☞ The incorporators of the Poughkeepsie Bridge Company have elected the following officers: President, John F. Winslow; Vice-President, H. G. Eastman; Treasurer, George Innis; Secretary, R. F. Wilkinson. P. P. Dickinson, of Poughkeepsie, is Chief Engineer.

☞ The Atlantic and Pacific railroad was completed on the 25th ult., to Grand River, Indian Territory, and an excursion party went over it. Grading has progressed twenty miles beyond Grand River, and track-laying is pushed vigorously.

☞ The St. Paul and Sioux City Railroad company have commenced laying iron at St. James westward. Some thirty miles of the track is graded ready for the iron, which carries the road beyond the Des Moines river.

☞ The track laying upon the first Western division of the New Orleans, Mobile and Texas railroad was completed on the 17th ult., a distance of 63 miles from New Orleans. The road will soon be opened for traffic to that point. The grading is completed 20 miles beyond Donaldsonville, and a strong force is employed in its extension.

☞ The Cincinnati and Baltimore railroad company have contracted for the use of the Cincinnati and Dayton Short Line railroad, now in process of construction, for a distance of seven or eight miles from Spring Grove Junction to the Indianapolis and Cincinnati Junction, at a rental of $35,000 per year.

☞ The Vera Cruz (Mexican) Railroad is completed as far as Potrero. It will reach Cordova early in July.

☞ The Taunton and Attleborough Railroad is nearly finished.

Rensselaer and Saragota Railroad.

With reference to the lease of this road to the Delaware and Hudson Canal Company, which was consummated on the 18th of May, the Albany Evening *Journal* says:

The Delaware and Hudson Canal Company has the receipt of the road from May 1st, and pays the running expense of the road from the same day. The length of the road without sidings and turnouts, is 181 miles, and the conditions of the lease are the payment of seven per cent. on the capital of six millions dollars the first year, and eight per cent. thereafter, and interest charges on the debt, $203,816 per annum. The arrangement affords to the Delaware and Hudson Canal Company a continuous connection by rail from its mines, *via* Albany and Susquehanna Railroad, already leased to Lake Champlain and north for the distribution of coal in one direction, and the transportation of iron in the other. The road extends from Albany and Troy to Lake Champlain and Rutland, Vermont, including the old Schenectady and Saratoga branch from the former place to Ballston. The lease is perpetual.

☞ At a meeting of the directors of the Springfield and Northwestern Railroad Company held at Jacksonville, Ills., on the 23d ult., that portion of the road between Lewistown and Havana, a distance of about nine miles, was located, and the work of grading ordered to be commenced immediately. The road-bed between Havana and Petersburg is now ready for the iron, and it is expected that the work will be pushed forward as rapidly as possible. The contractors are under bonds to complete the road from Lewistown to Springfield by the first of January, 1872.

☞ The work on the extension of the Portsmouth, Great Falls and Conway (N. H.) Railroad, from Union to Ossipee, twenty-eight miles, is rapidly being prosecuted, and it is thought that the cars will make their regular trips to Ossipee on or about the 10th of July. From three to three and a half miles of iron are laid from the Union end. The work on the entire line of this road is to be continued from Ossipee to North Conway, and the road completed as soon as possible.

☞ The Savannah *Republican* of the 27th ult., gives the particulars of the consolidation of two of the most important lines of railroad in the State—the Central Georgia and the Macon and Western. The Central company takes the Macon company's works, agreeing to operate them, "and on the score of dividends places its stockholders on the same footing with its own."

☞ John A. Spaulding of Nashua, William R. Spalding of Lawrence, Edson Hill of Manchester, James W. Johnson of Enfield, John H. Pearson of Concord, Frederick Smyth of Manchester and William A. Tower of Boston, have been elected directors of the Concord Railroad company.

☞ The directors of the Penobscot Bay and River railroad, Maine, have voted to begin operations as soon as the preliminaries can be adjusted, and appointed a committee to go over the route from Rockland and Camden and settle land damages, Captain L. L. Buckland has been employed to locate the land.

☞ The Duxbury and Cohasset Railroad is to be opened to Greenbush station, in the south part of Scituate, about the middle of June, and through Duxbury by the first of July.

West Wisconsin Railway.

The Baraboo *Republic* learns that the contract for the construction of the road bed from Baraboo to Reedsburg has been awarded to Fox & Howard, and the contract calls for the speedy commencement and energetic prosecution of the work.

Track laying from Madison has been commenced, and will be steadily pushed until the road is in operation to the Wisconsin river. New contracts are being let as fast as practicable, and it is now certain that this road will be completed to Tomah in a remarkably short space of time.

It is now asserted with confidence that arrangements will soon be completed for the extension of the Mineral Point road north to intersect the Air Line. Richland Centre, and other points in the way expect thus to gain railroad communication.

☞ A project is on foot for building a railroad from a point on the Potomac river, in the vicinity of White's Ferry, not far from Knoxville, Frederick Co, Md., to Manassas Junction, crossing the line of the Alexandria, Loudoun and Hampshire railroad. This would appear to imply that the Potomac river is to be bridged for the new road. Books of subscription to the stock of the enterprise, under the name of the Virginia and Maryland railroad, were opened at Leesburg, Va., on the 27th ult.

☞ The Kent County and the Kent and Queen Anne's Railroad companies have renewed their lease of the Townsend Branch for three years—the rent paid being equal to three per cent. on the cost of the branch, and the leased line to be kept in thorough repair. The road is soon to be completed to Chestertown. The country along the newly completed section from Worton to Kennedysville is in process of becoming one vast peach orchard.

☞ The piers for the Railroad Bridge at Hastings, Minn., on the St. Paul and Chicago railroad have been completed. The company commenced laying the iron for the track between Red Wing and Lake City on the 1st of June. Including side tracks, there is about fifty miles of iron to lay to complete the entire road to Winona.

☞ The dividends of the Portland, Saco and Portsmouth Railroad, latterly 3 per cent. semi-annual in gold, have been changed to 5 per cent. currency, by a lease to the Eastern Railroad Company, at 10 per cent. per annum. The dividends will hereafter be paid July 1 and January 1, instead of the middle of June and December.

☞ Thomas Speakman, Esq., has received notification from the Secretary of War, that his plan, marked No. 2, for the construction of a bridge across the Delaware River, between Camden and Philadelphia, has been accepted by the War Department. The specifications call for two spans of 1,150 feet each, and two of 546 feet each.

☞ The survey for the extension of the Bangor and Piscataquis Railroad towards Moosehead Lake has been begun at Foxcroft, on what is known as the front route.

☞ The Chesapeake and Ohio Railroad has subscribed $2,600,000 to the Lexington and Big Sandy road, which will be sufficient to complete it.

Maysville and Lexington Railroad, N. D

At the annual meeting of this company held at Maysville, Ky., on the 18th ult., the following gentlemen were elected directors for the ensuing year: Thompson Parks, Daniel Hibler, Alex. Mc Clintock, Jas. H. Hall, L. H. Long, W. H. Cox, and Jno. S. Darnall. From the report of the Treasurer, Henry Pelham, Esq., it appears that the receipts from all sources since the commencement of the work have been $745,879 30, and the expenditures $601,900 79—leaving a balance of $143,978 60; to which add amounts to be paid by the counties and private subscription, estimated at $181,196—making a total of $325,174 60. The amount paid to contractors and on construction account has been: on the Paris division, $140,867 42, and on the Maysville division, $367,-169 73—total, $508,037 15.

☞ The gap in the Chicago and Michigan Lake Shore railroad has been closed. There is now a continuous line of railroad from New Buffalo to Montague, a distance of one hundred and forty-seven miles. The railroad passes through St. Joseph, Benton Harbor, Coloma, Watervliet, Hartford, Bangor, Breedsville, Manlius, Holland, Nunica, Muskegon and Whitehall.

☞ The grading of the Sugar River road has reached Newport. Little ground now remains unbroken between Newport and Bradford. A portion of the iron is now at Bradford, where the work of laying rails will begin next week. Half a mile from Bradford out was completed on Saturday, and an engine ran over it for the first time.

OFFICE OF NORTHERN PACIFIC RAILROAD COMPANY.

120 BROADWAY, NEW YORK, June 1, 1871.

The Transfer Books for the transfer of Registered Bonds will be closed on WEDNESDAY, June 14, and re-opened on SATURDAY, July 1.

Payment of Interest on Registered Bonds will be made by mailing from this office, on the FIRST DAY OF JULY, to the address of each Bondholder of record at the closing of the books, a check to his or her order for dividend due, free of tax, and payable in gold coin.

Coupons due July 1 will be paid on presentation, on and after that date, at the office of JAY COOKE & CO., New York.

4t A. H. BARNEY, Treasurer.

THE WHARTON

Safety Railroad Switch.

☞ BOTH RAILS of the main track absolutely immovable, continuous and unmutilated. ☜

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

Address,

ABRAHAM BARKER, Pres't,
Or WM. WHARTON, Jr., Sup't,
Of the Wharton R. R. Switch Co.,
28 South 3d St., Philada., Pa.
P. O. BOX, 2353, Phila.

DESIRABLE HOME SECURITIES,

OFFICE OF

MEAD & CLARK,

BANKERS,

141 Broadway, NEW YORK.

The attention of Capitalists and Investors generally is invited to the

FIRST MORTGAGE 7 Per Cent. Gold Bonds

OF THE

WALKILL VALLEY RAILWAY CO.,

which we offer for sale at 90 and accrued interest in Currency.

The Railway is situated on the West side of the Hudson River, and is now running for 20 miles to New Paltz, and is under contract to be in working order to Kingston next fall.

The Bonds are a first-class investment, and we invite the closest investigation of them.

The Principal and Interest are PAYABLE IN GOLD.

The Coupons are paid semi-annually in this city on the first days of April and October, free of Government Tax, and the issue of Bonds is limited to $20,000 per mile of completed Road.

Any information concerning them will be given at our office.

UTICA HEAD LIGHT WORKS,

UTICA, NEW YORK.

Established 1851.

Williams' New Patent Coal Oil Head Light,

WITH BRAZED SAFETY BURNER,

Which will not take ***fire*** or ***explode,*** and is adapted to any make of Head Light Chimney. These Head Lights are either of Cylindrical or Square Form, and of first class workmanship. The Silver Plating on the Reflectors is warranted for fifteen years. They are acknowledged by all to be the best Head Light manufactured, and are used on nearly all principal Railroads in the country.

I. A. WILLIAMS, Patentee.

RAILROAD IRON.

1,000 tons LLYNVI VALE.
1,000 " BAILEY BROS.
50 LBS. ERIE PATTERN. Now in yard and for sale by

DANAS & LITCHFIELD,
49tf **18 William street**

NEW YORK State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE GOLD BONDS

OF THE

RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

EDWD. HAIGHT & CO.,

9 Wall Street, New York City,

Financial Agents of the R. & O. Company.

YORK CAR WORKS.

ESTABLISHED IN 1852.

Billmeyer & Smails,

YORK, PENN.

This old established firm continue to build all kinds of Freight Cars to order.

Narrow Gauge Cars

having received their special attention, they are prepared to receive orders and to deliver promptly. A contract has just been made with the pioneer Narrow Gauge Road—3 ft. Gauge—on this Continent—(The Denver and Rio Grande R. W.)—for 100 cars; also for a Georgia Road.

Comparative weights of Narrow and Full Gauge Cars sent by mail free of charge.

C. Billmeyer. D. E. Small. J. H. Small.

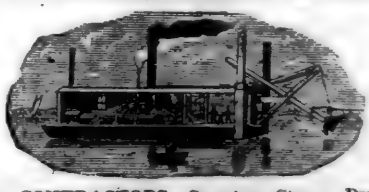
HEYERDAHL, SCHÖNBERG & CO.,

31 Pine Street,

NEW YORK.

IMPORTERS OF

RAILROAD IRON,



AND DEALERS IN

RAILWAY MATERIALS.

SOLE AGENTS

IN THE UNITED STATES FOR

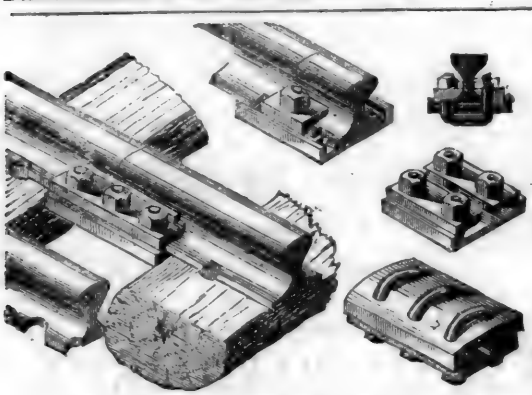
SAMUEL FOX & CO'S Bessemer Steel Rails.

TO CONTRACTORS.—Superior Steam Dredges, Steam Hoisting Derricks, Upland Excavators, Stationary and Marine Engines, and all kinds of Machinery made to order by the POUND MANUFACTURING CO., Lockport, N. Y.

The International Banking House

OF

BRELAZ, ABT & CO.,



121 Regent Street, W.,

RAILROAD IRON,
of best AMERICAN, ENGLISH and WELSH make, of ORDINARY or SUPERIOR QUALITY, and of any size, weight and pattern, from WORKS, YARD or EUROPEAN Shipping port, or delivered at ports in the United States or Canadas.

Bessemer and Puddled Steel Rails, Chairs, Spikes, &c.

CAMP'S IMPROVED DUMPING CAR.

RIGHTS FOR SALE BY
A. W. RHOADS & CO.,
Wilkes-Barre, Pa.
A. W. RHOADS. N. H. CAMP.

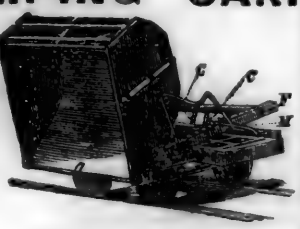

Fig. No. 1, Car Loaded & at Rest. Fig. No. 2, Car Dumped.

TO DUMP THE CAR.

The Brakeman seizes the lever H, and raises it about a foot, thus releasing the hopper from the catch, C, and the tilting-frame, F, from the catch, C, when the hopper, K, yields to the force of gravity and rolls over to the position shown in Fig. 2.

To Replace the Hopper in Readiness for another Load.

The brakeman bears his weight on the up-end of the tilting-frame, F, forcing it down to its place, when the hopper rolls back to *its* place, where it is held by the catches, C and C.

Address, A. W. RHOADS & CO., Wilkes-Barre, Pa. Lock Box 131.

PACIFIC MAIL
Steamship Company's
LINE TO
California, Japan and China.

VIA PANAMA,
CARRYING MAILS, PASSENGERS AND FREIGHT TO
KINGSTON, JAMAICA, AND PACIFIC COAST OF MEXICO, CENTRAL AMERICA, PERU, AND CHILI.

Steamers leave 15th and 30th each month, except when those days fall on Sunday, then the day previous.

June 15, steamer RISING STAR, Capt H. P. Conner, will leave Pier No. 42, North River, at 12 o'clock noon, for Aspinwall, touching at Kingston and connecting at Panama with steamer COLORADO, Capt. Parker, touching at Punta Arenas, San Jose, Guatemala, Acapulco and Mazatlan, and also connecting for all Central American and South Pacific ports.

Freight for last-named ports received until 4 P. M. of June 13.

Steamer CHINA will leave San Francisco July 1, for Japan and China.

For rates of passage, freight and all further information, apply at the Company's office on the pier, foot of Canal street.

Portland and Oswego Railroad.

In October, 1869, a convention was held at Oswego of those friendly to a direct line of railway from Portland to Oswego and Chicago by way of the Northern Pacific Railroad to Puget's Sound. The friends of the Northern Pacific Railroad took a leading part, and the convention embraced delegates representing the several lines proposed from the head of Lake Superior by way of Mackinaw and the city of Saginaw, Michigan, to the St. Clair river, in addition to those from Chicago, and friends of the Michigan air line, to the river St. Clair, the western terminus of the then proposed Canada Southern Railway.

There was a full attendance of delegates, representing the lines from the Niagara river by way of Oswego to the harbor of Portland.

The charter of the Canada Southern Railroad was subsequently granted, and the line has been located, put under contract, and is in progress from the St. Clair river to the International bridge at Buffalo. The Lake Ontario Shore Railroad from the Niagara river to Oswego has been fully organized, and the necessary capital raised—and proposals for its construction will soon be issued, providing for the grading of 50 miles the present year, and completing the whole line through from the Niagara river to Oswego in the year of 1873.

There was an attempt to unite all the lines from Chicago to Portland under one management, but this was found impracticable, not on account of lack of sympathy, but the friends of the different sections of the through line found it necessary to adhere to their local organizations.

From Oswego to Portland, however, a single company takes up the entire line under the name of the Portland, Rutland, Oswego and Chicago Railway Company by lease of the lines in New Hampshire, Vermont and New York.

From Portland, West, a new line of easy construction to West Ossipee, a distance of 51 miles, is to be provided for, by municipal and individual subscriptions.

From West Ossipee to Meredith, a distance of 22 miles, the line is to be built by the Boston, Concord and Montreal Railroad Company, giving that company a direct connection with Portland and with the White Mountains.

From Meredith to Bristol, a distance of 15 miles, towns have voted five per cent. subscriptions, and assert their ability to grade the line.

From Bristol to Danbury, a distance of 10 miles, the line is to be built by the Northern Railroad of New Hampshire, who furnish an additional track along their present line to White River Junction, 31 miles, to a point of connection with the Woodstock Railroad of Vermont, which is graded for a distance of 14 miles to Woodstock village.

From Woodstock to Rutland is 42 miles over the Green Mountains, for which the means are yet to be provided—the single town of Rutland offering to take $300,000 of the amount required.

From Rutland to Fort Ann a distance of 33 miles, the line of the Rensselaer and Saratoga Railroad is to be made use of—the most liberal terms having been offered. A new line from Fort Ann to Glen's Falls, and to Luzerne at the mouth of the Sacondaga river will be furnished by the friends of the Adirondac Railway to give that line a proper outlet and connections, with the iron mines at Fort Ann and with the Northern canal.

From the mouth of the Sacondaga to Oswego the line has been surveyed, and no grade exceeding 35 feet to the mile is encountered going east, and none exceeding 60 feet to the mile going west.

The New England and Oswego Railroad was organized at Glen's Falls on the 29th of March, 1871, and it is expected that the organization of the entire line through from Portland to Oswego, under a contract of union, will be completed during the present summer, and the several sections be entered upon as soon as the local subscriptions are completed, which will be taken up as soon as possible, after the contract of union is perfected.

From Portland to Oswego the line passes through a well settled country, full of population and wealth, with the exception of the section over the Green Mountains in Vermont, and across the Piseco Summit in the State of New York—passing through the counties of Oswego, Lewis, Oneida, Herkimer, Hamilton, Fulton, Saratoga, Warren and Washington, in New York, containing, in 1870, a population of 412,295—the counties of Rutland and Windsor, Vermont, containing a population of 76,715—the counties of Grafton, Belknap and Carroll, New Hamshire, containing a population of 74,116, and the counties of Oxford, York and Cumberland, in Maine, containing a population of 175,682—or a total of 728,808.

On the completion of the line from Oswego to Portland, supplies of western produce will take this route both for export and to meet the wants of New England, which the mills of Oswego will be able to supply. At Oswego is the great water power of New York.

The Oswego river basin, embracing all the Lakes of New York, has an area of more than 7,000 square miles of territory, with a fall of 100 feet, within a mile of its outlet into Lake Ontario, and Oswego can easily produce 3,000,000 barrels of flour for export annually in its present mills, in place of the 588,619 barrels of flour, the export of 1870. This line therefore is to become the base of a new system of trade, and a new outlet for the products of the West.

From Oswego to Glen's Falls, there will be a common trunk line with outlets to Portland, Boston and New York, the distances being nearly equal from Glen's Falls to each of these cities,

Oswego will then become a greater place for export of produce than Montreal or Buffalo.

Norfolk and Petersburg Railroad.

The Legislature of Virginia, by an act passed and approved June 17, 1870, authorized the consolidation of the Norfolk and Petersburg, the South Side, the Virginia and Tennessee, and the Virginia and Kentucky Railroad Companies into one corporation. Such consolidation was consummated November 12, 1870, and ratified by the several companies, which from that date took the title of the "Atlantic, Mississippi and Ohio Railroad Company;" and this railroad is now operated under the designation of "The Norfolk and Petersburg Division" of the A., M. and O. railroad.

The revenues and expenses of the Norfolk and Petersburg Railroad for the fiscal years ending September 30, 1869 and 1870, are compared in the following statement—

Revenue from—	1869.	1870.
Passenger traffic	$52,506 07	$61,966 16
Freight traffic	251,696 85	286,900 61
Other sources	324 45	216 82
Gross revenue	$304,527 37	$349,083 59
Expenses, taxes, &c.	183,357 02	200,166 21
Net revenue	$121,170 35	$148,917 38

The increase in gross revenue in 1870 over that of 1869 is $44,556 22, or 14.6 per cent.; and in expenses $16,809 19, or 9 per cent. The net revenue has increased $27,747 03, or 23 per cent. In 1861 the gross revenue of the road was only $96,621 74.

At the close of 1870 the company had 10 locomotives, being an increase of one, and 194 cars, being an increase of 30 during the year. The car equipment is now as follows (all four wheeled): passenger cars, 10; mail and baggage, 2; box freight, 114; stock, 2; platform, 64; and timber trucks, 2.

In 1868–69, trains run 133,830, and in 1869–70, 177,627 miles. The number of passengers carried in same years was 25,557 and 30,190, traveling respectively 1,335,359 and 1,623,522 miles. The freight tonnage moved in 1868–69 was 95,688.91 and in 1869-70, 109,297; equivalent transportation 6,842,337 and 7,765,266 tons per mile. All these items show a large increase over the previous year, and evidence increasing prosperity in the country traversed by the road.

The following abstract of the general balance sheet exhibits the financial condition of the company at close of fiscal years 1869–70:

Capital stock, ordinary	$1,361,300 00

Officers of consolidated line—

President.—WILLIAM MAHONE.

Superintendent Transportation.—HENRY FINK.

Secretary.—N. M. OSBORNE.

Auditor.—E. E. PORTLOCK.

Treasurer.—JAMES E. CUTHBERT.

South Side Railroad.

This road was consolidated in the Atlantic, Mississippi and Ohio Railroad, in pursuance of an act of the Legislature of Virginia, approved June 17, 1870, and accepted by the company November 12, 1870. It is now operated as the South Side Division of said consolidated railroad.

The revenues and expenditures resulting from operating the road in the years ending September 30, 1869 and 1870, compare as follows:

Revenues from—	1869.	1870.
Passenger traffic	$82,294 49	$99,643 24
Freight traffic	345,791 42	395,783 80
Mail service	6,649 92	6,649 92
Express service	2,394 28	4,619 03
Other sources	3,790 85	6,181 14
Gross earnings	$440,920 96	$512,876 63
Operating expenses	337,795 58	332,724 70
Net revenue	$103,125 38	$180,151 93

The increase in gross revenue was $71,955 67, or 16.3 per cent.; in expenses, $5,070 88, or 1.5 per cent., and in net income, $77,026 55, or 74.7 per cent.

This large increase in gross revenue and decrease in current expenses has resulted in a net revenue sufficient to meet every demand for interest on the funded debt, and in a surplus of $71,853 80 as against $23,555 38 for that of the preceding year—an issue which demonstrates in the inexorable logic of figures, as well the value of the improvements made to the property, enabling it to respond to the requirements of an ever increasing traffic, which the policy of consolidation has drawn to it—as the force and wisdom of that policy of railroad management, under the application of which such results have been attained and which for the future may be taken as the basis of growing prosperity, now that this policy has been perfected in and by the formation of the Atlantic, Mississippi and Ohio Railroad Company.

The important improvements, which have been made to the road department enable the officers of the company to present the roadway in all its physical parts, in striking contrast with that of any other time in its history, and its condition as a whole fairly challenges equality with that of the best of Southern railroads.

The rolling stock has been increased during the year by the construction of fifty new cars of various descriptions and by the purchase of one first-class passenger coach, all of which were necessitated by the demands of an enlarged traffic. The present stock of cars on the road consists of 5 passenger, 5 mail and baggage, 142 box freight, 72 flat, and 15 cattle—total, 237. The motive power consists of 17 engines, viz: 3 passenger, 7 tonnage, 5 material and 2 switching.

The movement of trains was 315,060 miles, viz: passenger 89,781, tonage 150,964, material, 37,650, and switching 36,656 miles.

The number of passengers carried was 65,834, and the number carried one mile, 2,965,691. Of the passengers, 59,159 were way, carried 2,398,502 miles, and 6,675 were through, carried 567,189 miles. Revenue—way $85,581, and through $15,332 11—total, $100,913 11. Increase over 1868–69—passengers 21.8, mileage 35, and revenue 22.6 per cent.

The freight carried amounted to 145,726 tons, carried 12,388 miles and producing a revenue of $367,933 11. Of this freight, the way was 59,632 tons, carried 2 887,319 miles, and producing $119,424 19; and through, 89,094 tons, carried 10,001,440 miles and producing $248,508 92. Increase over 1868–69—tonnage 16.4, mileage 15.5, and revenue 12.9 per cent.

The following is a statement of the financial condition of the company at the close of 1869–70:

Capital stock		$1,365,000 00
Consol mort., 1st pref., 8s, Jan. 1, 1884 to '90		581,000 00

Virginia and Tennessee Railroad.

This road was consolidated in the Atlantic, Mississippi and Ohio Railroad under the authority of an act of the Virginia Legislature approved June 17, 1870, and accepted by the stockholders November 12, 1870. It is now operated as the Virginia and Tennessee division of the A., M. and O. Railroad.

The revenues and expenditures for the two years ending September 30, 1869 and 1870, compare as follows:

Revenue from—	1869.	1870.
Passenger traffic	$309,596 16	$335,760 23
Mail service	20,500 00	20,500 00
Express service	28,333 56	24,917 20
Tonnage traffic	566,650 77	679,336 85
Miscellaneous sources	4,104 36	3,308 01
Gross earnings	$929,184 85	$1,063,822 29
Operating exp., taxes, etc	610,496 88	636,785 59
Net revenue	$318,687 97	427,036 70
Gross revenue per mile	$4,341 99	$4,971 13
Operating exp. per mile	2,852 79	2,975 63
Net revenue per mile	1,489 20	1,995 50

The increase in 1860-70 over the previous year was: gross revenue, $134,637 44, or 14.5 per cent.; operating expenses $26,288 71, or 4.3 per cent., and net revenue $108,348 73, or 34.1 per cent.

These results surpass those of any previous year, and evidence the solidity of the foundation on which the business of this road is based and the wise policy under which it has been conducted. During the past year the work of restoration and improvement has been steadily pushed forward. Besides the work and expenses incident to the maintenance of the property, there has been expended during the years 1869-70 $193,543 66, and among the important results accomplished are enumerated—31¼ miles of new track ballasted with broken stone; 104,060 new crossties put in; 10⅓ miles new railroad with fish joint and 4 miles of new sidings laid; two trestle bridges 684 feet, two trussed beam bridges 282 feet, and 29 stringer bridges 901 fset in length constructed; machine shop at Lynchburg extended and enlarged; two engine houses, one depot building and 98 cattle guards built; 809 perches of masonry (culverts) constructed, besides much other work, in the aggregate swelling materially the proportions of the improvement which has been made in the condition and capacity of the property.

The expenses of the road department afford the most gratifying evidence of the value of the improvements made. For the year 1869-70 these have been $117,859 58 as against $139,922 80 for the previous year, showing a decrease in the very respectable sum of $22,063 22, or 15.8 per cent., and when considered with reference to the units of measure, stand for the year now passed at $554 74 per mile of road, 22.77 cents per mile run by revenue trains, and 20.11 cents per mile run by all trains as against the corresponding results of the previous year, which were $653 85 per mile of road; 29.68 cents per mile run by revenue trains, and 25.42 cents per mile run by all trains; a reduction in favor of the past year's operations of 23 per cent. for revenue trains and 21.5 per cent. for all trains.

The machinery department has been successfully employed in the construction of cars and the maintenance of rolling stock. The machine shop at Lynchburg has been fully supplied with new machinery of the most improved patterns and its capacity made equal to the increased demands which an enlarged business have imposed. There were constructed at this point during the year 70 box, 20 flat and 10 stock cars, all of the model common to the line—Norfolk to Bristol—and the reduced cost at which the company is now provided with tonnage cars, equal in all respects to any made elsewhere, adds force to the many reasons for the adoption of the policy, which looks to the supply of its every demand on this account. The condition of the rolling stock both as to engines and cars will compare favorably with their condition at any former period, notwithstanding the unusual tax upon them in the conduct of a business far exceeding anticipation. The rolling stock owned by the company at the close of 1869-70 consisted of 42 locomotive engines, and cars—18 passenger, 4 mail and baggage, 105 box freight, 73 stock, 89 platform and 29 caboose—total 309 cars, being an increase during the year of 36 cars; 86 have been retired and 120 placed in service.

The following table, made up from the well-arranged reports of the company, compare the operations on the road for the two last years:

		1868-69.	1869-70.
Train miles.	Passenger	149,266	149,308
	Tonnage	322,108	368,429
	Other	79,023	68,261
	All trains	550,397	585,998
Passengers carried		114,397	116,795
" " one mile		8,727,610	10,505,804
Tonnage moved		138,130	164,800
" moved one mile		17,634,855	22,624,855
Revenue—Passengers		$320,621 76	$344,623
" —Tonnage		535,303	643,967

Increase—passengers, 2 per cent.; passenger mileage, 21½ per cent. and in passenger revenue, 7½ per cent; and in tonnage, 19⅓ per cent.; tonnage mileage, 27½ per cent. and tonnage revenue, 20⅓ per cent.

The financial condition of the company, shown on the balance sheet at the close of the year 1869-70, is stated in the following abstract:

Capital stock, ordinary		$2,867,600 00
" " guaranteed		138,700 00
" " preferred		500,000 00
Capital stock, all classes		$3,506,300 00
1st mort. 6s, Jan. 1 1873.	$494,000 00	
2d mort. 6s, Jan. 1, 1869.	4,000 00	
3d mort. 6s, July 1, 1884.	990,000 00	
Income mortgage 6s	113,000 00	
		1,600,000 00
4th mort. 8s, Mar. 1, 1900	846,000 00	
Registered certificates 8s, Jan. 1, 1871	116,129 11	
Interest funding bonds 8s, July 1, 1880	204,200 00	
		1,166,329 11
Gross revenue for 1869-70		1,063,822 29
Profit and loss, balance		1,627,989 55
Notes and acceptances		506,201 34
Open accounts		128,689 94
Total		$9,654,332 23
Cost of road (213½ miles) & equip.		$8,012,872 88
Additional cost in 1869-70		388,219 36
Total cost to date		$8,401,092 24
Debit balance (old) to auxiliary accounts		20,648 12
Coupons, &c., paid and funded		282,148 09
Current expenses for 1869-70		636,795 24
Open accounts		243,847 04
Store house supplies		57,457 78
Cash in banks, in hands, &c		12,343 77
Total		$9,654,332 23

The following statement compares the funded debt at close of the two last years:

	1868-69.	1869-70.
1st mortgage bonds	$494,000 00	$494,000 00
2d mortgage bonds	6,000 00	4,000 00
3d or enlarged mortgage bonds	990,000 00	990,000 00
Income mort. bonds	119,000 00	113,000 00
4th mortgage bonds	778,000 00	846,000 00
Registered certificates	112,449 76	116,129 11
Interest funding bonds		204,200 00
Interest past due and unfunded	329,189 37	131,940 00
Total	$2,828,639 13	$2,899,269 11

From a comparison of these statements it will be seen that there has been an increase in this class of indebtedness, of $70,629 98, of which, however, $36,659.60 is for interest, which had accumulated on the past due coupons, heretofore reported as outstanding, mainly at the outset of the present administration, and then unfunded, of which no account has been taken, because of the impossibility of estimating at that date the amount thus due.

The floating debt is given gross at $688,891 22, of which $506,201 34 is by notes and acceptances and $182,689 94 by open accounts.

The resources of the company as an offset to this class of debt consist of $154,000 eight per cent. bonds rated at 80, $123,200; open accounts, $243,847 04; store house supplies, $57,457 78, and cash, $12,343 77—total, $436,848 54.

The net floating debt is therefore $252,042 74.

Officers of the consolidated company;

President.—William Mahone.

Superintendent Transportation.—Henry Fink.

Secretary.—N. M. Osborne.

Auditor.—E. E. Portlock.

Treasurer.—M. C. Jameson.

Prince Edward Island Railway.

Proposals will be received by the Government of Prince Edward Island until the 19th of July for the construction and equipment of a railway of three feet six inches gauge. The road, which is to be constructed under the supervision of Mr. J. E. Boyd, will be about 120 miles in length. The estimated cost per mile is as follows:

Clearing, grubbing, &c	$200
Fencing, gates and warning boards	700
Grading	3,500
Level crossings and road division	100
Bridging and culverts	800
Rails, fish-plates, spikes and bolts	3,500
Track-laying and lifting	450
Sleepers	600
Ballasting	850
Stations	600
Rolling stock	1,800
Engineering and management	1,000
Land and land damages	200
Sidings	700
	$15,000

☞ At the annual meeting of the stockholders of the Illinois Central Railroad Company in Chicago on the 31st ult., the following gentlemen were chosen directors: J. Pierrepont Morgan and Louis A. Von Hoffmann of New York, and John Newell of Chicago, to serve until May, 1875; Lucien Tilton of Chicago, to serve until May, 1873; William C. Gebhard of New York, to serve until May, 1874.

☞ The Elevated Railroad is now operated in connection with the Hudson River Railroad trains—nine trips being made daily.

Railroads and Canals of New Jersey.

A statement of their Capital, Bonds, Debts, Length, Cost, Earnings, Expenses, Dividends, &c., for the year ending December 31, 1870.

Compiled from the Annual Reports of Companies made to the State Comptroller.

Tide-Water Receipts.

The quantity of flour, wheat, corn and barley left at tide water from the commencement of navigation to the 31st of May inclusive, during the years 1870 and 1871, was as follows:

	Flour, bbls.	Wheat, bu.	Corn, bu.	Barley, bu.
1871...	35,500	1,783,100	1,410,800	29,700
1870...	20,700	1,135,800	86,000	78,900
Inc...	14,800	647,300	1,324,800	*492,200

* Decrease.

By reducing the wheat to flour the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows a ncrease of 144,260 bbls. of flour.

The following comparative table shows the quantity of some of the principal articles of produce left at tide-water from the commencement of navigation to and including the 31st of May, in the years indicated:

	1869.	1870.	1871.
Canal opened—	May 6.	May 10.	April 24.
Flour, bbls.	15,300	20,700	35,500
Wheat, bushels..	1,027,000	1,135,800	1,783,100
Corn, bushels...	385,900	86,000	1,410,800
Barley, bushels.	11,100	78,900	29,700
Oats, bushels...	354,300	277,200	203.100
Rye, bushels....	90,400	122,900	8,900
Malt, bushels...	52,600	86,500	86,100
Feed, lbs.....	192,900	1,924,100	62,500

Narrow Gauge Railways.

Until about twenty years ago the weight of professional opinion was in favor of the broad gauge for railways, and it was thought that the tendency must be not only to build new lines, with wider gauges than any then in use, but to alter old ones to a corresponding measure. Gradually this belief has been modified, and, partly as a result of experiment and partly of closer scientific research, an opinion almost exactly opposite has steadily gained ground. Whereas in 1850 it was generally supposed that a gauge wider than four feet eight and a half inches would be found expedient, much narrower dimensions have now been adopted, and it is even believed by some that a gauge of less than half that width will ultimately prove to be the most judicious and economical.

It is not generally known that roads of extremely narrow gauge have been in use during the past few years, and have thus supplied the practical data for judging the utility of their general introduction. Among the Welsh mountains there is a line of railway, the gauge of which is but one foot, eleven and a half inches. It runs from the slate quarries in the Festiniog Valley to Port Madoc, on Cardigan Bay. The rails used weigh but ten pounds to the running foot, and the engines weigh seven tons. The passenger cars are ten feet long, five feet wide, and carry twelve passengers. The freight-cars carry three tons each. Trains over one thousand feet long are run on this little road at a speed of twenty miles an hour although there are curves of radii under 135 feet, and grades of 70 feet to the mile. It is declared that the experiment has proved a success in every sense. In one year the freight has amounted to 136,132 tons, an average of 9,388 tons to the mile; and the passenger business—although the road is not strictly a passenger line to 6,807 passengers per mile. The traffic is more than twice that of the Connecticut River Road—a closely managed interior line—and the passenger carriage more than that of the busy Worcester and Nashua Railroad in 1870.

In the Broilthal, joining the Cologne and Giessen road, there is another narrow gauge line, the prosperity of which is teaching a similar lesson. Its gauge is two feet seven inches, it has curves of 124 feet radius, and also 70 feet of rise to the mile. The weight of the rails averages eight pounds to the foot. The engines weigh twelve and half tons, and haul thirty-six cars, each loaded with five tons. About $4,500 covers the cost of the locomotives, and $500 that of the cars. The cost of the line, per mile, including rolling stock is set down at $8,000. There are lines of road in construction or in use in the mining districts of Pennsylvania of slightly narrower gauge than this—that is to say, of two feet six inches—on which engines of less than eight tons are used, and which safely run twenty miles an hour, on grades and curves that ten years ago would have been pronounced impracticable. The Denver and Rio Grande Railroad, which is meant to run along the plateau of the Rocky Mountains from Denver to El Paso, a distance of 850 miles, is to have a gauge of two feet nine inches, and it is probable that other transverse roads, cutting the great Pacific lines that run east and west, will also be constructed in a corresponding scale.

The extent to which the narrow gauge has gained the good opinion of scientific men, is indicated by a report recently made by a committee, appointed by the British Secretary of State for India, to consider the feasibility of a narrow gauge for the extension of the Indus Valley Railroad, and also for other projected Indian lines, amounting in their aggregate to ten thousand miles. The majority of the Committee report, for the great bulk of the proposed lines, in favor of a gauge two feet nine inches. They recommend for this gauge a rail of thirty-six pounds to the yard, twelve ton engines, passenger cars eighteen feet six inches long by six wide, limited to the carriage of three and one half tons weight, while the merchandise cars should be made to carry five tons. The main arguments in favor of the narrow gauge are that the first cost, per mile, will not exceed one-half that of the wide gauge, and that running expenses and wear and tear must preserve between the two gauges nearly the same relation. It is asserted that, just as a pony will pull more and eat less in proportion to his weight than a horse, so the smaller and lighter engines of the narrow gauge will be relatively cheaper and more profitable.

The great objection to the narrow guage is that of the cost and difficulty of transhipment. Rolling stock cannot be interchanged on joint lines of different gauge. It is undeniable that this is a serious drawback. Yet engineers who have given the matter great attention, maintain that the objection is practically of minor importance, when compared with the accompanying advantages. Judging from the evidence that has come before us, we shall not be surprised if the narrow gauge is soon extensively employed on our new railroad enterprises, especially for the "magnificent distances," and difficult country to be traversed in the Southwest.—*N. Y. Times.*

Bedford and Bridgeport Railroad.

The Bedford *Gazette* says that the engineers are now actually surveying the route for the extension of the Bedford and Bridgeport railroad into Maryland, and then adds—

The Pennsylvania Central is going to build this extension for the purpose of tapping the coal fields of George's Creek, in Maryland. The route from Bridgeport will be alongside of the Pittsburg and Connellsville road to Kreichbaum's, where it will connect with the Maryland and Pennsylvania road. This new link in the chain of railways now being built in Southern Pennsylvania, will be a very important one, as it will afford short and direct transportation for the valuable coal of Western Maryland to all the markets north of Baltimore. That it will greatly increase the tonnage of the Bedford and Bridgeport and Broad Top roads cannot be doubted. Besides, Bedford being in the center of three important coal fields, it will give our people, and all manufacturing establishments that may hereafter spring up in this neighborhood, a choice between Broad Top, Somerset and George's Creek coal. We understand that the grading and bridging of the road will be let during the early part of the summer, and its completion pushed as rapidly as possibly. Findley Barber, Esq., who has had the charge of the Bridgeport end of the B. and B. R. R., has been selected to survey the route.

Denver Pacific Railway.

We give elsewhere the Report of the President of this company for the year ending December 31, 1870. From the Report of the Superintendent we learn that the road was opened for business December 16, 1869, and operated between Cheyenne, Wyoming, and Evans, Colorado, a distance of 58 miles, until May 30, 1870, at which date the road was opened for business to Johnson Station, 15 miles South of Evans. Trains were run to Hughes on the 9th of June, 1870, and on the 23d of the same month the road was completed to Denver—since which time it has been in full operation. For December 16, 1869 to December 31, 1870, the earnings have been as follows:

From passengers	$130,320 28
" freight	166 853 11
" miscellaneous	7,541 67
	$304.715 06

And the expenses were:

Conducting transp.	$51,962 64	
Motive power	44,287 90	
Maintenance of way	56,172 27	
Maintenance of cars	6,597 69	
General expenses	10,400 28	
		168,420 78
Leaving as net earnings		$136,294 28

The earnings per mile were $2 874 67, and the expenses, $1,588 87. Of the total expenses, $6,000 accrued in and should be chargeable to the Land Department, leaving actual expenses for operating the road $162,420 78, being 53¼ per cent. of the gross earnings for the year.

During the year there have passed over the road 39,633 tons of freight, and 19,538 passengers. The office of the company is at Denver, Colorado. The officers are: President, John Evans; Treasurer, D. H. Moffat, Jr.; Secretary, R. R. McCormick; Superintendent, Cyrus W. Fisher; Attorney, S. H. Elbert; Gen'l Accountant, Wm. Wagner; Land Commissioner, John Pierce.

Cumberland Coal.

It is an important circumstance that during the pressure of the late strike at the anthracite coal mines in Pennsylvania, people should have thought it worth while to institute a comparison of the relative value of anthracite and bituminous coals for heating purposes. This has been done lately at Colt's Armory in Hartford, and after careful experiment it was found that for steam generating purposes the Cumberland coal was better and cheaper than the anthracite, whether compared ton for ton, or by the relative cost of the two. Of course it should be understood that anthracite coal was temporarily higher in price than formerly, but not higher than it may be for some years to come, for reasons which need not be specified at length. The advantage of the bituminous coal was not great—between three and five per cent.—but sufficient to establish the fact that bituminous coal may be profitably substituted for much of the fuel heretofore drawn from the anthracite mines.

☞ Ground has been broken at Seneca Falls, N. Y., for the Pennsylvania and Sodus Bay Railroad, which will connect the coal fields of Pennsylvania with Lake Ontario.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

Years ending.	Railroad: Main Line	Railroad: Branch Lines	Railroad: 2d Track and Sidings	Railroad in progress	Rolling Stock: Cars: Engines	Cars: Pass.	Cars: R. M. E.	Cars: Freight	Companies. RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, June 10, 1871.

Stock Exchange and Money Market.

The ease in Money continues without abatement. The offerings of capital are largely in excess of the wants of borrowers, especially in a temporary form, and rates rule low,—the range on call loans being from 2@5 mainly 3@4 per cent., and on very choice to good mercantile credits, 4@7, chiefly 5@6 per cent. per annum. The market is wholly freer from speculative excitement. Lenders find considerable difficulty in placing balances advantageously. The Government houses require very little aid. The Stock and Gold Exchange firms are anything but urgent in their demands for accommodation, even at the low rates. The city banks report a further increase of aggregate strength in their resources, as compared with their liabilities. The city banks, last week, reported a loss of $1,590,234 of specie, with a gain of $2,670,415 legal tender notes and $2,892,759 of deposits. They enlarged their loan and discount averages $360,510 and reduced their circulation $102,521. The city bank exchanges, last week, averaged $111,387,285; and thus far, this week, 125¼ millions daily. The banks now hold $16,602,653 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The Treasury office received $2,194,221 in coin or its equivalent, from customs; and disbursed $1,181,595 of coin interest.

The specie reserve of the city banks according to the latest return is $13,789,880, against $30,949,490 same time last year. The city bank deposits are now $241,383,519 against $226,191,797 week ending June 4, 1870. The legal tender reserve amounts to $70,950,833 against $61,290,310 same time last year. The circulation now stands at $30,968,723, against $33,285,083 same time last year. The loans are now $291,802,148, against $279,485,734 at this date last year.

The subscriptions to the new refunding Five per cent. Loan now amount to about 66¾ millions.

The U. S. Sub-Treasurer retired, last week, $1,976,000 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $4,710,222 in currency, and $56,783,998 in coin, against a balance a week previous of $4,542,357 currency, and $57,315,268 coin.

Government revenues have been yielding more liberally in the line of excises, and have been up to a fair average in the way of customs. The excises yielded last week about 3¾ millions. The customs at the port of New York, last week were $2,194,221; and at the outports, equal to about $750,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $133,838,384.

Under the Treasury programme for June, Government will sell Gold during the month, through the Treasury office here, as follows: Thursday, June 15, $2,000,000; Thursday, June 22, $1,000,000; Thursday, June 29, $1,000,000. And buy in Five-Twenties, as follows: Wednesday, June 14, $1,000,000; Wednesday, June 21, $1,000,000; Wednesday, June 28, $1,000,000.

Government expenditures in May (exclusive of payments on account of the principal and interest of the public debt) were $17,730,849, including for Civil and miscellaneous and Foreign intercourse, $5,167,831; War Department, $3,820,913; Navy, $2,717,909; Interior, pensions and Indians, $6,024,196.

The Gold speculation has shown rather more activity, and the market has been quoted firmer, under the manipulations of the operators for a higher premium. The customs call has been under half a million a day, while the export drain has been fair. The range of the price, during the week, has been from 111⅝@112⅜, and the closing quotation on Wednesday was 111⅛, against 111⅞ the preceding Wednesday. The outflow, last week, was $2,038,500; on Tuesday of this week to $81,300, and on Wednesday, to $825,082. The Gold Exchange Bank clearances have been about 54 millions a day. Monday's clearances were about 30⅛ millions, as against 117⅜ millions on Tuesday.

The Treasury Department balances, on Tuesday, were $88,670,000 of coin, including $17,155,000 represented by outstanding certificates; and $7,360,000 of currency.

The customs at this port on Wednesday were $465,000.

The export drain was $2,038,500 last week, against $1,199,700, same week preceding year. The shipments since July 1, 1870, have been $75,691,673, against $30,109,326 same time in 1869–'70.

The customs demand for Gold last week, averaged $865,703 a day; thus far, this week, it has averaged $466,500 a day, or equal to a weekly aggregate of $2,799,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $18,672 and since Jan. 1, 1871, $3,048,880 against $6,987,000 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $137,779,659, against $126,029,565 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $84,014,739 against $85,190,388 same time in 1869–'70.

Foreign Exchange closed dull and weak on Wednesday, with Bankers' sixty day bills on London at 110⅛@110¼; sight bills on London, 110⅝@110¾.

The produce exports from this port, week ending with June 6, were to the currency value of $4,587,672.

Government securities have been very firm, with an upward tendency, on an unusually limited offering of bonds, which circumstances have tended to check business, and the dealings of this week have been very moderate in all issues.

On Wednesday, Government bought in two millions of Five-Twenties at 111 40@111 63, ex-interest. The amount of bonds offered was $1,864,400.

U. S. sixes of 1881 closed here on Wednesday of the current week at 117⅜@117½; U. S. Five-Twenties of 1862, 112@112⅛; U. S. Five-Twenties of 1864 at 112@112⅛; U. S. Five-Twenties of 1865, 112@112⅛; U. S. Five-twenties of 1865 consolidated, 114¼@114⅜; U. S. Five Twenties of 1867, 114¼@114⅜; U. S. Five-twenties of 1868, 111¼4@114½; U. S. Ten-forties at 110@110⅛; U. S. Six per cent. currency bonds, 115⅛@115¾.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 24.	May 31.	June 7.
Consols	93⅛	93 9/16	91⅝
U. S. 5-20's of 1862..	90 7/16	90⅝	90⅝

" 1867	92 7/16	92⅝	92¾
" 10-40s	88¾	89	88¾
Erie.	25⅜	25¼	24⅛

State bonds have been in good demand at generally firm prices.

Railway bonds have been quite actively sought after, chiefly through the commission houses, and have been quoted firm in price. Central Pacific Sixes closed at 102⅜@102½. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been selling quite freely at 92 per cent. and accrued interest. Union Pacific Sixes closed at 92@92¼.

The earnings of the Central Pacific Railroad in May were $917,760, or $149,040 more than in May, 1870. In the first five months of the year the increase has been $612,355.

Business in Railway and miscellaneous share property has been rather more active and generally stronger in price.

General business has shown more animation in the line of domestic produce, with a firmer market for Breadstuffs, Petroleum, and Cotton, while Pork, Lard and Spirits Turpentine have been quoted cheaper. Middling upland cotton closed on Wednesday at 19⅝ cts. per lb. The business of the week has been characterized by unusual excitement. The receipts at all the ports, since Sept. 1, have been 3,793,063 bales, against 2,734,393 bales same time last year; exports 2,953,209 bales, against 1,987,043 bales same time last year; stock at the ports at latest dates, 292,717 bales, against 263,255 bales same date 1870.

At the Live Stock Markets, Beeves have been in limited demand at from 9@13½ cts; Veal Calves, in moderate request at 4@9½ cts; Sheep at 4½@8 cts; Lambs at 7½@12½ cts; Swine, 5@5¼ cts per lb., all live weight. The week's receipts were 7,557 Beeves, 5,508 Veal Calves, 14,288 Sheep and Lambs; and 18,891 Swine.

Foreign goods have been moderately dealt in at less buoyant prices, in most instances. The week's imports of foreign goods reached $7,671,435 including $2,066,085 of dry goods.

Ocean freights have been fairly active and quoted rather stronger, though somewhat irregular. At the close, the market was dull and depressed.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

GREAT NATIONAL LOAN.

—o—

$134,000,000 NEW 5 PER CENTS.

PRINCIPAL AND INTEREST PAYABLE IN COIN.

Interest quarterly, February, May, August, and November.

BONDS FREE OF ALL TAXES, LOCAL OR NATIONAL.

The Treasury Department having already received subscriptions to the amount of $66,000,000 to the first two hundred millions of the New Loans authorized by the Act of Congress, of July 14, 1870, for refunding the Public Debt, bearing five per cent. per annum interest, now offers to popular subscription the remaining $134,000,000 of this particular Loan, and is prepared to promptly deliver the Coupon Bonds or Registered Certificates in exchange dollar for dollar for any of the United States six per cent. Bonds or Registered Stocks, known as *Five-Twenties*, or for Gold Coin at the par value of the New Loan, and accrued Interest from the first of May. When this amount, to which preference is given, is taken up, the remainder of the Five per Cents, $300,000,000, embraced in the Act will be offered in connection with $300,000,000 Four and one half per Cents, and any part of $700,000,000 of Four per Cents, the one running fifteen years and the other thirty years.

The following is a copy of the New Five per Cent. Bond, under and pursuant to the Act of Congress:

FORM OF FIVE PER CENT BOND.

INTEREST | FUNDED LOAN OF 1881 | 5 PER CENT.

UNITED STATES OF AMERICA

ARE INDEBTED TO THE BEARER IN THE SUM OF

..... DOLLARS.

THIS BOND is issued in accordance with the provisions of an Act of Congress entitled "An Act to authorize the refunding of the National Debt," approved July 14, 1870, amended by an Act approved January 20, 1871, and is redeemable at the pleasure of the United States, after the first day of May, A. D. 1881, in Coin of the standard value of the United States on said July 14, 1870, with interest in such Coin, from the day of the date hereof, at the rate of FIVE PER CENTUM per annum, payable quarterly, on the first day of February, May, August, and November, in each year. The principal and interest are exempt from the payment of all Taxes or Duties of the United States, as well as from taxation in any form, by or under State, municipal or local authority.

WASHINGTON, ..., 18....

Entered ..... Recorded .....

....

Register of the Treasury.

Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depository of the Government, quarterly, on the first days of February, May, August and November, in each year.

The Interest on the Registered Stock of this Loan, it is determined by the Treasury Department, will be paid by the Treasurer of the United States in his Gold Check for the Quarterly Interest, to the Post office address of every holder, free of trouble or expense, dispensing with attendance, in person or by proxy, at the Treasury, for the durpose of receipting for and drawing such interest.

The whole proceeds of the New Loan will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and in addition to these proceeds, the 5-20s are being reduced by purchases, averaging, for two years past, about $10,000,000 per month.

The entire effect, therefore, of the New Loan, in connection with the existing Sinking Fund process of the Treasury, is to reduce both Principal and Interest of the Public Debt of the United States. *The Loan creates no additional supply of Government Stocks*, while the application of the surplus revenue is constantly lessening the Funded Stocks bearing six per cent. Gold Interest.

The policy of the Government since the close of the War in 1865, which left a debt upon the country of $2,755,000,000, and an annual taxation of $311,000,000, has been to reduce steadily both Debt and Taxes: to reduce the Principal of the Debt by actual payments, and to lessen the annual burden of Interest, and thereby the burden of Taxation, not only through such payments, but by funding the debt at the cheapest rates of interest practicable from time to time, until it is now felt that the very cheapest rates are due to the high Credit, unblemished Public Faith, and vast and growing resources of the country. From $2,755,000,000 the Principal of the Debt has been reduced to $2,260,000,000—both sums exclusive of accrued interest—and from the heavy burden of $151,832,000 per annum, the Interest charge has been reduced to $112,780,000 per annum; while the annual taxation, under the Internal Revenue system, which the necessities of the War and the Debt thereby created rendered necessary for at least a short series of years, has been reduced from $311,000,000 in 1865-66 to about $154,000,000 per year in 1870-71, (estimating for the highest probable collections in the current month, the last of the Fiscal year,) or less than one-half the first named sum. And in the year 1871-72 a further reduction of $28,000,000 will come in under the Act of July, 1870, so as to give only $126,000,000 for the year, or about two fifths the maximum of 1865-66.

By the successful refunding of the Public Debt at moderate rates of Interest, and by continued economies in the expenditures of the Government—which in two years, from March 4, 1869, to March 4, 1871, amounted to $126,700,949, or an average saving per year of $63,350,474—it is believed that nearly the entire system of Internal Taxes can be dispensed with in a few years, or so much of it as requires the machinery of District Assessors and Collectors.

The Secretary of the Treasury has just published the Monthly Schedule of the Public Debt to June 1, from which it appears that he has further reduced the total of Funded Gold bearing debt since May 1, by the sum of $8,000,000 by purchase of United States 5-20s for the Sinking Fund, and reduced the 5-20s by the further sum of $8,217,400 by conversion into the New 5 per Cents. The whole Funded Debt now stands, $1,894,128,750, as against $2,107,846,150 two years ago when the present Administration came into office. Adding to these sums the net Circulation of the Treasury, (that is, in Greenbacks and Greenback Certificates, after deducting Gold and Currency on hand,) the following is the comparison of Debt of all kinds, at present, and at the close of the War, and in 1869:

	July, 1865.	March, 1869.	June, 1871.
U. S. Stocks	$2,150,784,112	$2,107,846,150	$1,894,128,750
Circulation.....	605,211,163	383 545,854	366,333,003
Total.....	$2,755,995,275	$2,491,390,904	$2,260,461,753

The following table affords a classification of the Funded Stock (in Gold) of the United States, as at present outstanding:

Date.	Coupon.	Registered.	Total.
5-20s, 1862.....	$382,958,500	$103,973,500	$486,932,000
5-20s, 1864.....	44,752,650	55,924,100	100,676,750
5-20s, 1865.....	123,660,150	53,552,100	177,212,250
5-20s, 1865 (n.)....	179,269,500	70,951,450	250,220,950
5-20s, 1867.....	241,686,550	91,325,100	333,011,650
5-20s, 1868.....	28,009,350	11,603,000	39,612,350
Total.....	$1,000,436,700	$387,229,250	$1,387,665,950
Sixes, 1881.....	93,260,400	190,417,700	283,678,100
Fives, 10-40s.....	57,279,650	138,287,650	194,567,300
Fives, 1874.....	13,965,000	6,045,000	20,000,000
New fives, '81.....	5,117,000	3,100,400	8,217,400
Total.....	$1,170,048,750	$724,080,000	$1,894,128,750
Total March 4, 1869			2,107,846,150
Reduction of Funded Debt.....			$214,717,400
Yearly Gold Interest charge, 1869.....			$124,255,350
Present yearly charge.....			111,419,993
Reduction in Interest Charge.....			$12,835,357

The proposed further reduction of the annual interest charge upon the Public Debt by refunding is as follows:

By exchange of $500,000,000 United States six per cents for new five per cents of 1861	$5,000,000
By exchange of $300,000,000 United States six per cents for four and a half per cents of 1866.....	4,500,000
By exchange of $700,000,000 United States six per cents for four per cents of 1901	14,000,000
Total saving per annum by refunding.	$23,500,000

C. C. NORVELL,

In charge of United States Loan Advertising.

TREASURY OFFICE, NEW YORK, June 8, 1871.

Denver Pacific Railway.

To the Stockholders of the Denver Pacific Railway and Telegraph Company :

In behalf of your Board of Trustees I submit the following statement of the operations of the company during the period since your last annual meeting. At that time your road was only constructed to the crossing of the Platte river, forty-eight miles from Denver, and the Boulder Valley Branch was only a projected line with not even a survey of the route. The capacity of the road to earn money had in no particular been tested, and the question of the value and saleability of the lands granted by Congress was only a matter of conjecture.

The sale of the remainder of the first mortgage bonds by the contractors, soon after your last annual meeting, enabled them to push the work of completing the line to Denver early last Spring, and by the 24th of June last the line was extended to the Union Depot, in the city of Denver, and the road was formally opened for business.

Since that time the Kansas Pacific road has been completed to the Union Depot in Denver, giving a through line of uninterrupted railway from all points East over that line, and by your road, by way of Cheyenne and the Pacific, to the Pacific ocean.

The Colorado Central Railway has been constructed from the track of your road, two miles north of Denver, to Golden City, and the business of that road also is done at your Depot in Denver city. The extension of this road, or one that will have easier grades to the mines of Gilpin and Clear Creek counties is a matter of great importance to the country, in reference to which the people are moving in earnest, which, when completed, will add largely to the business over your road as it develops the resources of the country.

The Denver and Boulder Valley road, connecting with your line, nineteen miles north of Denver, is completed for fourteen and a half miles to Erie, the centre of one of the largest deposits and yielding the best quality of coal to be found in Northern Colorado. The work of extending the line to Boulder City is progressing rapidly, and it is expected the road will be completed to Boulder City early this year. When completed to that point the lumber trade of one of the most extensive pineries in the country, and the rich mines of Boulder county in Ward, Cariboo, Sugar Loaf, James Creek and South Boulder districts will give the line a very large increase of business. In fact, no local railroad in the country has a brighter promise of a large and profitable business than the Denver and Boulder Valley Railroad. By a lease for ninety-nine years this road becomes essentially a part of the property of your company.

Its construction has already reduced the price of fuel for locomotives and other uses on the road from eight dollars per ton to two dollars and eighty cents delivered on the cars at the mine. The advantages to your company of this line of road will become more important as the country is settled and the line is extended. It is believed that a narrow gauge road from Boulder City to Cariboo will pay on its cost (and even to extend it still further) as it would give railway communication with one of the richest mining districts in the country and a region of timber, lumber and railroad ties equal to any to be found in the Rocky Mountains.

The construction of the Denver and Rio Grande Railway south from Denver is being prosecuted rapidly and, when completed to Southern Colorado, will add largely to the business of your road by the more rapid development of the country along its route, and by directing a portion at least of the trade of New Mexico over your road, especially securing all of that part of it tending to the Pacific coast.

The most encouraging feature for your road, is the rapidity with which the local business along its route is being developed.

When the line was constructed it was on government lands for nearly the entire distance from Denver to Cheyenne, with not a village between those points nor within fifteen miles of the line. In fact, the few settlements near the line were mostly confined to the immediate bottoms of the Platte river and its tributaries. Since the construction of the road the country along the line has been settling up very fast, and its resources are being developed with unparalleled rapidity. The system of combined effort to open up and settle our wild lands, in no other part of the country has been so necessary as it is in Colorado, on account of the large expenditures for the irrigation of the land; and I may safely say in no other part of the country has it been more successful.

One year ago the pioneer enterprise of this kind was inaugurated at Greeley, in the middle of your road, by the Union Colony, and now the country all around that point is dotted over with farm houses, and the busy scene of rapidly converting a whole district of wild land into fruitful farms, greets the eye on every hand. And the town of Greeley, laid off by the Colony at the crossing of the Cache-a-la-Poudre river on the line of your road, has already grown to be a city of about two thousand inhabitants. This wonderful success, as might have been expected, is being followed by others with equal promise. Already two colonies, one from St. Louis and the other from Boston, have located at Evans, at the crossing of the South Platte river on the line of your road, where immigrants are arriving daily, and no doubt is entertained of the success of the enterprise. Another promising settlement has just commenced about fifteen miles south of the Platte crossing near Lumry's, on your road. Another, though not immediately on the line of your road, is the colony at Green City, twenty-four miles east of Evans, in the valley of the Platte, which has been inaugurated with active energy and will be a source of much local business to your road, as it will speedily develop one of the richest regions of country near your line. And the same may be said of the Chicago Colony, which is located within eight miles of Erie, the present terminus of the track of the Boulder Valley Railroad. The new town of Longmont, laid out by this colony, is rapidly rising to importance, and bids fair to make one of the best towns in the midst of one of the most fertile regions of Colorado.

Other sites for colonies along the line of your road will doubtless be occupied at an early day, until the country traversed shall be fully settled up with the abodes of thrift and industry, making the local business on your road equal to that on any line west of the Missouri river.

A valuable stone-quarry at Johnston, thirty-two miles from Denver, yielding abundance of hard flat stone, of suitable quality for railroad and building purposes, has lately been opened. And another excellent quarry of beautiful cream colored sand stone has just been opened at Erie. These promise to enlarge the local business of your road rapidly, as the stone will bear transportation to Denver and all points on the line of your road, as well as to those for at least one hundred miles on the line of the Kansas Pacific road. The rapidly increasing demand for coal from the mines at Erie also promises a large local traffic on your road. In fact, this business has already attained proportions of great importance.

The gross amount of the land granted to your company by Congress, as designated by the Commissioner of the General Land Office, as shown by the report of the Land Commissioner, is 997,994 96-100 acres. This includes 128,000 acres which is your share of the lands in the conflict of grants where your line approaches the Union Pacific Railroad, which land, by the decision of the General Land Office, is to be divided between the two companies.

Of these lands there had been sold during the year ending April 1st, 1871, (it being the whole period they had been in the market) 59,958.65 acres at an average price of $4 18 acre, making the gross amount of sales $250,640 92.

On these sales there had been received, in cash, $83,892 09 which was paid into the hands of the Trustees under the mortgage securing the bonded debt of the company. The remainder, $167,248 83, is secured upon the lands sold and bears six per cent. per annum interest, all payable to the Trustees under the mortgage.

The liberal terms and moderate prices at which these lands have been sold has greatly stimulated settlements along the line of your road, developing business, which is of greatly more importance to the success of your enterprise than a speculation on the value of the lands, by holding them for higher prices, could have been. In fact, the settlement of the lands was the only means of enhancing their value within a reasonable time. And as sales and settlements have taken place, adjacent lands, otherwise valueless and unsaleable, have gradually come into demand and become valuable. It is not too much to expect that, as the more desirable lands are occupied and put under cultivation those adjoining, even when they cannot be irrigated, will become valuable and sell for grazing purposes. In fact, recent surveys of irrigating canals demonstrate the feasibility of irrigating a large proportion of the lands belonging to your company. It is not unreasonable, in view of the facts of the case, to estimate that the 800,000 acres of these lands mortgaged with the road to secure the bonds issued for the money used in its construction, will bring enough to pay most, if not all, of the principal of the two and a half million dollars, the mortgage debt of the company.

For the excellent condition in which the road has been maintained, the regularity and safety with which it has been operated, as well as for the economical and successful management of its business affairs, the company is largely indebted to Col. C. W. Fisher, the Superintendent, and the efficient officers and employees under his control and direction. His report, herewith presented, will show the details of the operation of the road, and I am sure its results will compare favorably with those of any other new road in the country.

It will be observed that during no month, since any part of the road was opened for business, has its earnings fallen short of the expenses of its operation, notwithstanding the fact that all new roads require more expenses in their maintenance during the first year of their operation on account of repairs on new banks and other extraordinary improvements.

The earnings for the year, with only six months operation after the completion of the line, were—

Gross earnings	$304,715 06
Expenses	168,420 78
Net earnings	$136,294 28

It is but proper here to remark that, by inquiry of the General Accountant of the company, I learn that the amount of business on the road is rapidly increasing by the development of new sources of business, and especially from the increase of through traffic and travel, and a large emigration to points on the line of the road. The net earnings for March will not fall much short of $17,000, and those for April will be about $20,000. The net monthly dues for interest on two and a half millions of bonds, which is the entire indebtedness of the company, is $14,583 33⅓, in gold, so that counting premium on gold and all expenses attending the payments, it may be estimated that the net earnings of the road are now enough to meet its liabilities. And that at an early day the demand made on the receipts from the sales of lands for funds to meet interest (which is provided for in the mortgage) will no longer be necessary. With the rapid development of the country and the consequent increase in its trade and travel, with the increase of through business consequent on the opening and general advertisement of the route over your road from the East to points west of Cheyenne, on the Union Pacific road and to the Pacific coast, there can be no reasonable doubt but that this will be the result, and that the proceeds of the sales of the lands may be applied to sinking the indebtedness, and ultimately leave the road, with all its property, earnings and franchises, to the possession

of the stockholders, free from all incumbrances.

Very respectfully submitted,

JOHN EVANS, *President.*

Journal of Railroad Law.

RAILROAD COMPANIES—THEIR DUTY TO PROTECT IF POSSIBLE CATTLE ON TRACK—WHEN LIABLE.

The facts in the recent case of The Illinois Central Railroad Company vs. Baker, (47 Ills., 295,) are fully and clearly stated in the following opinion by

BREESE, Ch. J.—This was an action against the Illinois Central Railroad Company, then using and operating a portion of the Toledo, Peoria and Warsaw Railroad, for killing, by negligence, a colt of the plaintiff, of the value of one hundred dollars. The jury returned a verdict for the value of the colt, for which the Court gave judgment, having overruled a motion for a new trial.

The defendants appeal to this Court, and insist the motion to set aside the verdict should have been allowed, it being contrary to the evidence.

There was some slight conflict in the testimony as to where the colt got on to the track, whether in or outside of the limits of the town of New Benton. The jury might have found it either way, and it would not change the aspect of the case as we view it. We place it on the ground of great negligence in not stopping the train, then running at a slow rate of speed, so as to have given the animals, for there were two others with the colt, a chance to leave the track. The driver saw them in time to have done so, but did not do it, but rather pursued them a considerable distance, as if with the intent to kill them.

In the case of the same company against Middlesworth, decided at this term, (46th Ills., 494,) negligence of this character, or even ordinary negligence, will subject the company to damages.

If by the use of ordinary care and diligence, animals on a railroad track can be saved from injury, it is the duty of the company to employ that degree of care. If they do not, they are liable. No other rule would afford sufficient protection to animals which are lawfully on a railroad track, as this Court has so often decided they are, if they get upon it from the range or commons.

The instructions given are in harmony with these views, and with the principles recognized in the case referred to.

The evidence sustaining the verdict, and the instructions being proper, the judgment must be affirmed.

Judgment affirmed.

Narrow Gauge Railroads.

The Legislature of Michigan, at its recent session, passed a law authorizing the construction of railroads upon the narrow gauge plan, without special charter. Accordingly, a company has already been formed to construct a road with a three feet gauge from Detroit to Bay City, and the work will be begun in a few days. The capital of the company is fixed at $100,000, and at the first meeting of the company about the middle of May over $100,000 were subscribed. The subject of narrow gauge railroads meets with very favorable discussion in all the Western States, and many of them will no doubt be built in the course of a few years. Their economy makes them specially desirable for freight in the lumber and stock-raising districts.

BANKING AND FINANCIAL.

☞ THE NEW ORLEANS, MOBILE AND TEXAS RAILROAD COMPANY are building a trunk line, connecting New Orleans with Mobile on the east, and giving the only railroad connection between the former city and the great and most productive State of Texas on the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly $10,000,000 of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles constituting the Texas division; leaving but 140 miles to be built to complete the entire road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the eight per cent. mortgage bonds upon the Louisiana Division of 226⅔ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by indorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over $8,000,000.

The bonds now offered are of two classes—first mortgage bonds to the amount of $12,500 per mile, and second mortgage bonds, to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired. No better security has been offered to investors. The line is a good and important one, and the stockholders have proved their determination and ability to carry the work to an early and successful completion by the very large amount they have themselves put into it.

The bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in new Government Five Per Cents, into which the Government Sixes are being funded by the Secretary of the Treasury.

At the same price an eight per cent. currency long bond is far cheaper than a seven per cent. gold one. Calculating a return to specie payments in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—forty-five years—we find that by compounding the interest of each, every six months, at 7 per cent., an eight per cent. currency bond at ninety will give a return of $2,614 18 more than a seven per cent. gold bond at the same price, or nearly three times the amount of the original investment.

While the purchaser of the eight per cent. bonds of this Company can realize this special profit, he also holds the option of taking advantage of any temporary advance in gold, as he has choice, at every separate coupon day, or gold interest at seven per cent., or currency interest at eight per cent.

The bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is ninety, and accrued interest at eight per cent. currency from May 1 to date of remittance. Bonds will be sent free of cost, and Government and all marketable securities will be taken in exchange at their best market rates without charge for selling.

Information concerning the Company and the road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents. W. B. SHATTUCK, Banker and Financial Agent, New Orleans. Mobile and Texas Railroad Company, No. 23 Nassau street, New York.

HARVEY FISK. A. S. HATCH.

☞ FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES.

No. 5 NASSAU-ST.,
NEW YORK, June 5, 1871.

THE CHESAPEAKE AND OHIO RAILROAD COMPANY are extending their line of road to the head of reliable navigation on the Ohio River, where it will meet and connect with lines now building or projected, to the principal railroad centres and river cities of the Western States. Two hundred and twenty-seven miles are in operation, and the rails (steel and iron) for 100 miles additional are now being laid. The road will have, when completed, a large East and West through business, beside an immense mineral and general local traffic.

The SIX PER CENT. GOLD BONDS of the CHESAPEAKE AND OHIO RAILROAD COMPANY are amply secured, and very desirable for safe and profitable investment. We believe them to be of equal value and security with the Central Pacific Bonds, negotiated by us, and must take a like rank in market value and salable character.

Holders of Five-twenty Bonds desiring to fund them otherwise than in the new Five per Cent. Government Loan may do so with entire safety, at a profit of about twenty per cent., and without reduction of interest, by an exchange for the Bonds of the CHESAPEAKE AND OHIO RAILROAD COMPANY.

Price of the bonds, until further notice, 92 and accrued interest from May 1.

We also buy and sell Government Securities and the Bonds of the Central Pacific Railroad Company, and as agents of the United States Government will attend to the funding of 5-20s into the new United States Bonds.

FISK & HATCH.

☞ Despatches from the Pacific Coast state that the Southern Pacific Railroad of California has been completed to Hollister, 94 miles south of San Francisco, and that trains are running thereon. Grading and bridging are ready on eleven miles south of Hollister.

Chesapeake and Ohio Canal.

At the annual meeting of the stockholders of this company, held at Annapolis, Md., on the 5th inst., the following officers were chosen: President, James C. Clarke; directors, Gilmor Meredith, George S. Brown, James G. Berret, Isaac Young, William S. McPherson and William Dodge.

From the Report of the directors which was presented we learn that the total receipts in the treasury from January 1st, 1870, to 31st December, 1871, was $353,963 50. The total payments from the treasury for same time, which included the final payment for constructing dam No. 5, the Shriver basin, and the expenses of the freshet in October last, including construction and extraordinary expenses of $51,095 77, amount to $243,504 11, showing net receipts over payments $110,459 48. To this add amount in treasury January 1st, 1870, $127,271 90; whole amount $237,731 38. Of this sum was appropriated in July, 1870, to coupon and repair bonds, $100,000, and in October of same year the further sum to pay one-fourth of the principal of the repair bonds and interest, $53,750; total, $153,750. Showing balance January 1, 1871, $83,981 30. There has been earned by the company from January 1st to May 31st, 1871, tolls, water and land rents and interest account, $164,229 87. Total, $248,211 25.

The expenses incurred in the same time, including the cost of rebuilding Williamsport aqueduct, flume and dam at No. 5, rebuilding, with hollow quoin, and other repairs to a number of locks on Georgetown, Monocacy, Hancock and Cumberland divisions, also the cost of three new scows, one horse boat, two new bridges, two lock houses and extensive cleaning out of the bottom of the canal at Georgetown and on the Hancock division, amount to $85,166 23; balance June 1st, 1871, $163,045 02.

From this amount there was appropriated in April of this year, to pay one fourth principal and interest of repair bonds, $55,250, and on May 22 the further sum of $55,500—$110,750; balance June 1st, 1871, $52,295 02.

The earnings of the canal from June 1, 1869 to May 31st, 1870, was $379,739 87; the expenses for construction, maintenance and improvement of canal for same time was $274,130 21; showing receipts over expenditures of $105,609 16. It is due to the former management of the canal to say that $52,999 84 of this outlay was for building dam No. 5 and excavating the Shriver basin.

The earnings of the canal from June 1st, 1870, to May 31st, 1871, is $417,441 35; the expenses for construction, maintaining and improving the canal for the same time was $220,121 64, showing receipts over expenditures to be $197,322 71. Included in this amount is the sum of $23,000 to repair the canal after the freshet in October, and $22,500 spent in January, February, March and April of 1871, in extraordinary repairs.

☞ The Philadelphia *Ledger* understands that the Union Canal "has passed to the control of the Reading Railroad Company so far as it relates to its stock, and, as regarded its debt, it is expected the canal and appurtenances will be sold by the Sheriff in a very short time. Being sold for default on its mortgage the holders of the bonds will be cut off from all claims beyond what is realized from the sale."

St. Louis, Alton and Terre Haute Railroad.

The annual meeting of the bond and stockholders of this company was held at St. Louis, Mo., on the 5th inst., and the following directors, whose term of service had expired, were re elected: Levi Davis, of Alton; Anthony Thornton, of Shelbyville; George W. Parker, of Charleston, Ill.; Thomas Dowling, of Terre Haute.

The directors organized by electing Charles Butler, of New York, President; George W. Parker, of Charleston, Ills., Vice President; W. G. Broughton, General Superintendent; W. W. Thomas, Secretary and Auditor, and H. S. Depew, General Freight Agent of the main line.

This road is leased by the Indianapolis and St. Louis road, but the company still operate the Belleville and Southern Illinois road, whence it is contemplated to extend it to Paducah, Ky. The Superintendent's report shows that the earnings of the Belleville and Southern Illinois division have been $362,876. The rent of the main line and Alton branch is $482,953.

Macon and Western Railroad.

The Savannah *Republican* of May 30th, says that a contract has been duly entered into and signed, to take effect from the first of June, by which the Macon and Western Company leases its line of road from the City of Macon to the City of Atlanta for the period covered by its charter to the Central Railroad Company, the latter engaging to operate the same, and on the score of dividends place its stockholders on the same footing with its own. The organization of the Macon and and Western Company will be maintained, in conformity to its charter. This transfer, it is understood, carries with it the interest of the Macon and Western road in the line westward from Griffin to Decatur, generally known as the Savannah, Griffin and North Alabama railroad, now completed and in operation to Newnan. The route is said to be a shorter one by a few miles than that *via* Atlanta, and though not a subject of contract, it is presumed that the Central will now lend its influence, if not its practical aid, to the completion of that desirable connection.

Geneva and Southwestern Railway.

Articles of association of the Geneva and South Western Railway Company were filed in the office of the Secretary of State on the 29th ult. The road to commence at the village of Geneva on the New York Central Railroad, in the county of Ontario, thence by the most direct and feasible route, through the towns of Seneca, Gorham (or as near as practicable to the village of Bethel), to the village of Rushville, thence through the towns of Middlesex, Italy and Naples, *via* the village of Naples, to a point in the town of Cohocton, Steuben county, at or near Blood's Corners, on the Buffalo, New York and Erie Railway—a distance of thirty-seven miles. Amount of capital stock, $1,000,000. The directors are: Hon. Emory B. Pottle, James Covell, Hiram Maxfield, Naples; Edwin R. Parish, Italy; M. A. Pearce, A. C. Lindsley, Hon. Oliver S. Williams, Middlesex; Emmett C. Dwelle, D. B. Holbrook, Potter; Richard M. Washburn, James Pulver, Gorham; Corydon Wheat, Alex. L. Chow, Geneva.

☞ The product of the Lake Superior mines for 1871 is estimated at not less than 1,250,000 tons.

Chicago and Northwestern Railway.

At a meeting of the stockholders of this company in Chicago on the 1st inst., John F. Tracy, A. B. Bayliss, David Dows, F. H. Tows and George L. Dunlap were elected directors for the term of three years each. At a subsequent meeting of the directors the following officers were chosen; John F. Tracy, President, M. L. Sykes, Vice President; A. L. Pritchard, Secretary and Treasurer; J. B. Redfield, Assistant Secretary. George L. Dunlap remains General Manager, and John C. Gault, General Superintendent. Mr. Dunlap, who had been re-elected director, resigned, and B. F. Allen, of Des Moines, was elected in his place. William H. Ferry, of Chicago, was chosen director in place of John B. Turner, deceased.

Notice to Contractors.

COLONIAL SECRETARY'S OFFICE, May 23, 1871.

THE Government of Prince Edward Island will until 19th of July next, receive Tenders for the construction and equipment of a Railway of 3 feet 6 inches gauge, from Cascumpec to Georgetown, a distance of about 120 miles.

Payments will be made in Prince Edward Island Government Debentures, bearing six per cent. interest, payable half-yearly, redeemable in 30 years.

Specifications may be seen, and forms of tender, and other information obtained at the Government Engineer's Office, Charlottetown, after 20th June next.

No tender will be recognized unless made on the printed form.

The Government do not bind themselves to accept the lowest or any tender.

T. H HAVILAND,
Colonial Secretary.

OFFICE OF NORTHERN PACIFIC RAILROAD COMPANY.
120 BROADWAY, NEW YORK, June 1, 1871.

The Transfer Books for the transfer of Registered Bonds will be closed on WEDNESDAY, June 14, and re-opened on SATURDAY, July 1.

Payment of Interest on Registered Bonds will be made by mailing from this office, on the FIRST DAY OF JULY, to the address of each Bondholder of record at the closing of the books, a check to his or her order for dividend due, free of tax, and payable in gold coin.

Coupons due July 1 will be paid on presentation, on and after that date, at the office of JAY COOKE & CO., New York.

4t A. H. BARNEY, Treasurer.

THE WHARTON
Safety Railroad Switch.

☞ **BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.** ☜

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

Address,

NEW YORK
State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE
GOLD BONDS

OF THE

RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

New York Saturday, June 17, 1871.

New Jersey Railroad and Transp. Co.

At a meeting of the Stockholders of this company at Jersey City on the 7th inst., the following resolution, presented by Mr. Duryea of Newark, was adopted:

Resolved, That the stockholders of the New Jersey Railroad and Transportation Company here present, at their annual meeting, express their entire and hearty approval of the action of the Joint Board in having agreed upon the terms of a lease in perpetuity of their works to the Pennsylvania Central Railroad Company upon the basis of annual dividends of ten per cent. to their stockholders.

The old Board of Directors was then re-elected, as follows: Dudley S. Gregory, Henry R. Remsen, Hamilton Fish, Alfred L. Dennis, George R. Chetwood, Martin A. Howell, Ferdinand Suydam, Nehemiah Perry, and Isaac W. Scudder.

MR. ASHBEL WELCH, the General President of the United Companies, being called upon spoke as follows:

Gentlemen: As you already know, a negotiation has been made with the Pennsylvania Railroad Company for the lease to them of your canal, railroads, property and franchises for 999 years, at such rent as will give you a clear annual dividend of ten per cent. on your stock.

The acceptance or rejection of this offer belongs, not to your representatives, but to you alone. I have, therefore, aided in the preparations to bring the question before you, as well as in securing such provisions as most effectually to protect your interests; scrupulously avoiding myself, and as far as possible preventing in others, any action or public expression tending to take the decision out of your hands. I have also advised officers and employees not to mingle in the conflict about the lease, since it has come before the Stockholders; as any hostility incurred by them as partisans, impairs their usefulness as officers.

When it was proposed that the Board of Directors should express their opinion in favor of the lease, I opposed it—partly because I thought the property worth more than we were to get for it, and partly because I thought it was not a question for the Directors, but for the Stockholders only.

But the Board having spoken and acted, their presiding officer is not at liberty to speak or act on the subject disposed of.

As this lease will probably be ratified by the Stockholders, and it is not probable that I shall again have the honor of addressing you, I take this occasion to say a few words about the policy which the present administration has pursued since the consolidation of these Companies.

This policy has been to make the avenues of traffic between the two great cities of this continent—the main trunk through which the traffic of the South and Southwest seeks the commercial metropolis—fully adequate to their purpose; to make them perform all the duties of their location; to do this at the least possible expense; to end the thirty years' war between some of the Companies and the public; to guard against competition, or to make competition harmless, by the sufficiency and superiority of our facilities and the moderation of our rates, and consequent increase of business; and to continue to show that, if corporations have no souls they may have integrity and honor; and by all these means to add greatly to the amount, and especially to the certainty of your dividends.

Of course the increase of facilities required a large increase of investment. This was not only wise, but unavoidable. Our railroads were calculated for a small high-priced business, and in that state of things the threatened competition, prevented only by our improvements, would have been ruinous. The aim was, to prepare for and develop a heavy business, which could be but little affected by competition.

Though our increase of investment is so great, though some of the expenditures have not yet had time to become productive, though the work and materials used in the maintenance and operation of our roads have been from 60 to 80 per cent. higher than before the war, though the public demands for more luxurious accommodations have added greatly to our expenses, and though many of the rates have been very much reduced, yet the per centage of profits now made on the whole enlarged investment of our four companies is not greatly different from the per centage on the former small investment. The greater proportion of stock receiving 10 per cent., to debt receiving 6 per cent., and the great increase of taxation, the gold premiums, &c., have prevented this equality from appearing in the dividend fund. The United States taxes since the consolidation have averaged something like one and a half per cent. on our stock more than they probably will hereafter. And our works, run down at the close of the war, are now in better condition than ever before.

Our railroads have never been calculated for a heavy freight tonnage. Yet, it is upon such tonnage, carried in large quantities, at low rates, and small profits per ton, that the most prosperous roads make their gains; and it is upon such that ours must mainly rely hereafter. The nett profits of the Pennsylvania Railroad Company in 1869 were more than three times as much per mile run of trains with freight as with passengers. Their profit for the year was nine times as much on freight as on passengers; ours only two thirds as much on freight as on passengers.

A fully developed business on our roads would doubtless differ in its proportions from that on the Pennsylvania Railroad, but it would differ still more from the present business. Why have we missed this important and, in our future, all-essential branch of traffic? Because we have not yet fully expiated the errors of our youth.

When the companies were consolidated, and their mutual jealousies were no longer in the way, we found the transit duties which in the early inexperience of railroad legislation and railroad management had been laid upon us, a legal prohibition of a heavy freight traffic. To do such work cheaply, expensive preparations must be made, and large quantities carried; to get large quantities, rates must be low. But as the law stood, every cent of profit, at rates not very unusually low, would have been paid to the State in transit duties.

As soon as we succeeded in getting that pernicious system abolished, in the spring of 1869, we endeavored to stimulate cheap freight, and succeeded in 1870 in more than doubling the way tonnage; it being in 1868, 319,000 tons, and in 1870, 665,000 tons; or, including coal, a great deal more. In the four years since the consolidation the whole tonnage has been trebled.

But one difficulty remains. A large part of this heavy tonnage seeks the shores of the Hudson river. Much of it ought to remain on the west bank to await final distribution to the consumer; for if taken at once to New York and distributed afterwards, the extra cartage, storage, handling,

and often extra ferriage, costs as much as hauling over 200 miles of railroad. Now, valuable as our improved property in Jersey City is for other purposes, it is not available for this. We have no place on which to store heavy goods awaiting distribution.

Along our route there are many favorable locations for manufactories. If we had a suitable place of deposit for their products at the end of our road, a saving would be effected (partly to the Company, partly to the customer) of more than half the present freight to New York. With such a place of deposit we could adopt low rates. Our local tonnage would become very great, and sure of the profits on that, the evils of competition would not be at all in proportion to our traditional nervousness about them. Our way business now is not far from half of all.

Fully impressed with these views (though circumstances did not formerly permit their expression), feeling that the salvation of the companies required a good freight terminus, I long a o selected Harsimus Cove as the best and, latterly, the only remaining available site for it. As soon as that essential step in the grand movement—the consolidation—was effected, means were taken to secure it. It was secured just in time to prevent it from falling into other hands.

It is to reach this seventy acres, now flowed by the tide, that the Pennsylvania Railroad Company offer to lease our works and pay us ten per cent. But it is a great mistake to suppose that its purchase and improvement were intended mainly for the business of that road, which gives us only a quarter of our tonnage. It is just as absolutely vitally necessary for our own local business.

This improvement was of such magnitude, and there were so many other urgent demands for expenditures, that it has been postponed to the present time. It was, perhaps, to be expected that those not practically acquainted with railroad transportation on a large scale, and with the rapid growth of traffic when it has a chance to grow, would hesitate about going into an expenditure of three millions, required for the development of this property.

The purchase of Harsimus was not a land speculation; not a lucky accident; not merely an engineer's project to bring rail transportation, shipping, lighterage, ferriage, cartage and storage all into contact, and to save one, two or three dollars a ton, and extend the commercial metropolis of this hemisphere to the west bank of the Hudson; not an instrument to secure a particular alliance; but an essential means of creating a great freight traffic, and carrying out the policy which has always been kept in view. If we had made the improvement at once we should probably now get twelve per cent. rent instead of ten; or make twelve per cent. ourselves. And we should have been able to carry out much more fully than we have done (and we have done something in that direction) our liberal policy.

Should the lease fail from any cause, we cannot stand still. We should lose no time in making this improvement; making it ourselves—not in connection with anybody else, but retaining all the power it c nfers.

Then, with our unequalled location, our ramifications among the sources of business, manufactories stimulated by low freights and favorable locations springing up along our route, the business of the South reviving and that of the whole country growing, with legal trammels now removed and valuable rights obtained; we, opening our doors to all connecting lines and all other parties on fair and equal terms, and giving them assurance for the future by permanent contracts; lifting ourselves out of any old grooves that no longer run in the right direction; adopting a single simple organization in place of the present provisional government; shunning the tainted air of legislative ante-chambers; then—we doing this—if the lease falls through, we shall have little reason to regret the failure.

☞ Track laying on the Utah Southern Railroad was commenced on the 6-h inst.

The Connecticut River Bridge at Middletown.

The third span of this bridge is now being erected; the masonry, excepting the rests for the draw, is all finished.

There are to be four spans of 209 ft. each in the clear, two spans of 54 ft. and a turntable draw of two openings each 130 ft. in the clear. The entire draw is 304 ft. long.

The abutments and piers are of massive granite and the superstructure of wrought iron. Inclined, swelled, round ended posts; box top chord; compound link lower chord; single track; working load two tons to the foot run; factor of safety six; Gen'l Serrell Chief Engineer, E. W. Serrell Jr. Ass't Engineer, in charge, C. C. Campbell & Co., Contractors for Masonry. Keystone Bridge Co., Contractors for Iron Work. Sellers & Co., Contractors for turntable.

Toledo, Wabash and Western Railway.

Notwithstanding the very general prevalence of severe competition for business throughout the country, during the year 1870, it is gratifying to be able to state that the earnings of the road show an increase over those of the previous year of $292,298 11, which is the largest increase ever before realized from the traffic of any single year.

The gross earnings were $4,544,640 92 and the total operating expenses, $3,236,264 50, leaving a net surplus of $1,308,376 42, which was more than sufficient to pay the entire interest on the bonded debt and preferred stock of the company.

The volume of traffic seeking transit over the route was so large that, if it could have been made available, it would have produced sufficient revenue to have enabled the company to have earned a satisfactory dividend on their common stock; but the utter want of equipment and capacity on the part of eastern connecting lines to either receive, handle or forward such freight has subjected the traffic to blockades that have well nigh stagnated and paralized all the business operations of the road. In the rapid development and growth of strictly local business the company have found cause for encouragement and confidence in the future success of their property.

The equipment of the line has been largely augmented during the year, by the addition of 636 first-class cars of various kinds, and other business facilities, which will contribute to the removal of a want that has hitherto seriously affected the business of the road. The general renewals of the rolling stock and machinery have been prosecuted systematically and thoroughly, so that they are now in a superior condition of efficiency.

The improvements made upon the track and superstructure have been unusually extensive; over 81 miles of new iron have been laid with fish-joint, and about 70 miles of old rails have been mended and replaced. The general roadway has been much improved by more thorough ditching and the removal of perishable structures and the substitution of permanent ones.

Arrangements have been recently consummated with the Pullman Palace Car Company, whereby there has been secured an equipment of elegant sleeping cars, which will have a tendency to popularize the line with the traveling public and contribute much to the success and prosperity of the passenger traffic.

During the year the Decatur and East St. Louis Railroad Company, was merged into the Toledo, Wabash and Western Company by an act of consolidation; owing, however, to the lateness of the completion of the road and the incomplete warehouse and station accommodations, its value as an auxiliary has been but partially disclosed. Since St. Louis has already become the most prominent railroad centre in the Western States, as well as the distributing point to a vast territory in the southwest, the importance of that city as the principal western terminus of the Toledo, Wabash and Western Railway cannot be too highly valued or over-estimated.

In the month of June, the Hannibal and Naples Railroad, together with its branch to Pittsfield, passed into the control of the Toledo, Wabash and Western Company. It should however be stated that the earnings and expenses of said railroad are wholly excluded from those of the T., W. and W. Railway. The control of this line to Hannibal insures to the main line the almost exclusive traffic of the rich and productive country lying between the Illinois and Mississippi Rivers, and the still more important object, the final establish-

ment of a great through route between Toledo and Kansas City.

The superstructure of the iron railway bridge crossing the Mississippi at Hannibal is now being placed in position and the construction work upon the only remaining link of the line, between Hannibal and Moberly is rapidly advancing to completion and will be completed during the coming summer, arrangements having already been perfected for the control of this bridge and the line west of Hannibal, their completion secures the continuity of the T., W. and W. Railway between Toledo and Kansas City and gives the shortest and most practicable line between the lakes and the Southwest.

With a view to further strengthen their position, the company have effected favorable arrangements for the control of the road now in process of construction between Decatur, Lincoln and Pekin. It is expected that this line will be opened for business early in the autumn of 1871.

The early completion of the new railroad from Lafayette to Bloomington is looked forward to with interest. This line, like the last one referred to, passes through the most productive counties of Illinois and Indiana, and will secure to the T., W. and W. Railway a large traffic in grain, &c., which will naturally seek an outlet east by way of Toledo.

Under these circumstances the future prospects of the company are encouraging. By the extension of the line to St. Louis and the cordial co-operation of several new and valuable connecting roads, the business must be largely increased. In addition to the large increase recently made to the equipment, the company have also arranged for immediately placing upon the line 50 first-first-class locomotives and 450 box freight cars.

The company are now operating 631 miles of road, viz: the Main Line, (in Ohio 75.5, in Indiana 166.9, and in Illinois 212.4,) 454.8 miles; the Keokuk Branch, 41.2 miles; the Naples Branch, 4 miles; the St. Louis Division, 109 miles; and the Camp Point and Quincy (leased), 22 miles. The weight of iron averages 60 lbs. to the yard.

The equipment of the company at the close of 1870 consisted of 130 locomotives and the following cars—passenger 54, sleeping 3, directors' 1, smoking 4, mail and baggage 32, box freight 1,696, stock 391, platform 280, coal 406, caboose 52 and other 58—total, 3,111. Engine houses 13; stations 120.

New iron put in track 81.2 miles; iron repaired and replaced 76.5 miles; new ties put in track 310,290; new passenger buildings, 2.

☞ A new railroad is projected in Ontario County, N. Y., to be known as the Blood's Corners and Geneva Railroad. The Company is organized and the articles of association filed in the office of the Secretary of State. The road will be 37 miles in length, extending from Geneva, at the head of Seneca Lake, south, through the villages of Gorham and Rushville, and the towns of Middlesex, Italy and Naples, in Orange County, to Blood's, in Steuben County, where it will connect with the Rochester and Genesee road. The capital stock of the company is $1,000,000.

☞ The directors of the New York Central and Hudson River R. R. Co., recently elected, are: Cornelius Vanderbilt, William H. Vanderbilt, Horace F. Clark, Augustus Schell, James H. Banker, Samuel F. Barger, William A. Kissam, H. Henry Baxter, Joseph Harker, New York; Henry R. Pierson, Albany; Chester W. Chapin, Springfield, Mass.; Geo. J. Whitney, Rochester, N. Y.; James M. Marvin, Saratoga Springs, N. Y.

☞ The receipts of the Chesapeake and Delaware Canal, during the year ending May 31, 1871, from tolls and other sources amounted to $413,593 26, cash on hand, $151,966 82—total, $565,559 08. The total expenditures for materials, dividends and $50,339 72 of accrued interest, amounted to $441,686 05, leaving $123,904 03 as cash in the treasurer's hands.

☞ Arrangements have been effected for the immediate extension of the Missouri, Kansas and Texas Railroad from Harrisonville, Mo., to Paoli, Miami county, Kansas, to be completed by October 1. The recent decision of the Supreme Court of Kansas, sustaining the validity of city and county bonds, has given a new impetus to railroad building throughout the State.

☞ At the annual election of the Milwaukee and St. Paul Railroad Company, at Milwaukee, on the 10th inst., the old officers were re-elected. The four Directors elected for three years are Alexander Mitchell, Russell Sage, Selah Chamberlain and Julius Wadsworth.

Poughkeepsie Bridge Company.

AN ACT to incorporate "The Poughkeepsie Bridge Company, for the purpose of constructing and maintaining a bridge, appurtenances and approaches to the same, over the Hudson river, at a point or points between the city of Poughkeepsie and the town of Loyd, Ulster County, on said river.—Passed May 10th, 1871.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Harvey G. Eastman, George Innis, John F. Winslow, John O. Whitehouse, Homer A. Nelson, John I. Platt, Isaac W. White, Geo. R. Gaylord, Oliver H. Booth, William A. Davies, John M. Toucey, John P. Adriance, Alfred B. Smith, Charles Wheaton, Henry D. Varick, Abram Wright, Charles Kirchner, Chas. W. Swift, Geo. Corlies, Jas. Mulrein, Robert Slee, Allard Antony, Edward Storm, George P. Pelton, Pomeroy P. Dickinson, Jas. G. Wood, Aaron Innis, Hudson Taylor, Mark D. Wilber, Geo. Parker, Jas. Collingwood, Matthew Vassar, Walter Van Kleeck, Charles H. Roberts, Lawrence C. Rapelje, Anning Smith, Abram Hasbrouck, George Cornwell, and their associates, are hereby created a body politic and corporate, by the name and style of "The Poughkeepsie Bridge Company," for the purpose of constructing and maintaining a permanent bridge, appurtenances, and avenues of approach thereto, for the passage and transportation of passengers, railroad trains, teams, vehicles, cattle, horses, sheep, swine, and other merchandise and property, to and from the east and west banks of the Hudson river, at some point or points between the city of Poughkeepsie and the town of Loyd on said river; and as such corporation, are invested with all the powers and privileges, and are subject to all the liabilities, conferred and imposed by title three, chapter eighteen of part one of the Revised Statutes; provided, however, that the said bridge shall be commenced on or before July first, eighteen hundred and seventy-two, and shall be completed and opened for use, on or before January first, eighteen hundred and seventy-six.

§ 2. The said corporation shall have power to purchase, acquire, hold and use as much real estate as may be necessary for the site of said bridge, and of all piers, abutments, walls, toll-houses, workshops, guys, main anchor pits, anchor pits for guys, and other structures and places for the storage of merchandise and property, and for the opening and maintaining of proper and necessary avenues of approach to said bridge, not to extend over two miles from each end or terminus of said bridge. To borrow, from time to time, such sums of money as may be necessary, and to issue and dispose of its bonds for any amount so borrowed, and to mortgage its corporate property and franchises to secure the payment of any debt contracted by said corporation, for the purposes aforesaid; and the directors of the corporation hereby created, may confer on any holder of any bond issued for money borrowed as aforesaid, the right to convert the principal due and owing thereon, into stock of said corporation, at any time not exceeding ten years from the date of the bond, under such regulations as the directors may see fit to adopt. And in case of the destruction of said bridge, to reconstruct the same, and in like manner to borrow additional moneys for that purpose: but nothing in this act contained shall authorize said corporation to borrow and owe for money borrowed, at any one time, an amount exceeding the capital.

§ 3. The capital stock of said corporation shall be two million dollars, divided into shares of one hundred dollars each. The directors of said corporation may, at any time, with the consent in writing of stockholders holding a majority of the stock, increase such capital to an amount not exceeding five thousand dollars. The shares shall be deemed personal property, and may be transferred in such manner as shall be provided by the by laws of the corporation. Any railroad corporation in this State, or elsewhere, may subscribe to, and become the owner of, with the like rights as an individual, of any part of the capital stock of the corporation hereby created; not exceeding in amount, however, five per cent. of said capital stock by any one railroad corporation so subscribing; and rails may be laid upon the said bridge, and on the said avenues of approach to the same, for the passage of railroad trains, in such manner as the directors may deem proper, and under such agreement and compensation, and on such terms in all respects as may be agreed upon, with any railroad corporation or corporations: Provided, that at least fifty per cent. of the amount of the capital stock of the corporation to be created under this act, shall be distributed to individuals, in case so much shall be subscribed for by individuals. The directors of the corporation hereby created may issue full paid stock for the purpose of purchasing property, both real and personal, necessary for the purposes of the corporation, to the amount of the value thereof, and the stock so issued shall not be liable to any further assessments, neither shall the holders thereof be liable for any other payments on such stock, under the provisions of this act, but in all statements and reports of the corporation hereby created, to be published, such stock shall not be stated or reported as being cash paid in to the corporation, but shall be stated and reported according to the fact.

§ 4. The persons named in the first section of this act shall constitute the first board of directors of the corporation hereby created, and shall hold their places as such until the first Monday in January, one thousand eight hundred and seventy-three, and until others shall be elected in their stead; and a majority of them may, at any meeting of their board, at any time hereafter, designate three or more of their number to open books, after twenty days' previous public notice in the State paper, and two or more daily papers published in the city of New York, to receive subscriptions to the capital stock of the corporation hereby created, at such place or places, and under such regulations in all respects, as said board of directors may prescribe; and in case of an excess of subscriptions, they may apportion the stock among the subscribers in such manner as they shall deem most likely to promote the interests of the corporation hereby created, by or in the speedy erection of said bridge, and the construction of its appurtenances and avenues of approach. The books, when opened as herein provided, shall remain open at least through the business hours of the day, so that all persons may have a fair opportunity of subscribing; and at the time of subscribing, an instalment, to an amount to be fixed upon by the directors, and stated in said books, (if not less than ten per cent.) on each share, shall be paid in, or such subscription shall not be received. The number of directors, after the time last mentioned, namely, the first Monday in January, eighteen hundred and seventy-three, shall not be less than seven nor more than thirteen, to be fixed upon in the by-laws of the corporation hereby created. An election of directors shall take place, on the first Monday in January, in the year one thousand eight hundred and seventy three, and annually thereafter, on that day, at an hour and place to be designated in the by-laws, and the persons then elected by a majority of the shares voted upon by the stockholders, in persons or by proxy, shall constitute the directors for the then ensuing year, and until others shall be elected in their places. And in case it shall happen at any time that an election of directors shall not be made on the day herein designated, it shall be lawful to hold such election on some day thereafter, on full and reasonable notice to the stockholders. All vacancies which shall occur in the board of directors, by death, resignation, mental incapacity or otherwise, shall be filled by appointment of a majority of the remaining members for the balance of the term then vacated. A majority of said board shall form and constitute a quorum.

§ 5. The said board of directors shall have power to cause such examinations and survys to be made as may be necessary in their judgment for the selection of the most advantageous site for the said bridge, the buildings, structures and yards, and the avenues of approach to the same herein authorized; and for such purposes they shall have power to appoint an engineer, agents or officers, who are authorized to enter upon the lands or waters of any persons for such purpose, but subject to proper responsibility for all damages which they may do thereto.

§ 6. The officers of the corporation hereby created, shall consist of a president, secretary, treasurer and chief-engineer, who shall be annually elected by the board of directors, of which board the president shall be one, and such committees may be appointed, as well as subordinate officers, and such security required from the officers as the said board of directors may deem necessary and proper. The board may also require payment of the amount remaining unpaid on the stock of the corporation hereby created, giving at least thirty days' previous notice in the State paper at Albany, and the official county papers, of the counties of Dutchess, Ulster, and Columbia, also in two daily papers published in the city of New York, under penalty in case of non-payment, of forfeiture of said stock, and all the previous payments made thereon, for the benefit of the corporation hereby created, provided that no one assessment shall exceed ten per cent. upon the amount subscribed and shall not be called oftener than once in thirty days. The said board of directors may also from time to time ordain and establish such by-laws, and adopt such measures as they may deem proper to further the interests of the corporation hereby created, and to promote the speedy construction of the said bridge, its appurtenances, and avenues of approach herein authorized.

§ 7. Whenever the said bridge shall be completed and its safety tested, and the fact certified by the State Engineer and Surveyor, the corporation hereby created may erect toll gates, fix the rates of tolls for persons and animals, except such as are being conveyed on railroad cars or trains, and vehicles of every kind and description drawn by animals entering upon or crossing over said bridge, and such erections as the board of directors may direct to guard the said bridge, its entrances, avenues and approaches, but no greater tolls than the following shall be charged, namely: For every foot passenger entering upon or passing over said bridge, twenty five cents, for every horse and single carriage, fifty cents, and an addition of fifteen cents for every passenger actually traveling in such carriage; for double carriages and two horses, one dollar, and the same rates for passengers as before provided, and twenty-five cents for each additional horse with such double carriage; for sheep passing, two cents per head; for horses or mules without carriage, six cents; swine, two cents each, and for neat cattle, six cents each; for wagons, drays and vehicles of every description used for the purpose of carrying freight or merchandise, except railroad trains or cars, twenty-five cents for single vehicles. The rates of toll shall be posted up conspicuously at each end of said bridge. The board of directors shall reduce the rates of toll in this section specified, whenever the net receipts from the same amount to the sum of ten per cent. on the cost of that portion of said bridge to be devoted to travel and transportation specified particularly in this section, so that the said net proceeds shall not exceed that sum in any one year. If any person shall force, or attempt to force, a passage upon or over said bridge, without having paid the established toll, such person shall be deemed guilty of a misdemeanor, and shall forfeit and pay to the said corporation hereby created five times the amount of legal toll, to be recovered in the name of the corporation hereby created, with costs of suit.

§ 8. Any person wilfully doing any injury to the said bridge or any of its appurtenances or avenues of approach, either before or after their completion, shall forfeit or pay to the corporation hereby created three times the amount of such injury, and shall be deemed guilty of a felony, and shall be subject to a penalty or fine not less

than one thousand dollars or imprisonment for a term of not less than one year, or be punished by both such fine and imprisonment, in the discretion of the courts. Concurrent jurisdiction shall be possessed and exercised by the courts held or to be held in the counties in which said bridge, its appurtenances and avenues of approach, or any part thereof, may be located respectively, over all crimes to or on the same, and of any civil actions or proceedings brought or prosecuted by the corporation hereby created.

§ 9. A record of the proceedings of the board of directors shall be kept by the secretary, and a statement of the financial condition of the corporation hereby created, the amount of money expended on account of said bridge, its appurtenances and avenues of approach, and of all its receipts and expenditures, shall be annually prepared by the president and treasurer, verified by them under oath, and filed in the office of the State Engineer and Surveyor on or before the first day of December in each year.

§ 10. In case it shall be found necessary, in order to facilitate the erection or secure the safety of said bridge, it shall be lawful for the corporation hereby created to erect and maintain anchor blocks of masonry in the said river, from which guys or stays to said bridge may be stretched to secure the same, but nothing in this act contained shall be construed to authorize, nor shall it authorize the construction of any pier or anchor blocks which shall obstruct or in any manner interfere with the free or common navigation of the said river, or the construction of any pier in said river beyond the pier lines heretofore established by law; and said bridge shall not be constructed at a less elevation than one hundred and thirty feet above high tide, and shall be so constructed as not in any respect to interfere with the free navigation of the Hudson River; and if at any time there shall be reasonable grounds to believe that in the construction of said bridge or any erection connected therewith, the free navigation of said river may be impaired, or interfere with, it shall be the duty of the attorney general to institute in the name of the people proceedings to restrain the further construction of said work.

§ 11. The board of Directors may at any time apply to the Governor to commission such persons as they may designate to act as policemen for the corporation hereby created. The Governor, upon such application, may appoint such persons or so many as he may deem proper to be such policemen, and shall issue to such person or persons so appointed a commission to act as such policemen. Every policeman so appointed shall, before entering upon the duties of his office, take and subscribe the oath prescribed in the twelfth article of the Constitution; such oath, with a copy of the commission, shall be filed with the Secretary of State, and a certificate thereof by said Secretary be filed with the clerk of each county in which said bridge, its appurtenances and avenues of approach, or any part thereof, may be located, and in which it is intended he shall act, and such policemen shall severally possess all the powers of policemen in the several towns and villages in which they shall be authorized to act as aforesaid. Such police, shall, when on duty, severally wear a metallic shield with the words "Poughkeepsie Bridge Police" inscribed thereon, and said shield shall always be worn in plain sight or view, except when employed as detectives. The compensation of such police shall be paid by the corporation hereby created, as may be agreed upon between them; and whenever the president or acting president of the corporation hereby created shall no longer require the services of any policeman so appointed as aforesaid, he may file a notice to that effect in the several offices in which notice of such appointment was originally filed, and thereupon the power of such policeman shall cease and be determined.

§ 12. Any railroad corporation whose road shall have a terminus at said bridge, or shall connect with the same or either of its avenues of approach, or shall run its trains in connection with any railroad having such terminus or connection with said avenues of approach, shall be permitted, under the directions of the corporation hereby created, to use said bridge and avenues of approach for railroad purposes, upon such terms as the board of directors of the corporation hereby created and each of the several corporations interested respectively may agree. But no preference in the use of said bridge, its appurtenances and avenues of approach shall be given to one or more railroad corporations, over any other railroad corporation in the terms of agreement or in the transaction of business; but the corporation hereby created shall fairly and impartially grant and afford to each and every of such railroad corporations in their turn and order, equal terms of accommodation, privileges and facilities, and the corporation hereby created shall be liable to the party aggrieved in an action for damages for any neglect or refusal in the premises; and it shall not be lawful for any railroad corporation, or other corporations or parties (whose road shall have a terminus at said bridge), to construct a railroad track or tracks across, over or above any of the avenues of approach to said bridge without a special permit from the Legislature of this State, or the board of directors of the corporation hereby created.

§ 13. If the corporation hereby created shall be unable to agree for any reason with the owner or owners of any real estate required for its purposes as herein provided for the purchase thereof, it shall have the right to acquire the same in the manner and by the like special proceedings as are authorized and provided for, for the obtaining title to real estate required for purposes of a railroad corporation, under the fourteenth section of he act entitled "An act to authorize the formation of railroad corporations, and to regulate the same," passed April second, one thousand eight hundred and fifty, and the other sections of said act relative thereto, and any acts amendatory thereof or in addition thereto; and for such purposes, and for that purpose, all such acts shall be considered applicable to the corporation hereby created, as far as may be, in like manner as if the same were named therein, and such modifications may be made in the formal part of the proceedings in order to apply the same to the corporation hereby created, instead of a railroad corporation, as shall be approved of by the supreme court; and the said court, at special term or otherwise, may make such orders and regulations as to the mode and manner of conducting the proceedings and all things relative thereto, so as to effectuate and make the same valid for acquiring title to such real estate as the said court may deem proper; and the title thus required by the corporation hereby created, shall vest in it the fee simple of the said lands and real estate. The said court, on sufficient cause being shown and on proof of tender of the amount to be paid for such real estate in any manner as may have been required by or in said court, may issue summary process in such form as may be deemed proper, to the sheriff of the proper county, commanding him without delay, to put the corporation hereby created, by its proper agents, in the possession of such real estate, and may enforce such process in such manner as may be conformable to law.

§ 14. The corporation hereby created, before constructing any part of said bridge, its appurtenances and avenues of approach, shall make a map and profile of the same as intended to be adopted, which shall be certified by the president and engineer, and filed in the office of the State Engineer and Surveyor, and the offices of the county clerks of the counties respectively in which the same, or any part of the same, is to be made or constructed.

§ 15. The avenues of approach herein authorized, except the main entrances to said bridge, shall not be over 12 rods in width, and shall be located with the view of connecting with public highways laid out, or which may be proposed to be laid out, and with the roads of railroad corporations proposing to use said bridge, as in this act provided; and the corporation hereby created is required to allow and permit any railroad corporation now formed and organized, or hereafter to be formed and organized, to connect their roads with the avenues or approaches to and from said bridge, on which rails may be placed for the passage of railroad trains as herein provided.

§ 16. That the seven persons first named in this act, or a majority of them, shall call a meeting of the directors or corporators herein appointed at some convenient time and place, and shall give due and reasonable notice at as early a day as may be practicable, after the passage of this act.

§ 17. This act shall take effect immediately.

Northern Pacific Railroad.

A meeting of merchants, bankers and capitalists was held in Philadelphia on the 12th inst. for the purpose of listening to an address of Hon. Wm. D. Kelley on the development of the northwestern portion of the country, and the effect of building the Northern Pacific railroad on the trade and commerce of the Middle States. Gov. Geary presided, assisted by four hundred vice-presidents. Gov. Geary made some remarks on the importance of the road to the interests of Philadelphia, and introduced Mr. Kelley, who gave a history of the project of the Northern Pacific road from its inception, and in the course of his remarks said: "I regard the construction of the road as chief among the great works of the future, and believe it will be not only to its promoters a proud monument and vast source of wealth, but also that its construction will add inconceivably to the wealth and power of the country. It will open vast regions, abounding in elements of wealth, to settlement under the pre-emption and homestead laws, give an additional impulse to immigration, and revive the prostrate commerce of the country. Such are my convictions, and a study of many authorities, much intercourse with men and extended travel, have only served to confirm them." He enforced these convictions with a brilliant argument, and concluded amid much applause.

☞ The Court of Appeals of Maryland has reversed the decision of the Superior Court, Baltimore, in the case of the State versus the Baltimore and Ohio Railroad Company, involving capitation tax on passengers travelling over the Washington branch of the Baltimore and Ohio Railroad, holding that the one-fifth of the gross receipts for passenger travel over the road, required to be paid into the State Treasury, is a tax on the Company and not on the traveler, and was free from the operation of the principle announced in the Nevada case.

☞ Work on the Bridgeton and Port Norris (N. J.) Railroad is advancing, and rails for laying the track are being sent to Bridgeton over the West Jersey Road. The section from that city to Fairton will soon be completed and the cars running. The road will then be continued to Cedarville, and it is intended that by autumn it shall be finished to Port Norris.

☞ The executive committee of the Plymouth, Kankakee and Pacific Railroad Co. have closed a contract with Messrs. Hawkings, Hillard & Co., of Chicago, for the grading, bridging and ties for fifty-five and one-half miles of the east end of their road extending from Plymouth, Ind., to within ten miles of the Illinois State line.

☞ A deed of trust for $2,000,000 of the second mortgage bonds to be issued by the Illinois and St. Louis Bridge Company has been recorded. Solon Humphreys and John A. Stewart, of New York, are the trustees.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

Years ending.	Railroad: Main Line.	Railroad: Branch Line.	Railroad: 2d Track and Sidings.	Railroad in progress.	Rolling Stock: Engines.	Rolling Stock: Cars: Pass.	Rolling Stock: Cars: R. M. &c. RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, June 17, 1871.

Stock Exchange and Money Market.

The Money market has shown rather more animation, but, under very liberal offerings of capital on the part of lenders, rates have been without change of moment,—the range on call loans having been from 2@5 mainly 3@4 per cent., and on very choice to good mercantile credits, 4@7, chiefly 5@6 per cent. per annum. The Government houses have been very promptly supplied. The inquiry from the Stock Exchange firms has been on a moderate scale. There has been rather more demand from the Gold Exchange dealers. The mercantile call has been comparatively light. Some outflow of currency to the interior has been noted to aid in moving the wool clip to market, and other business operations; and this has had an unfavorable effect on the city bank reserves. The city banks, last week, reported a loss of $1,073,727 of specie, and $490,392 legal tender notes, with a gain of $510,817 of deposits. They enlarged their loan and discount averages $2,008,013 and reduced their circulation $228,312. The city bank exchanges, last week, averaged $119,958,738; and thus far, this week, 127½ millions daily. The banks now hold $14,967,907 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a loss of $6,839 of specie and $664,101 of currency, as the result of the week's business. The receipts of the office were $3,145,618 in coin, and $3,319,125 in currency; payments, $3,152,457 in coin, and $3,983,176 in currency. The office received $2,678,000 in coin or its equivalent, from customs; and disbursed $897.776 of coin interest.

The specie reserve of the city banks according to the latest return is $12,716,153, against $28,523,819 same time last year. The city bank deposits are now $241,894,336 against $220,699,290 week ending June 11, 1870. The legal tender reserve amounts to $70,410,441 against $60,159,170 same time last year. The circulation now stands at $30,740,411, against $33,142,188 same time last year. The loans are now $276,419,576, against $293,810,161 at this date last year.

The subscriptions to the new refunding Five per cent. Loan now amount to about 67½ millions.

The U. S. Sub-Treasurer retired, last week, $2,323,281 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $3,752,817 in currency, and $57,998,256 in coin, against a balance a week previous of $4,710,222 currency, and $56,783,998 coin.

Government revenue returns for the week show a fair yield. The excises yielded last week about three millions. The customs at the port of New York, last week were $2,571,281; and at the outports, equal to about $850,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $136,511,397.

Under the Treasury programme for June, Government will sell Gold during the month, through the Treasury office here, as follows: Thursday, June 22, $1,000,000; Thursday, June 29, $1,000,000. And buy in Five-Twenties, as follows Wednesday, June 21, $1,000,000; Wednesday, June 28, $1,000,000.

The Gold movement has been more active, and under speculative manipulations of the floating supply, the market has been quoted stronger, with more than the usual measure of excitement in the dealings, as between the conflicting elements in the Gold Exchange. The operators for a rise have manifested a bolder and more confident temper. The customs call has been up to a fair average. The export movement has been less extensive. The later operations indicated less vigor in the speculation. The range of the price, during the week, has been from 111¾@113, and the closing quotation on Wednesday was 112¼ against 111⅞ the preceding Wednesday. The outflow, last week, was $1,520,568; on Tuesday of this week to $124,371, and on Wednesday, to $223,137. The Gold Exchange Bank clearances daily, through the week have been as follows: June 8, $77,603,000; June 9, $57,716,000; June 10, $30,496,000; June 12, $105,818,000; June 13, $86,167,000; June 14, $63,409,000.

The Treasury Department balances, on Monday, were $89,580,000 of coin, including $17,555,000 represented by outstanding certificates; and $5,294,879 of currency.

The customs at this port on Wednesday were $500,000.

The export drain was $1,520,568 last week,

against $834,424, same week preceding year. The shipments since July 1, 1870, have been $77,212,241, against $30,952,660 same time in 1869–'70.

The customs demand for Gold last week, averaged $445,697 a day; thus far, this week, it has averaged $359,000 a day, or equal to a weekly aggregate of $2,354,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $5,914 and since Jan. 1, 1871, $3,049,749 against $6,988,507 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $140,453,844, against $128,463,794 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $84,912,515 against $85,671,417 same time in 1869–'70.

Foreign Exchange has been in less request and quoted weaker in price, closing on Wednesday, with Bankers' sixty day bills on London at 109¾@110; sight bills on London, 110¼@110½.

The produce exports from this port, week ending with June 13, were to the currency value of $3,998,129.

Government securities have been in more general request at stronger prices, on very limited offerings of all issues.

On Wednesday, Government bought in a million of Five-Twenties at 111 12@111 46, ex-interest. The amount of bonds offered was $3,571,250.

U. S. sixes of 1881 closed here on Wednesday of the current week at 117¼@117½; U. S. Five-Twenties of 1862, 112@112⅛; U. S. Five-Twenties of 1864 at 112@112⅛; U. S. Five-Twenties of 1865, 112@112⅛; U. S. Five-twenties of 1865 consolidated, 114¼@114⅜; U. S. Five Twenties of 1867, 114¼@114⅜; U. S. Five-twenties of 1868, 114⅜4@114½; U. S. Ten-forties at 109⅞@110⅛; U. S. Six per cent. currency bonds, 115⅛@115⅜.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 31.	June 7.	June 14.
Consols	93 9/16	91⅝	92
U.S. 5-20's of 1862	90⅜	90⅝	90⅝
U. S. 5-20s, 1865	90½	90⅜	90½
" 1867	92⅝	92¾	92⅝
" 10-40s	89	88¼	88½
Erie	25¼	24½	24½

State bonds have been in fair demand at fairly supported prices.

Railway bonds have been in good request and quoted firm in price. Central Pacific Sixes closed at 102@102¼. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been selling quite freely at 92 per cent. and accrued interest. Union Pacific Sixes closed at 92@92¼.

Business in Railway and miscellaneous share property has been less active and prices have been unsettled, though closing.

The semi-annual dividend of three and one-half per cent. guaranteed by the Delaware and Hudson Canal Company on the stock of the Albany and Susquehanna Railroad Company, due on the first day of July next, will be paid on and after that date at the National Bank of Commerce in this city.

General business has been moderately active, with, however, much irregularity in prices of the leading articles of domestic produce. Breadstuffs and Provisions closed less firmly. Middling upland cotton closed on Wednesday at 20¼ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,820,777 bales, against 2,247,700 bales same time last year; exports 2,997,700 bales, against 2,010,023 bales same time last year; stock at the ports at latest dates, 254,360 bales, against 244,595 bales same date 1870.

At a meeting of the stockholders of the Southern Trans-Continental Railroad Company held in this city on the 13th inst., a committee consisting of Edwards Pierrepont, E. B. Hart and W. R. Travers, was appointed to confer with the Texas Pacific Railroad Company, with power to negotiate for the sale of their property.

At the Live Stock Markets, Beeves have been in more demand at from 10@14 cts; Veal Calves, at 4½@9½ cts; Sheep at 5@8 cts; Lambs at 8@13 cts; Swine, 5@5⅝ cts per lb., all live weight. The week's receipts were 6,790 Beeves, 3,873 Veal Calves, 24,990 Sheep and Lambs; and 26,002 Swine.

Foreign goods have been less freely dealt in at about previous prices, in most instances. The week's imports of foreign goods reached $7,410,146 including $1,618,833 of dry goods.

Ocean freights have been moderately active but quoted lower and somewhat irregular. At the close, the market was generally weak.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Albany and Susq. R. R., 95; do., 2d mort., 95; Long Dock bonds, 89; Cedar Falls and Minnesota 1st mort., 88; Pacific R. R. 7s, guar. by Mo., 100; Gt. Western 1st mort., 1888, 93¾; Toledo, Peoria and Warsaw, E. D., 89½; Cleveland, and Pittsburg consol., 93; Ohio and Miss. consol. bonds, 96½; 2d mort., 86; North Missouri 2d mort., 63½; Toledo, Wabash and Western consol., 97½; Quincy and Toledo 1st mort., 85⅛; Joliet and Chicago 1st mort., 110; Illinois Central 7s, 1875, 106½; South Carolina 6s, new, Jan. and July, 63; do. GREAT NATIONAL LOAN.

—o—

$134,000,000 NEW 5 PER CENTS.

PRINCIPAL AND INTEREST PAYABLE IN COIN.

Interest quarterly, February, May, August, and November.

BONDS FREE OF ALL TAXES, LOCAL OR NATIONAL.

The Treasury Department having already received subscriptions to the amount of $66,000,000 to the first two hundred millions of the New Loans authorized by the Act of Congress, of July 14, 1870, for refunding the Public Debt, bearing five per cent. per annum interest, now offers to popular subscription the remaining $134,000,000 of this particular Loan, and is prepared to promptly deliver the Coupon Bonds or Registered Certificates in exchange dollar for dollar for any of the United States six per cent. Bonds or Registered Stocks, known as *Five-Twenties*, or for Gold Coin at the par value of the New Loan, and accrued Interest from the first of May. When this amount, to which preference is given, is taken up, the remainder of the Five per Cents, $300,000,000, embraced in the Act will be offered in connection with $300,000,000 Four and one half per Cents, and any part of $700,000,000 of Four per Cents, the one running fifteen years and the other thirty years.

The following is a copy of the New Five per Cent. Bond, under and pursuant to the Act of Congress:

FORM OF FIVE PER CENT BOND.

INTEREST | FUNDED LOAN OF 1881 | 5 PER CENT.

UNITED STATES OF AMERICA

ARE INDEBTED TO THE BEARER IN THE SUM OF .... DOLLARS.

THIS BOND is issued in accordance with the provisions of an Act of Congress entitled "An Act to authorize the refunding of the National Debt," approved July 14, 1870, amended by an Act approved January 20, 1871, and is redeemable at the pleasure of the United States, after the first day of May, A. D. 1881, in Coin of the standard value of the United States on said July 14, 1870, with interest in such Coin, from the day of the date hereof, at the rate of FIVE PER CENTUM per annum, payable quarterly, on the first day of February, May, August, and November, in each year. The principal and interest are exempt from the payment of all Taxes or Duties of the United States, as well as from taxation in any form, by or under State, municipal or local authority.

WASHINGTON, ..., 18....

Entered ..... Recorded .....

....

Register of the Treasury.

Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depository of the Government, quarterly, on the first days of February, May, August and November, in each year.

The Interest on the Registered Stock of this Loan, it is determined by the Treasury Department, will be paid by the Treasurer of the United States in his Gold Check for the Quarterly Interest, to the Post office address of every holder, free of trouble or expense, dispensing with attendance, in person or by proxy, at the Treasury, for the durpose of receipting for and drawing such interest.

The whole proceeds of the New Loan will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and in addition to these proceeds, the 5-20s are being reduced by purchases, averaging, for two years past, about $10,000,000 per month.

The entire effect, therefore, of the New Loan, in connection with the existing Sinking Fund process of the Treasury, is to reduce both Principal and Interest of the Public Debt of the United States. *The Loan creates no additional supply of Government Stocks*, while the application of the surplus revenue is constantly lessening the Funded Stocks bearing six per cent. Gold Interest.

The policy of the Government since the close of the War in 1865, which left a debt upon the country of $2,755 000,000, and an annual taxation of $311,000,000, has been to reduce steadily both Debt and Taxes: to reduce the Principal of the Debt by actual payments, and to lessen the annual burden of Interest, and thereby the burden of Taxation, not only through such payments, but by funding the debt at the cheapest rates of interest practicable from time to time, until it is now felt that the very cheapest rates are due to the high Credit, unblemished Public Faith, and vast and growing resources of the country. From $2,755,000,000 the Principal of the Debt has been reduced to $2,260,000,000—both sums exclusive of accrued interest—and from the heavy burden of $151,882,000 per annum, the Interest charge has been reduced to $112,780,000 per annum; while the annual taxation, under the Internal Revenue system, which the necessities of the War and the Debt thereby created rendered necessary for at least a short series of years, has been reduced from $311,000,000 in 1865-66 to about $154,000,000 per year in 1870-71, (estimating for the highest probable collections in the current month, the last of the Fiscal year,) or less than one-half the first named sum. And in the year 1871-72 a further reduction of $28,000,000 will come in under the Act of July, 1870, so as to give only $126,000,000 for the year, or about two-fifths the maximum of 1865-66.

By the successful refunding of the Public Debt at moderate rates of Interest, and by continued economies in the expenditures of the Government—which in two years, from March 4, 1869, to March 4, 1871, amounted to $126,700,949, or an average saving per year of $63,350,474—it is believed that nearly the entire system of Internal Taxes can be dispensed with in a few years, or so much of it as requires the machinery of District Assessors and Collectors.

The Secretary of the Treasury has just published the Monthly Schedule of the Public Debt to June 1, from which it appears that he has further reduced the total of Funded Gold-bearing debt since May 1, by the sum of $8,000,000 by purchase of United States 5-20s for the Sinking Fund, and reduced the 5-20s by the further sum of $8,217,400 by conversion into the New 5 per Cents. The whole Funded Debt now stands, $1,894,128,750, as against $2,107,846,150 two years ago when the present Administration came into office. Adding to these sums the net Circulation of the Treasury, (that is, in Greenbacks and Greenback Certificates, after deducting Gold and Currency on hand,) the following is the comparison of Debt of all kinds, at present, and at the close of the War, and in 1869:

	July, 1865.	March, 1869.	June, 1871.
U. S. Stocks	$2,150,784,112	$2,107,846,150	$1,894,128,750
Circulation.....	605,211,163	383 545,854	366,333,003
Total....	$2,755,995,275	$2,491,390,904	$2,260,461,753

The following table affords a classification of the Funded Stock (in Gold) of the United States, as at present outstanding:

Date.	Coupon.	Registered.	Total.
5-20s, 1862.....	$382,968,500	$103,973,500	$486,932,000
5-20s, 1864.....	44,752,650	55,924,100	100,676,750
5-20s, 1865.....	123,660,150	53,552,100	177,212,250
5-20s, 1865 (n.)....	179,269,500	70,951,450	250,220,950
5-20s, 1867.....	241,686,550	91,325,100	333,011,650
5-20s, 1868.....	28,009,350	11,603,000	39,612,350
Total.....	$1,000,436,700	$387,229,250	$1,387,665,950
Sixes, 1881.....	93,260,400	190,417,700	283,678,100
Fives, 10-40s.....	57,279,650	138,287,650	194,567,300
Fives, 1874.....	13,965,000	6,045,000	20,000,000
New fives, '81.....	5,117,000	3,100,400	8,217,400
Total.....	$1,170,048,750	$724,080,000	$1,894,128,750
Total March 4, 1869			2,107,846,150
Reduction of Funded Debt.....			$214,717,400
Yearly Gold Interest charge, 1869.....			$124,255,350
Present yearly charge..... ...			111,419,993
Reduction in Interest Charge.....			$12,835,357

The proposed further reduction of the annual interest charge upon the Public Debt by refunding is as follows:

By exchange of $500,000,000 United States six per cents for new five per cents of 1861	$5,000,000
By exchange of $300,000,000 United States six per cents for four and a half per cents of 1866.....	4,500,000
By exchange of $700,000,000 United States six per cents for four per cents of 1901	14,000,000
Total saving per annum by refunding.	$23,500,000

C. C. NORVELL,

In charge of United States Loan Advertising.

TREASURY OFFICE, NEW YORK, June 8, 1871.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of May, were:

ENTERED FOR CONSUMPTION.

	1870.	1871.
Manufactures of wool	$1,162,012	$1,369,208
" cotton	1,095,979	1,505,113
" silk	2,080,264	2,587,300
" flax	811,672	965,942
Miscellaneous dry goods	720,013	881,679
Total entered for consump.	$5,819,940	$7,259,242

WITHDRAWN FROM WAREHOUSE.

	1870.	1871.

The imports of foreign dry goods at New York for eleven months from July 1, were:

1862	$34,620,618
1863	59,061,614
1864	78,433,263
1865	44,411,471
1866	130,280,590
1867	99,161,965
1868	78,072,553
1869	88,131,658
1870	91,855,730
1871	120,171,438

Stocks and Bonds of the City and County of New York, May 1, 1871.

The following is given as an official statement of the public debt of the city and county of New York, as it stood upon the first day of May, 1871:

CITY FUNDED DEBT.

Five per cent. Water stock, due in 1875	$284,700
Five and Six per cent. Croton Water stock, due in 1890	1,000,000
Five and Six per cent. Croton Water stock, due in 1879	267,000
Six per cent. New Aqueduct stock due in 1884	250,000
Six per cent. Additional New Croton Aqueduct stock, due in 1900	246,000
Six per cent. Croton Reservoir bonds, due in 1907–1911	900,000
Six per cent. Croton Aqueduct bonds, due in 1907–1911	490,000
Seven per cent. Croton Water Pipe bonds, due in 1880:	450,000
Six per cent. Water stock, due in 1875	1,878,900
Five per cent. Water stock, due in 1870	273,064
Five per cent. Water stock, due in 1880	2,147,000
Six per cent. Croton Water stock, due in 1883	1,900,000
Five per cent. New York City stock for Docks and Slips, due in 1871–1876.	300,000
Six and seven per cent. Market stock, due in 1894–1897	296,000
Six per cent. City Improvement stock, due in 1889	451,200
Seven per cent. City Improvement stock, due in 1889	3,340,000
Five per cent. Building Loan stock, No. 4, due in 1873	115,000
Five per cent. Public Education stock, due in 1873	154,000
Seven per cent. City Cemetery stock, due in 1888	75,000
Five per cent. Central Park Fund stock, due in 1898	393,800
Six per cent. Central Park Fund stock (Arsenal), due in 1898	275,000
Seven per cent. Lunatic Asylum stock, due in 1889	300,000
Six per cent. Lunatic Asylum stock, due in 1889	400,000
Six per cent. Central Park Fund stock, due in 1887	3,066,071
Six per cent. Central Park Imp. Fund stock, due in 1887	2,083,200
Six per cent. Central Park Imp. Fund stock, due in 1876	2,500,000
Six per cent. Central Park Imp. Fund stock, due in 1895	1,766,600
Five and six per cent. Central Park Additional Fund stock, due in 1874.	1,000,000
Six per cent. Floating Debt Fund stock, due 1878	2,748,000
Six per cent. Real Estate Bonds, due in 1873	1,133,437
5 per cent. Vol. Sol. Family Aid Fund bonds, due in 1871 and 1872	1,000,000
6 per cent. Vol. Sol. Family Aid Fund bonds, due in 1873–1875	1,500,000
7 per cent. Vol. Sol. Family Aid Fund bonds, due in 1876	266,500
6 per cent. Street Improvement bonds, due in 1888	606,939
7 per cent. Street Opening and Improvement bonds, due in 1879–1882.	1,000,000
7 per cent. Accumulated Debt bonds, due in 1884–1888	6,500,000
7 per cent. Tax Relief bonds, due in 1879	2,767,000
Seven per cent. Tax Relief bonds, No. 2, coupons, due in 1890	3,000,000
Seven per cent. Stock bonds, due in 1901	500,000
Six per cent. Fire Telegraph bonds, due in 1884	400,000
Six per cent. Fire Department stock (1), due in 1899	50,000
Six per cent. Fire Department stock (2), due in 1899	471,952
Six per cent. New York Bridge bonds, due in 1905	450,000
Seven per cent. Ninth District Court House bonds, due in 1890	300,000
Seven per cent. Croton Water Main stock, due in 1900	250,000
Amount	$49,551,864

CITY TEMPORARY DEBT.*

Seven per cent. Street Improvement bonds, due in 1873	3,200,000
Seven per cent. Street Improvement bonds, due in 1874–1876	3,101,500
Seven per ct. Assessment Fund bonds, due in 1874	1,100,000
Seven per ct. Assessment Fund bonds, due in 1872	726,800
Six per cent. Central Park Com. Imp. bonds, due in 1871	125,000
Seven per cent. Central Park Com. Imp. bonds, due in 1871 and 1872	1,200,000
Seven per cent. Department of Parks Imp. bonds, due in 1874 and 1875	1,462,200
Amount	$10,915,500

* Payable from assessments for opening, sewering and improvement of streets.

COUNTY FUNDED DEBT.

Six per cent. County Court House stock, due in 1875–1892	$1,800,000
Six per cent. County Court House stock, No. 2, due in 1877–1881	800,000
Seven per cent. County Court House stock, No. 3, due in 1884–1888	600,000
Seven per cent. Assessment Fund stock, due in 1871	768,000
Six per cent. Assessment Fund stock, due in 1887	1,106,700
Six per cent. Soldiers' Bounty Fund bonds, due in 1883–1890	4,000,000
Six per cent. Soldiers' Bounty Redemption bonds, due in 1873–1876	2,000,000
Seven per cent. Soldier Bounty bonds, No. 3, due in 1895 and 1897	745,800
Six per cent. Riot Damages Redemption bonds, due in 1877 and 1879.	1,000,000
Six per cent. Soldiers' Subsistence and Relief Redemption bonds, due in 1880 and 1881	946,700
Six per cent. Riot Damages Indemnity bonds, Nos. 1 and 2, due in 1882.	848,000
Seven per cent. Soldiers' Bounty Fund Redemption bonds, No. 2, due in 1891	876,600
Seven per cent. Bonds for Repayment of Taxes, due in 1871	499,550
Seven per cent. Accumulated Debt bonds, due in 1884–1888	6,000,000
Six per cent. New York County Repairs to Building stock, due in 1884–1888	100,000
Amount	$21,591,350

RECAPITULATION.

City funded debt	$49,551,864
City temporary debt	10,915,500
County funded debt	21,591,350
Total amount	$82,058,714
Of the above amount of stock and bonds of the city and county of New York the Commissioners of the Sinking Fund hold	17,784,063
Net amount outstanding	$64,274,651

☞ J. W. Phelps of Springfield and G. W. Hendrick of Easthampton (Mass.) have received the contract for building the railroad from Mount Tom to Easthampton.

☞ The officers of the New Jersey West Line Railroad company, recently elected, are: President, Hon. Asa Packer; Vice President, Robt. H. Sayre; Secretary and Treasurer, T. McCarter.

Journal of Railroad Law.

RAILROAD COMPANIES—TRESPASS OF CATTLE—WHAT CONSTITUTES NEGLIGENCE.

The facts in the recent case of Arnold *ats.* The Illinois Central Railroad Company (47 Ills., 173,) are fully and clearly stated in the following opinion by

LAWRENCE, J.—The cow of the appellee, Arnold, was killed by a train of the appellant, where the road passes through the farm of one Thomas Snell. The cow had come upon his farm from the public highway, through an insufficient fence, and passed from thence on to the railway track through an open space designed as a farm crossing, where the company had erected bars about a year before the accident. The bars, however, had been down and wholly neglected for three months. On these agreed facts the court gave judgment for the plaintiff below.

If the bars had been taken down by the owner or occupant of the farm, and he had neglected to replace them, it might be urged with great propriety, that his own acts would prevent a recovery in a suit brought by him. But in this it is immaterial whether the bars were taken down by the company or the occupant of the adjacent land. The company was guilty of negligence, under the statute in allowing them to remain down for three months. The statute required the company to "erect and maintain" a sufficient fence, and of this fence the bars were a part. Great Western Railway Company *vs.* Hehm, 27 Ill., 199.

It is urged, however, that the cow of appellee was a trespasser on the farm of Snell. But under the Laws of this State, as long since settled by this court, cattle may go at large, and if they enter upon private property they are not trespassers unless such property is surrounded by a statutory fence. The fence in this case, between the farm of Snell and the highway, was admitted to be insufficient, and, in determining the rights of the appellee, they must be passed upon as if no fence whatever had been there. If there had been no fence on the highway it would hardly be contended that the company was not liable for allowing this opening in the railway fence to remain three months, and its track subject to be entered upon by all the animals remaining at large in the neighborhood, and a fence less than that required by law around the farm of Snell did not change the aspect of the case.

The judgment of the circuit court was in accordance with the former decisions of this court, and must be affirmed.

Judgment affirmed.

☞ It is announced that arrangements for the survey of the Canadian Pacific Railroad have been completed. The points to be explored are between Lake Nipissing and Lake Winnepeg, on the eastern end, and on the Pacific end through the mountain ranges. The plans intermediate present no difficulties, and will not be surveyed. The work will be divided among eighteen or twenty parties, each taking a section of seventy or eighty miles. Something of the character of the route will, it is expected, be known in time to be reported at the next session of Parliament.

☞ J. S. Thompson has been elected President and D. B. Gill Secretary and Treasurer of the Camden and Swedesboro railroad company.

BANKING AND FINANCIAL.

☞ THE NEW ORLEANS, MOBILE AND TEXAS RAILROAD COMPANY are building a trunk line, connecting New Orleans with Mobile on the east, and giving the only railroad connection between the former city and the great and most productive State of Texas on the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly $10,000,000 of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles constituting the Texas division; leaving but 140 miles to be built to complete the entire road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the eight per cent. mortgage bonds upon the Louisiana Division of 226⅔ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by indorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over $8,000,000.

The bonds now offered are of two classes—first mortgage bonds to the amount of $12,500 per mile, and second mortgage bonds, to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired. No better security has been offered to investors. The line is a good and important one, and the stockholders have proved their determination and ability to carry the work to an early and successful completion by the very large amount they have themselves put into it.

The bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in new Government Five Per Cents, into which the Government Sixes are being funded by the Secretary of the Treasury.

At the same price an eight per cent. currency long bond is far cheaper than a seven per cent. gold one. Calculating a return to specie payments in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—forty-five years—we find that by compounding the interest of each, every six months, at 7 per cent., an eight per cent. currency bond at ninety will give a return of $2,614 18 more than a seven per cent. gold bond at the same price, or nearly three times the amount of the original investment.

While the purchaser of the eight per cent. bonds of this Company can realize this special profit, he also holds the option of taking advantage of any temporary advance in gold, as he has choice, at every separate coupon day, or gold interest at seven per cent., or currency interest at eight per cent.

The bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is ninety, and accrued interest at eight per cent. currency from May 1 to date of remittance. Bonds will be sent free of cost, and Government and all marketable securities will be taken in exchange at their best market rates without charge for selling.

Information concerning the Company and the road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents. W. B. SHATTUCK, Banker and Financial Agent, New Orleans, Mobile and Texas Railroad Company, No. 23 Nassau street, New York.

Railroad Passenger Tax.

The Court of Errors and Appeals for the State of Delaware has unanimously declared unconstitutional the tax of ten cents per head attempted to be levied by the Legislature of that State upon every passenger travelling by steam routes. The suit was brought by the State against the Philadelphia, Wilmington and Baltimore Railroad Company for $75,000. The law is declared invalid only so far as it applies to passengers traveling into, out of, or wholly through the State—that is, so far as it attempts to impose a tax upon inter-State travel.

☞ The directors of the Hudson Suspension Bridge and New England Railway Company are: Benjamin E. Smith, Hiram Barney, D. C. Littlejohn, E. W. Serrell, Chas. J. Pusey, Andrew Carnegie, Clark R. Briggs, A. S. Diven, Job H. Jackson, A. W. Humphreys, L. T. Guthrie, E. R. Wiswell and Charles Dawson. The officers are: Charles J. Pusey, President; Clark R. Briggs, Vice President; Charles Dawson, Treasurer; Gen. E. W. Serrell, Chief Engineer.

☞ The contract for building the bridge over the Missouri river at St. Joseph, Mo., has been awarded to the Detroit Bridge and Iron Works Company for $710,000, to be completed November 1, 1872.

☞ The Directors of the Portland, Saco and Portsmouth Railroad Co. have elected the following officers: President, Thornton K. Lothrop of Boston; Clerk, Charles E. Barrett of Portland; Treasurer, Eliphalet Nott of Saco.

☞ Mr. Alexander Taylor, who has the contract for grading the Chicago, Danville and Vincennes railroad, expects to reach Rossville, 20 miles north of Danville, by the 4th of July.

☞ The Supreme Court of Kansas, in session at Topeka, has sustained the validity of the bonds issued by counties in aid of railroads, holding their issue to be constitutional.

Tobacco Production of the United States.

Upon the 21st of June St. Louis tobacco dealers will hold the only Tobacco Fair to be convened in this country for the current year. Upon that occasion premiums expressive of the various grades of excellence of the tobacco shown are to be liberally awarded. Believing that a compact exhibit of all the attainable facts concerning the tobacco crop in this country will prove useful and timely, inducing, perhaps, a more liberal use of fertilizers, a more thorough and generous tillage, greater care in handling and curing and in experimental efforts for the improvement of the tobacco plant, common to Western fields, we begin with the following general statement of the total crop of 1870, by States:

States.	Total lbs. produced.	States.	Total lbs. produced.
Mass	5,200,000	Arkansas....	2,250,000
Connecticut .	6,500,000	Tennessee ..	35,000,000
New York...	8,500,000	W. Virginia.	2,250,000
New Jersey..	100,000	Kentucky ..	40,000,000
Maryland....	14,500,000	Missouri ...	18,500,000
Virginia	65,000,000	Illinois.....	14,500,000
N. Carolina ..	33,500,000	Indiana	7,000,000
Florida.....	500,000	Ohio.....	16,000,000
Georgia	1,000,000	Michigan...	3,500,000

The total number of pounds raised amount to 278,775,000, and the value is estimated at $32,206,325. Virginia very largely leads every other State in tobacco production. Kentucky stands next in order. Tennessee and North Carolina both lead Missouri, and she in turn leads Illinois and every other Western State, though Ohio trenches very close upon her showing. The average yield per acre in the several States was as follows:

States.	Pounds per acre.	States.	Pounds per acre.
Massachusetts....	1,200	Arkansas.....	750
Connecticut.....	1,450	Tennessee	548
New York.....	800	West Virginia.....	707
New Jersey	1,300	Kentucky	667
Maryland	500	Missouri	992
Virginia	418	Illinois.....	633
North Carolina ..	508	Indiana.....	731
Florida	500	Ohio.....	700
Georgia	375	Michigan.....	1,000

The immense yields of Connecticut, Massachusetts, and New Jersey per acre are induced, of course, by high culture and a liberal use of fertilizers. But this care and outlay pay, for not only is a much greater crop produced than by the careless culture and from the lean soils of the West, but the quality is so greatly improved that the tobacco marketed from those States brings a higher price per pound than does that raised in the West. That this may appear more clearly to our Western tobacco-growers, we will put the fact in tabular form, as follows:

	Pounds per acre.	Price per lb.	Cash ret'n per acre.
Massachusetts	1,200	26	$312 00
Connecticut.....	1,450	27	391 50
New York.....	800	14	112 00
New Jersey.....	1,300	27	351 00
Maryland.....	500	13	65 00
Virginia.....	418	10	41 80
North Carolina	508	13	66 04
Florida	500	29	145 00
Georgia	375	19	71 25
Arkansas.....	750	13	97 50
Tennessee	548	13	71 24
West Virginia.....	707	13	91 91
Kentucky.....	667	9	60 03
Missouri	992	10	99 20
Illinois.....	663	8	53 04
Indiana.....	731	9	65 79
Ohio.....	700	6	42 00
Michigan	1,000	20	200 00

Can our Missouri grower of tobacco satisfy himself why it is that while the Connecticut Yankee is able to draw 1,450 lbs. tobacco, worth 27c. per lb., from the stony, unkind soil of his Granite State, he (the Missouri grower) can only get 992 lbs., worth 10c. per lb.? The Connecticut planter gets $391 50 per acre for his crop, the Missouri planter but $99 20 or $292 30 less per acre. Really this is too fearful a difference, and we ask the attention of our tobacco-dealers to the matter. Let the whole question be taken under thorough advisement, and it is more than likely that some Western organization for the improvement of tobacco will be formed, and vast good result to the tobacco interest of the West.—*St. Louis Democrat.*

☞ The Kentucky and Great Eastern Railroad Company was organized at Cincinnati on the 1st inst., by the election of the following board of directors: W. S. Cutler, J. C. Fremont, of New York, James T. Brady, of Pennsylvania, N. P. Banks, of Massachusetts, S. W. Morton, of Kentucky, A. J. Hodder, of Ohio, and John M. Duke, of Kentucky. At a subsequent meeting of the board, S. W. Morton was elected President, James T. Brady, Treasurer, and T. Wrightson, of Kentucky, Secretary.

☞ The earnings of the Chicago, Rock Island and Pacific Railroad for the year ending March 31, 1871, were $6,028,187 29; and the expenses, including taxes, etc., $3,405,459 06—making the net receipts $2,622,828 23. The surplus earnings, after paying rent, interest and dividends, were $650,610 48. The operating expenses proper were 53 39 100 per cent. of the gross earnings, and 56½ per cent. including taxes and legal expenses.

☞ A letter from Coalsmouth, Kanawha county, West Virginia, states that workmen commenced laying the track of the western end of the Chesapeake and Ohio railroad on the 1st instant, and it is expected the road will be equipped and in operation to the falls of the Kanawha in time to take visitors home from the springs, *i. e.*, in the latter part of August or the first of September.

☞ The Maine Central Railroad Company have just received 1,200 tons of railroad iron to be laid at once on the Danville Junction extension. The road bed is already nearly graded. Some five miles of track are already laid and the whole extension will be ready by August for business.

☞ The following gentlemen have been elected directors of the Winona and St. Peters railroad company: John F. Tracy, John W. Burk, A. G. Dulman, David Dows, A. P. Baylis, M. L. Sykes, Jr., of New York; H. H. Porter, W. H. Terry and J. H. Howe, of Chicago.

☞ The semi-annual interest of the Virginia and Tennessee Railroad Company, due July 1st, 1871, will be paid at the office of the Atlantic, Mississippi and Ohio Railroad Company, Lynchburg, Va., on and after the 20th instant.

☞ The officers of the South Side (L. I.) Railroad Company, recently elected, are as follows: Charles Fox, President; Wm. Floyd Jones, Vice-President; O. M. Denlon, Treasurer, and W. H. De Bevoise, Secretary.

☞ The Central Ohio Railroad Company has declared a dividend of 3 per cent. on the preferred and 2½ per cent. on the common stock for the last six months, payable on and after 22d inst.

☞ The Portland and Ogdensburg railroad was formally opened to Fryeburg, Me., 50 miles from Portland, on the 6th of June, and by the 4th of July it will be running to North Conway.

☞ A semi-annual dividend of three and a half per cent. has been declared on the stock of the Newark and New York railroad.

Great Western Railway of Canada.

The Directors are prepared to receive tenders for the fourth division of their Canada Air Line, extending from Canfield to Fort Erie, a distance of about forty-four miles. Plans and specifications will be on exhibition at the office of George Lowe Reid, Esq., Chief Engineer, Hamilton, on and after 10th July, and sealed tenders, marked "Tender for Fourth Division Air Line," addressed to the undersigned, will be received to the 24th July.

JOSEPH PRICE,
Treasurer, &c.

Chief Offices, Hamilton, Ontario, May 27, 1871.

Notice to Contractors.

Colonial Secretary's Office, May 23, 1871.

THE Government of Prince Edward Island will until 19th of July next, receive Tenders for the construction and equipment of a Railway of 3 feet 6 inches gauge, from Cascumpec to Georgetown, a distance of about 120 miles.

Payments will be made in Prince Edward Island Government Debentures, bearing six per cent. interest, payable half-yearly, redeemable in 30 years.

Specifications may be seen, and forms of tender, and other information obtained at the Government Engineer's Office, Charlottetown, after 20th June next.

No tender will be recognized unless made on the printed form.

The Government do not bind themselves to accept the lowest or any tender.

T. H HAVILAND,
Colonial Secretary.

OFFICE OF NORTHERN PACIFIC RAILROAD COMPANY.

120 Broadway, New York,
June 1, 1871.

The Transfer Books for the transfer of Registered Bonds will be closed on WEDNESDAY, June 14, and re-opened on SATURDAY, July 1.

Payment of Interest on Registered Bonds will be made by mailing from this office, on the FIRST DAY OF JULY, to the address of each Bondholder of record at the closing of the books, a check to his or her order for dividend due, free of tax, and payable in gold coin.

Coupons due July 1 will be paid on presentation, on and after that date, at the office of JAY COOKE & CO., New York.

4t A. H. BARNEY, Treasurer.

THE WHARTON

Safety Railroad Switch.

☞ **BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.** ☜

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

Address,

NEW YORK
State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE
GOLD BONDS

OF THE

RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

New York Saturday, June 24, 1871.

Wallkill Valley Railway.

At the recent annual meeting of the stockholders of this company at New Paltz, N. Y., the following directors were elected for the ensuing year: Seth M. Capron and John C. Scofield of Walden; Edmund Bruyn of Shawangunk; Abner Hasbrouck, Floyd S. McKinstry and A. D. Deyo, of Gardner; A. V. N. Eltinge and Jacob Lefever, of New Paltz; S. Schoonmaker, of Rosendale; C. S. Kiersted, R. Bernard and J. E. Ostrander, of Kingston, and Erastus F. Mead, of N. Y. City. F. S. McKinstry was re-elected President; Abner Hasbrouck, Vice President; A. D. Deyo, Secretary and A. V. N. Eltinge, Treasurer. Levi D. Bruyn, was re appointed Chief Engineer. The road is expected to be open to Rosendale by July 1st, and work is being rapidly pushed forward, for the extension to Kingston. An iron bridge to cost one hundred thousand dollars is now building in Paterson, a town near Rosendale, for the Company, and between four and five hundred men are at work between Rosendale and Kingston, N. Y., and it is expected that the Wallkill Valley Railroad will connect with the Rondout and Oswego Railroad about the beginning of October next, thereby enabling the freight of the R. and O. R. R. Co. to be shipped over this road during the next winter.

New Orleans, Mobile and Texas Railroad.

The New Orleans, Mobile and Texas railroad, which some of the strongest capitalists and well known business men of the North are building from Mobile through New Orleans to Houston, is receiving unusual notice as an enterprise not only much needed but containing more than ordinary conditions of success and security. The road is to be the only rail connection between New Orleans and the great and most productive State of Texas, of which State Horace Greeley writes as follows:

"Texas is as large as France, with a more genial climate and far richer soil. She has more and better timber, and more cattle and horses than France. Slavery being dead, lands are in request and have a value, which railroads are rapidly doubling and quadrupling. Railroads are bringing markets and comforts to every man's door. The work of providing this people with necessary railway communication is barely well begun; but that is half the battle. At last, nearly every line seems to be in the hands of solvent, capable, upright men who are backed by ample capital, and is pushed with vigor and clear sighted resolution. The New Orleans, Mobile and Texas railroad is now pushing due westward through Louisiana, and expects to reach Houston before this time next year."

The New York *Evening Post* says in its financial review of June 10th:

"The road is one of the most important in the South, and its stock is largely owned by such capitalists as Messrs. E. D. Morgan & Co., Morton, Bliss & Co., J. and W. Seligman & Co., L. Von Hoffmann & Co., and Hon. John A. Griswold, whose names are of themselves a guarantee that the enterprise is a good one."

The New York *World* of June 12th, says in its financial article:

"The Company has expended already nearly $10,000,000, and two-thirds of its entire road is built. The Board of Directors consists of some of our wealthiest and most influential citizens."

The New York *Express* of the same day says, in its report of the money market:

"The road is one of the great Southern trunk lines destined to open up a rich and productive section of country heretofore devoid of railway facilities."

Some interesting statements concerning the securities of the enterprise so highly commended, will be found in our advertising columns.

New York and Albany Railroad.

The following is a copy of the petition in circulation which has been signed by several hundred of the Tax-payers of the City of Albany:

To the Hon. —— ——, the County Judge of Albany, N. Y.:

The following named Petitioners and Tax-payers of the City of Albany, whose names appear upon the last preceding Assessment Roll of said city, in its corporate capacity, shall create and issue its bonds to an amount of three and one-half per cent. of the whole amount of taxable property of said city, as shown by said Tax List and Assessment Roll, and invest the same, or the proceeds thereof, in the stock of the New York and Albany Railroad Company a corporation of the State of New York, in pursuance of the Statute in such case made and provided.

The Petition is at the office of the Albany and Susquehanna Railroad Company for signatures, where any information can be obtained in relation to the matter desired.

☞ The Lake Ontario Shore Railroad Company invite proposals until July 5th, for the grading, masonry, etc., of that part of the road between the city of Oswego and the west line of Wayne County, N. Y. a distance of about 50 miles. The entire length of the road from Oswego to Lewiston will be about 143 miles, with a branch to Rochester of 6 miles. The office of the company is at Oswego, N. Y. The officers are: President, Gilbert Mollison, Oswego; Vice-President, O. P. Scoville, Lewiston; Treasurer, Luther Wright, Oswego; Secretary, Henry L. Davis, Oswego. The estimated cost of the road is $5,000,000, or about $33,000 per mile. The line of the road will be through nearly the centre of the towns of Oswego, Hannibal, Sterling, Red Creek, Wolcott, &c.

☞ It is expected that the Atlanta and Richmond Air Line Railroad will be completed to Spartanburg, S. C., and trains running between that place and Charlotte, N. C., a distance of nearly 70 miles, by January 1872. From Atlanta to Gainesville, a distance of 53 miles, the road is already in operation. The whole road, when built will be about 225 miles in length—of which 95 miles is in the State of Georgia, 105 through South Carolina, and 25 in North Carolina.

Maine Central Railroad.

The earnings of this road for the years ending December 31, 1869 and 1870, were as follows:

	1869.	1870.
From passengers	$298,815 25	$288,901 95
" freight	259 537 52	272,096 55
" mails, etc.	27,284 90	29,040 72
	$585,637 67	$590,039 22
Expenses, viz:		
Repairing track	$142,741 91	$118,661 65
Repairing engines and cars	85,852 99	97,586 19
Train expenses	24.070 66	21 942 30
Station services	27,474 91	29,199 08
Salaries	11.552 00	7,699 88
Repairing buildings	12,612 07	10,623 77
Repairing fence	7,901 51	10,657 60
Oil and waste	4,284 81	3,926 51
Wood	44,327 88	44,316 38
Loss and damage	1.519 50	1.278 33
Taxes and insurance	20 818 65	13 584 36
General expenses, etc	23,342 28	17,112 76
Change of gauge of cars and locomotives		28,719 76
Change of gauge of tr'k		7,910 97
	$405,499 17	$414,169 54
Net earnings	$180,138 50	$175,869 68
Deduct rent of Dexter and Newport railroad		18.000 00
Leaving a balance of		$157,869 78

The earnings show an increase over the previous year of $4,401 55. This sum embraces $32,704 06, earned on the Dexter and Newport road being a decrease from the year previous of $2,351 51. The earnings of the main line have been for the year $5,066 69 per mile of road, $3 22 per mile run by passenger and freight trains, and $2 57 per mile run by all trains. The whole number of passengers carried was 177,161; do. carried one mile, 6,581,513; the average distance travelled was 37.15 miles; and the average rate of fare received, 4.38 cents per mile. The whole number of tons of freight moved was 108,201; do. moved one mile, 5,548,889; the average distance hauled was 51.28 miles; and the rate per ton charged, 4.91 cents per mile.

Included in the expenses are those incurred in working and repairing the Dexter and Newport railroad—$15,191 63, as against $17,645 33 for the year 1869. These expenses also embrace, as will be seen, $29,719 76, the cost of changing the gauge of 4 locomotives, 9 passenger and baggage and 3 saloon cars and about 150 merchandise cars; and $7,910 97 for changing the gauge of the track east of Waterville, and the Dexter and Newport road, and for laying the mixed track at Waterville and Bangor, where the two gauges unite. There are also embraced in these expenses the sum of $32,750, the cost of three first class locomotives; and $7,400, being about the cost of one new passenger car and one mail and baggage car built in the shops of the company, and three box cars purchased. The legitimate expenses of operating and repairing the road have been at the rate of $2,712 81 per mile of road, and $1.56 per mile run; and the net earnings have been $2,358 88 cents per mile of road, and $1.01 per mile run. The President in his report says:

The past has been an eventful year in the history of your road. Although it was originally well constructed and well equipped, and has been managed with ability, and though the country through which it passes has been largely benefitted by its operations, still it has heretofore brought no returns, in the form of dividends, to its stockholders on capital long since invested. This depressing result has induced you to investigate its cause and cast about for a remedy. Among other reasons, it was found that the gauge of your road, being different from that on the lines over which your principal traffic found its way to the great marts of commerce, was a serious hindrance to your success. Trade and travel was much impeded or diverted to other lines of communication and transportation.

The location of your line was also to some extent unfortunate. At Bangor, its eastern terminus, it had ample accommodations, and an independent position, but it did not reach Portland, its natural terminus on the west, and had no independent position in that city. From Danville Junction to Portland, a distance of twenty-seven miles, your freight and passengers were transported over the Grand Trunk road, and your accommodations in Portland were such only as could be conceded by that company. Of our treatment by that corporation we make no complaint, on the contrary are happy to say it has been uniformly considerate, and that it has conceded to us all the facilities consistent with a just regard to its paramount duties to its own stockholders. Our difficulties originated from the very nature of things, and from no disposition to withhold from us any accommodation which it could grant. But when we consider that this great company operates more than thirteen hundred miles of railroad terminating in Portland, that it transports an immense amount of freight, a large portion of which is landed in Portland, and necessarily runs a vast number of trains daily, and requires for the accommodation of its own large and increasing traffic, all the terminal facilities it now possesses, we cannot fail to perceive that it cannot, if it desires, concede to us such accommodations as we require for the development of our growing business, and that as long as we continue to operate our road in subordination to the necessities of that long line, so long shall we be obstructed in the movement of our trains, and cramped and restricted in our terminal facilities. So has it heretofore proved, and these difficulties, despite the good intentions and best efforts on the part of the managers of the Grand Trunk, must continue to increase in the future.

In view of these facts and considerations, the question occurred, is there a remedy for these evils? and if so, what is it?

The Portland and Kennebec Railroad extending from Portland to Skowhegan, and intersecting our track at Kendall's Mills had large accommodations in Portland, was constructed upon the narrow gauge and at Portland connected directly with the system of roads leading west; but it had no direct connection with the great and growing east, except over our road.

Thus were the two roads situated—one with good accommodations west, but none east; the other with good accommodations east, but none west. These roads were substantially equal in length, in cost, equipment, and in business. Each had great elements of strength, but at the same time both had obvious elements of weakness. Alone, each was defective, united they would constitute one strong road, perfect in all its parts, uniting the two great commercial cities of the State, giving great facilities to our people, capable of developing to a remarkable degree our natural resources, and forming favorable connections with the great railroad system of the country.

Observing these facts, your Directors conferred with the Directors of the Portland and Kennebec Railroad Company, and after long and patient examination and careful consideration, they came to a conclusion, the result of which you already know and have fully approved.

In the negotiation between the two roads they met as equals, and consulted as such, and finally agreed to unite their roads as being substantially of equal value. With this view, they equalized their interest paying securities, which gave you an interest paying scrip dividend on your stock, and also equalized their stock, and agreed to assume all the liabilities of both roads, and thus become in substance one institution.

After having agreed to do thus they asked permission of the Legislature to merge their separate corporate organizations into one, under a common name, and to yield up the exclusive rights now possessed under their charters and subject themselves to the immediate control of the Legislature. But to their surprise, they found this proposition vehemently opposed; and they therefore withdrew their application and determined to reorganize under their charters and existing laws. And so we have done, not in violation of law as has sometimes been asserted, but in strict conformity with law. The permission asked of the Legislature would have been convenient for us and neither prejudicial to the State nor injurious to any human being.

During the past year a large amount of the bonds on both roads, issued many years ago to aid in their construction, have matured. These have all been promptly provided for, and all now outstanding will be paid on presentation, the funds being in the Treasury for that purpose.

The result of consolidation or united action, whichever you may call it, has already given largely increased business facilities to our people. Prior to the new arrangement it required four days to transport freight between Bangor and Boston. Now that result is accomplished without transhipment in less than twenty-four hours, and at reduced expense to the shipper.

A morning and evening train between Augusta and Bangor has been put in operation to the great benefit of the business men of Bangor, and the convenience of the people.

Other improvements are being pressed forward for the development of our material interest as well as for the convenience of our business men. Among those in contemplation and for which preparations are being made, is a night train between Bangor and Boston. This will be accomplished early in the coming spring, provided the railroads west of Portland can so far harmonize their interests as to act in concurrence with us. This train when established will be of great importance to the business interest of our State, and we believe will also prove remunerative to our stockholders.

These and like beneficial results flow from harmonious action on the part of roads heretofore supposed to have different if not conflicting interests. It is the result of practical consolidation.

Immediately upon the completion of the arrangement with the Portland and Kennebec Company, and the reorganization of this company, active measures were taken for the construction of the piece of road necessary to connect the Maine Central road with the Portland and Kennebec on the West. Various routes were carefully explored and surveyed between Danville Junction and the line of the lower road, and after much consideration the "Royal's River" line was finally adopted. This line lies between Danville Junction and Cumberland station, and is 18¾ miles in length, and exceedingly favorable both in grades and curves. It was put under contract last fall, and work now is well advanced. The land damages have all been adjusted and paid. The iron and sleepers have been purchased, and the fencing principally provided for. We expect to have this road in operation next July, and that it will be in every respect a first class road.

As soon as this link in our line shall have been completed, we shall change the gauge of that portion of our road between Waterville and Danville Junction which will give us an unbroken line from Bangor and Skowhegan to Portland by either the Central or Kennebec route. The advantage to result from this completed work cannot be overestimated.

The funds for the construction of this line have been raised from bonds issued by the Company, at six per cent. payable principal and interest in gold, and secured by a mortgage on the "extension." These bonds sell readily in the market at

satisfactory rates, and as fast as the money is required for the prosecution of the work.

The Belfast and Moosehead Lake Railroad, by the terms of a contract of lease between this company and that, was to have been completed on the first day of November last, from Belfast to Burnham. Having been informed that it was ready for our inspection and acceptance under said contract, a committee of this board was appointed for the purpose of examining the road. This committee procured the service of an eminent engineer and some practical railroad men to accompany them, and made with them, a careful examination of the road, and subsequently reported that they found it defective, and not up to the requirements of the contract in many material points. The defects pointed out in these reports were substantial, going directly to vital requirements in the contract. Under these circumstances, your Directors informed the Belfast and Moosehead Lake Railroad Company that this company declined to accept the road under the contract. Subsequent proceedings were proposed under the Railroad Commissioners, which were accompanied by such circumstances as to induce your Directors to decline all action in the premises, and disclaim any and all connections therewith.

Since that time a temporary arrangement has been made, by which the road has been operated by the Belfast and Moosehead Lake Company, using for that purpose rolling stock provided by this Company, without charge; this arrangement however is temporary. Propositions have been made for an amicable and permanent arrangement of the matters between the companies at an early day, and we now advise that the most liberal terms be conceded to them for the operation of their road by us, or as a connecting road with us, that shall be consistent with the interests of this company. Large sums of money have been expended in the construction of that road, and though it is undoubtedly defective, and in many material points much below the requirements in the contract, and not within its terms, nevertheless it is now an existing road, and may be made serviceable in the development of the country through which it runs. Our desire therefore is that the largest possible amount shall be realized out of it by its proprietors.

The European and North American road, it is expected, will be completed during the coming season. From the line of this road we may anticipate a large increase of business, especially if its gauge shall be changed so as to conform to ours, and thus enable it to transport freight through to its destination without unloading. The Company also anticipate a large through passenger traffic; if in this respect their anticipations are realized our business in this direction will be still more largely increased.

The Knox and Lincoln road will also probably be completed during the approaching summer. This will also be an important feeder to our line.

Our relations with the Grand Trunk are harmonious, and although we shall probably cease to run our cars over any part of their line in the month of July, that fact will not disturb our freindly relations with them, and will in no wise diminish the amount of our general western business over the line.

West of Portland, our relations are of the most friendly character, yet we regret to say that the present "mixed" condition of things between themselves, embarrasses us not a little, especially in establishing our favorite night train. We trust however that order will soon come out of the present seeming chaos, and that such relations may be established as will permit through business to flow on unvexed to its destination.

On the whole, though we have been required during the past year to make large expenditures of money, and shall also find it necessary to continue so to do until your arrangements are fully perfected, and the line put in first class condition, still your prospects were never as good for the final success of your enterprise, as they are this day.

The company have 18 locomotives, 17 passenger, 3 smoking, 1 passenger and baggage, 8 mail and baggage, 3 saloon and 290 freight cars. Trains have been run for all purposes during the year 229,572 miles, an increase over the previous year of 5,329 miles. Of the distance run 19,091 miles were on the Dexter and Newport railroad, which is worked by this company as a part of its line. In the transportation of passengers 89,284 miles were run; of freight, 93,730 miles; and in hauling gravel, etc., 46,558 miles. The number of passengers carried on the Dexter and Newport railroad was 17,155; number of tons of freight, 10,957.

PROFIT AND LOSS ACCOUNT JAN. 1ST, 1871.

	$902,328 66
By balance, January 1, 1870	$292,851 74
Income, rec ipts of road, 1870.	572,039 22
Balance to new account	37,437 70
	$902,328 66

The standing of the company is shown by the accompanying General Account:

The amount of $1,716,600, charged to lease of Portland and Kennebec Railroad, is in consideration of a lease of that road to the Maine Central for 999 years, from May 31st, 1870, and capital stock has been issued in payment of same and placed in capital stock account.

The Interest scrip account is, in part, for a scrip dividend of $386,892 made to the stockholders of the company, on the 31st of May, 1870, $297,700 of which has been adjusted.

The $1,100,000 loan bonds Androscoggin and Kennebec Railroad were issued in 1860 and 1861, on thirty years, and are cash bonds.

The first mortgage bonds, City of Bangor, are cash bonds, issued in aid of the Penobscot and Kennebec Railroad and will fall due as follows: viz: twenty thousand dollars on the twenty-first day of April of each year up to and including 1874, and five hundred thousand dollars on the second day of October, 1874.

Any of these bonds will be received at par, in exchange for the seven per cent. bonds of the company at any time during the year, and the holders of said bonds, by availing themselves of this opportunity, will not only gain one per cent. interest for nearly four years, but will save the government tax on their coupons, as it is paid by the company.

The second mortgage bonds, Penobscot and Kennebec Railroad Company, fell due August 1, 1870, $159,500 of the same are outstanding and will be paid on presentation.

The $400,000 loan bonds, of which $163,900 are outstanding, will fall due during the next four months, and can at any time be exchanged for Maine Central sevens.

The $1,100,000 loan seven per cent. bonds, will be due July 1, 1898. The principal and interest are payable in Boston. Coupons free of government tax.

The $500,000 loan bonds, Maine Central Extension, were issued October 1, 1870, and will fall due October 1, 1900. The principal and interest are payable in gold in Boston. Coupons free of government tax.

The Stock bonds and stock coupons are convertible into capital stock.

☞ The Louisville *Courier-Journal* says that the Elizabethtown and Paducah Railroad Company have recently effected the sale in Europe of a large amount of mortgage bonds of the road, the total amount sold up to this date summing up about $3,000,000. The price obtained was 85 cents in the dollar. This will insure the completion of the road to Paducah in from twelve to fifteen months from this time. This road runs east and west through the western half of the State of Kentucky, and its completion gives the western end of the State a rail connection with Louisville and the central and eastern railway systems of the State.

☞ Work is progressing rapidly on the Buffalo, New York and Philadelphia Road between Holland and Protection. The next section to Cattaraugus Creek is well under way. Still further on a considerable force is at work, and the contractor expects to finish the road to Olean before winter sets in.

☞ The Kansas Central Railroad Company has been organized for the purpose of constructing a narrow gauge railroad from the Missouri river to the City of Denver, or such point in Colrado as may seem best.

☞ The project of a new road from New York city to Albany is exciting much interest in Albany and vicinity. Two routes have been surveyed, one through the Wallkill Valley, and the other along the river bank.

Railroads of the State of Ohio.

A tabular statement of their Capital, Length, Cost, Earnings, Expenses, Dividends, &c., for the fiscal year ending June 30, 1870.

Compiled from the Annual Reports of Railroad Companies made to the Hon. George B. Wright, State Commissioner of Railroads and Telegraphs.

Journal of Railroad Law.

RAILROAD COMPANIES—RULE OF NEGLIGENCE—IN WHAT CASES NOT DEEMED TO EXIST.

The facts in the recent case of The Illinois Central Railroad Company *vs.* Carraher, (47 Ills., 333,) are fully and clearly stated in the following opinion by

WALKER, J.—This was an action on the case, brought by Peter Carraher, in the Alexander Circuit Court, against the Illinois Central Railroad Company. The grounds of recovery are, that the company knowingly permitted a well to remain uncovered on their right of way, and that appellee rode his mule into it, whereby the mule was killed, and he sustained loss and damage thereby. The evidence shows that appellee did ride his mule into such a well, situated about fifty feet from the track of the road, and that it was killed. The evidence does not seem to establish the fact that the well was on the right of way of appellant's, or that their agents knew of its existence.

On the trial below, appellants asked the Court to instruct the jury, that, "if a well dug on the ground owned by defendant, by third parties, without its knowledge or consent, and said well remained uncovered without the knowledge of defendant, the defendant is not guilty." We are a at loss to perceive why this instruction was refused. If, as the instruction states, the well was dug by third parties, without the knowledge or consent of the company, and it remained uncovered, without their knowledge of its existence, we are at a loss to perceive how the company could be held liable for carelessness or a neglect of duty. This action proceeds upon the ground appellants had omitted some duty imposed by law. The statute has not imposed such a duty as appellee claims, and we are aware of no common law duty requiring them to employ hands to search for such places on their right of way, and, when found, to cover them.

The act requiring such bodies to fence their roads, was adopted for a different purpose. It designed to protect the traveling community from accidents occasioned by stock getting upon the road, and also to prevent damage to such stock. They were not required to fence their right of way to prevent cattle from falling into wells, pitts or morasses. Hence the common law is still in force, so far as it regards losses from such causes. In the absence of statutory requirement, such bodies are only, as a general rule, required to perform the same acts that are required of citizens; and we are aware of no rule of law that requires an individual to cover wells or pits on his uninclosed lands, or to fence bogs or dangerous quagmires, to keep his neighbors' cattle from getting into them. While, under the laws of this State, cattle may run at large, and may pass upon the the uninclosed lands of others than the owner, it has never been held that the owners of such lands are required to make them safe for the pasturage of his neighbors' cattle. If the owner chooses to permit his cattle to stray upon the lands of others, he assumes the risk of their being injured by falling into pits or becoming mired in morasses; and the same rule applies to cattle straying upon the right of way of a railroad company. In this view of the question, with a modification, the seventh in the series of appellants' instructions should have been given. From what has been said, it will be seen that the instruction given for appellee was wrong, and should not have been given. The judgment of the Court below is reversed and the cause remanded.

Judgment reversed.

BANKING AND FINANCIAL.

☞ THE NEW ORLEANS, MOBILE AND TEXAS RAILROAD COMPANY are building a trunk line, connecting New Orleans with Mobile on the east, and giving the only railroad connection between the former city and the great and most productive State of Texas on the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly $10,000,000 of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles constituting the Texas division; leaving but 140 miles to be built to complete the entire road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the eight per cent. mortgage bonds upon the Louisiana Division of 226⅔ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by indorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over $8,000,000.

The bonds now offered are of two classes—first mortgage bonds to the amount of $12,500 per mile, and second mortgage bonds, to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired. No better security has been offered to investors. The line is a good and important one, and the stockholders have proved their determination and ability to carry the work to an early and successful completion by the very large amount they have themselves put into it.

The bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in new Government Five Per Cents, into which the Government Sixes are being funded by the Secretary of the Treasury.

At the same price an eight per cent. currency long bond is far cheaper than a seven per cent. gold one. Calculating a return to specie payments in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—forty-five years—we find that by compounding the interest of each, every six months, at 7 per cent., an eight per cent. currency bond at ninety will give a return of $2,614 18 more than a seven per cent. gold bond at the same price, or nearly three times the amount of the original investment.

While the purchaser of the eight per cent. bonds of this Company can realize this special profit, he also holds the option of taking advantage of any temporary advance in gold, as he has choice, at every separate coupon day, or gold interest at seven per cent., or currency interest at eight per cent.

The bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is ninety, and accrued interest at eight per cent. currency from May 1 to date of remittance. Bonds will be sent free of cost, and Government and all marketable securities will be taken in exchange at their best market rates without charge for selling.

Information concerning the Company and the road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents. W. B. SHATTUCK, Banker and Financial Agent, New Orleans, Mobile and Texas Railroad Company, No. 23 Nassau street, New York.

☞ The Boston *Journal* of June 20th, says that under the direction of S. C. Minot, Esq., engineer of the Old Colony and Newport Railroad Company, a route has been surveyed and accepted, under instructions from the corporation, which, when the road is completed, will open a new and expeditious line of communication between the hitherto unsettled portion of Dorchester and the city proper.

The Shawmut Railroad Company, having come to an understanding with the Old Colony and Newport Railway Company, are now pushing forward their plans for a line of road which will ultimately bring a large portion of old Dorchester and South Quincy into close and frequent communication with Boston. In a few days the contracts will be concluded, when the exact line of the new road will be indicated.

☞ The London *Times* reports: "With regard to the proposed issue of £1,400,000 sterling 6 per cent. general consolidated mortgage bonds of the Philadelphia and Reading Railway Company. Messrs. McCalmont, Brothers & Co. have announced that £600,000 sterling have been withdrawn from this market for the purpose of being issued in America in the form of United States currency dollar bonds, and that the remaining £800,000 has been allotted to subscribers in England.

☞ The European and North American Road will probably be completed to the State line and to a connection with the Dominion Division in September next. Portland will then have railway connection with St. John, N. B.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal

Saturday, June 24, 1871.

Stock Exchange and Money Market.

Money has been in very full supply at the previously current rates, call loans having been quoted at from 2@5 mainly 3@4 per cent., and very choice to good mercantile credits, 4@7, chiefly 5@6 per cent. per annum. The demand for accommodation has been on a comparatively moderate scale from all sources. To the leading street houses, the offerings have been largely in excess of their requirements at the ruling figures. There has been some increase in the outflow of currency to the West, but the aggregate has not been important; and the acquisitions through other channels, to the supply here have been quite respectable, enabling the city banks and the Treasury Office to report an augmentation of their reserves, as the result of the week's business. Toward the close, call loans were somewhat brisker at from 3@5 per cent. as the government rates. The city banks, last week, reported a gain of $273,757 of specie, and $1,768,523 legal tender notes, and $1,381,814 of deposits. They reduced their loan and discount averages $675,629 and their circulation $78,813. The city bank exchanges, last week, averaged $106,136,800; and thus far, this week, 115¾ millions daily. The banks now hold $16,684,312 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a gain of $508,735 of specie and $101,574 of currency, as the result of the week's business. The receipts of the office were $4,032,032 in coin, and $4,082,725 in currency; payments, $3,523,297 in coin, and $3,981,151 in currency. The office received $2,495,000 in coin or its equivalent, from customs; and disbursed $333,096 of coin interest.

The specie reserve of the city banks according to the latest return is $12,989,910, against $28,895,971 same time last year. The city bank deposits are now $243,276,150 against $219,932,852 week ending June 18, 1870. The legal tender reserve amounts to $72,178,964 against $58,120,211 same time last year. The circulation now stands at $30,662,098, against $33,072 643 same time last year. The loans are now $293,134,532, against $276,689,004 at this date last year.

The subscriptions to the new refunding Five per cent. Loan now amount to about 67½ millions.

The U. S. Sub-Treasurer retired, last week, $2,142,641 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $4,044,548 in currency, and $58,857,911 in coin against a balance a week previous of $3,752,817 currency, and $57,998,256 coin.

Government revenues keep up to a fair average. The excises yielded last week nearly three millions. The customs at the port of New York, last week were $2,359,641; and at the outports, equal to about $755,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $139,447,117.

Under the Treasury programme for June, Government will sell Gold during the month, through the Treasury office here, as follows: Thursday, June 29, $1,000,000. And buy in Five-Twenties, as follows: Wednesday, June 28, $1,000,000.

There has been a moderately active movement in the Gold line, with a steadier range as to the price, due, in part, to the speculative manipulations of the supply. The customs demand has been fair. The export drain has been on a restricted scale. The range of the price, during the week, has been from 112@112⅝, and the closing quotation on Wednesday was 112⅜ against 112¼ the preceding Wednesday. The outflow, last week, was $1,392,491; on Tuesday of this week to $656,566, and on Wednesday, to $223,187. The Gold Exchange Bank clearances daily, through the week have been as follows: June 15, $39,599,000; June 16, $54,223,000; June 17, $37,469,000; June 19, $18,295,000; June 20, $35,492,000; June 21, $51,048,000.

The July half-yearly interest on the public funds of the United States, the prepayment of which will be commenced on Monday of next week, June 26, without rebate, amounts as follows:

Three per cent. on $622,844,950, U. S. 5-20s	$18,685,348
Three per cent. on $283,678,100 U. S. 6s, 1881	8,510,343
Two and a-half per cent. on $20,000,000, U. S. 5s, 1874	500,000
Total	$27,965,691

The Treasury Department balances, on Monday, were $90,945,000 of coin, including $16,251,-

000 represented by outstanding certificates; and $3,750,000 of currency.

The customs at this port on Wednesday were $372,000.

The export drain was $1,892,491 last week, against $886,448, same week preceding year. The shipments since July 1, 1870, have been $78,604,732, against $31,839,108 same time in 1869–'70.

The customs demand for Gold last week, averaged $413,833 a day; thus far, this week, it has averaged $411,500 a day, or equal to a weekly aggregate of $2,469,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $113,427 and since Jan. 1, 1871, $3,163,221 against $7,016,220 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $142,948,473, against $130,840,303 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $85,245,611 against $86,073,572 same time in 1869–'70.

A firmer market has been noted for foreign exchange, on a lighter offering of prime bills, and a rather better inquiry, closing on Wednesday, with Bankers' sixty day bills on London at 110⅛@110⅜; sight bills on London, 110⅝@110⅞.

The produce exports from this port, week ending with June 20, were to the currency value of $4,976,521.

Government securities have been in very meagre supply in the open market, and though the inquiry for all issues has not been active, prices have advanced a fraction, closing firmly.

On Wednesday, Government bought in a million of Five-Twenties at 111 59@111 66, ex-interest. The amount of bonds offered was $2,975,000.

U. S. sixes of 1881 closed here on Wednesday of the current week at 117½@117¾; U. S. Five-Twenties of 1862, 112½@112¾; U. S. Five-Twenties of 1864 at 112½@112¾; U. S. Five-Twenties of 1865, 112½@112⅝; U. S. Five-twenties of 1865 consolidated, 114¾@114⅞; U. S. Five-Twenties of 1867, 114¾@115; U. S. Five-twenties of 1868, 115@115¼; U. S. Ten-forties at 110⅜@110½; U. S. Six per cent. currency bonds, 115@115⅜.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 7.	June 14.	June 21.
Consols	91⅝	92	92⅛
U.S. 5-20's of 1862..	90⅝	90⅝	90¾
U. S. 5-20s, 1865....	90⅜	90½	90½
" 1867	92¾	92⅝	*90
" 10-40s	88¾	88½	88¾
Erie.	24½	24½	24⅛

* Ex July coupon.

State bonds have been in moderate demand at less buoyant prices.

Railway bonds have been in fair request and the more substantial loans have been quoted firm in price. Central Pacific Sixes closed at 102½@102¾. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in good demand at 92 per cent. and accrued interest. Union Pacific Sixes closed at 91½@92.

Business in Railway and miscellaneous share property has been much less confidently dealt in, and prices have been depressed, lower, and very unsettled, closing feverishly. Wednesday's dealings in Rock Island shares were very extensive, some 50,000 shares, and the price was depressed by the heavy realizations from 130⅞@110, closing at 113@113¼.

The Illinois Central Railroad Company has declared a dividend of five per cent. currency, free of tax, payable August 1; transfer books close July 15, and re-open August 5.

General business has been less active. Breadstuffs, Provisions and Cotton have been quoted lower toward the close. Naval Stores, Tobacco, and Wool firmer. Middling upland cotton closed on Wednesday at 20⅛ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,846,088 bales, against 2,767,100 bales same time last year; exports 3,014,390 bales, against 2,050,307 bales same time last year; stock at the ports at latest dates, 237,914 bales, against 213,556 bales same date 1870.

At the Live Stock Markets, Beeves have been in fair demand at from 10@14 cts; Veal Calves, at 5@9½ cts; Sheep at 4½@8 cts; Lambs at 8@12½ cts; Swine, 4½@4¾ cts per lb., all live weight. The week's receipts were 8,529 Beeves, 3,473 Veal Calves, 28,493 Sheep and Lambs; and 27,979 Swine.

Foreign goods have been in less request, though buyers have had any existing advantage as to price. The week's imports of foreign goods reached $8,423,330, including $1,698,459 of dry goods.

Ocean freights have been fairly active and toward the last quoted rather firmer, though somewhat irregular. The main business has been in Grain, Petroleum, Provisions, Lumber, and Naval Stores.

GREAT NATIONAL LOAN.

—o—

$134,000,000 NEW 5 PER CENTS.

PRINCIPAL AND INTEREST PAYABLE IN COIN.

Interest quarterly, February, May, August, and November.

BONDS FREE OF ALL TAXES, LOCAL OR NATIONAL.

The Treasury Department having already received subscriptions to the amount of $66,000,000 to the first two hundred millions of the New Loans authorized by the Act of Congress, of July 14, 1870, for refunding the Public Debt, bearing five per cent. per annum interest, now offers to popular subscription the remaining $134,000,000 of this particular Loan, and is prepared to promptly deliver the Coupon Bonds or Registered Certificates in exchange dollar for dollar for any of the United States six per cent. Bonds or Registered Stocks, known as *Five-Twenties*, or for Gold Coin at the par value of the New Loan, and accrued Interest from the first of May. When this amount, to which preference is given, is taken up, the remainder of the Five per Cents, $300,000,000, embraced in the Act will be offered in connection with $300,000,000 Four and one half per Cents, and any part of $700,000,000 of Four per Cents, the one running fifteen years and the other thirty years.

The following is a copy of the New Five per Cent. Bond, under and pursuant to the Act of Congress:

FORM OF FIVE PER CENT BOND.

INTEREST | FUNDED LOAN OF 1881 | 5 PER CENT.

UNITED STATES OF AMERICA

ARE INDEBTED TO THE BEARER IN THE SUM OF

..... DOLLARS.

THIS BOND is issued in accordance with the provisions of an Act of Congress entitled "An Act to authorize the refunding of the National Debt," approved July 14, 1870, amended by an Act approved January 20, 1871, and is redeemable at the pleasure of the United States, after the first day of May, A. D. 1881, in Coin of the standard value of the United States on said July 14, 1870, with interest in such Coin, from the day of the date hereof, at the rate of FIVE PER CENTUM per annum, payable quarterly, on the first day of February, May, August, and November, in each year. The principal and interest are exempt from the payment of all Taxes or Duties of the United States, as well as from taxation in any form, by or under State, municipal or local authority.

WASHINGTON, ..., 18....

Entered ..... Recorded .....

..... Register of the Treasury.

Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depository of the Government, quarterly, on the first days of February, May, August and November, in each year.

The Interest on the Registered Stock of this Loan, it is determined by the Treasury Department, will be paid by the Treasurer of the United States in his Gold Check for the Quarterly Interest, to the Post-office address of every holder, free of trouble or expense, dispensing with attendance, in person or by proxy, at the Treasury, for the durpose of receipting for and drawing such interest.

The whole proceeds of the New Loan will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and in addition to these proceeds, the 5-20s are being reduced by purchases, averaging, for two years past, about $10,000,000 per month.

The entire effect, therefore, of the New Loan, in connection with the existing Sinking Fund process of the Treasury, is to reduce both Principal and Interest of the Public Debt of the United States. *The Loan creates no additional supply of Government Stocks*, while the application of the surplus revenue is constantly lessening the Funded Stocks bearing six per cent. Gold Interest.

The policy of the Government since the close of the War in 1865, which left a debt upon the country of $2,755,000,000, and an annual taxation of $311,000,000, has been to reduce steadily both Debt and Taxes: to reduce the Principal of the Debt by actual payments, and to lessen the annual burden of Interest, and thereby the burden of Taxation, not only through such payments, but by funding the debt at the cheapest rates of interest practicable from time to time, until it is now felt that the very cheapest rates are due to the high Credit, unblemished Public Faith, and vast and growing resources of the country. From $2,755,000,000 the Principal of the Debt has been reduced to $2,260,000,000—both sums exclusive of accrued interest—and from the heavy burden of $151,832,000 per annum, the Interest charge has been reduced to $112,780,000 per annum; while the annual taxation, under the Internal Revenue system, which the necessities of the War and the Debt thereby created rendered necessary for at least a short series of years, has been reduced from $311,000,000 in 1865-66 to about $154,000,000 per year in 1870-71, (estimating for the highest probable collections in the current month, the last of the Fiscal year,) or less than one-half the first named sum. And in the year 1871-72 a further reduction of $28,000,000 will come in under the Act of July, 1870, so as to give only $126,000,000 for the year, or about two fifths the maximum of 1865-66.

By the successful refunding of the Public Debt at moderate rates of Interest, and by continued economies in the expenditures of the Government—which in two years, from March 4, 1869, to March 4, 1871, amounted to $126,700,949, or an average saving per year of $63,350,474—it is believed that nearly the entire system of Internal Taxes can be dispensed with in a few years, or so much of it as requires the machinery of District Assessors and Collectors.

The Secretary of the Treasury has just published the Monthly Schedule of the Public Debt to June 1, from which it appears that he has further reduced the total of Funded Gold bearing debt since May 1, by the sum of $8,000,000 by purchase of United States 5-20s for the Sinking Fund, and reduced the 5-20s by the further sum of $8,217,400 by conversion into the New 5 per Cents. The whole Funded Debt now stands, $1,894,128,750, as against $2,107,846,150 two years ago when the present Administration came into office. Adding to these sums the net Circulation of the Treasury, (that is, in Greenbacks and Greenback Certificates, after deducting Gold and Currency on hand,) the following is the comparison of Debt of all kinds, at present, and at the close of the War, and in 1869:

	July, 1865.	March, 1869.	June, 1871.
U. S. Stocks	$2,150,784,112	$2,107,846,150	$1,894,128,750
Circulation	605,211,163	383 545,854	366,333,008
Total	$2,755,995,275	$2,491,399,904	$2,260,461,758

The following table affords a classification of the Funded Stock (in Gold) of the United States, as at present outstanding:

Date.	Coupon.	Registered.	Total.
5-20s, 1862	$382,958,500	$103,973,540	$486,932,000
5-20s, 1864	44,752,650	55,924,100	100,676,750
5-20s, 1865	123,667,150	53,552,100	177,212,250
5-20s, 1865 (n.)	179,269,500	70,851,450	250,220,950
5-20s, 1867	241,686,550	91,325,100	333,011,650
5-20s, 1868	28,009,350	11,603,000	39,612,350
Total	$1,000,436,700	$387,229,250	$1,387,665,950
Sixes, 1881	93,260,400	190,417,600	283,678,100
Fives, 10-40s	57,279,650	138,287,650	194,567,300
Fives, 1874	13,955,000	6,045,000	20,000,000
New fives, '81	5,117,000	3,100,400	8,217,400
Total	$1,170,048,750	$724,080,000	$1,894,128,750
Total March 4, 1869			2,107,846,150
Reduction of Funded Debt			$214,717,400
Yearly Gold Interest charge, 1869			$124,255,350
Present yearly charge			111,419,993
Reduction in Interest Charge			$12,835,357

The proposed further reduction of the annual interest charge upon the Public Debt by refunding is as follows:

By exchange of $500,000,000 United States six per cents for new five per cents of 1861	$5,000,000
By exchange of $800,000,000 United States six per cents for four and a half per cents of 1866	4,500,000
By exchange of $700,000,000 United States six per cents for four per cents of 1901	14,000,000
Total saving per annum by refunding	$23,500,000

C. C. NORVELL,
In charge of United States Loan Advertising.

TREASURY OFFICE,
NEW YORK, June 3, 1871.

New York and Albany Railroad.

The following is an extract from the Report of C. W. Wentz, Esq., Chief Engineer, made June 17, 1867:

PROBABLE REVENUE.

In considering the question of revenue, it is important, in the first place, to consider the extent of territory to be accommodated by the proposed line, its population and character, with a view to instituting a comparison with other sections where lines of railroad have been in operation.

In this case, then, the territory which is to contribute the local business to your road, is embraced mainly within the counties of Albany, Greene, Ulster, Orange, Rockland, and that portion of the State of New Jersey lying north of New York and west of the Hudson river, a strip of territory averaging twenty-five to thirty miles in width by about 150 to 160 miles in length, unequaled in fertility and all the resources which make the country prosperous, and containing a population, according to the last census, not including any portion of New Jersey, of 313,776 persons, and, including a proper allowance for that portion of New Jersey outside of Jersey city and Hoboken, of not less than 360 000.

This large population, except such portions as are within reach of the Erie railroad, and the various local lines near New York, is dependent for its access to market on the Hudson river and the line of railroad on the East side of the river. This is true of the territory north of Newburgh, embracing fully two-thirds of the territory and population.

If we compare this territory with the counties similarly located on the east side of the river, we shall find that the counties of Rensselaer, Columbia, Dutchess, Putnam, and Westchester, include a population of 314,349, and embrace a territory about twenty to twenty-two miles in width.

This population have, besides the Hudson River, two lines of railroad by which to reach New York. In productiveness of soil and general characteristics of the population, the difference, if any exists, is in favor of the west side. Both localities are thickly dotted with prosperous towns and villages, and along the river where the trade of the interior has concentrated, large and flourishing cities and villages have sprung up, and the west side of the river now contributes its full share to the traffic of the Hudson River Railroad.

My purpose in thus drawing attention to the relative situation of the territory and the population on each side of the river, is to deduce from the statistics of the local traffic of the lines of railroad on the east side, an approximation to the traffic of the same character which would be due to a line located on the west side, and I shall assume as a basis, the proposition that in an equal population, the territory occupied, and the habits and pursuits of the people being the same, or nearly so, the local traffic furnished to a line of railroad will be the same.

In considering the relations which the territory of the two sides bear towards each other, it is important to bear in mind that on the east side there are three distinct lines of railroad running south from opposite Albany. The one along the margin of the river to New York, the Hudson River Railroad, 144 miles in length; the Harlem, from Chatham to New York, 131 miles, but having connection with Albany by the Western Massachusetts Railroad, and the Housatonic, having the same connection with Albany as the Harlem, but running south through the State of Connecticut to Bridgeport, on the Sound, having a direction nearly parallel with the Harlem, and being but six to ten miles distant from it. And while this line diverges to the east, near its southern extremity, there is still another line, the Danbury and Norwalk, running from Danbury to the Sound, between this line and the Harlem, absorbing its proportion of the local traffic, and thus narrowing the area from which each would otherwise draw its trade.

Then there is the line along the Sound, the New York and New Haven, which skirts the southern border of Westchester county, drawing its share of local trade. The distance between the Danbury and Norwalk and the Harlem roads is about ten miles, while at Dover, fifty miles south of Chatham, the distance between the Harlem and Housatonic is but six miles; moreover, the range of ridges and mountains over which the division line between New York and Connecticut runs, broken only occasionally by passes where access may be had to either line of railroad, constitutes, in a measure, a natural line of division between the traffic to the two lines. The State line is not quite twenty-two miles distant from the Hudson River, and is supposed to lay parallel to it.

We have, then, within thirty miles of the Hudson river, on the east side, three miles of railroad, constructed at a cost over $30,000,000, dividing the local traffic embraced within a strip of territory about equal in width to that which will be tributary to the line on the west side.

The local traffic upon the Hudson River Railroad is drawn mainly from the strip of territory lying between that road and the Harlem, and from the territory west of the river.

This traffic, in 1865, for way freight, is estimated from the returns made to the State Engineer, at 221,850 tons, equal to 1,540 tons per mile, with an average mileage to each ton of sixty-seven miles, and on the Harlem road, in the same year, it was 199,968 tons equal to 1,526 tons per mile, with a mileage to each ton of nearly sixty miles.

In appropriating these statistics for the purpose indicated, I shall, in the first place, assume that one-half the local traffic of the Hudson River road, both in passengers and freight, is drawn from the west side of the river, and I base this assumption upon the fact that the section of territory east of the Hudson River road, from which it draws a local trade, is confined to that portion of the population to which it is more accessible than the Harlem, and must, as a consequence, be limited to a strip next the river, not exceeding five to seven miles in width. The populous towns on the west shore are equally numerous, and for over 1000 miles are dependent on the Hudson River Railroad for their communication with New York, except when the more tardy river transportation is used, and this is as likely to be adopted by persons in the east as upon the west side, and we may fairly offset the one against the other.

Adopting this rule, we shall have covered a strip of territory upon the west side about equal in extent to that which is tributary to the river line on the east, not exceeding five to seven miles in extent, and which has a population tributary to it, but little exceeding that which is tributary to the Harlem road—a line dividing the territory between the two lines, the Hudson and Harlem, giving 112,092 to the Hudson River, and 101,894 to the Harlem road.

If we assume, therefore, that a large proportion of the local business now done on the Harlem road would be drawn to the Hudson River road, had the Harlem never been constructed, we have a right to claim that an equal amount of interior traffic would flow to a river line on the west side.

I shall assume, for the purpose of this estimate, that one-third of the local traffic over the Harlem road has its existence by virtue of its proximity to the line of railroad. I assume this to be the condition of the transportation of a large portion of the milk which contributes largely to the income of the Harlem.

But the excess of population on the west side over the east is an element which should be considered, and in the division of the territory this excess is equal to an increase of over forty-two per cent.

These data established, we shall have one-half the local passengers' traffic of the Hudson River road, the whole number for 1865 being 1,749,942, gives 874,971, to which, add way passengers on the Harlem, being 1,099,682, with forty-two per cent. added for excess of population, makes 1,561,548 two-thirds of which gives 1,041,032, and these together give 1,916,003 passengers.

The local freight will also be estimated by the same rule, giving one half of the Hudson River local freight for 1865, the total of that year being estimated at 221,850 tons, would give the west side 110,925 tons, to which add two-thirds of Harlem, the total of which was 199,968, increased by forty-two per cent., gives 189,803, and these two together gives us 300,228 tons of freight.

Having fixed the local traffic, we may fairly assume that a railroad line on the west side of the river, favorably located and well constructed, with connections at Albany, with the several lines terminating there, and offering facilities equal to the other competing lines, for speedy and cheap transportation, will command its share of the through traffic to New York—that it will at least divide the through business with the Hudson River road.

We shall have as the basis of our estimate for through traffic, one-half the through business of the Hudson River road for 1865. The total through passenger traffic for that year, estimated at 318,303, gives 159,151 through passengers, and the total through freight being 276,000 tons, gives 135,000 tons through freight due the west side line.

We can then make a near approximation to the amount of revenue that will be derived from the proposed line on the west side of the river as follows:

159,151 through passengers, $2.90.	$461,535 90
1,916,003 way passengers, average 23 miles, each 58c.	1,111,281 74
135,000 tons through freight, $4.30	580,500 00
300,228 tons way freight, average 70 miles, $2.50.	750,570 00
	$2,093,889 64
Add for mail and express.	100,000 00
Total estimated earnings.	$3,003,889 64
Deduct 60 per cent. for running expenses, first five years.	1,802,333 78
Gives.	$1,202,555 86

net income on investment, equal to 9 2-10 per cent. on the estimated cost of road and equipment.

Again, taking the Harlem road way traffic as the basis, and applying it to the line upon the west side of the river, making allowance for the excess of population tributary to a line along the river on the west side over that which is tributary to the Harlem, giving a population of but 10,000 to that portion, twenty miles in length, passing through the State of New Jersey, making this small increase applicable to this portion of the line in consequence of the narrow strip of territory between the Northern New Jersey Railroad and the river, we then have a population tributary to the Harlem road of 101,894 against 166,027 tributary to a line along the river on the west side, being equal to an increase of 63 8 10 per cent. This, applied to the way passengers and freight business of the Harlem road, for 1865, would give 1,801,279 way passengers, and 327,547 tons of freight. Assuming these as representing the way traffic, and leaving the through business as in the other estimate, we have:

159,151 through passengers, $2.90,	$461,537 90
1,801,279 way passengers, average 23 miles, each 58c.	1,044 741 82
135,000 tons through freight, $4.30	580,500 00
327,547 tons way freight, $2.50.	818,867 50
	$2,905,647 22
Add for mail and express.	100,000 00
Total earnings by this mode.	$3,005,647 22
Deduct 60 per cent. for expenses.	1,803,388 33
Leave net.	$1,202,258 99

Differing but slightly from the first estimate.

In estimating the probable revenue of the interior line, I have made a division of the territory, giving the Hudson River Railroad that por-

tion of the territory adjacent to the river, that would, from its proximity to that line, naturally resort to it, and when approaching the Erie Railroad, dividing the population, apportioning only one-half to our line. This division gives the villages of Coxsackie and Athens, with all the river towns below Rondout to the Hudson River road. Under this classification, the population tributary to the interior line is found to be 144,628, as against 101,394 on the Harlem line. This gives an excess to our interior line equal to an increase of over 42 per cent., and would give on the way traffic of the Harlem 1,561,548 passengers and 288,954 tons of freight.

Assuming the through traffic the same as for the river line, we shall have, then, for our interior line:

159,151 through passengers, $2.90	$461,537 90
1,561,548 way passengers, average 23 miles, each 58c	905,697 84
135,000 tons through freight, $4.30	580,500 00
288,954 tons way freight, $2.50	709,885 00
	$2,657,620 74
Add for mail and express	100,000 00
Total earnings	$2,757,620 84
Deduct 60 per cent. for expenses, as before	1,654,724 44
Gives	$1,103,048 30

Net income on investment, equal to over 12 per cent. on the estimated cost of the interior line.

These estimates are based upon a charge of two cents per mile for through, and two and a half cents per mile for way passengers, and about three cents per ton, per mile, for through freight, and less than three and a half for way freight.

Should the rates, per ton, for freight, be put at the average of the rates charged by the Hudson River road during 1865, the increase of gross receipts would be $344,215 20 on the first estimate, $355,118 80 on the second, and $337,681 60 on the third.

It cannot be doubted that the line upon the west side, whether constructed by the river or the interior route, if it be properly connected with the lines which terminate, or pass through Albany, from the north and west, will command a through traffic, both passengers and freight, largely in excess of these estimates.

It would be the natural resort for the business of Albany and the surrounding villages on the west side of the river, and if the management were prudently conducted, a large portion of the interior traffic along the central route would be disposed to select this in preference to the routes now opened, and the distribution of passengers and freight to New York may be as conveniently and cheaply made from Hoboken to Jersey City, by the numerous ferries, and by lighters, as from the upper part of the city.

Respectfully submitted,
C. W. WENTZ.
Engineer in charge.

☞ The Hoosac, Rome and Oswego R. R. Co. has been organized to build a line to connect Lake Ontario with Boston. The proposed road is 125 miles long. It begins at Eagle Bridge, on the Troy and Boston Railroad, runs thence through Ballston Spa and Rome to North Bay; thence over the Midland to Oswego. From Eagle Bridge to the Tunnel, and thence to Boston, a road is already in operation. The projected road from Eagle Bridge to North Bay will, in connection with roads already built, form a nearly direct line from Lake Ontario to Boston through the Hoosac Tunnel.

☞ Z. F. Smith has been elected President, and Mr. McElroy Treasurer of the Cumberland and Ohio Railroad Co.

THE NEW YORK (VIADUCT) RAILWAY COMPANY.

DIRECTORS.

Alexander T. Stewart, A. Oakey Hall,
William M. Tweed, John Jacob Astor,
August Belmont, Peter B. Sweeny,
Charles A. Lamont, Levi P. Morton,
James F. D. Lanier, Hugh Smith,
Franklin Osgood, William T. Blodgett,
William Butler Duncan, Richard O'Gorman,
John J. Bradley, Jose F. Navarro,
Charles L. Tiffany, Henry Smith,
William R. Travers, Edward A. Wesley,
Joseph Seligman, Manton Marble,
Richard B. Connolly, John Taylor Johnston,
Henry Hilton.

HENRY HILTON,
President.
HUGH SMITH,
Vice-President.
W. BUTLER DUNCAN,
Treasurer.

EDWARD P. BARKER,
Secretary.

By authority of the Board of Directors of THE NEW YORK RAILWAY COMPANY, and in conformity with the terms of the Act of Incorporation in that respect, the undersigned Commissioners on Stock Subscriptions give public notice for and on behalf of the Directors, and of such Company, that Books of Subscription for the Capital Stock thereof will be opened on WEDNESDAY, the TWENTY EIGHTH DAY OF JUNE instant at the following places in this City, viz:

At the Banking House of
DUNCAN, SHERMAN & CO.,
No. 11 Nassau street.

At the Banking House of the
BANK OF THE METROPOLIS,
No. 31 Union square.

The Company is authorized to construct two Viaduct Railways or branches through the City of New York, on the east and West sides thereof, from a common starting point at or near Chambers-st., between Broadway and Chatham-st.; also across the Harlem River and through Westchester County; with power to build additional lines of railway or branches, from time to time, in any part of the City or Westchester County. *The property acquired by the Company is exempted from taxes and assessments during the period allowed for the final completion of the railway in the city.* The Mayor, Aldermen, and Commonalty of New York are authorized and directed, with the approval of the Commissioners of the Sinking Fund, to subscribe for **five millions of dollars** of the stock of the Company, whenever one million of dollars thereof has been subscribed for by private parties. *This conditional amount of stock has been wholly subscribed for and taken by the Directors of the Company.* On the completion of either of the lines of railway to the line of Westchester County, the Supervisors of that County are authorized to issue the bonds of the County to such amount as the Supervisors shall deem expedient, to aid in the construction and extension of the railway in and through that County. For the proper equalization of the interest of shareholders who may subscribe and pay in moneys at different times, the Directors are authorized to issue scrip for interest on such payments, payable out of the earnings.

THE TERMS OF SUBSCRIPTION will be as follows:

TEN PER CENT. of the amount of Stock subscribed for, to be paid in cash at the time of subscription. The residue to be paid as called for by the Board of Directors on a notice of thirty days, but no call at any one time to exceed ten per cent.

Scrip for interest at the rate of seven per cent. per annum will be issued by the Company payable out of the first earnings of the Railway on all installments paid on stock subscribed for within thirty days after the Subscription Books shall be opened.

The Company reserve the right to close the Subscription Books at any time after the twenty-ninth day of July, 1871.

By order of the Board of Directors,
Alexander T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company.

New York, June 16, 1871.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH,
Bankers and Dealers in Government Securities,
No. 5 Nassau-st., New York, June 21, 1871.

Holders of Five-twenty Bonds desiring to fund them otherwise than in the New Five Per Cent. Government Loan may do so with entire safety, at a profit of about 20 per cent., and without reduction of interest, by an exchange for the Gold Bonds of the CHESAPEAKE AND OHIO RAILROAD Co.

The CHESAPEAKE AND OHIO RAILROAD COMPANY are extending their line of road to the head of reliable navigation on the Ohio River, where it will meet and connect with lines now building or projected, to the principal railroad centres and river cities of the Western States. The greater part of the road is in earning operation, and the rails (steel and iron) are now being laid on the remainder. The road will have, when completed, a large East and West through business, beside an immense mineral and general local traffic.

Price of the bonds, until further notice, 92 and accrued interest from May 1.

We also buy and sell Government Securities and the Bonds of the Central Pacific Railroad Company, receive money on deposit, and do a general Banking business.

FISK & HATCH.

☞ The Missisquoi Railroad, a branch of the Vermont Central, is in operation from St. Albans to Sheldon. The first regular passenger trip was made on the 18th inst.

INVESTMENT SECURITIES.

JAY COOKE & Co. are now selling, and recommend as a profitable and safe investment for all classes, the First Mortgage 7-30 Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest (more than 8 per cent. currency), and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on 28,000 Acres of Land to every mile of track, or 500 acres for each $1,000 Bond. They are exempt from United States tax; principal and interest are payable in gold. Denominations; Coupons, $100 to $1,000; Registered, $100 to $10,000.

Northern Pacific 7-30s are at all times receivable, at TEN PER CENT. ABOVE PAR, in exchange for the Company's lands, at their lowest cash price.

The proceeds of all sales of lands are required to be devoted to the repurchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres in the most fertile portion of the Northwest, and the demand for the Company's lands for settlement already exceeds the ability of the Government to complete the surveys. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due.

Holders of U. S. Five-Twenties, who wish to convert them into a first-class railroad security, can do so at a present profit of about 12 per cent., while increasing their interest income nearly one-fourth, by exchanging them for Northern Pacific 7 30s.

All marketable stocks and bonds will be received in exchange at their highest current price. Full information, maps, pamphlets, etc., will be furnished on application to any agent for the loan, or to JAY COOKE & Co., New York, Philadelphia or Washington.

☞ The Chesapeake and Ohio Railroad Company has a charter for a branch road from the mouth of Green river to a connection with the Virginia and Tennessee Road at New River. This branch will probably be built at an early day to accommodate the local mineral traffic, and we learn that such are the intentions of the company.

☞ The Brookville (Pa.) *Jeffersonian*, of this week, says: The contractors on the Bennett's Branch extension of the Allegheny Valley Railroad, are already on the ground making preparations for commencing and pushing the work through with all possible dispatch. Some of them have already broken ground on their contracts.

☞ The corporators of the Tyngsborough & Brookline Company have elected the following board of directors:—Alpheus Swallow and Gilman Roby, of Dunstable; Willard A. Brown of Lowell; John G. Upton, of Tyngsborough, and Thomas F. Tarbell, of Pepperell. The directors organized by choosing Alpheus Swallow as president and the Hon. John A. Goodwin as treasurer.

☞ The Commissioner of Patents has granted the application of William Kelley for the extension of his patent for the manufacture of iron and steel. The patent is extended seven years from the 23d inst.

Lake Superior Iron Mining.

We have received from A. P. Swineford, Esq., Editor of *The Mining Journal*, Marquette, Michigan, a copy of a pamphlet, compiled by himself, entitled "Swineford's History of the Lake Superior Iron District, its Mines and Furnaces." From pages 89, 90 and 91, we copy the following tabular statements:

The following table exhibits in gross and net tons the amount of iron ore shipped from the Lake Superior mines during the season of 1870, together with its total value at $5 per ton, gross:

Mines.	Gross Tons.	Net Tons.	Value.
Jackson	122,710	137,435	$613,550
Cleveland	132,884	148,830	664,420
Lake Superior	166,582	186,572	832,910
Barnum	44,793	50,168	223,965
Foster	23,458	26,273	117,290
Washington	79,762	89,333	398,810
Pitt's and Lake Angeline	53,467	59,883	267,335
Edwards	24,232	27,139	121,160
Champion	73,161	81,940	365,805
New York	94,809	106,186	474,045
New England	24,871	27,856	124,355
Marquette	3,702	4,146	18,510
Grand Central	1,809	2,026	9,045
McComber	4,866	5,449	24,330
Parsons	1,896	2,123	9,480
Winthrop	3,469	4,162	17,345
Total	856,471	985,521	$4,222,350

The following table exhibits in gross tons the total product of each mine from 1856 to 1870, inclusive:

Mines.	Gross Tons
Jackson	946,086
Cleveland	729,996
Marquette	41,074
Lake Superior	932,802
New York	305,449
Lake Angeline	226,881
Edwards	68,614
Iron Mountain	16,594
Barnum	92,657
Foster	42,439
New England	57,985
Washington	221,353
Champion	98,874
Cascade	452
Grand Central	1,809
McComber	4,866
Parsons	1,896
Winthrop	3,469
Total	3,801,148

The following table exhibits the total product of the several furnaces for the year 1870, together with the value:

Furnaces.	Gross Tons.	Value.
Pioneer	5,853	$234,120
Collins	4,100	164,000
Michigan	4,858	194,320
Greenwood	3,992	159,680
Bancroft	3,710	148,400
Morgan	5,952	238,080
Champion	5,576	233,040
Deer Lake	2,500	100,000
Jackson	6,450	268,000
Schoolcraft	2,809	112,360
Bay	3,498	139,820
Total	49,298	$2,077,820

The following table shows the total product of the Lake Superior furnaces from 1858 to 1870, inclusive:

Furnace.	Gross Tons.
Pioneer	49,419
Northern	15,068
Collins	33,344
Michigan	18,884
Greenwood	20,690
Morgan	26,843
Bancroft	30,151
Champion	15,418
Jackson	15,466
Schoolcraft	7,557
Deer Lake	5,524
Bay	8,498
Marquette and Pacific (bar iron)	377
Total	243,460

The following is a statement of the production of ore and pig iron in this district from 1856 to 1870, inclusive, together with the aggregate value:

Year.	Iron Ore.	Pig Iron.	Ore & Pig.	Value.
1856	7,000	.....	7,000	$28,000
1857	21,000	.....	21,000	60,000
1858	31,035	1,629	32,661	249,202
1859	65,679	7,258	72,937	575,529
1860	116,908	5,660	122,658	786,496
1861	45,430	7,970	53,400	419,501
1862	115,721	8,590	124,311	984,977
1863	185,257	9,813	195,070	1,416,935
1864	235,123	13,832	248,955	1,867,215
1865	196,256	12,283	207,539	1,590,430
1866	296,972	18,437	315,309	2,405,960
1867	466,076	30,911	496,987	3,475,820
1868	507,813	38,246	546,059	3,992,413
1869	633,238	39,003	672,241	4,968,435
1870	856,471	49,298	904,319	6,300,170
Total	3,771,939	243,460	4,023,949	$29,069,883

All the ore and pig iron shipped in 1870 was carried over the two railroads to Marquette and Escanaba, as follows:

Iron ore:	Gross Tons.
Over Marquette and Ontagon Railroad to Marquette	435,249
Over Chicago and Northwestern Railway to Escanaba	411,952
Difference in favor of Marquette and Ontagon Railroad	23,297
Pig iron:	
Over Marquette and Ontagon Railroad to Marquette	27,399
Over Chicago and Northwestern Railway to Escanaba	8,515
Difference in favor of Marquette and Ontagon Railroad	18,824

LAKE ONTARIO SHORE RAILROAD.

Notice to Contractors.

Proposals will be received at the office of the Secretary of the Lake Ontario Shore Railroad Company in Oswego, until noon of July 5, 1871, for the Grading, Masonry, Superstructure and Fencing, for that part of the Lake Ontario Shore Railroad between the City of Oswego and the west line of Wayne County, State of New York, a distance of about fifty miles.

Proposals will be received for the whole or any part thereof. Maps, profiles and specifications may be seen at the Engineer's office in Oswego, between the 20th of June and the 5th of July 1871. No proposals will be received not made out on the Company's blanks; and the Company reserve the right to reject any and all bids, as they may elect.

GILBERT MOLLISON,
President.

Oswego, June 15, 1871.

OFFICE OF NORTHERN PACIFIC RAILROAD COMPANY.

120 BROADWAY, NEW YORK, June 1, 1871.

The Transfer Books for the transfer of Registered Bonds will be closed on WEDNESDAY, June 14, and re-opened on SATURDAY, July 1.

Payment of Interest on Registered Bonds will be made by mailing from this office, on the FIRST DAY OF JULY, to the address of each Bondholder of record at the closing of the books, a check to his or her order for dividend due, free of tax, and payable in gold coin.

Coupons due July 1 will be paid on presentation, on and after that date, at the office of JAY COOKE & CO., New York.

NEW YORK State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE GOLD BONDS

OF THE

RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

EDWD. HAIGHT & CO.,

The Viaduct Projects.

WHAT THE DIRECTORS ARE DOING—THE PLAN OF CONSTRUCTION—THE APPROACHES TO THE EAST RIVER BRIDGE—NEW YORK EXPECTED TO BUILD THE BRIDGE.

The last meeting of the directors of the Viaduct Railway Company, as previously announced, was a secret one, but it has since been ascertained that the proceedings were as follows; a majority of the members were present: The President, Judge Hilton, stated that several corps of surveyors were actively engaged in making the necessary surveys of the proposed route, though nothing had been sufficiently matured to be presented to the Board for action, and that he had been under the impression that the Committee from the Chamber of Commerce, appointed at their meeting last week, would have been present on the occasion to lay their views before the Board respecting the extension of the road to the Battery or some other point at the lower end of the Island, but he had not heard from the Committee in any way.

Mayor Hall said, that, under the circumstances, there being no apparent necessity for the meeting of the Board until the Executive Committee was prepared to report upon the subject of route, &c., he should move that the Board adjourn, subject to the call of the President, which was agreed to. The survey spoken of by Judge Hilton will be very accurate and minute. One hundred and fifty engineers are engaged upon it. On the completion of their labors they will make a report to a committee consisting of Gov. Hoffman, Mayor Hall, and the Commissioner of Public Works. Considerable misunderstanding seems to prevail outside the city as to the precise nature of the Viaduct Road. It will run, on an average, about 25 feet above the surface of the ground, on brick arches, between transverse iron ribs, supported by heavy iron lateral columns, of elegant design, themselves supported on inverted arches of solid masonry built into the ground. The space under the arches will be converted into stores and markets, having entrances on both sides of the line.

The viaduct constituting the "approach" to the East River Bridge, from the depot at Chatham street to the anchor wall, will be 1,336 feet long, and on account of its great width (85 feet), its construction will involve even more serious problems than that of the Viaduct Railway. The Bridge viaduct will clear the housetops for part of the distance; but in this portion, as well as in the part beyond, it will be very liable to injury from the burning of buildings below. So grave is this difficulty that it is anticipated that it will be necessary to purchase the ground required for a wide avenue, in the line of the Bridge, from Chatham street to the river. Upon this a row of fire-proof warehouses must, it is thought, be built, in such a manner as to make their frame work, in part, of the viaduct supports. The expense involved in this project will, however, be enormous, and in view of it the remark recently made in the Chamber of Commerce, that "Brooklyn, unaided, cannot build the bridge," becomes quite intelligible. The Bridge Company appears to have hesitated thus far to grapple with this great question, leaving it for solution in the future. Prominent business men of New York and Brooklyn express the belief that from $20 000,000 to $25,000,000 will be required for the building of the Bridge and its "approaches," or viaducts, together with the purchase of the avenues which will be required, the cost involved in destroying the buildings now standing, and the construction of new and more massive ones. The Brooklyn managers appear to see no way out of the dilemma but by urging the early consolidation of that city with New York, and some confidently assert that this consolidation will long precede the completion of the Bridge.—*N. Y. Tribune.*

☞ The opening of the Pittsburgh and Connellsville Railroad was formally celebrated on the 16th ult.

Cincinnati and Southwestern Railway.

The articles of association of this company which were adopted on the 20th of May, were filed in the office of the Secretary of State on the 14th inst. The company has for its object the construction of a railroad from Mitchell, Lawrence county, to Mount Vernon, Posey county, Indiana, a distance of one hundred and eight miles, and passing through or into the counties of Lawrence, Orange, Dubois, Pike, Gibson and Posey.

The capital stock is placed at $1,000,000, divided into 10,000 shares, or $100 each, of which 1,082 shares, or $108 200, is subscribed by twenty-four shareholders signing the articles.

The Board of Directors elected for the first year are: Josiah Kirby, P. P. Lane, M. G. Nettleton, Robert Mitchell, James M. Glenn, L. H. Sargent, and J. Hebird of Cincinnati; John A. Mann, Joseph F. Hillburn, of Mount Vernon, Indiana; E. H. Sabin, of Rockport, Indiana; C. W. Bowers, Milton N. Moore and C. Doane, of Mitchell, Indiana. The officers are: Josiah Kirby, of Cincinnati, President; Elias H. Sabin, Rockport, Indiana, Vice President and General Superintendent; N. H. Tatem, of Cincinnati, Secretary and Treasurer.

Louisville and Nashville Railroad.

The extension of the Louisville and Nashville railroad, and the great increase of labor and responsibility of its officers consequent thereto, induced the Board of Directors to appoint two Vice Presidents. On the 8th of April last, Hon. Judge Houston was elected First, and Mr. Albert Fink Second Vice President. A few days ago Judge Houston resigned his position as Vice President, and Thomas J. Martin, Esq., was elected to fill his place. During the temporary absence of the President, Mr. Martin will attend to the duties of his office. Mr. Fink is in general charge of the operation and construction of the roads under the control of the company and its connections, and Judge Houston retains the position of General Attorney for the company.

☞ The laying of the track on the Bridgeton and Port Norris Railroad, N. J., has been commenced. The road is graded nearly the whole distance to Fairton.

Railroads of the State of Pennsylvania.

A tabular statement of their Capital, Length, Cost, Earnings, Expenses, Dividends, &c., for the fiscal year 1869-'70.

Compiled from the Annual Reports of the several Companies made according to Law to the Hon. J. F. HARTRANFT, Auditor General of the State.

☞ Dividends marked with the asterick (*) are on preferred stocks only.

☞ In original reports of Street Railroad Companies, dividends are stated at so much per share. In the above table they are reduced to a per centage on paid up stock.

Terre Haute and Indianapolis Railroad.

The earnings of this company, for the transportation of passengers, freight, etc., for the year ending November 30, 1870, were as follows:

From passengers		$382,169 43
" freights		535,101 57
" coal		136,341 75
" express		15,059 51
" U. S. mail		14,600 00
" other sources		4,254 23
		$1,087,526 49
Expenses, viz:		
Running road	$205,916 99	
Repairs of road	143,329 65	
Repairs of b'dges, buildings, etc	25,839 98	
Repairs of machinery	120,686 66	
General expenses	132,288 16	
	628,061 44	
Net earnings		$459,465 05
To which add—		
Dividends on stocks		42,182 00
Interest on bonds		38 209 68
Rents received		752 36
Passenger car sold		2,500 00
Profit and loss		406 00
Total		$543,465 09
Disbursed as follows:		
State, county and municipal taxes		$15.721 99
Internal revenue taxes		10,303 18
Interest and discount		90,224 85
Construction		127,003 20
Dividends June and December, 6 per cent each and U. S. tax		247,915 04
Increase in supplies on hand		6,138 50
Surplus for the year		46,158 33
Total, as above		$543,465 09

The gross earnings of the company for the year are $1,171,526 53—being $107,516 79 less than the preceding year. There has been expended for operating the road, payment of interest and taxes, construction of branch roads, new sidings, buildings, and for other necessary improvements, $880,651 70. The President in his report says:

The branch road commenced last year at Brazil has been extended south about four and one-half miles, at a cost of $51,651 33.

Additional equipment has also been purchased, amounting to $138,139 88.

The extension of your road to the Illinois State line, to connect with the St. Louis, Vandalia and Terre Haute Railroad, was completed in May, and the total cost of such extension, including the iron bridge over the Wabash river, and the right of way through the City of Terre Haute, amounts to $447,766 43.

It is not deemed advisable, during the current year, to make any further extension of branches, or to erect any new buildings.

In consequence of the large amount expended for equipment, and building of branches, as above stated, and also of the excess of cost over the estimate of building the Vandalia road, it was found necessary to dispose of the remaining two hundred thousand dollars of bonds of the company. For the amount so paid out on account of the Vandalia road, the company has received certificates of stock in that road. It is also proper to say that the Pennsylvania Railroad Company advanced its proportion of the excess of cost of the Vandalia road, above referred to, and received stock in payment.

The business of the road has been very satisfactory, and shows no diminution in tonnage, although there is a decrease in receipts. It is to be hoped that by increasing the equipment, and thereby the local trade, this will, to some extent, be remedied in the future; and that the ruinous competition of the Eastern trunk lines, and the low rates of through freight, will cease to show so depressing an effect on the total earnings.

The St. Louis, Vandalia and Terre Haute Railroad was opened through to St. Louis for business on the 12th of June, and was taken possession of by this company, under the lease, on the 1st day of July. The business has quite equaled expectations, and is steadily increasing. The receipts for the five months ending November 30, 1870, amount to $444,426 58. By the terms of the lease, thirty per cent of the gross earnings of the St. Louis, Vandalia and Terre Haute Railroad are to be applied to the payment of the interest on the bonds of the St. Louis, Vandalia and Terre Haute Railroad Company. As the interest of this debt amounts to three hundred and fifteen thousand dollars per annum, it will be seen that if the earnings per month should continue the same as for the past five months, they will net an amount sufficient to pay said interest. The same causes, however, which have effected the business on your road, have been felt in the business of the Vandalia road. It has been for so short a time completed as a through line, that it is difficult as yet to base any confident estimate on its future, but an increase of its equipment, and the development of the resources of the country along its line, will enable us, after the current year, to depend with certainty on largely increased earnings.

The company have 85 locomotives, 21 passenger, 10 baggage and express, 12 caboose, 59 stock, 212 box freight, 357 coal flat, 12 coal dump and 119 platform cars. Miles run by engines with passenger trains, 185,013; with freight trains, 343,408; with work trains, 49,837—total, 578,258, an increase over the previous year of 65,060 miles. Of the total mileage, 241,650 miles were run by coal burners, and 336,608 by wood burners. The cost of coal burners per 100 miles run was $9 51; and of wood burners, $13 43. The average cost of running an engine 100 miles in 1870 is thus stated: Repairs of engines, $8 41; cost of stores, $1 29; cost of fuel, $11 80; wages, engineers, firemen and cleaners, $11 50; proportion of maintenance of shops, $0.90—total, $33.90. In reference to the Vandalia Connection, the General Superintendent in his report says:

At the beginning of the year every effort was made to complete the Wabash bridge, and reach the State line with the track in time to meet the Vandalia track, which was rapidly approaching from the west. To facilitate the work of track-laying, a temporary line of rails was laid from the Indianapolis and St. Louis gravel pit to the new grade at Macksville, and by that means the iron, ties, &c., as well as material for the iron bridge across Sugar creek, were brought on the ground, and the track laid and partially ballasted as far as the State line by the time the bridge was ready for trains to cross. A tract of land at Macksville, containing an excellent bed of gravel, was secured, and a side track was put in, and ballast trains put to work, surfacing the road as far as Marshall, and a portion needing it between that point and Martinsville.

On the 26th of April, the first train crossed the bridge and ran as far as Effingham. On the 8th of June, an excursion train ran through from Indianapolis to St. Louis, and the line was formally opened. On the 12th of June, the first regular passenger train passed over the line, from St. Louis to Indianapolis, and from that time there has been no interruption in the running of trains. On the 10th of July, trains commenced running on the Indianapolis and St. Louis road, between Terre Haute and Indianapolis, and the interchange of business between the two lines terminated.

On the 1st of July, the St. Louis, Vandalia and Terre Haute Railroad was turned over to this company under the terms of the lease. By the lease, a separate return of the receipts and expenditures was required, and as a consequence, two operating divisions were formed of the joint line: that portion of the line between Terre Haute and Indianapolis (or the old road,) was called the Indianapolis Division, and the line west of Terre Haute, including seven and one-tenth miles of the Terre Haute and Indianapolis road proper, was called the Vandalia Division. As now organized, John E. Simpson is Superintendent of the Indianapolis Division, and John W. Conlogue is Superintendent of the Vandalia Division.

The Vandalia Division is 158.6 miles in length, and laid with fish-joint rails of the Pennsylvania pattern, 4½ inches high, 30 feet in length, and 64 lbs. to the yard, with the exception of 19 miles on the west end, which is laid with 4 inch rails 56 lbs. to the yard, with the Lambert chair joint. The ties are mostly hewed white oak, laid two feet between centres, or 15 to the panel. The track between the State Line and Martinsville is ballasted with an excellent quality of gravel, and the remainder of the road is well surface-drained and ditched, and the entire line is in excellent condition, and surpassed by few roads in the west; 72 miles of the road is fenced. The equipment of the road consists of 25 locomotives (Baldwin's), 14 passenger, 8 baggage, 13 caboose, 154 freight, 67 stock, 124 coal, 41 flat and 50 dump cars. Of the road bed and track on the Terre Haute and Indianapolis railroad proper, the superintendent says:

The track has been fully maintained in its usual fine condition. Sixteen and one-half miles of the main track have been re-laid with new and re-rolled iron and steel rails, all of the standard four inch pattern, with fished joints, leaving eighteen miles of the old pattern of rails remaining in the track to be renewed. The following statement show the kind of rails laid this year:

	Tons.
New and re-rolled iron, Indianapolis mill	800
Aberdare (Welch) iron	316½
Guest's extra Welch iron	103½
American and English steel	337¾
Total amount laid in track	1557¼

Or about 16½ miles.

The main line is credited with 1,085½ tons of old rails taken out, 747 tons of which have been laid in branches and sidings. The imported Aberdare rails, laid in the main track during the years 1869 and 1870, did not prove as serviceable as was anticipated, and no less than fifty tons have been taken up, after a service of not exceeding fifteen months. The Indianapolis rails, made from old rails with a slab of new iron on the head, are wearing extremely well. The Bessemer steel rails, made by the Cleveland Rolling Mill Co., and the Dowlais Bessemer rails have had a winter's trial without any breakage or appreciable wear, and my impression is that this material will in time be as universally adopted in the manufacture of rails as it is now in that of the locomotive tires which run upon them.

Five miles of the Vandalia pattern rails, four and one-half inches high, purchased from the Cambria Co., and one and one-half miles of Indianapolis and English iron, four inch pattern, were purchased and laid on the State line extension, costing, with the necessary splices, bolts, spikes, &c., $59,255 63.

A line running into the block coal region, south of Brazil, was surveyed, graded and ironed as far as Morris & Garlick's coal shaft, with a branch to Ormsby's coal shaft—in all, four and one-half miles. Branches were also put in for Watson, Strain & Inslie, Turner, and Stunkard & Barrick, running to their respective shafts.

New side tracks were also put in at Fillmore, Sunny Side, Macksville, Gravel Pit, and in the yards at Terre Haute and Indianapolis. Eight miles of side tracks and branches were laid dur-

ing the year, making the total of side tracks and branches laid, thirty-eight and one-quarter miles.

Four heavy freight engines and two passenger engines were purchased from the Rogers Locomotive Works early in the year; and there were built at the Terre Haute shops during the year 3 passenger, 79 coal, and 8 freight, stock and platform cars; also 11 mail, baggage and caboose cars for the Vandalia Division.

Treasurer.—M. W. WILLIAMS.

General Superintendent.—C. R. PEDDLE.

☞ The fourth and last instalment of the repair bonds and accrued interest of the Chesapeake and Ohio Canal Company, which by the decision of the Court of Appeals was made the first lien, will be entirely liquidated during the month of July. The next lien under the decision of the Court of Appeals will be the preferred bonds.

☞ The Second Auditor of Virginia will be ready by the 6th of July to receive the names of all parties having Virginia State bonds to be funded, and his force is now busy preparing for this work.

Settling the "New Northwest."

The claim made by the promotors of the Northern Pacific Railroad, as to the excellent character of the country traversed by that thoroughfare, seems to be verified by the fact that settlers are moving to the line of the road in Minnesota and Eastern Dakota in unprecedented numbers. A late number of the St. Paul *Pioneer*, says:—

"The roads leading to the Red River Valley are literally covered with emigrant wagons, with their usual accompaniments of families, furniture, and stock of all kinds. The wagon roads from Sauk Centre to St. Peter show daily accessions of the vast caravan wending its way to the fertile regions of Northern Minnesota. The extent of the great incoming tide of humanity can be best estimated on the main road between Alexandria and Pomme de Terre. Two hundred wagons per day pass over this portion of the route northwest, and the camp fires are seldom allowed to go out—a fresh train of emigrants arrives almost as soon as its predecessor has resumed its march. A noticeable feature of this year's emigration is its quality—the wagons come loaded with household goods and farming implements, and are followed by herds of cattle and other stock which in quality would do credit to any country."

American Travelers Abroad.

A traveler writes from London: "The banking house of Messrs. Clews, Habicht & Co., No. 11 Old Broad street, is a centre of resort for Americans here. The latest news of all kinds from the States is there obtainable. Their accommodations for travelers could hardly be surpassed in London. Two enormous safes receive valuables left on deposit. A basement is devoted to the storage of baggage and apparel, and a suite of offices, sixty by one hundred feet, afford ample space for a reading room and travelers' exchange. The partners and clerks show careful study of the comfort and convenience of their correspondents and visitors."

☞ The Topeka, Atchison and Santa Fe Railroad is in running order from Topeka to Florence, 106 miles, and is being constructed from Florence to Newton on the south a distance of 30 miles, and from Topeka to Atchison on the north, a distance of 50 miles. It is also contemplated to build a link from Carbondale to Olathe, where a junction will be effected with the branch of the Missouri Pacific Railroad now building from Pleasant Hill, thus giving St. Louis direct rail communication with the counties in Kansas lying in the valley of the Arkansas river.

☞ The Pennsylvania Railroad Company has recently bought up all the bonds issued by the State of Georgia to the Atlanta and Richmond Air Line, and proposes to extend the road through Atlanta toward Oxford, or to some point on the Chattanooga and Meridian Road. The Pennsylvania Company has already one line to the Southwest, and by the construction or extension of the Air Line will secure further important concessions.

☞ The Owensboro and Russellville (Ky.) Railroad, we learn, is now in operation for twenty miles to Livermore, on the Green river, and has been put under contract for fifteen miles more, to a point where it will join the Elizabeth and Paducah Railroad, which will give Owensboro a connection with Louisville. This is the line on which the Rockport Railroad relies for its Southern connections.

BANKING AND FINANCIAL.

HARVEY FISK. A. S. HATCH.

☞ OFFICE OF FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES.

No. 5 Nassau-st., New York, June 21, 1871.

It is estimated that nearly ONE HUNDRED MILLIONS OF DOLLARS will be disbursed in the month of July for interest and dividends on Government, State, City and Railroad Bonds, Railroad and Bank Stocks, Savings Bank Deposits, &c.

A considerable proportion of this amount must seek reinvestment in safe and reliable securities.

Preference will, of course, be given by prudent investors to those combining the best assurances of absolute safety with a liberal interest on their cost.

The amount of the best class of securities now available in the market, at prices which render them desirable and profitable for investment, is limited in comparison with the amount of capital which must seek investment from the approaching July disbursements, and the most substantial of these must be rapidly absorbed.

THE FIRST MORTGAGE GOLD BONDS OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY offer peculiar inducements to judicious investors.

1. The Road is under experienced, conservative and honorable management.

2. There is ample security for the entire mortgage, already existing in completed Road, Equipments and work done.

3. The regular and prompt payment of interest and the security of the principal are beyond question.

4. It is an old successful Road, with 227 miles now in profitable operation, and 100 miles additional nearly completed, extending itself in response to the demands of commerce, AS A GREAT EAST AND WEST TRUNK LINE FROM THE ATLANTIC TO THE OHIO, and for the accommodation of the immense mineral resources along its line.

5. The traffic necessary to render its extension profitable does not depend upon a slow future development, *but an enormous and profitable trade is already waiting for and inviting it.*

6. THE CHESAPEAKE AND OHIO RAILROAD COMPANY is one of the strongest and most reliable and trustworthy corporations in the country, with a well-established credit and possessing property and franchises of great value.

6. The Loan is sufficient in amount to become widely known, popular and marketable, while it will be but a slight tax upon the great earning capabilities of the Road.

Price of the bonds, until further notice, 92, and accrued interest from May 1.

FISK & HATCH.

☞ The Texas Legislature has granted a charter for the "Gulf Branch of the Atlantic and Pacific Railroad." This grants to the company all the rights and advantages of the general railroad laws of Texas, which gives sixteen sections of 640 acres each for every mile of road constructed. The road is to run from St. Louis to Sabine pass, through the States of Texas, Arkansas, Missouri, and a portion of the Indian Territory. Sabine pass is at the mouth of the Sabine river, which separates Texas and Louisiana.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "‡."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal

Saturday, July 1, 1871.

Stock Exchange and Money Market.

Money has been in rather more request, but has been in very full supply and quoted easy for responsible borrowers, at from 3@5 mainly 3@4 per cent., on call and at 4@7, chiefly 5@6 percent. per annum on very choice to good mercantile credits. The inquiry from the Stock Exchange firms has been somewhat brisker, and more discrimination has been made by lenders in the acceptance of railway shares, as collaterals. The very serious break in values at the Board, last week, has had the effect of lessening the disposition to make advances on other than the public funds, and the choicest of the general list of stocks. Some further shipments of currency to the interior have been reported, which have led to a reduction of lawful money reserves of both the city banks, and the Treasury office. The city banks, last week, reported a gain of $1,025,306 of specie, a loss of $817,756 of legal tender notes, and an increase of $252,363 of deposits. They increased their loan and discount averages $845,113 and reduced their circulation $101,492. The city bank exchanges, last week, averaged $113,514,566; and thus far, this week, 112¾ millions daily. The banks now hold $16,954,145 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a gain of $487,128 of specie and a loss of $494,661 of currency, as the result of the week's business. The receipts of the office were $4,422,989 in coin, and $3,376,934 in currency; payments, $3,935,860 in coin, and $3,871,595 in currency. The office received $2,874,000 in coin or its equivalent, from customs; and disbursed $279,068 of coin interest.

The specie reserve of the city banks according to the latest return is $14,015,216, against $28,228,985 same time last year. The city bank deposits are now $243,521,513 against $217,522,555 week ending June 25, 1870. The legal tender reserve amounts to $71,361,168 against $57,215,525 same time last year. The circulation now stands at $30,560,606, against $33,094,113 same time last year. The loans are now $293,979,645, against $277,017,367 at this date last year.

The subscriptions to the new refunding Five per cent. Loan now amount to about 68 millions.

The U. S. Sub-Treasurer retired, last week, $2,029,822 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $4,357,133 in currency, and $60,052,971 in coin against a balance a week previous of $4,044,548 currency, and $58,857,911 coin.

Government revenues have been on a moderate scale, since our last. The excises yielded last week nearly four millions. The customs at the port of New York, last week were $2,223,822; and at the outports, equal to about $725,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $143,122,569.

Gold has been quoted firmer on a somewhat livelier business chiefly on speculative account. The export drain has been rather heavier. The customs call has been moderate. The coin interest disbursements of the Treasury Office have been more extensive, chiefly on the July account. On Monday and Tuesday of this week, these disbursements reached $5,337,000. On Wednesday, they were $750,000. The range of the price, during the week, has been from 112¼@113⅛, and the closing quotation on Wednesday was 113 against 112⅜ the preceding Wednesday. The outflow, last week, was $2,448,230; on Tuesday of this week to $925,000, and on Wednesday, to $351,257. The Gold Exchange Bank clearances daily, through the week have been as follows: June 22, $43,499,000; June 23, $33,066,000; June 24, $34,516,000; June 26, $22,265,000; June 27, $32,414,000; June 28, $27,008,000.

The customs at this port on Wednesday were $334,000.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $85,524,679 against $86,380 851 same time in 1869–'70.

The export drain was $2,448,230 last week, against $1,270,179, same week preceding year. The shipments since July 1, 1870, have been $81,718,748, against $33,429,504 same time in 1869–'70.

The customs demand for Gold last week, averaged $395 667 a day; thus far, this week, it has averaged $303,600 a day, or equal to a weekly aggregate of $1,821,600. The arrivals of specie from Europe, Havana and other foreign ports last week were $4,286 and since Jan. 1,

1871, $3,167,507 against $7,047,872 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $145,335,323, against $132,984,544 same time in 1869–'70.

Foreign Exchange has been in fair demand and quoted firmer in price, closing on Wednesday, with Bankers' sixty day bills on London at 110⅜@110⅝; sight bills on London, 110⅛@111⅛.

The produce exports from this port, week ending with June 27, were to the currency value of $3,866,075.

The aggregate of the impending July interest and dividend disbursements is unusually large, estimated as exceeding 115 millions coin and currency on all accounts. The bulk of this enormous amount must seek for prompt and profitable employment.

Government securities have been in light supply and good request at a further improvement in prices.

Washington reports say that Secretary Boutwell has for some time past been receiving from financial men in different parts of the country suggestions in relation to the new loan, some of them advising that certain amounts of the issue of 1862 be replaced by the new five per cents. This subject now occupies the attention of the Secretary, and it is supposed he will soon come to a conclusion upon it.

On Wednesday, Government bought in a million of Five-Twenties at 111 85@111 87, ex-interest. The amount of bonds offered was $2,649,300.

U. S. sixes of 1881 closed here on Wednesday of the current week at 118@118⅛; U. S. Five-Twenties of 1862, 113⅛@113¼; U. S. Five-Twenties of 1864 at 113@113¼; U. S. Five-Twenties of 1865, 113@113¼; U. S. Five-twenties of 1865 consolidated, 115¼@115⅜; U. S. Five Twenties of 1867, 115¼@115½; U. S. Five-twenties of 1868, 115½@115¾; U. S. Ten-forties at 110⅞@111; U. S. Six per cent. currency bonds, 115@115¼.

The Stock Board has resolved to hold no business session on Monday next. Tuesday next will be the Fourth of July and a close, legal holiday. The Gold Exchange has adopted a similar resolution.

The latest quotations at the London Stock Exchange compare as follows with former returns:

* Ex July coupon.

State bonds have been in fair demand at steadier prices.

Railway bonds have been in better request and have been quoted strong and buoyant in price. Central Pacific Sixes closed at 102⅜@102½. This loan has been in especial favor with foreign buyers, who promptly take the current very small offerings at the prevailing figures. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in more active demand at 92 per cent. and accrued interest. The small portion of this loan yet unmarketed is being sold quite rapidly, the sales continuing to run considerably ahead of the money requirements of the Company, though the work of constructing the extreme western extension of the road to the Ohio River is being pushed forward with unusual energy, leading to a correspondingly free expenditure of funds for material and labor. Union Pacific Sixes closed at 91½@92.

Business in Railway and miscellaneous share property has been moderately active, and prices have shown more firmness as a rule. The serious depression in values, last week, led to the suspension of several firms in the Stock line, some of them quite prominent as operators. The latest transactions indicated less buoyancy.

General business has been less active, though, in most instances, buyers have had any existing advantage as to prices. Middling upland cotton closed on Wednesday at 20⅛ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,870,040 bales, against 2,780,287 bales same time last year; exports 3,053,000 bales, against 2,070,665 bales same time last year; stock at the ports at latest dates, 207,494 bales, against 193,468 bales same date 1870.

At the Live Stock Markets, Beeves have been in less demand at from 9@12½ cts; Veal Calves, at 5@9½ cts; Sheep at 4@8 cts; Lambs at 8@11 cts; Swine, 4⅝@4⅞ cts per lb., all live weight. The week's receipts were 6,299 Beeves, 4,188 Veal Calves, 29,392 Sheep and Lambs; and 27,333 Swine.

Foreign goods have been in quite moderate request, at drooping prices. The week's imports of foreign goods reached $7,552,228, including $1,210,951 of dry goods.

Ocean freights have been less active but quoted firmer, on a lighter supply of room. The main business has been in Grain, Petroleum, Provisions, Naval Stores and Tobacco.

At the auction sale of Scranton Coal on Wednesday, 120,000 tons were sold at reduced prices, ranging from 4.30@5.45, against 4.62½@6.00 in May.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

$134,000,000 NEW 5 PER CENTS.

PRINCIPAL AND INTEREST PAYABLE IN COIN.

Interest quarterly, February, May, August, and November.

BONDS FREE OF ALL TAXES, LOCAL OR NATIONAL.

The Treasury Department having already received subscriptions to the amount of $66,000,000 to the first two hundred millions of the New Loans authorized by the Act of Congress, of July 14, 1870, for refunding the Public Debt, bearing five per cent. per annum interest, now offers to popular subscription the remaining $134,000,000 of this particular Loan, and is prepared to promptly deliver the Coupon Bonds or Registered Certificates in exchange dollar for dollar for any of the United States six per cent. Bonds or Registered Stocks, known as *Five-Twenties*, or for Gold Coin at the par value of the New Loan, and accrued Interest from the first of May. When this amount, to which preference is given, is taken up, the remainder of the Five per Cents, $300,000,000, embraced in the Act will be offered in connection with $300,000,000 Four and one half per Cents, and any part of $700,000,000 of Four per Cents, the one running fifteen years and the other thirty years.

The following is a copy of the New Five per Cent. Bond, under and pursuant to the Act of Congress:

FORM OF FIVE PER CENT BOND.

INTEREST | FUNDED LOAN OF 1881 | 5 PER CENT.

UNITED STATES OF AMERICA

ARE INDEBTED TO THE BEARER IN THE SUM OF

..... DOLLARS.

THIS BOND is issued in accordance with the provisions of an Act of Congress entitled "An Act to authorize the refunding of the National Debt," approved July 14, 1870, amended by an Act approved January 20, 1871, and is redeemable at the pleasure of the United States, after the first day of May, A. D. 1881, in Coin of the standard value of the United States on said July 14, 1870, with interest in such Coin, from the day of the date hereof, at the rate of FIVE PER CENTUM per annum, payable quarterly, on the first day of February, May, August, and November, in each year. The principal and interest are exempt from the payment of all Taxes or Duties of the United States, as well as from taxation in any form, by or under State, municipal or local authority.

WASHINGTON, ..., 18....

Entered ..... Recorded .....

....

Register of the Treasury.

Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depository of the Government, quarterly, on the first days of February, May, August and November, in each year.

The Interest on the Registered Stock of this Loan, it is determined by the Treasury Department, will be paid by the Treasurer of the United States in his Gold Check for the Quarterly Interest, to the Post office address of every holder, free of trouble or expense, dispensing with attendance, in person or by proxy, at the Treasury, for the durpose of receipting for and drawing such interest.

The whole proceeds of the New Loan will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and in addition to these proceeds, the 5-20s are being reduced by purchases, averaging, for two years past, about $10,000,000 per month.

The entire effect, therefore, of the New Loan, in connection with the existing Sinking Fund process of the Treasury, is to reduce both Principal and Interest of the Public Debt of the United States. *The Loan creates no additional supply of Government Stocks*, while the application of the surplus revenue is constantly lessening the Funded Stocks bearing six per cent. Gold Interest.

The policy of the Government since the close of the War in 1865, which left a debt upon the country of $2,755,000,000, and an annual taxation of $311,000,000, has been to reduce steadily both Debt and Taxes: to reduce the Principal of the Debt by actual payments, and to lessen the annual burden of Interest, and thereby the burden of Taxation, not only through such payments, but by funding the debt at the cheapest rates of interest practicable from time to time, until it is now felt that the very cheapest rates are due to the high Credit, unblemished Public Faith, and vast and growing resources of the country. From $2,755,000,000 the Principal of the Debt has been reduced to $2,260,000,000—both sums exclusive of accrued interest—and from the heavy burden of $151,832,000 per annum, the Interest charge has been reduced to $112,780,000 per annum; while the annual taxation, under the Internal Revenue system, which the necessities of the War and the Debt thereby created rendered necessary for at least a short series of years, has been reduced from $311,000,000 in 1865–66 to about $154,000,000 per year in 1870–71, (estimating for the highest probable collections in the current month, the last of the Fiscal year,) or less than one-half the first named sum. And in the year 1871–72 a further reduction of $28,000,000 will come in under the Act of July, 1870, so as to give only $126,000,000 for the year, or about two fifths the maximum of 1865–66.

By the successful refunding of the Public Debt at moderate rates of Interest, and by continued economies in the expenditures of the Government —which in two years, from March 4, 1869, to March 4, 1871, amounted to $126,700,949, or an average saving per year of $63,350,474—it is believed that nearly the entire system of Internal Taxes can be dispensed with in a few years, or so much of it as requires the machinery of District Assessors and Collectors.

The Secretary of the Treasury has just published the Monthly Schedule of the Public Debt to June 1, from which it appears that he has further reduced the total of Funded Gold bearing debt since May 1, by the sum of $8,000,000 by purchase of United States 5-20s for the Sinking Fund, and reduced the 5-20s by the further sum of $8,217,400 by conversion into the New 5 per Cents. The whole Funded Debt now stands, $1,894,128,750, as against $2,107,846,150 two years ago when the present Administration came into office. Adding to these sums the net Circulation of the Treasury, (that is, in Greenbacks and Greenback Certificates, after deducting Gold and Currency on hand,) the following is the comparison of Debt of all kinds, at present, and at the close of the War, and in 1869:

	July, 1865.	March, 1869.	June, 1871.
U. S. Stocks	$2,150,784,112	$2,107,846,150	$1,894,128,750
Circulation.....	605,211,163	383 545,854	366,333,003
Total.... ...	$2,755,995,275	$2,491,399,904	$2,260,461,753

The following table affords a classification of the Funded Stock (in Gold) of the United States, as at present outstanding:

Date.	Coupon.	Registered.	Total.
5-20s, 1862.....	$382,958,500	$103,973,500	$486,932,000
5-20s, 1864.....	44,752,650	55,924,100	100.676,750
5-20s, 1865.....	123,660,150	53.552 100	177,212.250
5-20s, 1865 (n.)....	179,269,500	70,951,450	250.220,950
5-20s, 1867.....	241,686,550	91,325,100	333,011,650
5-20s, 1868.....	28,009,350	11,603,000	39,612,350
Total.....	$1,000,436,700	$387,229,250	$1,387,665,950
Sixes, 1881.....	93,260,400	190,417, 00	283,678,100
Fives, 10-40s.....	57,279,650	138,287,650	194,567,300
Fives, 1874.....	13,955,000	6,045,000	20,000,000
New fives, '81.....	5,117,000	3,100,400	8,217,400
Total.....	$1,170,048,750	$724,080,000	$1,894,128,750
Total March 4, 1869			2,107,846,150
Reduction of Funded Debt.....			$214,717,400
Yearly Gold Interest charge, 1869.....			$124,255,350
Present yearly charge.....			111,419,993
Reduction in Interest Charge.....			$12,835,357

The proposed further reduction of the annual interest charge upon the Public Debt by refunding is as follows:

By exchange of $500,000,000 United States six per cents for new five per cents of 1861	$5,000,000
By exchange of $300,000,000 United States six per cents for four and a half per cents of 1866.....	4,500,000
By exchange of $700,000,000 United States six per cents for four per cents of 1901	14,000,000
Total saving per annum by refunding.	$23,500,000

C. C. NORVELL,

In charge of United States Loan Advertising.

TREASURY OFFICE, NEW YORK, June 3, 1871.

Commerce of New York.

The foreign imports at New York for the month of May, 1870 and 1871, are officially stated as follows:

	1870.	1871.
Entered for consumpt'n.	$13,027,399	$16,544,919
Do. for warehousing	10,474,170	14,842,869
Free goods	1,115,039	2,758,231
Specie and bullion	667,807	142,477
Total entered at port	$25,284,415	$34,288,496
Withdrawn fr. wareh'use	10,615,377	10,070,612

The foreign imports at New York for the five months from January 1, were:

	1870.	1871.
Entered for consumpt'n.	$67,608,754	$88,865,927
Do. for warehousing	54,895,437	64,242,927
Free goods	4,966,720	13,736,707
Specie and bullion	6,974,809	3,390,046
Total entered at port	$134,445,720	$170,235,607
Withdrawn fr. wareh'se	52,079,845	54,487,088

The foreign imports from New York for eleven months ending May 31, were:

	1870.	1871.
6 mos. ending Jan. 1.	$134,708,154	$156,339,208
In January	24,725,375	28,792,062
In February	25,367,998	35,491,324
In March	29,695,633	38,696,064
In April	29,372,299	32,967,661
In May	25,284,415	34,288,496
Total for eleven mos.	$269,153,874	$326,574,815
Deduct specie	12,752,011	8,091,731
Total mdse	$256,401,863	$318,483,084

The revenue from customs at New York for eleven months ending May 31, were:

	1870.	1871.
6 mos. ending Jan. 1.	$61,552,308 75	$67,729,184 75
In January	9,840,502 99	12,010,020 67
In February	11,750,424 06	12,258,147 69
In March	11,977,323 42	15,305,799 14
In April	12,799,598 49	12,535,090 06
In May	11,473,412 25	11,490,140 42
Total 11 months.	$119,393,569 96	$131,328,382 73

The exports from New York to foreign ports in the month of May, were:

	1870.	1871.
Domestic produce	$14,167,414	$17,066,928
Foreign free goods	29,879	169,250
Do. dutiable	918,306	783,607
Specie and bullion	4,485,373	9,615,698
Total exports	$19,600,972	$27,635,483
Do. exclusive of specie.	15,115,599	18,019,785

The exports from New York to foreign ports for five months from January 1, were:

	1870.	1871.
Domestic produce	$65,888,123	$92,832,816
Foreign free goods	235,411	461,388
Do. dutiable	4,466 297	3,372,605
Specie and bullion.	12,583,238	32,949,884
Total exports.	$83,173,069	$129,616,693
Do. exclusive of specie.	70,589,831	96,666,808

The exports (exclusive of specie) from New York to foreign ports for eleven months ending with May 31, were:

	1870.	1871.
Six mos. ending Jan. 1.	$109,954,573	$107,654,919
In January	12,893,166	18,887,876
In February	11,940,146	18,739,742
In March	15,943,095	22,189,332

In May	15,115,599	18,019,785
Total produce.	$180,544,404	$204,321,728
Add specie	29,239,793	74,300,759
Total exports.	$209,784,197	$278,622,487

Journal of Railroad Law.

RAILROAD COMPANIES—WHAT LIABILITIES THEY MAY INCUR UNDER THEIR CHARTER—POWERS OF ROAD SUPERINTENDENT.

The facts in the recent case of The Toledo, Wabash and Western Railway Company *vs.* Rodrigues (47 Ills., 188), are fully and clearly stated in the following opinion by

WALKER, J.—It appears, from the record in this case, that one Johnson, while in the employment of the railroad company, as a brakeman, was run over by a locomotive and injured. That the station agent at Jacksonville, where the injury occurred, employed appellee to nurse and take care of Johnson, and told appellee that appellant would pay him for his services. Appellee performed the services and presented his bill to the station agent for payment. He wrote to the general superintendent, making a full statement of all that had been done, but there seems to be no evidence that this letter was received. After the account was rendered, the general superintendent conferred with the station agent in reference to the various items and as to whether the charges were reasonable, when the superintendent said if they were reasonable he would pay the account, and made no other objections at the time.

On the trial below, and in this Court, it is insisted that these agents acted without authority, and there is no legal obligation resting upon appellant to pay for these services notwithstanding the employment by the station agent, and the recognition of his contract by the general superintendent of the road. Although the charter of the company may not in terms authorize the body to incur expense on account of injury received by their employees, in the discharge of their hazardous employment, yet it will not be seriously contended but that they may, in exercising their franchises, incur such a liability.

If, from the necessary hazards of the employment a person devoting his energies in promoting the interests of the company at a moderate compensation without fault on his part, is severely injured, and for a length of time is wholly disabled, humanity, if not strict justice, would say that when the company have employed others to take care, and incur the expense of his cure, they should be compelled to observe their contract, and meet the expense.

When an employee has been disabled and rendered helpless, in the employment of the company, we can see no reason why this is not a sufficient consideration to support a promise to pay for the nursing and medical attendance necessary to his cure, when the agreemeet is express and not by implication. To have that effect there should, at least, be a request to perform the service. It is not such a duty resting on the company, that any person, without authority from the company, may render the service and compel payment. The request should be express and explicit, and from a person who is empowered to act for the company.

In this case, appellee was requested to render the service by the local agent entrusted with the affairs of the company at that station. He wrote soon after to the general superintendent, informing him of what had been done. Having written in the usual course of business, we must presume that the letter was received. Again, there is no evidence that he countermanded the order, and not only so, but he, when the bill was presented for payment, recognized the validity of the contract and said he would pay reasonable charges for the services, and based his only objection upon the high prices charged. This, in our judgment, made a clear case for a recovery, for a reasonable compensation, if these offices had authority from the company to incur the liability.

Whether the station agent had such power or not, the general superintendent was clothed, and necessarily must be, with large specific as well as discretionary powers. As his title implies, he has a general superintendence of the business affairs of the road, and we deem it but a reasonable inference to conclude that this was within the scope of these powers, and when exercised, that the company must be held liable. The corporation is governed within its charter by the adoption of rules and regulations for the purpose. These regulations govern the action of the officers. By them they confer powers and impose duties upon their various agents and officers; and by this means they exercise their franchises. These regulations are private and not accessible to the public, and hence the difficulty of other persons showing, except by inference or circumstantial evidence, that any officer performs any act within the scope of his authority. It would, therefore, be unreasonable to require positive proof of such authority. The fact must be left to proof, as in other cases. And when it is known that the general superintendent manages all the business of the road within his department, and binds the company by contracts on its behalf, in regard to its general business, it may be safely inferred that such a contract as this was within the scope of his authority.

Although the instructions may not have been strictly accurate, we do not see that they could have misled the jury. Even if they were not all precisely applicable to the evidence, the finding of the jury was clearly right, and the rejection or proper modification of any of them could not have changed the result.

The judgment of the Court below must, therefore, be affirmed.

Judgment affirmed.

☞ The Sheboygan *Herald* says that a corps of engineers is engaged in surveying a line for the extension of the Sheboygan and Fond du Lac Railroad from the latter city to Ripon, and that work is to be commenced on the line as soon as the survey is completed. It is anticipated that this line will be completed and the cars running before winter.

☞ The London *Times* has advices from Canada, stating that the Commissioners for the Intercolonial railway have accepted the tenders of the Fairbairn Engineering Company, and Messrs. Clarke, Reeves & Co., of the Phœnixville Works, near Philadelphia, for the iron bridges to be adopted throughout the line.

☞ The St. Paul *Press* states that the branch line of the St. Paul and Pacific road from Sauk Rapids to Brainard, is to be given up for the present, in favor of the projected extension from St. Cloud to Otter Tail and Pembina.

The New Jersey Railroad Lease.

Proceedings have been commenced in the Court of Chancery, at Trenton, to test the validity and constitutionality of the proposed lease by the united railroad companies of New Jersey to the Pennsylvania Railroad Company. On Saturday last a bill was filed in the Clerk's office of the Court by a large number of stockholders of the united companies, among whom were John Black, Henry H. Longstreet, Samuel C. Forker, Thomas N. Adams, Thos. Robb, Caleb R. Smith, Samuel Rogers, William R. Vandegrift, David Harmer, Jacob M. Douglas, of Burlington county; Henry D. Johnson and Robert C. Hutchinson, of the county of Mercer, Ira C. Voorhees and Louis Stout, of Middlesex, and Charles Bartels, Jediah Higgins, John V. Capner, Avery Parker and others, of the county of Hunterdon, asking the Chancellor to restrain by injunction the officers and directors of the united companies from executing said lease and transferring the property and franchises of the company to the Pennsylvania companies. The Chancellor, on the filing of the bill, granted a temporary injunction, with a rule to show cause the 25th of July why the same should not be made absolute.

New Outlet for Wilkesbarre Coal.

The Pottsville *Miners' Journal* says that a new railroad is projected from Wilkesbarre to Williamsport, which will form a new outlet for the coal of that region for the West, to supply which with that coal, great exertions are now being made. The increased supply of coal of that region will undoubtedly find its way into the interior and not towards the seaboard, and will thus come into competition with the Shamokin coal for the Western trade. The Wilkesbarre region also has another outlet eastward to Albany, N. Y., and near West Point it is proposed to bridge the Hudson River and thus connect with lines now extending into New England. With these lines finished, they will have five outlets, North, South and West, indepemdent of those running East and to the seaboard.

☞ The contract for the grading and masonry of the extension of the Portsmouth, Great Falls and Conway road from West Ossipee to North Conway, a distance of seventeen miles, has been awarded to George F. Hitchings of Portland, who has been engaged since December last in grading the road from Union to West Ossipee, a distance of twenty-eight miles, for the same company. Work will be immediately begun on the new contract and completed to Conway by October of this year.

☞ The contract for the construction of the extension of the Bangor and Piscataquis Railroad from Foxcroft to Guilford has been awarded to Savage, Berry & Co. of Augusta, who have lately been at work on the Portsmouth, Great Falls and Conway road. The contract is for grading, masonry, etc., completing the road except track-laying and ballasting.

☞ The Directors of the New Jersey Railroad and Transportation Co. have elected the following officers: President, A. L. Dennis; Treasurer, H. J. Southmayd; Superintendent and Vice President, F. W. Jackson; Secretary and General Passenger Agent, F. W. Rankin.

THE NEW YORK (VIADUCT) RAILWAY COMPANY.

DIRECTORS.

Alexander T. Stewart,	A. Oakey Hall,
William M. Tweed,	John Jacob Astor,
August Belmont,	Peter B. Sweeny,
Charles A. Lamont,	Levi P. Morton,
James F. D. Lanier,	Hugh Smith,
Franklin Osgood,	William T. Blodgett,
William Butler Duncan,	Richard O'Gorman,
John J. Bradley,	Jose F. Navarro,
Charles L. Tiffany,	Henry Smith,
William R. Travers,	Edward A. Wesley,
Joseph Seligman,	Manton Marble,
Richard B. Connolly,	John Taylor Johnston,

Henry Hilton.

HENRY HILTON,
President.
HUGH SMITH,
Vice-President.
W. BUTLER DUNCAN,
Treasurer.

EDWARD P. BARKER,
Secretary.

By authority of the Board of Directors of THE NEW YORK RAILWAY COMPANY, and in conformity with the terms of the Act of Incorporation in that respect, the undersigned Commissioners on Stock Subscriptions give public notice for and on behalf of the Directors, and of such Company, that Books of Subscription for the Capital Stock thereof will be opened on WEDNESDAY, the TWENTY EIGHTH DAY OF JUNE instant at the following places in this City, viz:

At the Banking House of
DUNCAN, SHERMAN & CO.,
No. 11 Nassau street.

At the Banking House of the
BANK OF THE METROPOLIS,
No. 31 Union square.

The Company is authorized to construct two Viaduct Railways or branches through the City of New York, on the east and West sides thereof, from a common starting point at or near Chambers-st., between Broadway and Chatham-st.; also across the Harlem River and through Westchester County; with power to build additional lines of railway or branches, from time to time, in any part of the City or Westchester County. *The property acquired by the Company is exempted from taxes and assessments during the period allowed for the final completion of the railway in the city.* The Mayor, Aldermen, and Commonalty of New York are authorized and directed, with the approval of the Commissioners of the Sinking Fund, to subscribe for **five millions of dollars** of the stock of the Company, whenever one million of dollars thereof has been subscribed for by private parties. *This conditional amount of stock has been wholly subscribed for and taken by the Directors of the Company.* On the completion of either of the lines of railway to the line of Westchester County, the Supervisors of that County are authorized to issue the bonds of the County to such amount as the Supervisors shall deem expedient, to aid in the construction and extension of the railway in and through that County. For the proper equalization of the interest of shareholders who may subscribe and pay in moneys at different times, the Directors are authorized to issue scrip for interest on such payments, payable out of the earnings.

THE TERMS OF SUBSCRIPTION will be as follows:

TEN PER CENT. of the amount of Stock subscribed for, to be paid in cash at the time of subscription. The residue to be paid as called for by the Board of Directors on a notice of thirty days, but no call at any one time to exceed ten per cent.

Scrip for interest at the rate of seven per cent. per annum will be issued by the Company payable out of the first earnings of the Railway on all installments paid on stock subscribed for within thirty days after the Subscription Books shall be opened.

The Company reserve the right to close the Subscription Books at any time after the twenty-ninth day of July, 1871.

By order of the Board of Directors,

Alexander T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company.

New York, June 16, 1871.

Railroad from Canandaigua to Avon.

We learn from the Ontario *Times* that the Erie Railway Company have projected a railway from Canandaigua to Avon, and engineers are now making the surveys. The *Times* understands the object of the road to be "to open a coal line through to Buffalo, connecting with the main line of the Erie at Avon. It is the design to make it a narrow gauge road, and a third rail will be laid down from Avon to Buffalo. The route will pass through the towns of Canandaigua, East Bloomfield and West Bloomfield, in Ontario county, and Lima and Avon, in Livingston county, and will follow the Batavia road nearly to East Bloomfield, and then bear slightly to the westward, passing that village about as far to the west as the Batavia road does to the east."

☞ The iron railroad bridge over the Ohio river at Benwood, which has been in course of construction for two years, was so nearly completed on the 21st ult., as to admit of an engine being passed over it. The bridge is nearly three-fourths of a mile in length. The channel span is three hundred and fifty feet long, ninety-five feet above low water mark, and contains six hundred tons of iron. The approach on the Ohio side is made by an arcade consisting of forty-one arches, forty feet from centre to centre, and is pronounced by competent judges to be the finest piece of masonry in the country. It is proposed, we understand, to open the bridge formally on the fourth of July.

☞ The subscribers to the South Branch Railway Company, the first narrow gauge railway in West Virginia, and which should prove a valuable feeder to the Baltimore and Ohio railroad, held a meeting in Romney, West Virginia, on the 17th ult., and elected a board of directors, with Col. Robert White as President. Subscriptions to the stock of the road by the people of Romney are reported to be progressing satisfactorily. The route is said to present few difficulties, and the hope is expressed that the line will be constructed at least as far as the town of Romney within six months.

☞ A branch railroad, about four miles in length, to connect the Central Railroad of New Jersey with the Newark and New York railroad, has just been commenced, to be completed in about five months. The road commences at Elizabeth, and runs in a straight line across the Salt Meadows. As there will be no heavy excavations to make, or gullies to span, it can be constructed at comparatively little expense. The track, when completed, will be the means, it is believed, of restoring all the meadow lands lying west of it, as it will be laid upon an embankment high enough to shut out the overflows from the river.

☞ At the annual meeting of the Shore Line Railroad Company held in New Haven on the 19th ult., the following gentlemen were elected directors: Sereno H. Scranton, Simeon B. Chittenden, Cornelius S. Bushnell, Charles G. Landon, Edward Ingraham, James M. Townsend and A. N. Ramsdell. Subsequently the following officers were chosen: Sereno H. Scranton, President; Simeon B. Chittenden, Vice President; Edward S. Scranton, Secretary, Treasurer and Transfer Agent. A dividend of 3½ per cent. was declared payable on Monday, July 3, 1871.

☞ The cars of the South Shore R.R. have been running since Monday over the finished portion of the Duxbury and Cohasset Railroad, as far as South Scituate Station, a distance of six miles from Cohasset. The Old Colony and Newport Railway Company, who operate both the above roads, now run two trains daily between Boston and South Scituate.

☞ General Barnes, Vice President of the International Railroad of Texas, says seventy-five miles of the Texas end of the road is graded and seventy miles of iron furnished. Fifteen miles of the road is in operation. The road commences at Hearn on the Houston and Texas Central line, and will (he thinks) connect with the Cairo and Fulton and the St. Louis and Iron Mountain roads in twenty months.

☞ A corps of engineers has commenced the preliminary survey of the proposed Narrow Guage Railroad, from Lancaster to Reading. The entire distance is estimated to be about 31 miles. The route will be along the Wyomissing, Little Muddy and Conestoga Creeks.

☞ The coupons of the first mortgage seven per cent. gold bonds of the Rondout and Oswego Railroad Company, due July 1, will be paid on and after that date at the office of Messrs. Edward Haight & Co., the financial agents, No. 9 Wall-st., N. Y.

☞ The Central Valley Railroad is the name of the narrow gauge railroad that is now under construction in Chenango county, N. Y. The plan is to make this road form the first link in a through line extending via Courtland and Auburn to the Lakes. The rail to be used is limited by law to a minimum weight of forty pounds to the yard, while the gauge is three feet and the passenger cars will be five feet wide.

☞ The patent of the invention of the late Henry Burden, of Troy, N. Y., for a horse shoe machine, dated June 30th, 1857, has been extended by the Commissioner of Patents, on proof submitted in the case. It is computed that the invention has saved to the public $32,800,000 during the past 14 years. The examiner's report admits a saving of $18,000,000. The extension is for seven years, from June 30th.

The July semi-annual interest coupons of the First mortgage Bonds of the Central Pacific Railroad Company, the Western Pacific Railroad Company and the California and Oregon Railroad Company (all now consolidated under the former title), will be paid in gold, free of Government tax, on and after July 1, at the Banking House of Messrs. Fisk & Hatch, No. 5 Nassau street.

☞ A despatch from A. C. Mitchell, President, dated Lebanon, Missouri, June 22, announces that the contract for grading, ironing and equipping the Laclede and Fort Scott Railroad from the Mississippi river to Fort Scott has been closed with George A. Fitch, of New York.

☞ All the general offices of the Kansas Pacific Railroad, excepting those of the Vice President, treasurer and supply agent, have been removed from St. Louis to a point in Kansas just across the Missouri State line, west of Kansas City.

☞ The directors of the Maryland Central Railroad Company have elected the following officers: President, William Gilmor; Secretary, George U. Porter; Treasurer, James Warden.

☞ The Queen Anne's and Kent County (Md.) Railroad, will be complete, it is said, by the 15th of July, the entire line having been graded and bridged.

ROME, WATERTOWN AND OGDENSBURGH R. R.,
VICE PRESIDENT'S OFFICE,
136 Chamber St., New York, June 24, 1871.

DIVIDEND NOTICE.—This Company will pay a Semi-Annual dividend of four per cent. free, on and after the 15th day of July next. Transfer books will remain closed from date to day of payment. Stock registered in New York will be paid at the Mercantile National Bank for sixty days.

MARCELLUS MASSEY,
Vice President.

OFFICE OF NORTHERN PACIFIC RAILROAD COMPANY.
120 BROADWAY, NEW YORK,
June 1, 1871.

The Transfer Books for the transfer of Registered Bonds will be closed on WEDNESDAY, June 14, and re-opened on SATURDAY, July 1.

Payment of Interest on Registered Bonds will be made by mailing from this office, on the FIRST DAY OF JULY, to the address of each Bondholder of record at the closing of the books, a check to his or her order for dividend due, free of tax, and payable in gold coin.

Coupons due July 1 will be paid on presentation, on and after that date, at the office of JAY COOKE & CO., New York.

4t A H BARNEY, Treasurer.

TO RAILROAD CONSTRUCTION CONTRACTORS.—The President and proper officers of the Selma, Marion and Memphis Railroad Company will be at the office of V. K. Stevenson & Son, 11 Pine street, New York, next Wednesday, the 5th day of July, and from day to day thereafter, to receive bids and answer inquiries as to character of means of paying for work, and also the character of work to be done, on about two hundred and fifty miles of railroad in Tennessee, Mississippi and Alabama. The means are abundant, including city and county bonds, payable in from one to twenty years in first mortgage bonds guaranteed by the State of Alabama, and the first mortgage bonds on the part of the road lying in Mississippi and Tennessee, all bearing eight per cent. interest, together with a large amount of the best Mississippi river bottom lands. Only strong contractors need apply. To such very profitable work will be given in large contracts. The road is about three hundred miles long, with fifty (50) finished. There is no rock. Timber abundant and cheap. Labor principally freedmen at fair wages.

LAKE ONTARIO SHORE RAILROAD.

Notice to Contractors.

Proposals will be received at the office of the Secretary of the Lake Ontario Shore Railroad Company in Oswego, until noon of July 5, 1871, for the Grading, Masonry, Superstructure and Fencing, for that part of the Lake Ontario Shore Railroad between the City of Oswego and the west line of Wayne County, State of New York, a distance of about fifty miles.

Proposals will be received for the whole or any part thereof. Maps, profiles and specifications may be seen at the Engineer's office in Oswego, between the 20th of June and the 5th of July 1871. No proposals will be received not made out on the Company's blanks; and the Company reserve the right to reject any and all bids, as they may elect.

GILBERT MOLLISON,
President.

Oswego, June 15, 1871.

Great Western Railway of Canada.

The Directors are prepared to receive tenders for the fourth division of their Canada Air Line, extending from Canfield to Fort Erie, a distance of about forty-four miles. Plans and specifications will be on exhibition at the office of George Lowe Reid, Esq., Chief Engineer, Hamilton, on and after 10th July, and sealed tenders, marked "Tender for Fourth Division Air Line," addressed to the undersigned, will be received to the 24th July.

JOSEPH PRICE,
Treasurer, &c.

Chief Offices, Hamilton, Ontario, May 27, 1871.

Notice to Contractors.

COLONIAL SECRETARY'S OFFICE, May 23, 1871.

THE Government of Prince Edward Island will until 19th of July next, receive Tenders for the construction and equipment of a Railway of 3 feet 6 inches gauge, from Cascumpec to Georgetown, a distance of about 120 miles.

Payments will be made in Prince Edward Island Government Debentures, bearing six per cent. interest, payable half-yearly, redeemable in 30 years.

Specifications may be seen, and forms of tender, and other information obtained at the Government Engineer's Office, Charlottetown, after 20th June next.

No tender will be recognized unless made on the printed form.

The Government do not bind themselves to accept the lowest or any tender.

Tenders will be received for either the whole distance from Cascumpec to Georgetown in one contract or in three contracts as follows:

No. 1. From Charlottetown to Summerside, with Station Houses and Wharves at both places.

No. 2. From Charlottetown to Georgetown, with Stations and Wharf at Georgetown.

No. 3. From Summerside to Cascumpec, with Station Houses and Wharf at Cascumpec.

T. HEATH HAVILAND,
Colonial Secretary.

NEW YORK
State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE
GOLD BONDS

OF THE

RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

EDWD. HAIGHT & CO.

Chesapeake and Ohio Railroad.

A correspondent of the Richmond *Dispatch*, writing from the White Sulphur Springs under date June 27th says:

The Chesapeake and Ohio Railroad is in the hands of men with big ideas and grand ends. They know well that they have a road without a rival across the continent, and the highest grade from the Ohio to the foot of the Alleghany, only twenty feet to the mile—a very large portion of it only twelve feet. The ascent on the west side of the Alleghany is 29½ feet from the top of the Alleghany to tide-water, down the valley of the James, a descending grade the whole way. Where is the road that can compete with it? Her nearest neighbor and rival, the Baltimore and Ohio, with heavy grades all the way, running up as high as 112 feet to the mile, must succumb to this new road.

The Chesapeake and Ohio can carry freight at a figure and make profits through their low grades that would not pay expenses on the Baltimore and Ohio road. She must, of course, take all the tonnage from the trade-fields within her reach. Its western terminus has been located at the grandest point for a big city than can be found in the Ohio Valley. It is immediately above the big bend of the Ohio river, at a point where the great Kanawha having united its waters with the Ohio, makes it accessible to steamers at all seasons. In the midst of the finest coal-fields in America, twenty miles of rail up Guyandotte will reach seams of coal which we have seen fifteen feet thick. A road a few miles longer up Sandy will develope mines of equal quality and altogether as abundant.

This future city of Huntingdon is located on a beautiful bottom on the banks of the Ohio, between the mouths of Guyandotte and Sandy rivers. It is within a few miles of the rich iron deposits of Ohio near Ironton, and must soon become a great iron-producing city. There is no point within our knowledge where the iron ore and coal can be put down at as low figures as at Huntingdon, with the great West for an unlimited market. An abundant supply of lumber can be obtained immediately in its rear from the unbroken forests east to the top of the Alleghanies, and must become a great article of commerce from this point west.

This road has recently secured through its friends the control of the Lexington and Sandy railroad, and will place it at once under construction. This secures a straight all-railroad line to Louisville, thence to St. Louis, thence to Kansas City and the Pacific coast. They are now contemplating the construction of an air-line low grade railroad from Huntingdon to Chicago, the commercial centre of the northwest. This will bring Chicago nearer to Richmond than she now is to New York. A bridge across the Ohio river and a few miles of new road will place her in connection with the great network of railroads in Ohio, Indiana and Illinois.

The Viaduct Railway.

The eagerness with which the first instalment of the stock of the Viaduct Railway has been taken is very significant. The plans of the railway are not yet known to the public except very vaguely. Not one in twenty of the subscribers to the stock has entered into any thorough calculation of the probabilities of profit in the project. But it is seen of all men that the facilities of up-town transit which we now endure are grossly inadequate, and that a new system is inevitable and a proper system cannot fail to be enormously lucrative. Beyond that our only guarantee must be the public confidence in the character and the abilities of men upon whom the conduct of the enterprise has devolved. This is really the only guarantee ever attainable in like cases, and this avails to make even the projectors of other schemes of transit yield their own conceptions almost without an effort to realize them when the project of the Viaduct is broached and the names of the projectors of the Viaduct are published. The clear prospect is that not only will the road be a speedy and enduring economic success, but that it will be an ornament to the city which it traverses and a monument to the men who built it.

Smyrna and Delaware Railroad.

The Bombay Hook Railroad, as it is popularly called, or the Smyrna and Delaware Bay Railroad, as it is technically named, has been contracted for by Charles K. Landis, President of the Vineland Railroad. He came to this town on Wednesday evening last, and on Thursday the contract was signed, which requires the construction of the road within six months of the date, and thorough equipment. In the equipments are to be two locomotives to cost not less than $12,000, two passenger cars to cost $5,000 each, one smoking car to cost $4,000, two turn tables, and five depots—rather a large number of the latter for nine miles of road. Such we learn from Mr. J. W. Spruance, President of the company. Mr. Landis, we believe, promises to have the road in running order in about ninety days.—*Smyrna Times.*

(From the Detroit Post.)

The Lake Superior Trade.

This is a subject of vital importance to our business men. Recent events in connection with the opening of the St. Paul and Lake Superior Railroad, and the pushing forward of the Northern Pacific, have drawn the attention of the commercial cities of the eastern seaboard to the traffic of that region. The following remarks of the Cleveland *Leader* are suggestive to the merchants and manufacturers of Detroit:

"Nothing in the signs of the times has been more apparent this season than the tremendous exertion put forth by the great Atlantic cities to grasp and control the trade of Lake Superior. For this purpose Boston purchased the steamers of the Northern Transportation Company, and now has a through line over the Vermont Central Railroad and these lake steamers to Duluth. Philadelphia is reaching forward through the Philadelphia and Erie Railroad to the same centre, and is now expending more than $1,000,000 on docks and elevators in the harbor of Erie, where the Pennsylvania men hope to transfer from water to rail the wheat and other products of the Northwest. Baltimore is perfecting the Ohio division of the Baltimore and Ohio Road, and is preparing to make Sandusky an important intrepot for the commerce of the lakes. The line of steamers to be established between Sandusky and Duluth will represent the lively interest which Baltimore feels in the distribution of the immense traffic that will be poured eastward over the Northern Pacific line. New York city is already strongly represented by the Central and Erie railways and the great lines of steamers which those

two corporations already have afloat on the lakes. The result cannot fail to give a new importance to the cities along the southern shore of Lake Erie. As the Hon. William D. Kelley predicted in his recent speech: 'It requires but little power of imagination to behold the City of Erie equalling Buffalo, and Cleveland and Detroit expanding into rivalry with Chicago.' The settlement of the immense tracts of rich country between Duluth and Puget Sound will open up a new market for manufactured goods and material supplies of every kind, and though Cleveland can hardly expect to become a leading entrepot for grain, it must derive an important accession to its prosperity from the new markets about to be opened to our manufacturers and merchants."

Atlanta and Richmond Air Line.

We are informed that the Pennsylvania Railroad Company have bought out the interest of P. P. Dickinson, under contract, for the construction of the line between Charlotte, N. C., and Gainesville, Ga. When this fact became known in New York the company's bonds advanced to 87½. The Pennsylvania is the richest company in the United States, and the contract for constructing the air road being assumed by them makes its early completion beyond all doubt. There will be no lack of money. If President Buford's expectations are realized, that the road will be completed to Spartanburg and the trains running between this and Charlotte by the first day of January 1872, it will exceed the hopes heretofore entertained by the most sanguine friends of the enterprise, and will afford a cause to our citizens of self-gratulation scarcely to be equaled by any other event. We learn that the first installment of the subscription bonds of Spartanburg county and of the town have been sold at seventy-five cents on the dollar.—*Spartanburg Spartan.*

Cincinnati, Hamilton and Dayton Railroad.

The income of this company for the fiscal year ending March 31, 1871, was as follows:

From passengers		$430,452 31
" freight		544,149 78
" mails and express		23,577 83
" rents to other companies		210,000 00
" rent of machinery		22 690 43
" interest		30,813 81
" miscellaneous		8,937 82
		$1,270,621 98
Operating expenses, viz:		
Repairs of road	$173,743 89	
" bridges	6,497 09	
Shops and engine houses	9,305 53	
Station expenses	71,286 95	
Wood, coal and oil	94,495 91	
Locomotive power	81,565 56	
Passenger train expenses	48,291 94	
Freight train expenses	67,920 75	
Office expenses	48,864 15	
Miscellaneous expenses	30,324 16	
		627 295 93
Earnings less expenses		$643,326 05
From which deduct—		
Taxes and insurance	$54,386 48	
Interest on bonds	144,990 00	
		199,376 48
Leaving a balance of		$443,949 57
Add balance from previous year		575,924 94
Total		$819,874 51
Applied as follows:		
Dividend Oct. 24, 1870, 4 per cent.		$140,000 00
" April 4, 1871, 4 per cent.		140,000 00
Surplus March 31, 1871		539,874 51
Total, as above		$819,874 71

The operating expenses were 49.36 per cent. of gross earnings. The earnings per mile were $21,177 03. Number of passengers carried, 753,787. Tons of freight moved in narrow gauge cars, 486,030. The net earnings were 12.68 per cent., out of which two cash dividends of four per cent. each were paid the stockholders, free from Government tax. The President in his report says:

The lease entered into on the 1st of May, 1863, between the Dayton and Michigan Railroad Co. and the Cincinnati, Hamilton and Dayton Railroad Co., was so modified on the 23d of June, 1870, that the lessee agrees to pay to the stockholders of the lessor three and one-half per cent. per annum, in semi-annual installments of one and three-quarters per cent. each, commencing April 1st, 1872, and thereaf er on the 1st days of October and April; the amount to be paid by the lessee will not exceed thirty-five thousand dollars per annum; all over this sum, earned on the capital stock, will inure to the benefit of the stockholders of the Cincinnati, Hamilton and Dayton R. R. Co. The lease, as modified, provides for a full satisfaction and discharge of all claims which have been or can be made, by either of the parties against the other, on account of the several and respective obligations in the original lease. The earnings of the Dayton and Michigan for the year have come up to our expectations; the net earnings have been applied to the sinking fund, in permanent improvements at Toledo, and in engines, and freight cars to meet the increasing demands of business.

The Cincinnati, Richmond and Chicago Railroad, at the commencement of this year's business, was not paying expenses. On the 1st of August, however, the Chicago business of our company was transferred from the Lima route to that via Richmond, and in return therefor the Pittsburg, Cincinnati and St. Louis Railway Co. gave us a share of their business, they remaining neutral between our roads and the White Water Valley Division of the Indianapolis, Cincinnati and Lafayette Railroad Co.; but since the 1st of December they have been sending their business by our line, and our Richmond branch has been increasing its net earnings, so that it will be able not only to pay expenses, but to at least partially repay the Cincinnati, Hamilton and Dayton R. R. Co. for the advances made during the past two years in its behalf. The future prospects of this company are now encouraging.

During the year 454½ tons of steel, and 1,088½ tons of re-rolled iron rails have been used in the track. The company have now a little over 9½ miles of steel rail laid—all of which has thus far proved satisfactory: 600 tons of steel rail have been ordered, and its early arrival is anticipated.

The receipts of the company from all sources, during the year, were as follows:

Cash and cash assets, March 31, 1870		$87,632 39
Derived from sale of bonds and stock		88,723 55
From C., R. and C. R. R., as per statement		463 54
Net earnings for the year		443,949 57
Total		$570,769 05
Applied as follows:		
Equipment		$10,500 00
Real estate		933 60
Increased material for repairs		8,143 75
Bills receivable		16,188 43
Advances to D. and M. R. R., as per statement		7,819 56
Railroad and individual accounts		80,175 46
Dividends and interest on bonds		294,267 06
Balance, March 31, 1871		202,741 19
Total, as above		$570,769 05

The receipts from operations of the Dayton and Michigan railroad during the year were $1,074,667 69; and the expenditures, $1,082,487 25—balance advanced by lessees, $7,819 56; which added to amount due lessees at the close of the previous year ($86,605 43), makes the total amount due C., H. and D. R. R. Co. $94,424 99.—

The receipts from operations of the Cincinnati, Richmond and Chicago Railroad were $152,136 12; and the expenditures, $151,672 58—leaving a balance of $463 54; which deducted from amount due lessees per last report ($17,832 64), leaves the balance due C., H. and D. R. R. Co., March 31, 1871, $17,369 10.

Chicago, Danville and Vincennes Railroad.

One of the most important lines—for Chicago perhaps most important—now in progress is the Chicago, Danville and Vincennes Railroad, which was begun about two years ago, and has been in operation for some time to St. Anne's, in Kankakee county, and within a few days has been completed to Watseka, in Iroquois county, where it intersects the Toledo, Peoria and Warsaw Railway. The progress of the road has not been very rapid, but it has been certain and steady, and the work is now in such condition that the managers are sure that the road will be ready to bring in the summer's crops from Danville and Terre Haute, and, if no unexpected delay occurs, the line will be completed by the middle of August.

For the present this road depends upon the Pittsburg, Cincinnati and St. Louis Railway for an entrance into Chicago. It uses the latter line as far as Dolton, 20 miles south of Chicago, and that is at present the northern terminus of the road. Thence it extends nearly due south to Danville, on the Toledo, Wabash and Western, a distance of 108 miles, and from Danville has a southeast course of eight miles to the Indiana line, where it will be met by the Evansville, Terre Haute and Chicago Railroad, which is completed from that point to Terre Haute, and there makes a connection with the Evansville and Crawfordsville Railroad.

Thus the completion of this road will not only give a new and direct road from Chicago to Danville, with the business of the country on the line, but a north and south line from Chicago to the Ohio river and connections beyond which already to Nashville, Tenn., to Decatur, Ala., and will soon (by the completion of the North and South Alabama) extend to Montgomery, Ala., and to Mobile and Pensacola on the Gulf.

A traffic of special value, both to the road and to the country, will be the transportation of coal on this line. Besides crossing extensive mines in Vermillion county, it will open the shortest line to the mines of "block coal" in the vicinity of Brazil, Ind., sixteen miles east of Terre Haute. This coal is known to be unexcelled for iron smelting and working, and a cheap supply of it where iron and iron ore can be cheaply obtained will give the opportunity for a great manufacturing business. There are already in and near Brazil a number of smelting furnaces, and they will use a large amount of Lake Superior ore, which this railroad can most readily bring them, while the transportation of coal for manufactures of iron in Chicago and vicinity may be expected to become a heavy traffic. The Danville road can reach this coal by the two lines from Terre Haute which crosses the field, but another, crossing the coal field from north to south, in the direction of its greatest length, is promised, which will intersect the Danville road near Danville, and bring its cars to many new mines by a route shorter than any now existing.

Other feeders to this road are contemplated; One from Lafayette northwestward, and one from Decatur, via Monticello and Champaign northwestward, both of which will depend upon it for an outlet to Chicago.

As we said before, the road, important in itself, is so also as the outlet to a still longer line already made and now giving little business to Chicago. That we shall be able to secure for this city as large a part of the traffic of the line south of Terre Haute as of that north of it is not probable; but with a short and straight line to Southern Indiana, and daily trains, Chicago merchants ought certainly to compete strongly with the Cincinnati and Indianapolis merchants, who have hitherto had the field pretty much to themselves, and even where we cannot sell goods we may buy produce to advantage. The new line will give us access by the shortest possible route to the east side of the Wabash Valley, as the Springfield and Illinois Southeastern has to the west side.—*Chicago Railroad Gazette.*

Missouri, Kansas and Texas Railroad.

The plans of this road are very extensive. When completed the whole of Missouri and Kansas will have direct communication with the gulf, through the Indian territory. It is expected to open the entire line to Red River by January 1, 1872.

A short time since a large number of the stockholders and directors made a trip over the road from St. Louis to its present terminus, Cabin Creek, a distance of 450 miles, in the Cherokee Nation, thirty miles from Fort Gibson. The cars will run to Gibson, or in that vicinity, within a month. The bridge over the Arkansas is well advanced, and will be completed by September 1st. Trains will run to the south side of the Canadian by November 1st. In a few days the road will be opened to Cat Fish Point, on Pryor's creek, twenty five miles below Big Cabin Station. A contract has been awarded to the company for the transportation of all United States supplies for the forts in the Indian country and Texas. Great herds of cattle, and cotton from Texas, are *en route* to the southern terminus for transportation to St. Louis. Never did a railroad tap a finer country, or open with better prospects.—*Arkansas Gazette.*

Texas Pacific Railroad.

AN ACT to incorporate the Texas Pacific Railroad Company, and to aid in the construction of its road and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That John C. Fremont, James L. Alcorn, G. M. Dodge, O. C. French, John D. Caldwell, J. J. Noah, A. C. Osborne, Timothy Hurley, C. C. Pool, Silas N. Martin, John M. Corse, George E. Wentworth, Philip H. Morgan, J. D. Cameron, Marshall O. Roberts, James L. Hodges, John Ray, W. Vermilye, Enoch L. Faucher, Charles F. Livermore, Joseph H. Oglesby, John Whytock, Daniel Drew, F. S. Davis, W. Orton, A. C. Babcock, Thomas A. Scott, Samuel D. Hoffman, H. Ramsdale, William H. Jackson, R. C. Parsons, Delos W. Emmons, M. A. Southworth, John H. Hall, G. C. Kinzey, W. P. Clarke, James Dart, H. Jacobs, L. T. Smith, W. P. Dole, C. A. Weed, A. P. K. Safford, H. McCullough, Charles Jackson, Elisha Dyer, Alfred Anthony, James Hoy, M. W. Benjamin, H. D. Cooke, Joseph R. West, W. S. Huntington, J. M. Tebbetts, C. C. Leondridge, D. D. Porter, M. Woodhull, Hiram Price, M. C. Hunter, W. T. Walters, J. B. Brownlow, T. A. Morris, Owen Tuller, J. H. Ledlie, R. M. Bishop, Samuel Craighead, D. N. Stanton, Augustus H. Whiting, G. L. Johnston, J. W. Goodland, Powell Clayton, Samuel Tate, W. Bolton, H. Robinson, George Maney, O. H. Bynum, M. Burns, J. C. Goodloe, E. G. Barney, Cyrus Busey, J. W. Flanegan, G. O'Brien, G. P. Buel, G. H. Gidding, J. J. Newell, E. W. Rice, R. M. Shoemaker, Samuel Sloan, S. W. Morton, J. B. Bowman, L. M. Flournoy, J. J. Hinds, G. R. Weeks, J. T. Ludling, B. C. Gilbert, B. D. Williams,

Thomas Olcott, G. A. Fosdick, Harry Hays, P. S. Forbes, John T. Sprague, L. R. Marsh, A. W. Beckwith, J. C. Stanton, Cyrus H. Baldwin, A. J. Hamilton, Rush R. Sloan, Silas C. Colgrove, Samuel D. Jones, N. H. Decker, William N. Leet, B. F. Allen, J. B. Chaves, Augustus Kountze, John N. Goodwin Wm. S. Rosecrans, Michael Hahn, H. C. Warmouth, J. S. Williams, G. M. Spencer, L. J. Higby, W. C. Kimball, and all such persons as shall or may be associated with them, and their successors, are hereby created a body politic and corporate in fact and in law, by the name, style, and title of the Texas Pacific Railroad Company, and by that name shall have perpetual succession, and shall be able to sue and be sued, plead and be impleaded, defend and be defended, in all courts of law and equity within the United States, and may make and use a common seal; and the said corporation is hereby authorised and empowered to lay out, locate, construct, furnish, maintain, and enjoy a continuous railroad and telegraph line, with the appurtenances, from a point at or near Marshall, county of Harrison, State of Texas; thence by the most direct and eligible route, to be determined by said company, near the thirty second parallel of north latitude, to a point at or near El Paso; thence by the most direct and eligible route, to be selected by said company, through New Mexico and Arizona, to a point on the Rio Colorado, at or near the southeastern boundary of the State of California; thence by the most direct and eligible route to San Diego, California, to ship's channel, in the bay of San-Diego, in the State of California, pursuing in the location thereof, as near as may be, the thirty second parallel of north latitude, and is hereby vested with all the Powers, privileges and immunities necessary to carry into effect the purposes of this act.

Section 2. That the persons named in the first section of this act shall constitute a Board of Commissioners (twenty of whom shall constitute a quorum for the transaction of business), to be known as the Texas Pacific Railroad Commissioners, who shall meet in the city of New York within ninety days after the passage of this act, at a time to be designated in a notice to be signed by the person first named in the list of corporators and six of his associates, and to be published for two weeks in at least one daily newspaper in New York, New Orleans and Washington; and when so met they may cause books to be opened for the subscripton of the capital stock of said company, and when twenty thousand shares, amounting to two millions of dollars, shall have been subscribed and ten per centum actually paid thereon, in money, to the treasurer to be elected by said commissioners, who shall give bond for its safe keeping and payment to the treasurer of the company when organized, then it shall be lawful for such subscribers or stockholders, or a majority thereof, to organize said company in accordance with the provisions of this act, and to elect not less than seven nor more than seventeen directors, a majority of whom shall be necessary to the transaction of business, and who shall hold their offices for one year and until their successors shall be elected and qualified; and the said directors shall immediately proceed to elect a president, vice president, secretary and treasurer; the president and vice president shall be directors. At all elections for directors, each share of stock shall be entitled to one vote, which may be given by the holders in person or by proxy, who shall also be a shareholder. The directors shall hold their offices for any term not exceeding three years, as may be provided in the by-laws; and the annual meetings of stockholders shall take place as provided for in said by-laws.

Section 3. That the capital stock of the Texas Pacific Railroad Company shall be fixed by the board of directors, at a sum not exceeding fifty millions of dollars, in shares of one hundred dollars; and when the amount is so fixed, it shall never be increased except by consent of Congress. Assessments upon said stock shall be made by a majority vote of the whole number of directors at a regular meeting, which said assessments shall be paid at the expiration of thirty days after a notice given in one newspaper in each of the cities of Washington, Philadelphia, New York and New Orleans.

Section 4. That the said Texas Pacific Railroad Company shall have power and lawful authority to purchase the stock, land grants, franchises, and appurtenances of, and consolidate on such terms as may be agreed upon between the parties, with any railroad company or companies heretofore chartered by congressional, State, or territorial authority, on the route prescribed in the first section of this act; but no such consolidation shall be with any competing through line of railroads to the Pacific Ocean.

Section 5. That the said company shall have power and authority to make running arrangements with any railroad company or companies heretofore chartered, or that may hereafter be chartered by congressional, State, or territorial authority; also to purchase lands, or to accept donations, or grant of lands, or other property, from states or individuals, for the purpose of aiding in carrying out the object of this company.

Section 6. That the rights, lands, land grants, franchises, privileges, and appurtenances, and property of every description, belonging to each of the consolidated or purchased railroad company or companies, as herein provided, shall vest in and become absolutely the property of the Texas Pacific Railroad Company: *Provided*, That in all contracts made and entered into by said company with any and all other railroad company or companies, to perfect such aforesaid consolidation or purchase, the indebtedness or other legal obligations of said company or companies shall be assumed by the said Texas Pacific Railroad Company as may be agreed upon, and no such consolidation or purchase shall impair any lien which may exist on any of the railroads so consolidated or purchased; but said company shall not assume the debts or obligations of any company with which it may consolidate or purchase as aforesaid, to an amount greater than the cash value of the assets received from the same.

Section 7. That the said Texas Pacific Railroad Company shall have power to make and enforce rules and by-laws for the election of its officers and the government and management of the business of the company, and to do and perform all needful and proper things to be done and performed to promote the objects of the company hereby incorporated, not inconsistent with the laws of the United States and the provisions of this charter.

Section 8. That the right of way through the public land be, and the same is hereby, granted to the said company for the construction of the said railroad and telegraph line, and the right, power, and authority is hereby given to said company to take from the public lands adjacent to the line of said road, earth, stone, timber, and other materials for the construction thereof. Said right of way is granted to said company to the extent of two hundred feet in width on each side of said railroad where it may pass over the public lands; and there is also hereby granted to said company grounds for stations, buildings, workshops, wharves, switches, side-tracks, turn-tables, water stations, and such other structures as may be necessary for said railroad, not exceeding forty acres of land at any one point.

Section 9. That for the purpose of aiding in the construction of the railroad and telegraph line herein provided for, there is hereby granted to the said Texas Pacific Railroad Company, its successors and assigns, every alternate section of public land, not mineral, designated by odd numbers, to the amount of twenty alternate sections per mile, on each side of said railroad line, as such line may be adopted by said company, through the Territories of the United States, and ten alternate sections of land per mile on each side of said railroad in California, where the same shall not have been sold, reserved, or otherwise disposed of by the United States, and to which a pre-emption or homestead claim may not have attached at the time the line of said road is definitely fixed. In case any of said lands shall have been sold, reserved, occupied, or pre-empted, or otherwise disposed of, other lands shall be selected in lieu thereof by said company, under the direction of the Secretary of the Interior, in alternate sections, and designated by odd numbers, not more than ten miles beyond the limits of said alternate sections first above named, and not including the reserved numbers. If, in the too near approach of the said railroad line to the boundary of Mexico, the number of sections of land to which the company is entitled cannot be selected immediately on the line of said railroad, or in lieu of mineral lands excluded from this grant, a like quantity of unoccupied and unappropriated agricultural lands, in odd-numbered sections nearest the line of said railroad, may be selected as above provided; and the word "mineral," where it occurs in this act, shall not be held to include iron or coal: *provided, however*, That no public lands are hereby granted within the State of California further than twenty miles on each side of said road, except to make up deficiencies as aforesaid, and then not to exceed twenty miles from the lands originally granted. The term "ship's channel," as used in this bill, shall not be construed as conveying any greater right to said company to the water-front of San Diego bay than it may acquire by gift, grant, purchase, or otherwise, except the right of way, as herein granted: *And provided further*, That all such lands so granted by this section to said company, which shall not be sold, or otherwise disposed of as provided in this act, within three years after the completion of the entire road, shall be subject to settlement and pre-emption like other lands, at a price to be fixed by and paid to said company, not exceeding an average of two dollars and fifty cents per acre for all the lands herein granted.

Section 10. That when the route of said railroad and telegraph line shall pass through the lands of private persons, or where it may be necessary for said railroad company to take any lands belonging to private persons for any of the purposes herein mentioned necessary to said road, such right of way through or title to such lands shall be secured in accordance with the laws of the State or Territory in which they may be situated.

Section 11. That the Texas Pacific Railroad Company shall have power and authority to issue two kinds of bonds, secured by mortgage,

namely: First, construction bonds; second, land bonds. Construction bonds shall be secured by mortgage, first, on all or any portion of the franchises, road-bed, or track of said railroad, and all the appurtenances thereto belonging, when constructed or in the course of construction, from a point at or near Marshall, to ship's channel, in the bay of San Diego, in the State of California, as aforesaid. Land bonds shall be secured by mortgage, first, on all or any portion of the lands hereby granted in aid of the construction of said railroad as is provided for in this act; second, on lands acquired by any arrangement or purchase or terms of consolidation with any railroad company or companies to whom grants of lands may have been made, or may hereafter be made, by any congressional, State, or territorial authority, or who may have purchased the same previous to any such arrangement or consolidation: *Provided*, That all the mortgages made and executed by said railroad company shall be filed and recorded in the Department of the Interior, which shall be a sufficient evidence of their legal execution, and shall confer all the rights and property of said company as therein expressed: *And provided also*, That the proceeds of the sales of the aforesaid construction and land bonds shall be applied only in the construction, operation, and equipment of the contemplated railroad line: *And provided further*, That said mortgage shall in no wise impair or effect any lien existing on the property of said company or companies at or before the time of such consolidation.

Section 12. That whenever the said company shall complete the first and each succeeding section of twenty consecutive miles of said railroad and put it in running order as a first-class road in all its appointments, it shall be the duty of the Secretary of the Interior to cause patents to be issued conveying to said company the number of sections of land opposite to and coterminous with said completed road to which it shall be entitled for each section so completed. Said company, within two years after the passage of this act, shall designate the general route of its said road, as near as may be, and shall file a map of the same in the Department of the Interior; and when the map is so filed, the Secretary of the Interior, immediately thereafter, shall cause the lands within forty miles on each side of said designated route within the Territories, and twenty miles within the state of California, to be withdrawn from pre-emption, private entry, and sale: *Provided, however*, That the provisions of the act of September, eighteen hundred and forty-one, granting pre-emption rights, and the acts amendatory thereof, and of the act entitled "An act to secure homesteads to actual settlers on the public domain," approved May twenty, eighteen hundred and sixty-two, and the amendments thereto, shall be, and the same are hereby, extended to all other lands of the United States on the line of said road when surveyed, except those hereby granted to said company.

Section 13. That the president of the company shall annually, by the first day of July, make a report and file it with the Secretary of the Interior, which report shall be under oath, exhibiting the financial situation of the company, the amount of money received and expended, and the number of miles of road constructed each year; and further, the names and residences of the stockholders, of the directors, and of all other officers of the company, the amount of stock subscribed, and the amount thereof actually paid in, a description of the lines of road surveyed and fixed upon for construction, the amount received from passengers and for freight, respectively, on the road, a statement of the expenses of said road and its fixtures, and a true statement of the indebtedness of said company and the various kinds thereof.

Section 14. That the certificates of the capital stock must be signed by the president and secretary, and attested by the seal of the company, and shall contain an extract from the proceedings of the board of directors fixing the amount thereof, as well as from this act, authorizing such issue. All the bonds and mortgages issued by said company must be signed by the president and secretary, and attested by seal of aid co mpany, and shall contain an extract from the law authorizing them to be issued. The face value of said bonds shall be one thousand dollars in gold, and shall be redeemable at such times, and to bear such rate of interest, payable semi-annually in gold, as may be determined by the directors. The total value of the construction bonds to be issued shall not exceed thirty thousand dollars per mile of said railroad, and the total face value of the land bonds shall not exceed two dollars and fifty cents per acre for all lands mortgaged; the total amount of each to be determined by the board of directors.

Section 15. That all railroads constructed, or that may be hereafter constructed, to intersect said Texas Pacific Railroad, shall have a right to connect with that line; that no discrimination as regards charges for freight or passengers, or in any other matter, shall be made by said Texas Pacific Railroad Company against any of the said connecting roads; but that the same charges per mile as to passengers, and per ton per mile as to freight, passing from the said Texas Pacific Railroad over any of said connecting roads over any part of said Texas Pacific railroad, shall be made by said company as they make for freight and passengers over their own road: *Provided also*, That said connecting roads shall reciprocate said right of connection and equality of charges with said Texas Pacific railroad: *And provided further*, That the rates charged for carrying passengers and freight, per mile, shall not exceed the prices which may be fixed by Congress for carrying passengers and freight on the Union Pacific and Central Pacific railroads.

Section 16. That said railroad shall be constructed of iron or steel rails manufactured from America ore, except such as may have heretofore been contrcated for by any railroad company which may be purchased or consolidated with by the company hereby incorporated, as provided by this act.

Section 17. That the said Texas Pacific Railroad Company shall commence the construction of its road simultaneously at San Diego, in the State of California, and from a point at or near Marshall, Texas, as hereinbefore described and so prosecute the same as to have at least fifty consecutive miles of railroad from each of said points complete and in running order within two years after the passage of this act; and to so continue to construct each year thereafter a sufficient number of miles to secure the completion of the whole line from the aforesaid point on the eastern boundary of the State of Texas to the bay of San Diego, in the State of California, as aforesaid, within ten years after the passage of this act; and upon failure to so complete it, Congress may adopt such measures as it may deem necessary and proper to secure its speedy completion.

Section 18. That the President of the United States, upon the completion of the first section of twenty miles, shall appoint one commissioner, whose duty it shall be to examine the various sections of twenty miles as they shall be completed, and report thereon to him in writing; and if, from such report, he be satisfied that said company has fully completed each section of its road, as in this act provided, he shall direct the Secretary of the Interior to issue patents to said company for the lands it is entitled to under this act, as fast as each section of said road is completed.

Section 19. That the Texas Pacific Railroad Company shall be, and it is hereby, declared to be a military and post road; and for the purpose of insuring the carrying the mails, troops, munitions of war, supplies, and stores of the United States, no act of the company nor any law of any State or Territory shall impede, delay or prevent the said company from performing its obligations to the United States in that regard: *Provided*, That said road shall be subject to the use of the United States for postal, military, and all other governmental services, at fair and reasonable rates of compensation, not to exceed the price paid by private parties for the same kind of service, and government shall at all times have the preference in the use of the same for the purpose aforesaid.

Section 20. That it shall not be lawful for any of the directors, either in their individual capacity or as members of an incorporated or joint stock company, to make any contracts or agreements with the said Texas Pacific Railroad Company for the construction, equipment or running of its road, or to have any interest therein; and all such contracts or agreements are hereby declared null and void, and all money or property received under such contracts or agreements may be recovered back for the benefit of the company by any stockholder.

Section 21. That any railroad company whose route lies across the route of the Texas Pacific railroad may cross the same, and for the purpose of crossing shall have the right to acquire at the double minimum price all lands, whether of the United States or granted by this act, which shall be needed for a right of way two hundred feet wide through said lands, and for depots, stations, side tracks and other needful purposes, not exceeding for such purposes forty acres at any one station.

Section 22. That the New Orleans, Baton Rouge and Vicksburg Railroad Company, chartered by the State of Louisiana, shall have the right to connect by the most eligible route to be selected by said company with the said Texas Pacific railroad at its eastern terminus, and shall have the right of way through the public land to the same extent granted hereby to the said Texas Pacific Railroad Company; and in aid of its construction from New Orleans to Baton Rouge, thence by the way of Alexandria, in said State, to connect with the said Texas Pacific Railroad Company at its eastern terminus there is hereby granted to said company, its successors and assigns, the same number of alternate sections of public lands per mile in the State of Louisiana as are by this act granted in the State of California to said Texas Pacific Railroad Company; and said lands shall be withdrawn from market, selected and patents issued therefor, and opened for settlement and pre-emption, upon the same terms and in the same manner and time as is provided for and required from said Texas Pacific Railroad Company within said State of California: *Provided*, That said company shall complete the whole of said road within five years from the passage of this act.

Section 23. That, for the purpose of connecting the Texas Pacific railroad with the city of San Francisco, the Southern Pacific Railroad Company of California is hereby authorized, (subject to the laws of California,) to construct a line of railroad from a point at or near Tehachapa Pass, by way of Los Angeles, to the Texas Pacific railroad at or near the Colorado river, with the same rights, grants, and privileges, and subject to the same limitations, restrictions, and conditions as were granted to said Southern Pacific Railroad Company of California, by the act of July twenty-seven, eighteen hundred and sixty-six: *Provided, however*, That this section shall in no way affect or impair the rights, present or prospective, of the Atlantic and Pacific Railroad Company or any other railroad company.

Approved March 3, 1871.
